Introduction

Emotions are the fundamental axis of a large part of our lives, whether it is to make decisions related to the heart or even to buy any type of product or service. That's why advertising companies try to change our emotions by associating them with positive aspects.

“

This Postgraduate Certificate in Emotional Intelligence for Primary School Students will generate a sense of security in the performance of your profession, which will help you grow personally and professionally”

This Postgraduate Certificate offers a broad and complete vision of the complex world of Emotional Intelligence from the applied perspective, starting from the theoretical and biological bases, gathering the different practical approaches, so that any interested professional knows first, what is Emotional Intelligence, how to evaluate and interpret it and, above all, how to apply it to his or her job.

This gives the course an advantage over other eminently theoretical programs; or programs that exclusively cover one area of practice.

This vision allows a better understanding of the operation from different areas, so that the professional can have different options for its application in his/her job according to their interest.

This Postgraduate Certificate addresses the practice of Emotional Intelligence in the most demanded fields at present, in a way that exceeds the programs based on the practice of individual professionals.

That is why this Postgraduate Certificate has become a reference in socially relevant topics such as the application of Emotional Intelligence in the field of health, as well as oriented in practice to solve the main demands of parents, teachers or business leaders.

The students of this Postgraduate Certificate will have access to the latest developments related to Emotional Intelligence both at a theoretical level, in addition to learning how to apply it in their present or future profession, thus offering a qualitative advantage over other professionals in the sector.

It also facilitates the incorporation of professionals into the labor market or helping them to get a promotion in their current job in the field. The course provides extensive theoretical and practical knowledge that will improve the professional skills of the students in their jobs.

This **Postgraduate Certificate in Emotional Intelligence for Primary School Students** contains the most complete and up-to-date educational program on the market. The most outstanding features of the University Course are:

- ♦ Development of more than 75 case studies presented by experts in emotional intelligence for elementary school students. Their graphic, schematic and eminently practical contents provide scientific and practical information on those disciplines that are essential for professional practice.
- ♦ Novelties on emotional intelligence for elementary school students contains practical exercises where the self-assessment process can be used to improve learning
- ♦ With special emphasis on innovative methodologies in emotional intelligence for primary school students, all of this will be complemented with theoretical lessons, questions to the expert, discussion forums on controversial topics and individual reflection work.
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

Update your knowledge through the program "Postgraduate Certificate in Emotional Intelligence for Primary School Students"

“

This Postgraduate Certificate may be the best investment you can make in the selection of a refresher program for two reasons: in addition to updating your knowledge in emotional intelligence for elementary school students, you will obtain a Postgraduate Certificate issued by TECH - Technological University"

It includes in its teaching staff professionals belonging to the field of emotional intelligence for primary school students, who pour into this specialization the experience of their work, in addition to recognized specialists belonging to reference societies and prestigious universities.

The multimedia content developed with the latest educational technology will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive training program to train in real situations.

The design of this program is based on problem-based learning, by means of which the educator must try to solve the different professional practice situations that arise throughout the Postgraduate Certificate To do so, the educator will be assisted by an innovative interactive video system developed by recognized experts in the field of emotional intelligence for elementary school students with extensive teaching experience.

Increase your decision-making confidence by updating your knowledge through this Postgraduate Certificate.

Take the opportunity to learn about the latest advances in emotional intelligence for elementary school students and improve your students' specialization.

02

Objectives

This Postgraduate Certificate in Emotional Intelligence for Primary School Students is aimed at facilitating the performance of the professional dedicated to teaching and training children and adolescents.

“

This Postgraduate Certificate is designed for you to update your knowledge in emotional intelligence for primary school students with the use of the latest educational technology, in order to contribute with quality and security to the decision making and monitoring of these students"

General Objective

- ♦ Update the knowledge on emotional intelligence in its different fields of application, whether in the clinical, educational or labor area, in order to increase the quality of the professional's praxis in his performance.
- ♦ Introduce students to the vast world of emotional intelligence from a practical perspective, so that they learn about the different disciplines covered by emotions in relation to human behavior and its possibilities.
- ♦ Know the tools used in the practice of emotional intelligence.
- ♦ Enable the development of skills and abilities by encouraging continuous Specialization and research.

Specific Objectives

- ♦ Understand unitary intelligence.
- ♦ Identify multiple intelligence.
- ♦ Discover the relationship between intelligence and the life cycle.
- ♦ Unravel the information on inherited intelligence.
- ♦ Classify the direct assessment of intelligence.
- ♦ Determine what the direct assessment of intelligence is.
- ♦ Identify the Flynn Effect.
- ♦ Understand the QI Test and its relationship to gender.
- ♦ Discover the relationship between the QI Test and the life cycle.
- ♦ Clarify the relationship between the QI Test and race.
- ♦ Define the role of intelligence tagging.
- ♦ Know Gardner's Theory.
- ♦ Classify high abilities.
- ♦ Explore the field of giftedness.
- ♦ Understand intellectual disabilities.
- ♦ Clarify the meaning of borderline personality.
- ♦ Discover what The Papez Circuit is.
- ♦ Exploring the limbic brain
- ♦ Analyze the amygdala and positive emotion
- ♦ Understand the relationship between intelligence and emotion.
- ♦ Recognize emotional intelligence.
- ♦ Analyze the relationship between creativity and intelligence.
- ♦ Discover the role of self-awareness and intelligence.

- ♦ Define emotional intelligence.
- ♦ Understanding the Definition and Assessment of Psychological Well-Being
- ♦ Discovering the Health Influence of Psychological Well-Being
- ♦ Knowledge of the definition and evaluation of Happiness.
- ♦ Exploring the Health Influence of Happiness
- ♦ Elucidating the Definition and evaluation of Love
- ♦ Analyze the Influence of Love on Health
- ♦ Understanding the Definition and Assessment of Depression
- ♦ Identifying the Health Influence of Depression
- ♦ Discovering the Health Influence of Guilt
- ♦ Comprehension the emotional Control of control and emotional management.
- ♦ Discover the different types of relaxation techniques
- ♦ Deepen knowledge in the applied practice of relaxation.

“

Take the opportunity and take the step to get up to date on the latest developments in Emotional Intelligence for Infant Primary Students”

03

Course Management

The program's teaching staff includes leading experts in emotional intelligence for elementary school students who bring the experience of their work to this specialization. In addition, other experts of recognized prestige participate in its design and development, completing the program in an interdisciplinary manner.

“

Learn from leading professionals, the latest advances in procedures in the field of Emotional Intelligence for Infant Primary Students”

Management

Dr. De la Serna, Juan Moisés

- PhD in Psychology
- Master's Degree in Neurosciences and Behavioral Biology
- Director of the Open Chair of Psychology and Neurosciences and science communicator

Jiménez Romero, Yolanda

- Territorial Director of the Extremeño-Castilla La Mancha Institute of High Abilities
- Degree in Elementary Education
- Master's Degree in Neuropsychology of High Abilities
- Master's Degree in Emotional Intelligence
- Specialist in NPL.

Professors

Martínez Zarza, Ana M^a

- ♦ Educational Psychologist, Graduate in Personal Life Transformation Program, Postgraduate Diploma in Emotional Intelligence

Dr. Salido Durán, Daniel

- ♦ Degree in Educational Sciences
- ♦ Postgraduate Diploma in Emotional Intelligence
- ♦ Master's Degree in Educational Coaching Transpersonal Therapist

Dr. Visconti, Martín

- ♦ PhD in Education and Behavioral Sciences with specialization in Emotional Intelligence.
- ♦ Degree in Primary Education
- ♦ Master's Degree in Learning Difficulties and Cognitive Processes

04

Structure and Content

The structure of the contents has been designed by a team of professionals from the best educational centers and universities in the country, aware of the relevance of current training to intervene in the specialization and support of students in emotional intelligence, and committed to quality teaching through new educational technologies.

“

This University Course in Emotional Intelligence for Primary School Students contains the most complete and up-to-date scientific program on the market"

Module 1. Emotional Intelligence in Childhood 6-12 Years Old

- 1.1. Characteristics of Elementary School
- 1.2. Emotions in Elementary School
- 1.3. The Role of Parents in Elementary School
- 1.4. The Role of Others in Elementary School
- 1.5. Develop of Elementary School
- 1.6. Emotional Disturbances in Elementary School
- 1.7. Diagnosis in Elementary School
- 1.8. Emotional Intelligence Intervention Tools in Elementary School
- 1.9. Intervention with Emotional Intelligence in Elementary School
- 1.10. Evaluation of the Efficiency of Emotional Intelligence in Elementary School

“

A unique, key, and decisive master's degree experience to boost your professional development”

05

Methodology

This training provides you with a different way of learning. Our methodology uses a cyclical learning approach: ***Re-learning***.

This teaching system is used in the most prestigious medical schools in the world, and major publications such as the ***New England Journal of Medicine*** have considered it to be one of the most effective.

“

Discover Re-learning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization".

En TECH Education School empleamos el Método del caso

In a given situation, what would you do? Throughout the program, you will be presented with multiple simulated cases based on real situations, where you will have to investigate, establish hypotheses and, finally, resolve the situation. There is abundant scientific evidence on the effectiveness of the method.

With TECH, educators will experience a learning methodology that is shaking the foundations of traditional universities around the world.

It is a technique that develops critical skills and prepares educators to make decisions, defend their arguments, and contrast opinions.

“

Did you know that this method was developed in 1912 at Harvard for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method.

The effectiveness of the method is justified by four fundamental achievements:

1. Educators who follow this method not only grasp concepts, but also develop their mental capacity by evaluating real situations and applying their knowledge.
2. The learning process is solidly focused on practical skills that enable educators to better integrate knowledge into daily practice.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life teaching.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Re-Learning Methodology

At TECH we enhance the Harvard case method with the best 100% online teaching methodology available: Re-learning.

Our University is the first in the world to combine case studies with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson; a real revolution with respect to simply studying and analyzing cases.

Educators will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Re-learning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best Spanish-speaking online university (Columbia University).

Using this methodology, we have trained more than 85,000 educators with unprecedented success in all specialties. Our teaching methodology is developed in a highly demanding environment, where the students have a strong socio-economic profile, and their average age is 43.5 years.

Re-learning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (we learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

In this program you will have access to the best educational material, prepared with you in mind:

Study Material

All teaching material is produced by the specialist educators who teach the course, specifically for the course, so that the teaching content is really specific and precise.

This content is then adapted in an audiovisual format that will create our way of working online, with the latest techniques that allow us to offer you high quality in all of the material that we provide you with.

Educational Techniques and Procedures on Video

We introduce you to the latest techniques, with the latest educational advances, and to the forefront of Education today. All this, in first person, with the maximum rigor, explained and detailed for your assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

We present the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This unique multimedia content presentation training system was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents, international guides. in our virtual library you will have access to everything you need to complete your training.

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, we will present you with real case developments in which the expert will guide you through focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Re-testing

We periodically evaluate and re-evaluate your knowledge throughout the program, through assessment and self-assessment activities and exercises: so that you can see how you are achieving your goals.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.
Learning from an expert strengthens knowledge and memory, and generates confidence in our future difficult decisions.

Quick Action Guides

We offer you the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help you progress in your learning.

06

Certificate

This Postgraduate Certificate in Emotional Intelligence for Primary School Students guarantees you, in addition to the most rigorous and updated specialization, access to a Postgraduate Certificate issued by **TECH - Technological University**.

“

Successfully complete this specialization and receive your diploma without the hassle of travel or paperwork”

This Postgraduate Certificate in Emotional Intelligence for Primary School Students contains the most complete and up-to-date scientific program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH - Technological University** via **tracked delivery**.

The certificate issued by TECH - Technological University will specify the qualification obtained through the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Certificate in Emotional Intelligence for Primary School Students**

ECTS: 6

Nº Hours: 150

*Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
