Introduction

Teachers must keep abreast of the changes, requirements and demands of today's world and specifically of their students in emotional matters, which generates an increasing demand for new ways of teaching. In this sense, it is crucial that they keep up to date with the most diverse tools that allow them to determine and meet individual and collective needs inside and outside the classroom. In addition, being able to elucidate emotional illiteracy, classify High Abilities, explore Giftedness, understand people with functional diversity and determine the role of Intelligence labeling, among other relevant aspects that they will learn with the study of this program. You will be able to take the course 100% online, at your own pace and with the desired quality, thanks to the intervention of highly qualified teachers in the subject of study.

“

With this program on Emotional Intelligence for Teachers you will obtain the most advanced knowledge to improve the learning experience of your students”

Emotional Intelligence is a quality that every teacher should possess in order to optimize the teaching-learning process. This is due to the fact that education is a fundamentally human process from which a series of specific skills and abilities of individuals are derived, which are influenced by emotions for decision making and the creation of thoughts and values.

Hence the importance for the teacher to be constantly evolving and attentive to the influences that intervene in the behavior of students, efficiently managing both their own emotions and those of the surrounding environment. In that sense, this program is a significant tool for learning about Multiple Intelligences, exploring Giftedness, elucidating emotional illiteracy, classifying High Abilities, understanding people with functional diversity and determining the role of Intelligence labeling.

All this will be possible through the study of this program in Emotional Intelligence for Teachers, designed by a highly qualified team in research and teaching, specifically in Emotional Intelligence projects. In this way, the student will have a high impact content and academic impact and academic level for their learning.

You will be able to complete it without complications, due to its 100% online modality and TECH's virtual platform, available from any digital device and open 24 hours. It will have a variety of interactive resources to make the study process much more agile and understandable. In this way, in only 6 weeks you will be able to expand your capabilities as an expert teacher in Emotional Intelligence.

This **Postgraduate Certificate in Emotional Intelligence for Teachers** contains the most complete and up-to-date educational program on the market. The most important features include:

- ♦ Practical cases presented by experts in Emotional Intelligence
- ♦ The graphic, schematic, and practical contents with which they are created, provide practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where self-assessment can be used to improve learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

You will be a teacher who generates changes and new educational proposals through the intervention of Emotional Intelligence"

“

With the study of this program you will have the title of Postgraduate Certificate in Emotional Intelligence for Teachers, opening your way to a renewed professional profile"

The program's teaching staff includes professionals from the sector who contribute their work experience to this educational program, as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the academic year. For this purpose, the students will be assisted by an innovative interactive video system created by renowned and experienced experts.

Through this program you will provide more efficient teaching to people with functional diversity.

Understanding Multiple Intelligences will allow you to be more efficient in your teaching processes as a teacher.

02

Objectives

A teacher who manages emotions wisely and knows how to provide the tools for his students to achieve this will be a valuable worker for the current and future educational system. Therefore, professionalization in terms of Emotional Intelligence is becoming increasingly necessary. In this sense, TECH has set a series of objectives through this program for the student to acquire the desired skills, learning the news and keys about Emotional Intelligence.

“

Thanks to the integration of professionals specialized in Psychology, Psychopedagogy, Educational Sciences and Emotional Intelligence, you will have the best study content”

General Objectives

- Up to date knowledge of emotional intelligence in its different fields of application, in the clinical, educational or labor field, in order to increase the quality of the professional's praxis in his performance
- Introduce students to the vast world of emotional intelligence , from a practical perspective, so that they learn about the different disciplines covered by emotions in relation to human behavior and its possibilities
- Know the tools used in the practice of Emotional Intelligence
- Enable the development of skills and abilities by encouraging continuous preparation and research

Specific Objectives

- ♦ Analyze academic intelligence
- ♦ Define emotional intelligence
- ♦ Understand multiple intelligence
- ♦ Define emotional illiteracy
- ♦ Classify high abilities.
- ♦ Explore the field of giftedness.
- ♦ Understand people with functional diversity
- ♦ Determine the role of Intelligence Labeling

If you are part of the educational sector and wish to work with Emotional Intelligence, this program will provide you with all the knowledge you need”

03

Course Management

Thanks to TECH's interest in providing high academic level training, this program has the best teaching staff. Reputed professionals have been in charge of designing all the study material, based on their own experiences and contributing from their research on Emotional Intelligence. Only in this way is it possible to offer the high academic level that the student deserves and is looking for.

“

A highly professional team makes up the teaching staff of this program and is available to you"

Guest Director

Dr. De la Serna, Juan Moisés

- ◆ Psychologist and Writer expert in Neurosciences
- ◆ Writer specializing in Psychology and Neurosciences
- ◆ Author of the Open Chair in Psychology and Neurosciences
- ◆ Scientific disseminator
- ◆ PhD in Psychology
- ◆ Degree in Psychology. University of Seville
- ◆ Master's Degree in Neurosciences and Behavioral Biology Pablo de Olavide University, Seville

- ♦ Academic Coordinator Online University in Campus
- ♦ Territorial Director of the Extremeño-Castilla La Mancha Institute of High Abilities
- ♦ Creation of INTEF Educational Content at the Ministry of Education and Science
- ♦ Degree in Primary Education, English specialization
- ♦ Educational psychologist from the International University of Valencia
- ♦ Master's Degree in Neuropsychology of High Abilities
- ♦ Master's Degree in Emotional Intelligence Specialist in NLP *Practitioner*

04

Structure and Content

The contents of this program have been designed through the most effective 100% online learning methodology: *Relearning*. From the point of view and experience of renowned professionals in the research on Emotional Intelligence and its influence in the educational sector. It will be 150 hours of study where the student will understand the theories and models of Emotional Intelligence, its physiology, evolution and evaluation, as well as the different influences around it. This will be done from any device with an Internet connection, enjoying the best educational material in various formats.

“

You will learn the myths and truths about Emotional Intelligence thanks to this TECH program”

Module 1. Emotional Intelligence

- 1.1. Emotional Intelligence Concept
- 1.2. Emotional Intelligence Theories and Models
- 1.3. Components of Emotional Intelligence
- 1.4. Physiology of Emotional Intelligence
- 1.5. Evolution of Emotional Intelligence
- 1.6. Emotional Intelligence Assessment
- 1.7. Emotional Intelligence Gender Differences
- 1.8. The social influence of Emotional Intelligence
- 1.9. Family and Emotional Intelligence
- 1.10. Myths and Truths of Emotional Intelligence

“

Learn how to manage emotions effectively in high school students in just 6 weeks. Enroll now”

05

Methodology

This program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH Education School we use the Case Method

In a given situation, what should a professional do? Throughout the program students will be presented with multiple simulated cases based on real situations, where they will have to investigate, establish hypotheses and, finally, resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method.

With TECH, educators can experience a learning methodology that is shaking the foundations of traditional universities around the world.

It is a technique that develops critical skills and prepares educators to make decisions, defend their arguments, and contrast opinions.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”

The effectiveness of the method is justified by four fundamental achievements:

1. Educators who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
2. The learning process is solidly focused on practical skills that allow educators to better integrate the knowledge into daily practice.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life teaching.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

Our University is the first in the world to combine case studies with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which represent a real revolution with respect to simply studying and analyzing cases.

Educators will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 85,000 educators with unprecedented success in all specialties. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialist educators who teach the course, specifically for the course, so that the teaching content is really specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Educational Techniques and Procedures on Video

TECH introduces students to the latest techniques, with the latest educational advances, and to the forefront of Education. All this, first-hand, with the maximum rigor, explained and detailed for your assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive multimedia content presentation training Exclusive system was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises: so that they can see how they are achieving your goals.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.
Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

06

Certificate

The Postgraduate Certificate in Emotional Intelligence for Teachers guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

This **Postgraduate Certificate in Emotional Intelligence for Teachers** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The diploma issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Certificate in Emotional Intelligence for Teachers**

Official N° of Hours: **150 h.**

*Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
