Introduction

Educational guidance and school mentoring are an indispensable process within the educational process of schoolchildren. Teachers play a fundamental role here, but they need specialized knowledge that allows them to carry out mentoring and educational guidance with guarantees of success for their profession and for their students. Get specialized in this field with TECH Global University and give a boost to your profession.

“

Keeping up to date is a necessary task for teachers in order to improve their profession every day. Don't think twice and qualify yourself with us. We offer you the most complete specialization in the market"

In pre-schools, the guidance process is fundamental for the education of the students, turning education and guidance into two units whose main objective is to improve the educational process of the children, so that they can continue with their life project.

In this process, all the agents who influence the school institution participate and who must be protagonists of the educational and guidance process: management team, teaching team, guidance department, administration staff, students and families.

In this way, guidance should be the axis of school organization and planning, from the most specific actions, such as tutorial action, to other more global ones, such as the center's educational project.

This education is distinguished by the fact that it can be taken in a 100% online format, adapting to the needs and obligations of the student, in an asynchronous and completely self-manageable manner. Students will be able to choose which days, at what time and how much time to dedicate to the study of the contents of the program, always in tune with the abilities and aptitudes dedicated to it.

The order and distribution of the subjects and their units is specially designed to allow each student to choose their own schedule and self-manage their time. For this purpose, you will have at your disposal theoretical materials presented through enriched texts, multimedia presentations, exercises and guided practical activities, motivational videos, master classes and case studies, where you will be able to evoke knowledge in an orderly manner and work on decision making that demonstrates your high-level education within this field of teaching.

This **Postgraduate Certificate in Counseling and Mentoring in Pre-School Education** contains the most complete and up-to-date educational program on the market. The most important features include:

- The development of practical cases presented in simulated scenarios by experts in the field of study, where the student will evoke in an orderly manner the knowledge learned and demonstrate the acquisition of the competencies
- The graphic, schematic, and practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice
- Practical exercises where the students undergo the self-assessment process to improve learning, as well as activities at different skill levels
- Special emphasis on innovative methodologies and teaching research
- Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- Content that is accessible from any fixed or portable device with an Internet connection

Acquire a higher professional level that will allow you to compete with the best thanks to the completion of this very complete program"

“

We offer you the best teaching methodology with a multitude of practical cases so that you can develop your study as if you were facing real cases”

Its teaching staff includes professionals belonging to the field of education, who contribute their work experience to this training, as well as renowned specialists from reference societies and prestigious universities.

Its multimedia content, developed with the latest educational technology, will allow professionals to learn in a contextual and situated learning environment, i.e., a simulated environment that will provide immersive education programmed to prepare in real situations.

The design of this program focuses on Problem-Based Learning, by means of which teachers must try to solve the different professional practice situations that are presented to them throughout the program. To do so, they will be assisted by an innovative interactive video system created by recognized experts in psychomotor development with extensive teaching experience.

Educational guidance is fundamental in the educational process of children in order to understand their needs and provide solutions to their problems.

The program invites us to learn and grow, to develop as teachers, to learn about educational tools and strategies in relation to the most common needs in our classrooms.

02

Objectives

The Postgraduate Certificate in Counseling and Mentoring in Pre-School Education is oriented to develop in the students the skills required for the exercise of their profession. For this purpose, TECH Global University offers the most complete educational program from the hand of the main experts in the field.

“

We want to develop your skills so that you can, in a short period of time, make the professional leap you deserve”

General Objective

- Develop in the teacher the necessary competences to teach their lessons in the Pre-School Education stage, complying with the educational objectives foreseen and focused on family guidance

“

Our goal is to achieve academic excellence and to help you achieve it too"

Specific Objectives

- Educating people as autonomous protagonists of their own educational process and making them capable of continuing their own life project requires the current school to understand education and guidance as synonyms and traveling companions
- Involve all the agents inside and outside the school: management team, administration staff, teaching staff, guidance department, students and families as protagonists of the educational and guidance process
- As a task for teachers, take on the guidance and tutorial action of their students
- Promote the knowledge of the students' own characteristics, assuming that each student is unique
- Personalized follow-up of students with a preventive approach
- Adapt programming, teaching and evaluation to the diversity of the student body
- Involve families in the education of students in order to unify criteria and educational guidelines that result in greater coherence between school and family

03

Structure and Content

The structure of the contents has been designed by top level professionals within the educational panorama, with a wide trajectory and recognized prestige in the profession, endorsed by their experience, and with a wide command of the new technologies applied to teaching.

“

*The best content to create
the best teachers”*

Module 1. Family Counseling and Mentoring

- 1.1. Family Counseling and Mentoring
 - 1.1.1. Definition of Family Counseling and Mentoring
 - 1.1.2. Objectives of Family Counseling
 - 1.1.3. Counseling Legislation
- 1.2. The Tutorial Action Plan and its Applications
 - 1.2.1. Definition and Composition of the Tutorial Action Plan
 - 1.2.2. Some Related Practical Cases
- 1.3. The Mentor Teacher
 - 1.3.1. The Profile of the Mentor Teacher
 - 1.3.2. Competencies of the Mentor Teacher
 - 1.3.3. The Functions of the Mentor Teacher and their Relationship with the Families
- 1.4. The Training of Mentor Teachers
 - 1.4.1. Initial Mentor Teacher Training
 - 1.4.2. Continued Training of Mentor Teachers
 - 1.4.3. Mediation as a Professional Tool
- 1.5. The Family Interview from the School Center
 - 1.5.1. Different Family Models
 - 1.5.2. First Contact with Families
 - 1.5.3. Phases of the Interview
 - 1.5.4. Practical Aspects to be Taken into Account in Conducting Interviews
 - 1.5.5. Interview Techniques
- 1.6. Social Collaboration from the School Center
 - 1.6.1. Service and Learning as a Methodology for the School, Family and Society Connection
 - 1.6.2. Types of Service and Learning Programs
 - 1.6.3. Steps for the Elaboration of a Service and Learning Program

- 1.7. Family Schools
 - 1.7.1. Definition of Family Schools
 - 1.7.2. Objectives of Family Schools
 - 1.7.3. Content of Family Schools
 - 1.7.4. Development Methods and Techniques
 - 1.7.5. Some Related Practical Cases
- 1.8. Professional Coordination
 - 1.8.1. Teamwork
 - 1.8.2. Union Between Education and Non-Education Professionals
 - 1.8.3. Different Agents, Classes and Functions
- 1.9. Teaching Material and Content
 - 1.9.1. The Knowledge of the Teachers
 - 1.9.2. The Quality of Teaching and the Content
 - 1.9.3. Practice and Learning Communities
 - 1.9.4. Knowledge Distribution and Connectivism
- 1.10. Teacher Assessment
 - 1.10.1. Evolution in Recent Decades
 - 1.10.2. International References
 - 1.10.3. Models in the USA
 - 1.10.4. Innovations in Australia
 - 1.10.5. The Situation in Latin America
 - 1.10.6. Final Reflections

*This will provide key education
to advance in your career"*

04

Methodology

This training program offers a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH Education School we use the Case Method

In a given situation, what should a professional do? Throughout the program students will be presented with multiple simulated cases based on real situations, where they will have to investigate, establish hypotheses and, finally, resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method.

With TECH, educators can experience a learning methodology that is shaking the foundations of traditional universities around the world.

It is a technique that develops critical skills and prepares educators to make decisions, defend their arguments, and contrast opinions.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”

The effectiveness of the method is justified by four fundamental achievements:

1. Educators who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
2. The learning process is solidly focused on practical skills that allow educators to better integrate the knowledge into daily practice.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life teaching.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

Our University is the first in the world to combine case studies with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which represent a real revolution with respect to simply studying and analyzing cases.

Educators will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 85,000 educators with unprecedented success in all specialties. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialist educators who teach the course, specifically for the course, so that the teaching content is really specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Educational Techniques and Procedures on Video

TECH introduces students to the latest techniques, with the latest educational advances, and to the forefront of Education. All this, first-hand, with the maximum rigor, explained and detailed for your assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive multimedia content presentation training Exclusive system was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises: so that they can see how they are achieving your goals.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

05

Certificate

The Postgraduate Certificate in Counseling and Mentoring in Pre-School Education guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Global University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

This program will allow you to obtain your **Postgraduate Certificate in Counseling and Mentoring in Pre-School Education** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

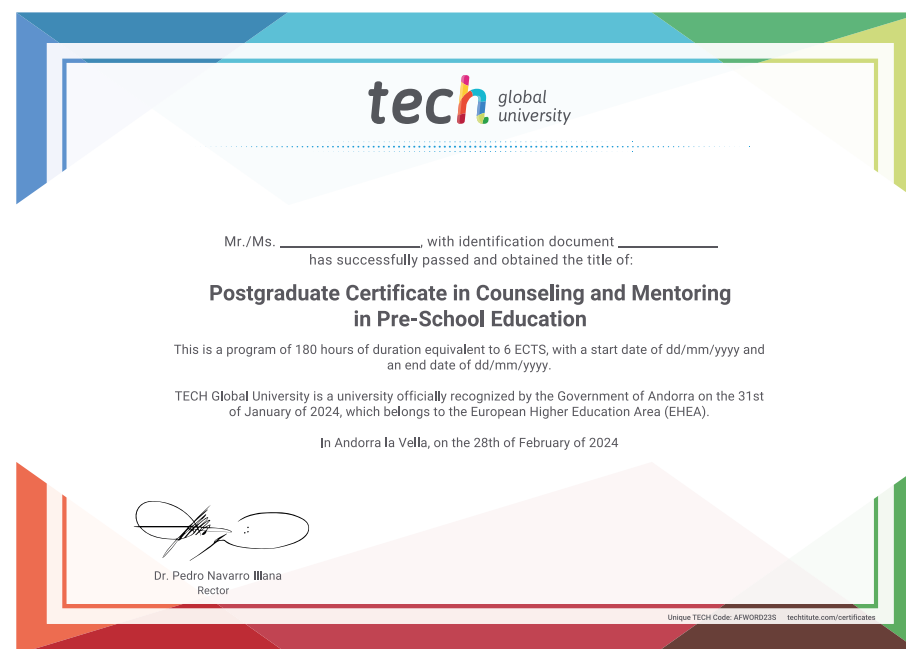

This **TECH Global University** title is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.
