tech 06 | Introduction

The Management and Direction of Dental Clinics has aroused growing interest in recent years, especially among professionals who have realized the importance of knowing how to properly manage all the resources they have in their dental clinic, in order to turn it into a business of the future, with a continuity that can only be ensured by applying the appropriate levers of business management.

In this new environment, the focus on the dental clinic as an organizational structure is particularly strong, and all areas of the field of management and leadership must be addressed and mastered: human resources, marketing, quality, time management, planning and strategy, accounting and costs, etc.

This Postgraduate Diploma in Strategy and Creation of a Dental Clinic Business Model contains the most complete and up-to-date scientific program on the market. The most important features of the program include:

- Development of case studies presented by experts in the different specialties related to the Management and Direction of Dental Clinics.
- Its graphic, schematic and eminently practical contents, with which they are conceived, gather scientific and rigorous information on those disciplines that are indispensable for professional practice.
- New developments on Strategy and Creation of a Dental Clinic Business Model.
- Interactive learning system based on algorithms for decision making on problem situations.
- Content that is accessible from any fixed or portable device with an Internet connection.

Introduction | 07 tech

This Postgraduate Diploma may be the best investment you can make in the selection of a refresher program for two reasons: in addition to updating your knowledge in Strategy and Creation of a Dental Clinic Business Model, you will obtain a certificate from TECH - Technological University"

The teaching staff includes professionals from the field of dental clinic management and direction, who bring their experience to this specialization program, as well as renowned specialists from leading companies, both in this and related sectors.

The multimedia content developed with the latest educational technology will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide an immersive training program to train in real situations.

This program is designed around Problem Based Learning, whereby the physician must try to solve the different professional practice situations that arise during the course. This will be done with the help of an innovative interactive video system created by renowned experts in the field of Strategy and Creation of Business Models with extensive teaching experience.

The Postgraduate Diploma allows training in simulated environments, which provide immersive learning programmed to train for real situations.

We offer you the opportunity to take control of your future and develop your full potential at the head of dental centers and clinics.

tech 10 | Objectives

General Objectives

- Use theoretical, methodological and analytical tools to optimally manage and direct their own clinical-dental businesses, effectively differentiating themselves in a highly competitive environment.
- Incorporate strategy and vision skills to facilitate the identification of new business opportunities.
- Promote the acquisition of personal and professional skills that will encourage students
 to undertake their own business projects with greater confidence and determination, both
 in the case of initiating the creation of their clinical-dental business, as well as in the case
 of innovating in the management and direction model of the clinical-dental business they
 already have.
- Professionalize the clinical-dental sector, through continuous and specific specialization in the field of business management and direction.

Specific Objectives

- Describe the current situation and future trends of management and direction models of clinical-dental business both nationally and internationally to be able to define objectives and prevailing successful strategies.
- Become familiar with the terminology and concepts specific to the field of management and business management for their effective application in clinical-dental businesses.
- Discover and analyze the key points of successful business models of leading dental clinics in order to increase the motivation, inspiration and strategic mindset of future managers.
- Design work procedures focused on a productivity and quality model for the dental clinic, based on the philosophy of continuous improvement.
- Describe the language, concepts, tools and logic of marketing as a key business activity for the growth and positioning of the clinical-dental business.
- Delve into the digital communication tools that are essential to master in this era 2.0, in order to reach through the most appropriate channels the value proposition of the denta clinic to the target patients.
- Design targeted marketing and communication campaigns, being able to measure their impact through easy-to-interpret metrics.

Make the most of this opportunity and take the step to get up to date on the latest developments in Strategy and Creation of a Dental Clinic Business Model"

tech 18 | Structure and Content

Module 1. Pillars of Dental Clinic Management

- 1.1. Introduction to Dental Clinic Management
 - 1.1.1. The Concept of Management
 - 1.1.2. The Purpose of Management
- 1.2. The Corporate Vision of the Dental Clinic
 - 1.2.1. Definition of a Company: Approach to the Dental Practice as a Service Company
 - 1.2.2. Company Elements Applied to Dental Clinics
- 1.3. The Figure of the Manager
 - 1.3.1. Description of the Managerial Position in Dental Clinics
 - 1.3.2. Duties of the Manager
- 1.4. Types of Company Organization
 - 1.4.1. The Owner
 - 1.4.2. The Legal Person as the Owner of a Dental Clinic
- 1.5. Knowing the Clinical-Dental Sector
- 1.6. Terminology and Key Concepts in Business Management and Administration
- 1.7. Current Models of Success of Dental Clinics

Module 2. Designing Your Dental Clinic

Analysis of the Clinical-Dental Market.

- 2.1. Introduction and Objectives.
- 2.2. Current Situation of the Clinical-Dental Sector.
 - 2.2.1. National Scope
 - 2.2.2. International Scope
- 2.3. Evolution of the Clinical-Dental Sector and its Trends.
 - 2.3.1. National Scope
 - 2.3.2. International Scope

- 2.4. Competitive Analysis
 - 2.4.1. Price Analysis
 - 2.4.2. Differentiation Analysis
- 2.5. SWOT Analysis

Designing and Validaing Your Business Model

- 2.6. How to Design the Canvas Model of Your Dental Clinic
 - 2.6.1. Customer Segments
 - 2.6.2. Requirements
 - 2.6.3. Solutions
 - 2.6.4. Channels
 - 2.6.5. Value Proposition
 - 2.6.6. Income Structure
 - 2.6.7. Cost structure
 - 2.6.8. Competitive advantages.
 - 2.6.9. Key Metrics
- 2.7. Method to Validate Your Business Model: Lean Startup Cycle
 - 2.7.1. Case 1: Validating Your Model at the Creation Stage
 - 2.7.2. Case 2: Application of the Method to Innovate With Your Current Model
- 2.8. The Importance of Validating and Improving the Business Model of Your Dental Practice

What Differential Value Does Our Dental Clinic Offer?

- 2.9. How to Define the Value Proposition of Our Dental Clinic
- 2.10. Mission, Vision, and Values
 - 2.10.1. Mission
 - 2.10.2. Vision
 - 2.10.3. Values
- 2.11. Defining the Target Patient

Structure and Content | 19 tech

Key Decisions for the Success of Your Dental Clinic

- 2.12. Optimal Location of My Clinic
 - 2.12.1. Plant Layout
- 2.13. Optimal Staff Sizing
- 2.14. Importance of a Recruitment Model in Line With the Defined Strategy
- 2.15. Keys for Defining the Price Policy
- 2.16. External VS Internal Financing
- 2.17. Strategy Analysis of a Dental Practice Success Story

Module 3. Introduction to Marketing

Marketing as a Differentiating Element in Business Management

- 3.1. Main Principles of Marketing
 - 3.1.1. Basic Variables of Marketing
 - 3.1.2. The Evolution of the Concept of Marketing
 - 3.1.3. Marketing as an Exchange System
- 3.2. New Trends in Marketing
 - 3.2.1. Evolution and Future of Marketing
- 3.3. Emotional Intelligence Applied to Marketing
 - 3.3.1. What is Emotional Intelligence?
 - 3.3.2. How to Apply Emotional Intelligence in Your Marketing Strategy
- 3.4. Social Marketing and Corporate Social Liability

tech 20 | Structure and Content

Ways of Marketing in Dental Clinics

- 3.5. Internal Marketing.
 - 3.5.1. Traditional Marketing (Marketing Mix)
 - 3.5.2. Referral Marketing
 - 3.5.3. Content Marketing
- 3.6. External Marketing
 - 3.6.1. Operational Marketing
 - 3.6.2. Strategic Marketing
 - 3.6.3. Inbound Marketing
 - 3.6.4. E-mail Marketing
 - 3.6.5. Influencer Marketing
- 3.7. Internal VS External Marketing
- 3.8. Patient Loyalty Techniques
 - 3.8.1. The Importance of Patient Loyalty
 - 3.8.2. Digital Tools Applied to Patient Loyalty

A unique, key and decisive master's degree experience to boost your professional development"

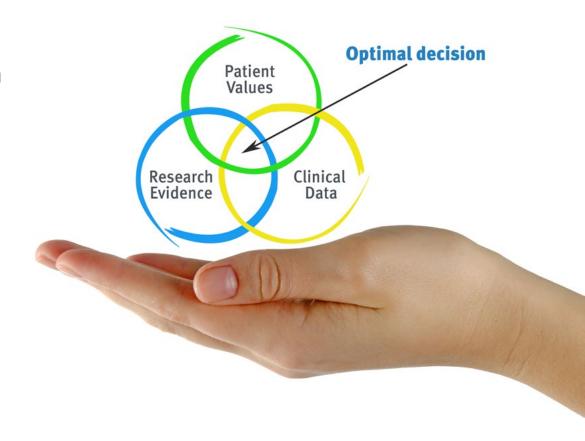

tech 24 | Methodology

At TECH we use the Case Method

In a given clinical situation, what would you do? Throughout the program you will be presented with multiple simulated clinical cases based on real patients, where you will have to investigate, establish hypotheses and, finally, resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method. Dentists learn better, faster, and more sustainably over time.

With TECH you can experience a way of learning that is shaking the foundations of traditional universities around the world.

According to Dr. Gérvas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching potential or because of its uniqueness or rarity. It is essential that the case is based on current professional life, trying to recreate the real conditions in the dentist's professional practice.

Did you know that this method was developed in 1912 at Harvard for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method"

The effectiveness of the method is justified by four fundamental achievements:

- 1. Students who follow this method not only grasp concepts, but also develop their mental capacity by means of exercises to evaluate real situations and apply their knowledge.
- 2. The learning process has a clear focus on practical skills that allow the student to better integrate into the real world.
- 3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
- 4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Re-learning Methodology

At TECH we enhance the Harvard case method with the best 100% online teaching methodology available: Re-learning.

Our University is the first in the world to combine the study of clinical cases with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which represent a real revolution with respect to simply studying and analyzing cases.

The student will learn through real cases and by solving complex situations in simulated learning environments.

These simulations are developed using state-of-the-art software to facilitate immersive learning.

Methodology | 27 tech

At the forefront of world teaching, the Re-learning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best Spanish-speaking online university (Columbia University).

With this methodology we have trained more than 115,000 students with unprecedented success, in all clinical specialties regardless of the surgical load. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Re-learning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (we learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

In this program you will have access to the best educational material, prepared with you in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is really specific and precise.

This content is then adapted in an audiovisual format that will create our way of working online, with the latest techniques that allow us to offer you high quality in all of the material that we provide you with.

Surgical Techniques and Procedures on Video

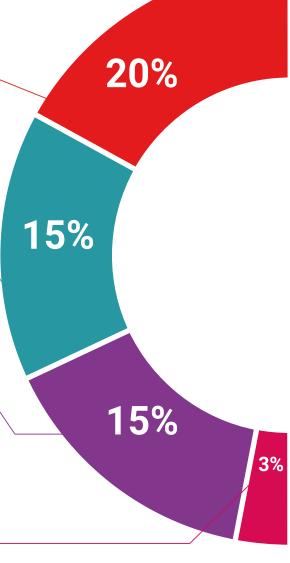

We introduce you to the latest techniques, to the latest educational advances, to the forefront of current dental techniques. All this, in first person, with the maximum rigor, explained and detailed for your assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

We present the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

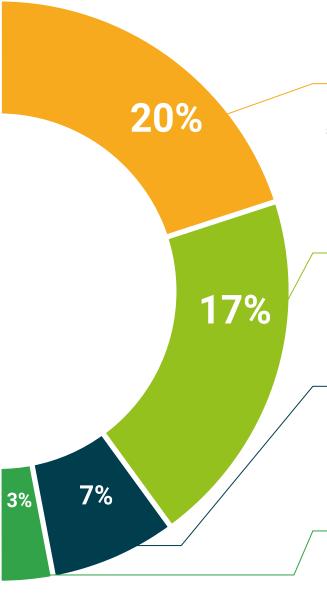

This multimedia content presentation training system was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents, international guides. in our virtual library you will have access to everything you need to complete your training.

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, we will present you with real case developments in which the expert will guide you through focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Re-Testing

We periodically evaluate and re-evaluate your knowledge throughout the program, through assessment and self-assessment activities and exercises: so that you can see how you are achieving your goals.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Quick Action Guides

We offer you the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help you progress in your learning.

tech 32 | Certificate

This Postgraduate Diploma in Strategy and Creation of a Dental Clinic Business Model contains the most complete and up-to-date scientific program on the market.

After the student has passed the evaluations, they will receive their corresponding certificate issued **TECH Technological University** via tracked delivery.

The certificate issued by **TECH Technological University** will express the qualification obtained in the Postgraduate Diploma, and meets the requirements commonly demanded by labor exchanges, competitive examinations and professional career evaluation committees.
