Introduction

According to recent United Nations (UN) data, more than 700 million people live in extreme poverty, while millions of others face food insecurity and lack access to basic services such as education and health care. In response to these realities, international efforts are focused on strengthening local capacity, promoting environmental and economic sustainability, and ensuring equitable access to resources and opportunities. For this reason, TECH has created this curriculum, which will enable the graduate to join an experienced team in International Cooperation for the Development of Peoples, in just 3 weeks, updating with the most recent advances and methods available.

“

This Internship Program will offer you an immersive and enriching experience in the fundamental principles and practices of International Cooperation for the Development of Peoples”

International Cooperation for | 05 tech the Development of Peoples

According to recent data from the United Nations, more than 10% of the world's population lives in extreme poverty, facing challenges such as limited access to basic services, quality education and economic opportunities.

In response to this situation, international efforts are focused on strengthening local capacities, promoting gender equality and building infrastructures that are resilient to climate change.

International cooperation is also adopting innovative approaches, such as digitalization and green technology, to foster inclusive and equitable development. Therefore, TECH has developed a program that incorporates a stay in an institution, recognizing that practical experience is fundamental to improve these skills.

During this 3-week period, the graduate will be integrated into a team of high-caliber specialists, actively collaborating in real projects of International Cooperation for the Development of Peoples. This will allow you to get up to date in socio-economic contexts, as well as in the design and management of Sustainable Development projects, negotiation and international diplomacy, including advanced monitoring and impact assessment techniques.

During this time, a tutor will be available to ensure the achievement of the objectives set in this Internship Program. This will allow the specialist to work with confidence and security, focusing on key issues, such as human rights, gender equality, local governance and institutional strengthening, essential to promote the active participation of local communities in their own development.

02

Why Study an Internship Program?

This program will provide in-depth theoretical knowledge on sustainable development strategies and project management, as well as direct practical experience in the field. As a result, professionals will be immersed in real-world contexts, working with local communities, strengthening institutional capacities and promoting social inclusion. It will also prepare graduates to address urgent global challenges, such as extreme poverty, the climate crisis and inequality, equipping them with the necessary skills to contribute effectively and ethically to the progress and well-being of the world's most vulnerable populations.

Taking an Internship Program in International Cooperation for People's Development will offer an invaluable opportunity for those committed to positive global change”

1. Updating from the latest technology available

Innovations such as the use of geospatial data and Geographic Information Systems (GIS) enable better planning and resource management in complex environments. In addition, digital platforms facilitate remote collaboration between international teams and community participation, promoting an inclusive and transparent approach. Blockchain technology is used to improve traceability and efficiency in the distribution of resources and funds, ensuring more accurate and secure financial management.

2. Gaining in-depth knowledge from the experience of top specialists

The large team of professionals that will accompany the specialist throughout the practical period is a first-class and an unprecedented guarantee of updating. With a specifically designated tutor, the students will be able to see real patients in a state-of-the-art environment, which will allow them to incorporate the most effective procedures and Tools in Infectious Diseases in the People's Development into their daily practice.

3. Entering first-class professional environments

TECH carefully selects all available centers for Internship Programs. As a result, the specialist will have guaranteed access to a prestigious environment in the area of International Cooperation for the Development of Peoples. In this way, they will be able to experience the day-to-day work of a demanding area that is constantly being renewed.

4. Putting the acquired knowledge into daily practice from the very first moment

The academic market is plagued by teaching programs that are poorly adapted to the daily work of the specialist and that require long teaching hours, often not very compatible with personal and professional life. TECH offers a new learning model, 100% practical, that allows you to get to grips with state-of-the-art procedures in the field of International Cooperation for the Development of Peoples and, best of all, to put it into professional practice in just 3 weeks.

5. Opening the door to new opportunities

Opening the door to new opportunities in International People's Development Cooperation involves exploring and adopting innovative and multidisciplinary approaches to address global challenges more effectively and equitably. It also promotes collaboration among diverse actors, from governments and non-governmental organizations to the private sector and academia, to foster strategic alliances that drive sustainable and scalable solutions. It also involves strengthening local leadership and empowering communities to be active agents in their own development.

*You will have full practical immersion
at the center of your choice"*

03 Objectives

Objectives will include understanding the principles of International Cooperation, developing competencies in the design and management of sustainable projects, and promoting gender equality and social inclusion in diverse contexts. In addition, the capacity of professionals will be strengthened to work in collaboration with local communities, implement development strategies that respect human rights and promote environmental sustainability, and contribute to the strengthening of local institutions to ensure a lasting and positive impact on the beneficiary populations.

General Objectives

- ♦ Understand the fundamental principles and values of International Cooperation
- ♦ Acquire knowledge of the challenges and opportunities in the development of vulnerable communities
- ♦ Develop intercultural communication and diplomacy skills
- ♦ Learn strategies to promote sustainability and community resilience
- ♦ Foster ethical commitment and social responsibility in international work
- ♦ Master project management techniques for inclusive and equitable development projects
- ♦ Establish effective collaborative networks with local and international stakeholders
- ♦ Evaluate the impact of development interventions in diversified contexts
- ♦ Promote gender equality and women's empowerment in development programs
- ♦ Apply human rights and social justice principles in the practice of International Cooperation

Specific Objectives

- Conduct needs analysis and participatory diagnostics in local communities
- Elaborate and manage proposals for Community Development projects
- Facilitate workshops and trainings on specific Sustainable Development issues
- Coordinate emergency and humanitarian aid actions in crisis contexts
- Design institutional strengthening strategies for local organizations
- Implement monitoring and evaluation systems to measure the impact of projects
- Negotiate agreements and strategic alliances with governmental and non-governmental institutions
- Develop awareness-raising and development education campaigns
- Support local economic development initiatives and basic infrastructure improvements
- Advocate for the rights of marginalized and vulnerable populations
- Facilitate reconciliation and peace-building processes in conflict-affected communities
- Promote social inclusion and cultural diversity in all interventions
- Establish international cooperation networks to exchange best practices
- Contribute to the development of inclusive and evidence-based public policies for sustainable development

04

Educational Plan

The Internship Program of this program in International Cooperation for the Development of Peoples consists of a practical stay in a prestigious institution, lasting 3 weeks, from Monday to Friday, with 8 consecutive hours of practical training, together with an assistant specialist. In this way, this internship will allow the graduate to work on real projects alongside a team of professionals of reference in the area of International Cooperation, applying the most innovative procedures and tools.

In this totally practical training proposal, the activities are aimed at developing and perfecting the competencies necessary for the provision of International Cooperation services for the Development of Peoples, in areas and conditions with a high level of qualification, and oriented to the specific training for the exercise of the activity. It is, without a doubt, an opportunity to learn by working.

The practical education will be carried out with the active participation of the student performing the activities and procedures of each area of competence (learning to learn and learning to do), with the accompaniment and guidance of teachers and other fellow trainees that facilitate teamwork and multidisciplinary integration as transversal competencies for educational praxis (learning to be and learning to relate).

The procedures described below will be the basis of the practical part of the training, and its realization will be subject to the center's own availability and workload, being the proposed activities the following:

Module	Practical Activity
Management of International Cooperation Projects	Design Sustainable Development projects
	Coordinate the implementation of projects in communities
	Evaluate the impact of interventions
	Manage International Cooperation funds and resources
	Supervise multidisciplinary teams in the field
Research and Analysis	Conduct research on development and cooperation
	Analyze international cooperation policies
	Prepare reports and impact studies
	Identify development needs and opportunities in communities
	Develop project evaluation methodologies
International Relations and Diplomacy	Establish strategic alliances with NGOs and international agencies
	Represent organizations in international forums
	Negotiate cooperation agreements
	Manage relationships with donors and strategic partners
	Promote cooperation between public and private actors

Module	Practical Activity
Training and Education	Design training programs in development and cooperation
	Deliver workshops and community courses
	Train local teams in project management
	Develop educational and awareness-raising materials
	Facilitate participatory learning processes
Resource Management and Sustainability	Plan and manage financial resources for projects
	Implement sustainability strategies in cooperation projects
	Monitor efficient use of resources
	Design environmental mitigation plans
	Promote sustainable practices in beneficiary communities

Supervised by professionals in the field, you will be able to develop practical skills, strengthen your professional network and actively contribute to the development of vulnerable communities and populations"

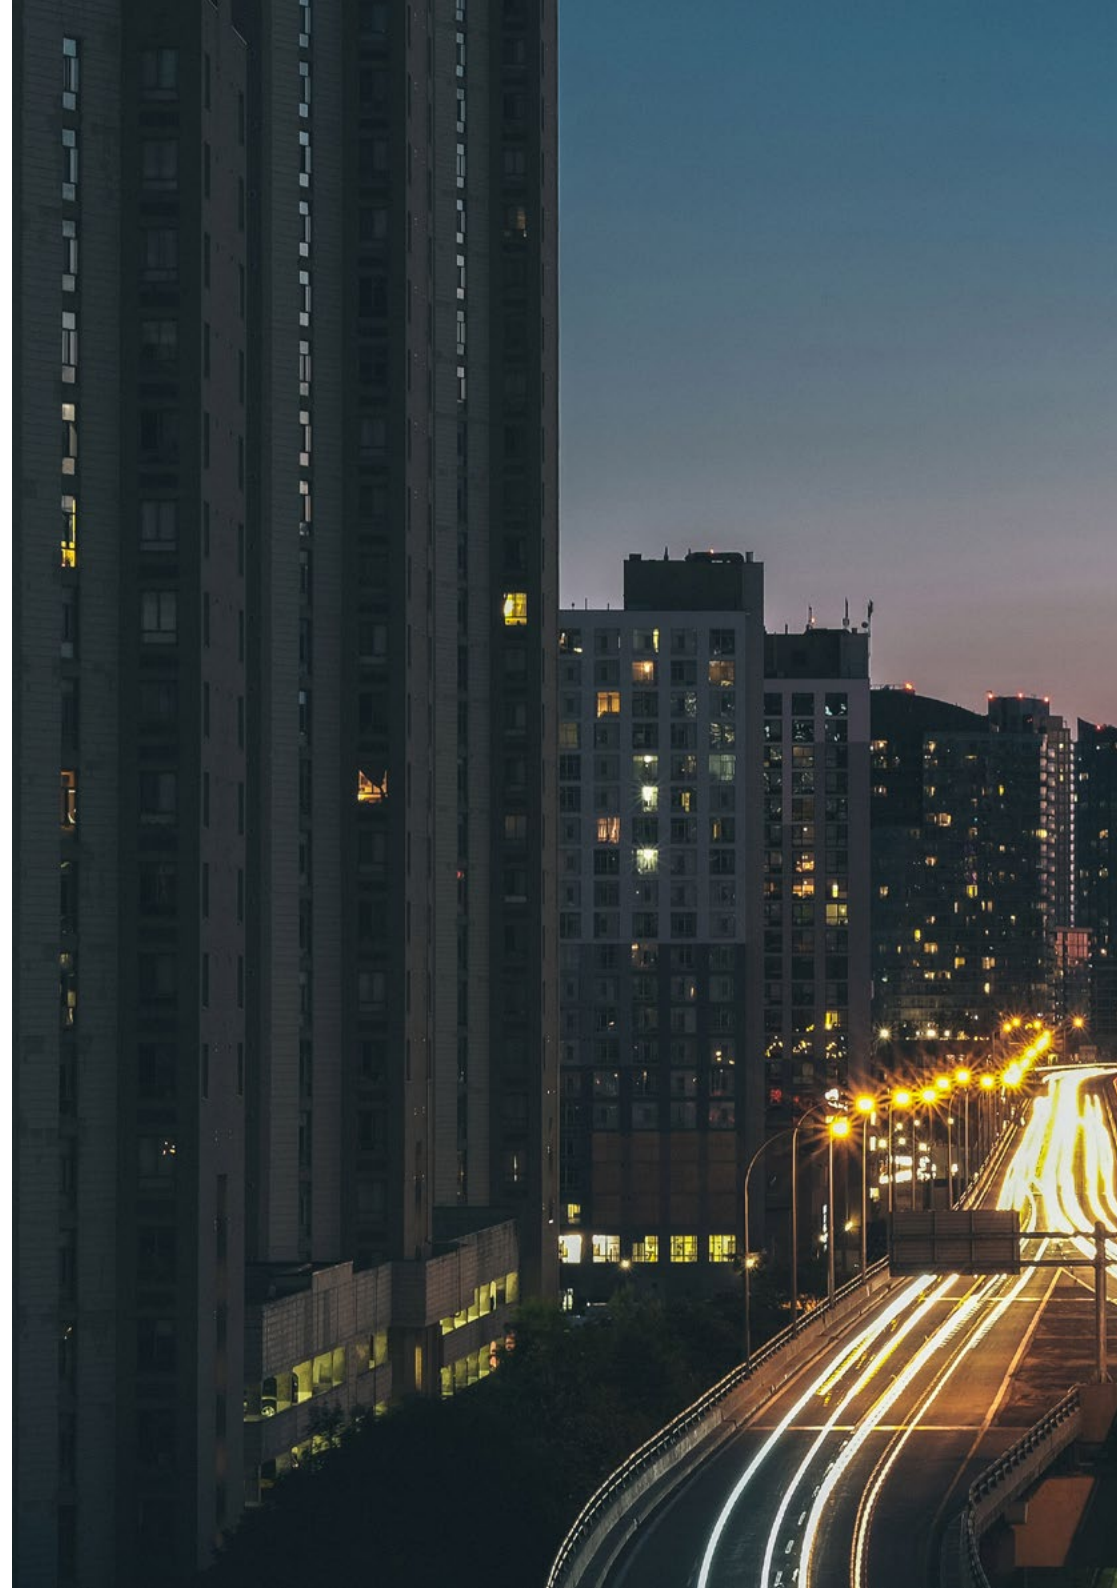

05

Where Can I Do the Internship Program?

In its maxim of offering quality education within the reach of most people, TECH has decided to broaden the academic horizons so that this program can be provided in various centers around the country. Therefore, this is a unique opportunity that will allow professionals to continue to grow their careers alongside the best specialists in the sector.

“

You will work in international organizations, NGOs, government agencies or prominent local institutions, where you will gain experience in Sustainable Development projects”

General Conditions

Civil Liability Insurance

This institution's main concern is to guarantee the safety of the trainees and other collaborating agents involved in the internship process at the company. Among the measures dedicated to achieve this is the response to any incident that may occur during the entire teaching-learning process.

To this end, this entity commits to purchasing a civil liability insurance policy to cover any eventuality that may arise during the course of the internship at the center.

This liability policy for interns will have broad coverage and will be taken out prior to the start of the Internship Program period. That way professionals will not have to worry in case of having to face an unexpected situation and will be covered until the end of the internship program at the center.

General Conditions of the Internship Program

The general terms and conditions of the internship agreement for the program are as follows:

1. TUTOR: During the Internship Program, students will be assigned with two tutors who will accompany them throughout the process, answering any doubts and questions that may arise. On the one hand, there will be a professional tutor belonging to the internship center who will have the purpose of guiding and supporting the student at all times. On the other hand, they will also be assigned with an academic tutor, whose mission will be to coordinate and help the students during the whole process, solving doubts and facilitating everything they may need. In this way, the student will be accompanied and will be able to discuss any doubts that may arise, both clinical and academic.

2. DURATION: The internship program will have a duration of three continuous weeks, in 8-hour days, 5 days a week. The days of attendance and the schedule will be the responsibility of the center and the professional will be informed well in advance so that they can make the appropriate arrangements.

3. ABSENCE: If the students does not show up on the start date of the Internship Program, they will lose the right to it, without the possibility of reimbursement or change of dates. Absence for more than two days from the internship, without justification or a medical reason, will result in the professional's withdrawal from the internship, therefore, automatic termination of the internship. Any problems that may arise during the course of the internship must be urgently reported to the academic tutor.

4. CERTIFICATION: Professionals who pass the Internship Program will receive a certificate accrediting their stay at the center.

5. EMPLOYMENT RELATIONSHIP: The Internship Program shall not constitute an employment relationship of any kind.

6. PRIOR EDUCATION: Some centers may require a certificate of prior education for the Internship Program. In these cases, it will be necessary to submit it to the TECH internship department so that the assignment of the chosen center can be confirmed.

7. DOES NOT INCLUDE: The Internship Program will not include any element not described in the present conditions. Therefore, it does not include accommodation, transportation to the city where the internship takes place, visas or any other items not listed.

However, students may consult with their academic tutor for any questions or recommendations in this regard. The academic tutor will provide the student with all the necessary information to facilitate the procedures in any case.

07 Certificate

This private qualification will allow you to obtain an **Internship Program's diploma in International Cooperation for the Development of Peoples** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University, is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University private qualification**, is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.
