Introduction

Inspiration for fashion designers can come from anywhere: an image, a song, a mood, and so on. However, there are many who find the inspiration they need to create their best garments in works of art. Therefore, for decades art has had a close relationship with fashion, as well as serving as a showcase for the clothing of bygone eras. In order to offer students a higher qualification in Contemporary Art History, TECH has designed this comprehensive program that includes relevant information on an important field of current interest.

“

Art has a great relationship with fashion, as many designers look to the beauty of art to inspire their work”

Art and fashion are part of the culture of a place. These are two closely related areas that complement and relate to each other. Therefore, its study is essential for people who wish to develop professionally in this field. Knowing the different styles is essential to understand their characteristics and, therefore, TECH has designed this specific program on Contemporary Art History, which aims to improve professional skills in fashion design so that they acquire the knowledge that will allow them to be more innovative in their daily work.

Undoubtedly, this is a high-level program that includes the most relevant information on contemporary art for designers, and has been created with the specialization needs of 21st century professionals in mind. In this way, you will obtain, in a single program, the most interesting and innovative agenda of the current panorama, a unique opportunity that you can't miss.

In short, TECH aims to meet the high specialization objective demanded by fashion designers, who are looking for high quality programs to improve their skills and offer users garments that will become indispensable for their closet. And, to achieve this goal, it offers students a cutting-edge program adapted to the latest developments in the industry, with an absolutely current curriculum developed by experienced professionals willing to put all their knowledge at the disposal of their students. It should be noted that since it is a 100% online program, students are not conditioned by fixed schedules or the need to move to another physical location, but can access the contents at any time of the day, balancing their professional and personal life with their academic life.

This **Postgraduate Certificate in Contemporary Art History** contains the most complete and up-to-date program on the market. The most important features include:

- ◆ Practical cases presented by experts in fashion
- ◆ The graphic, schematic, and practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice
- ◆ Practical exercises where self-assessment can be used to improve learning
- ◆ Its special emphasis on the study of art history
- ◆ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ◆ Content that is accessible from any fixed or portable device with an Internet connection

The study of Contemporary Art History is an added value for fashion professionals. So don't miss the opportunity to expand your knowledge in TECH"

“A 100% online program so you can study at any time and from anywhere in the world”

TECH provides you with the latest educational technology in the current academic panorama.

Once enrolled in this Postgraduate Certificate, you will have direct access to all the resources it offers.

The program's teaching staff includes professionals from the fashion industry, who contribute with their work experience, as well as renowned specialists from leading companies and prestigious universities.

Its multimedia content, developed with the latest educational technology, will allow professionals to learn in a contextual and situated learning environment, i.e., a simulated environment that will provide immersive specialization for real situations.

The design of this program focuses on Problem-Based Learning, by means of which professionals must try to solve the different professional practice situations that arise during the academic year. For this purpose, the student will be assisted by an innovative interactive video system created by renowned and experienced experts.

02 Objectives

This Postgraduate Certificate in Contemporary Art History is aimed at facilitating professionals' performance to acquire and learn the main developments in this field, which will allow them to practice their daily work with the highest quality and professionalism. This way, they will be better prepared to develop successfully in a booming sector, in which new concepts and trends are constantly emerging and must be recognized and applied by professionals.

“

TECH will help you meet your academic goals thanks to this state-of-the-art program”

General Objectives

- ◆ Obtain a detailed knowledge of the history of fashion, which will be relevant to the work of professionals who wish to develop in this sector today
- ◆ Know the link between the history of art and fashion

“

Specialize in Contemporary Art History and learn about its connection with fashion”

Specific Objectives

- ◆ Develop the methodology of Contemporary Art History in terms of classification and analysis
- ◆ Know the specific terminology of Contemporary Art History and use it appropriately
- ◆ Analyze and understand the historical significance of contemporary art and its impact on society
- ◆ Manage resources and sources
- ◆ Understanding of art history as a source of inspiration, creativity and quality in design productions

03

Structure and Content

The content of this Postgraduate Certificate covers, in a structured way, all the areas of knowledge that fashion professionals need to know in-depth, including the most interesting news and latest advances in the sector. A high-quality program that will allow students to compete with solvency and sufficient capacity in a highly competitive industry. To this end, the syllabus has been designed by professionals with extensive experience, who have captured all their expertise in a program that will be indispensable in the curriculum of professionals of the 21st century.

“Take a quality tour through Contemporary Art History and delve into the study of the most outstanding works”

Module 1. Contemporary Art History

- 1.1. Fauvism
 - 1.1.1. Origin and Influences
 - 1.1.2. Features
 - 1.1.3. Road Works
 - 1.1.4. Main Representatives
- 1.2. Expressionism
 - 1.2.1. Origin and Influences
 - 1.2.2. Features
 - 1.2.3. Road Works
 - 1.2.4. Main Representatives
- 1.3. Futurism
 - 1.3.1. Origin and Influences
 - 1.3.2. Features
 - 1.3.3. Road Works
 - 1.3.4. Main Representatives
- 1.4. Abstract Art
 - 1.4.1. Origin and Influences
 - 1.4.2. Features
 - 1.4.3. Road Works
 - 1.4.4. Main Representatives
- 1.5. Constructivism
 - 1.5.1. Origin and Influences
 - 1.5.2. Features
 - 1.5.3. Road Works
 - 1.5.4. Main Representatives
- 1.6. Dadaism
 - 1.6.1. Origin and Influences
 - 1.6.2. Features
 - 1.6.3. Road Works
 - 1.6.4. Main Representatives

- 1.7. Surrealism
 - 1.7.1. Origin and Influences
 - 1.7.2. Features
 - 1.7.3. Road Works
 - 1.7.4. Main Representatives
- 1.8. Early Post-Conceptual Art Trends
 - 1.8.1. Informalism
 - 1.8.2. New Figuration
 - 1.8.3. Kinetic Art
 - 1.8.4. Pop Art
 - 1.8.5. New Realism
 - 1.8.6. Action Art
- 1.9. Second Post-Conceptual Art Trends
 - 1.9.1. Minimalism
 - 1.9.2. Hyperrealism
 - 1.9.3. Conceptual Art
 - 1.9.4. Postmodernity
 - 1.9.5. Street Art
 - 1.9.6. Land Art
- 1.10. Post-Conceptual Art Today
 - 1.10.1. Pop Art
 - 1.10.2. Object Art
 - 1.10.3. Body Art
 - 1.10.4. Performance
 - 1.10.5. Facilities

A high-level educational experience that will be essential to improve the skills of professionals in the sector”

04

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

“*Our program prepares you to face new challenges in uncertain environments and achieve success in your career”*

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

The case method is the most widely used learning system in the best faculties in the world. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific competencies and skills in each thematic area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

05

Certificate

The Postgraduate Certificate in Contemporary Art History guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

This **Postgraduate Certificate in Contemporary Art History** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Certificate in Contemporary Art History**

Official N° of Hours: **150 h.**

*Apostille Convention. In the event that the student wishes to have their paper certificate issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
