01 Welcome

Nowadays, no company can avoid digitalization any longer. This process, which consists of transforming analog processes and physical objects into digital ones, allows companies to increase their competitiveness and, therefore, get on the road to success. This current context is what has motivated TECH to design this program in which the student will be able to lay the foundations that govern the digitization process, also providing a novel approach that enhances the creative industries and drives them towards the fulfillment of their objectives.

Postgraduate Certificate in Digital Transformation and Innovation in Creative Industries.
TECH Technological University

Become an agent of change towards digital transformation in a sector that is increasingly looking for specialized professionals"

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class centre for intensive managerial skills training.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that combines the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"Microsoft Europe Success Story", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high..

95% of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

100,000+ executives trained each year
200+ different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

500+ collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case studies in the academic community"

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (a postgraduate learning methodology with the highest international rating) with the Case Study. A complex balance between tradition and state-of-the-art, within the context of the most demanding academic itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a ground-breaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you training of the highest academic level"

This program will provide students with a multitude of professional and personal advantages, particularly the following:

01

A significant career boost

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of participants achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of companies

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional areas.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

Take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different areas in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

Be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified professors from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to train with a team of world renowned teachers.

04 Objectives

TECH has designed this Postgraduate Certificate program in Digital Transformation and Innovation in Creative Industries with the fundamental objective of helping students to acquire skills, tools and knowledge that will enable them to work in companies of this type, promoting the process of digital transformation. For this purpose, a complete syllabus has been prepared that will provide a 360° tour of all the singularities of the profession, taught by an excellent teaching staff.

“

If your goal is to grow and establish yourself in a booming industry, this program is for you"

Your goals are our goals.

We work together to help you achieve them

Postgraduate Certificate in Digital Transformation and Innovation in Creative Industries will equip students to:

01

Acquire and understand knowledge useful for the training of students, providing them with skills for the development and application of original ideas in their personal and professional work

04

Integrate one's own knowledge with that of others, making informed judgments and reasoning on the basis of the information available in each case

05

Know how to manage the process of creation and implementation of novel ideas on a given topic

06

Acquire specific knowledge for the management of companies and organizations in the new context of the creative industries

02

Understand how creativity and innovation have become the drivers of the economy

07

Progressively and constantly update in autonomous training environments

03

Problem solving novel environments and in interdisciplinary contexts in the field of creativity management

08

Possess tools to analyze the economic, social and cultural realities in which the creative industries are developing and transforming today

09

Help students acquire the necessary skills to develop and evolve their professional profile in both business and entrepreneurial environments

10

Gain knowledge to manage companies and organizations in the new context of creative industries

11

Organize and plan tasks with the use of available resources in order to face them in precise time frames

12

Use new information and communication technologies such as tools for training and the exchange of experiences in the field of study

13

Develop communication skills, both written and oral, as well as the ability to make effective professional presentations in daily practice

14

Acquire market research skills, strategic vision, digital and co-creation methodologies

05

Structure and Content

TECH, in its quest to offer students the most complete and up-to-date academic program on the market, has designed a comprehensive collection of content that focuses on providing professionals with the latest and most effective knowledge in digitization and innovation in the creative industries. All of which have been designed in multimedia format and with a practical theoretical approach that allows the professional to train from simulated environments and situations that may occur in their daily practice.

“

You will have a complete syllabus at your disposal that will allow you to learn in a deep way and adapted to your reality”

Syllabus

This syllabus and the contents of this program have been created with the objective of carrying out an in-depth and effective review of all the fundamental and necessary aspects when managing innovation and the digitalization process in companies in the creative sector. For this purpose, a series of topics with a practical approach have been designed to lead the professional to success in his profession.

In this way, and through this Postgraduate Certificate, the student masters all the necessary topics to effectively manage the transition from analog to digital within companies in the creative sector. Aspects as important as the methods to promote digital skills or the application of Big Data in the industries in this area will be studied.

On the other hand, the program does not focus solely on arts management, but aims to provide the tools to analyze the economic, social and cultural realities in which the creative industries develop and transform today.

All of this, condensed into an academic program divided into ten academic units taught over 6 weeks, is intended to represent a turning point in the student's professional career. This way, and after completing the Postgraduate Certificate, the student will be able to start working in companies in the creative industry with a higher success rate.

This Postgraduate Certificate program is spread out over 6 weeks and is divided into 1 module:

Module 1

Digital Transformation in the Creative Industry

Where, When and How is it Taught?

TECH offers the possibility of developing this Postgraduate Certificate in Digital Transformation and Innovation in Creative Industries completely online. Over the course of 6 weeks, you will be able to access all the contents of this program at any time, allowing you to self-manage your study time.

A unique, key, and decisive educational experience to boost your professional development and make the definitive leap.

Module 1. Digital Transformation in the Creative Industry

1.1. Digital Future of the Creative Industry

- 1.1.1. Digital Transformation
- 1.1.2. Situation of the Sector and its Comparison
- 1.1.3. Future Challenges

1.2. Forth Industrial Revolution

- 1.2.1. Industrial Revolution
- 1.2.2. Application
- 1.2.3. Impacts

1.3. Digital Enablers for Growth

- 1.3.1. Operational Effectiveness, Acceleration and Improvement
- 1.3.2. Continuous Digital Transformation
- 1.3.3. Solutions and Services for the Creative Industries

1.4. The Application of Big Data to the Enterprise

- 1.4.1. Data Value
- 1.4.2. Data in Decision-Making
- 1.4.3. Data Driven Company

1.5. Cognitive Technology

- 1.5.1. AI and Digital Interaction
- 1.5.2. IoT and Robotics
- 1.5.3. Other Digital Training

1.6. Uses and Applications of Blockchain Technology

- 1.6.1. Blockchain.
- 1.6.2. Value for the Creative Industry Sector
- 1.6.3. Transaction Versatility

1.7. Omnichannel and Transmedia Development

- 1.7.1. Impacts in the Sector
- 1.7.2. Challenge Analysis
- 1.7.3. Evolution

1.8. Entrepreneurship Ecosystems

- 1.8.1. The Role of Innovation and Venture Capital
- 1.8.2. The Start-up Ecosystem and the Agents that comprise it
- 1.8.3. How to Maximize the Relationship between the Creative Agent and the Start-up

1.9. New Disruptive Business Models.

- 1.9.1. Marketing-Based (Platforms and Marketplaces)
- 1.9.2. Service-Based (Freemium, Premium or Subscription Models)
- 1.9.3. Community-Based (from Crowdfunding, Social Networking or Blogging)

1.10. Methodologies to Promote a Culture of Innovation in the Creative Industries

- 1.10.1. Blue Ocean Innovation Strategy
- 1.10.2. Lean Start-up Innovation Strategy
- 1.10.3. Agile Innovation Strategy

06

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“ At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

This program prepares you to face business challenges in uncertain environments and achieve business success.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“ You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives..) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise. These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful. Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge. This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story"

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

Our Students' Profiles

The Postgraduate Certificate is aimed at university graduates who have previously completed a degree in the field of Business Administration, Marketing, Design or Communication.

This program uses a multidisciplinary approach as the students have a diverse set of academic profiles and represent multiple nationalities.

The Postgraduate Certificate is also open to professionals who, being university graduates in any field, have two years of work experience in the field of creative business management.

Make your professional profile stand out against your competitors with this Postgraduate Certificate"

Average Age

Between **35** and **45** years old

Years of Experience

Training

Geographical Distribution

Ariadna González Suárez

CEO of a Textile Company

"I recommend anyone who wants to learn how to manage the digitization process to take this TECH program. In my opinion, it is of excellent quality and I personally feel that I have acquired extensive knowledge that I will certainly be able to apply in my day-to-day work"

08

Course Management

The faculty of this academic program is made up of a group of internationally renowned working professionals. In addition, this team has been in charge of designing and generating all the teaching material with which the students who choose to take this Postgraduate Certificate will learn. In this way, students are assured of studying under the guidance of the best professionals in the industry and of receiving the best courseware in multimedia format.

“

We have a teaching team with extensive experience that will help you to specialize in this sector”

International Guest Director

S. Mark Young is an internationally renowned expert who has focused his research career on the Entertainment Industry. His results have received numerous awards, including the 2020 Lifetime Achievement Award in Accounting and Management from the American Accounting Association. He has also been honored three times for his contributions to the academic literature in these fields.

One of the most outstanding milestones of his career was the publication of the study "Narcissism and Celebrities", together with Dr. Drew Pinsky. This text compiled direct data on famous personalities from Cinema or Television. In addition, in the article, which would later become a best-selling book, the expert analyzed the narcissistic behaviors of celluloid stars and how these have become normalized in the modern media. At the same time, he addressed the impact of these on contemporary youth.

Also throughout his professional life, Young has delved into organization and concentration in the film industry. Specifically, he has investigated models for predicting the box-office success of major motion pictures. He has also contributed to activity-based accounting and the design of control systems. In particular, he is recognized for his influence in the implementation of effective management based on Balanced Scorecard.

Likewise, academic work has also shaped his professional life, and he has been elected to lead the George Bozanic and Holman G. Hurt Research Chair in Sports and Entertainment Business. He has also lectured and participated in study programs related to Accounting, Journalism and Communications. At the same time, his undergraduate and graduate studies have linked him to prestigious American universities such as Pittsburgh and Ohio.

Dr. Young, S. Mark

- Director of the George Bozanic and Holman G. Hurt Chair in Sports and Entertainment Business
- Official Historian of the University of Southern California Men's Tennis Team
- Academic researcher specializing in the development of predictive models for the motion picture industry
- Co-author of book "Narcissism and Celebrities"
- Ph.D. in Accounting Science from the University of Pittsburgh
- M.S. in Accounting from The Ohio State University
- B.S. in Economics from Oberlin College
- Member of the Center for Excellence in Teaching

“

Thanks to TECH, you will be able to learn with the best professionals in the world”

Management

Dr. Velar, Marga

- Corporate Marketing Manager in SGN Group (Nueva York)
- Forefashion Lab Address
- Degree in Audiovisual Communication with a diploma in Fashion Communication and Management from Centro Universitario Villanueva, Universidad Complutense, Madrid
- PhD in Communication from Universidad Carlos III de Madrid
- MBA in Fashion Business Management by ISEM Fashion Business School
- Professor at Centro Universitario Villanueva, at ISEM Fashion Business School and at the School of Communication of the University of Navarra

09

Impact on Your Career

TECH is fully aware that taking a program of this magnitude is a great economic, professional and, of course, personal investment.

Therefore, the student's ultimate goal in carrying out this great effort should be to achieve professional growth.

“

The positive impact this program will have on your career will help you reach the top of your game. Are you ready?

In a competitive world of work, specialization is the professional's best asset when it comes to making their profile stand out from others.

**Are you ready to take the leap?
Excellent professional development awaits you**

TECH's Postgraduate Certificate in Digital Transformation and Innovation in Creative Industries is an intensive program that prepares you to face challenges and business decisions in the field of managing ideas, projects and jobs. Its main objective is to promote the personal and professional growth of students, developing their creativity and helping them to be able to foster the creativity of others. In this way, TECH motivates the professional to be on the road to success.

If you want to improve, make a positive change at a professional level and network with the best, then this is the place for you.

Get the salary improvements you deserve by taking this complete Postgraduate Certificate with TECH.

When the change occurs

Type of change

Salary increase
