Introduction

Personal introspection has resurfaced in recent times given the events of the current global landscape. This has led to a renewal of faith and, therefore, to a myriad of job opportunities that contribute to their knowledge. The Christian message announces the revelation of God to man and the union between the two. It is from this message that human beings demonstrate their faith in God, forming one of the fundamental parts of Catholicism. This program in Christian Message will enable the Catholic Education teachers to transmit the word of God to their students. This program, taught 100% online, offers the essential concepts to train the teacher of Catholic religion, using the digital tools necessary to achieve a successful and cutting-edge learning.

“

This Postgraduate Certificate delves into the knowledge of the Christian Message through the theological reading of the life of Jesus, providing you with the best knowledge in the field of Catholic teaching"

The foundation of Christianity is based on the life of Jesus of Nazareth. The knowledge of the parables as brief narratives lived by him, enclose a religious and moral education that have been studied and interpreted for centuries. In order to proceed with the transmission of this knowledge as a teacher in an educational center, you must acquire a series of biblical knowledge that establishes a solid foundation of wisdom. Therefore, it is not only essential that the teachers are trained, but also that they are constantly up-to-date on the most recent studies and findings.

Being aware of the current reality, in which the spiritual curiosity towards the Catholic religion has resurfaced and, therefore, the demand for professionals versed in the field of Catholicism has been increasing, TECH has designed this Postgraduate Certificate. It has created a syllabus focused on the study of the Gospels and the message of Jesus, delving into the death and resurrection of Jesus Christ. In addition, there will be an in-depth review of the theological reading of his life and a study of the mystery of the Holy Trinity, taking into account the concept of faith in the Church. In order to be a Catholic religion teacher, it is of vital importance that the teachings imparted are well founded and enriched with knowledge. The teaching of Catholicism goes beyond Christian teachings based on morality and being good people. It is a conjunction of many elements replete with biblical teachings.

In this way, and based on the most innovative study methodology, a Postgraduate Certificate has been created that aims to raise the graduate to the highest standards of religious teaching. All of this is included in a program that stands out for the quality of its contents, as well as for the excellent additional materials it contains. In this way, the student will become the best professional version of a teacher of Catholic education through an exhaustive learning process that will allow them to present the contents to their students from a more dynamic and efficient perspective, in order to reach people of different ages and in different school cycles. Thanks to the 100% online methodology, you can make your life compatible at the same time that you learn. In the same way, with the complementary materials, case studies and additional readings, the teachers will acquire skills and competencies that will place them among the elite of their profession.

This **Postgraduate Certificate in Christian Message** contains the most complete and up-to-date educational program on the market. The most important features include:

- ♦ The development of practical cases presented by experts Christian Message
- ♦ The graphic, schematic, and practical contents with which they are created, provide practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where self-assessment can be used to improve learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

Upgrade your pedagogical skills and become a high-level professional"

“

This Postgraduate Certificate is the best investment you can make in the selection of a program for two reasons: in addition to delve your knowledge in the Christian Message, you will obtain an accredited program by TECH Technological University"

Learn the meaning of profession of faith and teach your students from scholarship.

Enjoy the most complete additional materials and access to the Virtual Campus 24 hours a day. No schedules, no limits, no displacements.

The program's teaching staff includes professionals from the sector who contribute their work experience to this educational program, as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the educational year. For this purpose, the students will be assisted by an innovative interactive video system created by renowned and experienced experts.

02

Objectives

The Postgraduate Certificate in Christian Message is a program full of valuable information designed for any teacher who wants to specialize in teaching at a higher level through a highly effective 100% online teaching methodology. With the completion of this program, the graduates will acquire new fundamental tools for their professional development. In addition, you will delve into the foundation and foundation of the Church in Jesus Christ, as well as in the Christian meaning of death. Thanks to the best preparation, such as the one offered by this program, the teacher will be able to transmit to their students the knowledge of such a specific teaching, adapting it to each situation and age.

“

With this program you will obtain the necessary tools to give an answer to your high school students in the mystery of the Holy Trinity"

Structure and Content

The exclusive methodology that TECH offers its students is developed through a cyclical learning mode: Relearning. This teaching system is used in the most prestigious faculties in the world and is based on the repetition of fundamental concepts throughout the teaching process, so that the student acquires knowledge in a natural and systematic way. In this way, the students will delve deeper into the Gospels, prompting them to reflect on the message of Jesus, as well as analyze and understand the death and resurrection of Jesus. The contrasted multimedia material that makes up this syllabus, as well as the simulated scenarios, will provide the graduates with unique knowledge that will be very useful for their teaching work.

“

A syllabus that will provide you with the essential knowledge to acquire the necessary skills and competences to transmit the Christian Message to your students”

Module 1. Christian Message

 - 1.9.1. The Destiny of the Righteous
 - 1.9.2. New Heavens
 - 1.9.3. New Land
- 1.10. Significance of faith profession: "I believe in Eternal Life"
 - 1.10.1. The Creed
 - 1.10.2. I believe in Eternal Life

If you are looking for the most complete specialization in the market that will allow you to advance in your career, this is the program for you"

04

Methodology

This training program offers a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH Education School we use the Case Method

In a given situation, what should a professional do? Throughout the program students will be presented with multiple simulated cases based on real situations, where they will have to investigate, establish hypotheses and, finally, resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method.

With TECH, educators can experience a learning methodology that is shaking the foundations of traditional universities around the world.

It is a technique that develops critical skills and prepares educators to make decisions, defend their arguments, and contrast opinions.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”

The effectiveness of the method is justified by four fundamental achievements:

1. Educators who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
2. The learning process is solidly focused on practical skills that allow educators to better integrate the knowledge into daily practice.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life teaching.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

Our University is the first in the world to combine case studies with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which represent a real revolution with respect to simply studying and analyzing cases.

Educators will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 85,000 educators with unprecedented success in all specialties. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialist educators who teach the course, specifically for the course, so that the teaching content is really specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Educational Techniques and Procedures on Video

TECH introduces students to the latest techniques, with the latest educational advances, and to the forefront of Education. All this, first-hand, with the maximum rigor, explained and detailed for your assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

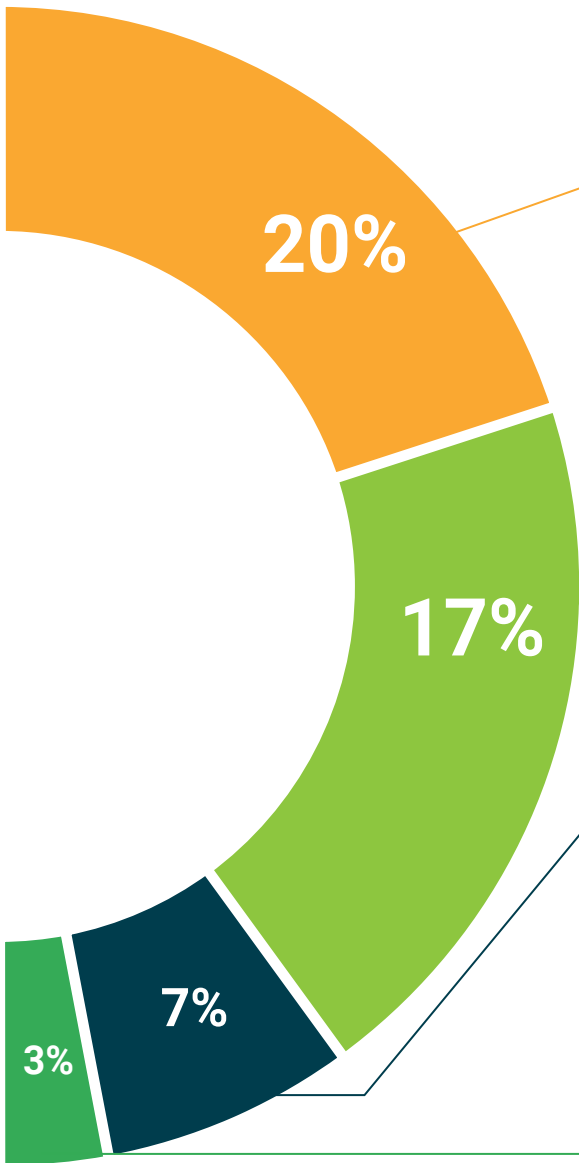

This exclusive multimedia content presentation training Exclusive system was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises: so that they can see how they are achieving your goals.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

05

Certificate

The Postgraduate Certificate in Christian Message guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

This **Postgraduate Certificate in Christian Message** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The diploma issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Certificate in Christian Message**
Official N° of Hours: **150 h.**

*Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
