Introduction

Today's society needs new teaching methodologies to manage students' Learning Difficulties. Emerging alternatives have arisen to improve the education of children and professionals will be able to learn about through this program.

“

This Postgraduate Certificate will allow you to delve into the world of learning difficulties, while obtaining a qualification certified by TECH Global University"

Diversity is understood as the differences that students present in school learning, differences in terms of aptitudes, interests, motivations, abilities, maturation rates, learning styles, previous experiences and knowledge, social and cultural environments, etc. These aspects make up student typologies and profiles that should largely determine educational planning and action.

The perspective from the emerging educational paradigm must be inclusive and based on a biopsychosocial model that contemplates attention to diversity from a comprehensive approach aimed at the entire educational community. Teachers, at all educational stages, and related professionals in both the educational and socio-health fields need to know the characteristics of these students, know how to identify their needs and have the knowledge and tools to intervene at a personal, socio-familial and, above all, educational level.

This education responds to the demand of educational agents, focusing on early childhood, primary, secondary and post-compulsory education teachers. With this educational course, the teacher will acquire competencies to manage learning difficulties and diversity in the educational context, adjust the attention to diversity plans and the educational projects of the centers.

At the same time, social demands are greater and more numerous on education systems globally, in order to achieve democracy, equality and equity in schools; without segregation, discrimination due to differences and capable of accommodating everyone within the framework of recognition of diversity.

The design of the Postgraduate Certificate was developed by an academic committee composed of specialists with experience in the clinical, educational and social fields. These professionals bring their expertise to support the postgraduate education needs of teachers working in interdisciplinary and multidisciplinary teams, school management structures and specialized care. In this sense, they carried out a whole process of research and integration of criteria based on the objectives set for the academic program.

This **Postgraduate Certificate in Management of Emerging Difficulties: Emerging Educational Alternatives** contains the most complete and up-to-date educational program on the market. The most important features of the include:

- » Practical cases presented by experts in Management of Emerging Difficulties
- » The graphic, schematic, and eminently practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice
- » Practical exercises where the self-assessment process can be carried out to improve learning
- » Algorithm-based interactive learning system for decision-making in the situations that are presented to the student
- » Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- » Content that is accessible from any fixed or portable device with an Internet connection

It is necessary the current educational alternatives to advance in the management of emerging difficulties”

“

Here you will find a training course with a multitude of practical cases that will facilitate your learning”

Its teaching staff includes , a professionals from the field of vaccines in nursing, who bring the experience of their work to this training, as well as recognised specialists from leading scientific societies.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide an immersive training program designed to train in real situations.

This program is designed around Problem Based Learning, where the medical professional must try to solve the different professional practice situations that arise during the course. To do so, the specialist will be assisted by an innovative interactive video system created by renowned and experienced experts in the Management of Emerging Difficulties.

Our multimedia content will make it easier for you to access the information. You will be able to update your knowledge in an easy and practical way from any device with an internet connection.

You can organize the sessions at your own study pace, choosing your own schedule and combining it with the rest of your daily commitments.

02

Objectives

This training is designed to train professionals in the field of Learning Difficulties through educational-technical knowledge skills and values that promote the development of basic competencies in graduates. It will help them to address the problems in their professional context within the framework of educational inclusion demanded in today's societies worldwide.

“

Our goal is to help you be the best in your profession. With us you will see how you advance in the care of your students”

General Objectives

- » Increase theoretical-practical and didactic-methodological knowledge related to psychology, pedagogy and didactics in relation to students with LD in the context of diversity, with an innovative, creative and integral vision for school management
- » Develop professional skills and competences for the management of the comprehensive educational care of schoolchildren with learning difficulties within the framework of diversity with a high level of specialization

“

We are the biggest online university and we are committed to training you for success”

Specific Objectives

- » Reflect on information and communication technologies, chess and meditation as emerging alternatives for the management of learning difficulties in diverse contexts
- » Discuss the use and scope of ICT as a learning resource in the management of learning difficulties in primary education
- » Evaluate the potentials of chess as a resource for management of learning difficulties linked with the main educational agencies: family, school and community
- » Value the benefits of incorporating meditation into the school learning-teaching process within the context of learning difficulties

03

Course Management

The main specialists in Learning Difficulties have come together to create this Postgraduate Certificate which offers students a transdisciplinary education which allows them to transfer learning between different areas.

“

We offer you a team of the most qualified professionals in the field. They will teach you to improve your skills as a teacher”

Management

Dr. Moreno Abreu, Milagros Josefina

- PhD in Pedagogical Sciences
- Master's Degree in Health Education
- Diploma in Research Methodology
- Degree in Education With Major in Learning Difficulties
- Degree in Preschool Education
- Higher University Technician in Speech Therapy

04

Structure and Content

The structure of the program has been designed by a team specialized in Learning Difficulties and Attention to Diversity that has united all its knowledge to offer the best study option on the market since it has the most up-to-date and rigorous content that can be found on this subject.

“

This Postgraduate Certificate is the best educational option that you will be able to find, with the most up-to-date and rigorous content on the market”

Module 1. Emerging Educational Alternatives for the Management of Learning Difficulties

- 1.1. Introduction
- 1.2. Information and Communication Technologies (ICT)
 - 1.2.1. Theoretical Fundamentals of ICT
 - 1.2.2. Historical Development of ICT
 - 1.2.3. Classification of ICT
 - 1.2.3.1. Synchronous
 - 1.2.3.2. Asynchronous
 - 1.2.4. TIC Features
 - 1.2.5. Potential of ICT in Different Contexts of Society
- 1.3. ICT in Educational Environments
 - 1.3.1. Contribution of ICT to Education in General
 - 1.3.1.1. Tradition Education and ICT Incorporation
 - 1.3.1.2. Impact of ICT in 21st Century Education
 - 1.3.1.3. Learning and Teaching With ICT: Expectations, Realities and Potential
 - 1.3.2. ICT Approaches in the Care of Learning Difficulties
 - 1.3.2.1. ICT as an Educational Resource for the Care of Learning Difficulties
 - 1.3.2.1.1. Teaching Reading
 - 1.3.2.1.2. Teaching Writing
 - 1.3.2.1.3. Teaching Mathematics
 - 1.3.2.1.4. Attention Attention Deficit Hyperactivity Disorder (ADHD)
 - 1.3.3. Role of the Teacher in the use of ICT
 - 1.3.3.1. In the Classroom
 - 1.3.3.2. Out-of-Classroom Spaces
- 1.4. Chess and its Pedagogical Value
 - 1.4.1. Brief Historical Review of Chess
 - 1.4.2. Its Playful Nature
 - 1.4.3. Pedagogical Fundamentals of Play-Science
 - 1.4.4. Chess as an Educational Tool the School Context and in Socially Vulnerable Environments
 - 1.4.5. Potentials of Chess in the Teaching- Learning Process of Students with Learning Difficulties
 - 1.4.5.1. Contributions of Chess in Cognitive Activity
 - 1.4.5.1.1. Attention
 - 1.4.5.1.2. Memory
 - 1.4.5.1.3. Motivation
 - 1.4.5.1.4. Managing Emotions
 - 1.4.5.1.5. Strategic Thinking
 - 1.4.5.1.6. Intelligence
 - 1.4.5.1.7. Transfer of Learning
 - 1.4.5.2. Contributions of Chess in the Context of Executive Functions
 - 1.4.5.2.1. Organization
 - 1.4.5.2.2. Plan
 - 1.4.5.2.3. Execution (Planning, Inhibitory Control, Self-Monitoring)
 - 1.4.5.2.4. Evaluation / Review
- 1.5. Chess as a Binding Element of the School-Family-Community Triad in the Management of Learning Disabilities
 - 1.5.1. Strengths in the Use of Chess in School to Promote Family Participation in the Educational Process
 - 1.5.2. Possibilities That Chess Offers to Promote Participation of the Community in the School

- 1.6. Meditation. From Spiritual Practice to its Current Scope
 - 1.6.1. A Brief Approach to Meditation as an Educational Tool
 - 1.6.1.1. Concept of Meditation
 - 1.6.1.2. Origin of Meditation
 - 1.6.1.3. Its Expansion into Different Fields
- 1.7. Use of the Educational Potential of Meditation for the Management of Learning Difficulties and Attention to Diversity
 - 1.7.1. Scientific Evidence of the Effects of Meditation on the Body, Brain and Interpersonal Relationships
 - 1.7.1.1. Neurological Effects: Structural, Biochemical and Functional in the Brain
 - 1.7.1.2. Psychological Effects
 - 1.7.1.3. Physical Effects
 - 1.7.2. Impact of Meditation Practice in Schoolchildren
 - 1.7.3. Impact of Meditation on Teacher's Modes of Action
 - 1.7.4. Impact of Meditation Practice in School Environment
- 1.8. Activities for the Integration of Knowledge and its Practical Application
- 1.9. Recommending Readings
- 1.10. Bibliography

Access key training that will help you advance your career"

05

Methodology

This training program offers a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH Education School we use the Case Method

In a given situation, what should a professional do? Throughout the program students will be presented with multiple simulated cases based on real situations, where they will have to investigate, establish hypotheses and, finally, resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method.

With TECH, educators can experience a learning methodology that is shaking the foundations of traditional universities around the world.

It is a technique that develops critical skills and prepares educators to make decisions, defend their arguments, and contrast opinions.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”

The effectiveness of the method is justified by four fundamental achievements:

1. Educators who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
2. The learning process is solidly focused on practical skills that allow educators to better integrate the knowledge into daily practice.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life teaching.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

Our University is the first in the world to combine case studies with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which represent a real revolution with respect to simply studying and analyzing cases.

Educators will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 85,000 educators with unprecedented success in all specialties. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialist educators who teach the course, specifically for the course, so that the teaching content is really specific and precise. These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Educational Techniques and Procedures on Video

TECH introduces students to the latest techniques, with the latest educational advances, and to the forefront of Education. All this, first-hand, with the maximum rigor, explained and detailed for your assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive multimedia content presentation training Exclusive system was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises: so that they can see how they are achieving your goals.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

06

Certificate

This Postgraduate Certificate in Management of Emerging Difficulties: Emerging Educational Alternatives guarantees, in addition to the most rigorous and up-to-date training, access to a Postgraduate Certificate issued by TECH Global University.

“

Successfully complete this training and receive your diploma without the hassle of travel or laborious paperwork"

This program will allow you to obtain your **Postgraduate Certificate in Management of Emerging Difficulties: Emerging Educational Alternatives** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

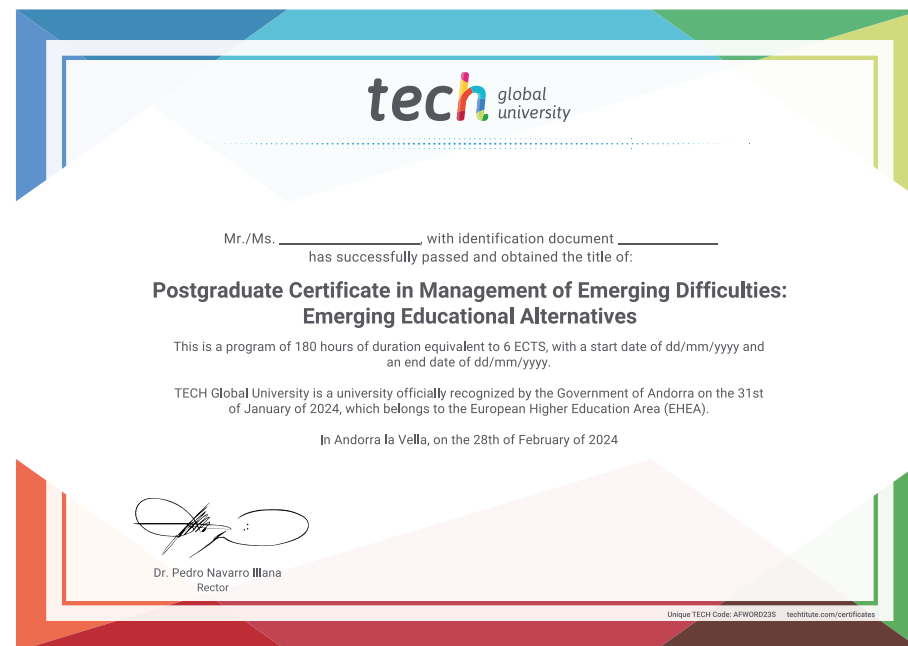

This **TECH Global University** title is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.
