01
Introduction

The current global landscape has brought about a resurgence in the renewal of faith. Teachers must establish a solid knowledge base on which people will learn to manage this new knowledge. The teacher will become a fundamental pillar and will provide knowledgeable criteria to guide the students in their faith and help them determine what they believe in and why. It is therefore essential to study the Old Testament in order to contextualize the Bible. To achieve this, the teacher must not only undergo a thorough program and obtain exhaustive knowledge, but must also transmit this information with the critical spirit and wisdom of a high-level specialist. With a novel, highly effective educational approach and presented in a 100% online modality, this program is positioned at the top of the current educational market.

tech

" You will develop a critical spirit and will be prepared to defend arguments and contrast opinions thanks to this exclusive program"

Within the different stages that frame the Catholic religion, the Old Testament provides a fundamental key to its understanding. The word "testament" comes from the Greek and means "covenant". Therefore, we refer to this new covenant made with Abraham and his family as the old one to differentiate it from the new one, which was the one led by Moses. In this way, it is difficult and unassertive to teach Catholic education without explaining the context and historical framework to the student. In this program, TECH has compiled all the stages that make up the Old Testament, explaining the history of the people of Israel and divine revelation, with exclusive content designed by professional experts in Christian Theology. In this way, the teacher will not only be able to respond to the demand of today's society to incorporate qualified professionals to their teaching centers in different cycles, but will also be qualified in depth and will be able to transmit to their students the Christian spirit and all that it entails.

Throughout this program designed by TECH together with a team of professionals versed in the subject, the teacher will take an enjoyable and dynamic teaching path in which delve into each of the stages that make up the Old Testament, as well as its application in today's educational landscape. In this way, and in only 6 weeks, the students will acquire the deepest knowledge and will be able to broaden their competencies with the knowledge that this unique program provides.

The Postgraduate Certificate in Old Testament and its Educational Approach is an excellent opportunity for teachers seeking career progression through 100% online teaching. With only a device with an Internet connection, you will be able to connect and consult the syllabus of the program from the moment of your enrollment, as well as a unique content to which you will have full access and which you will be able to download and consult once completed. In this way, without having to travel or set schedules, the students will be free to access the virtual classroom at any time and place, allowing them to adapt their program to the rest of their daily obligations.

This **Postgraduate Certificate in Old Testament and its Educational Approach** contains the most complete and up-to-date educational program on the market. The most important features include:

- The development of case studies presented by experts in the Old Testament and its Educational Approach

- The graphic, schematic, and practical contents with which they are created, provide practical information on the disciplines that are essential for professional practice

- Practical exercises where self-assessment can be used to improve learning

- Its special emphasis on innovative methodologies

- Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments

- Content that is accessible from any fixed or portable device with an Internet connection

"Once enrolled, you will be able to access the Virtual Classroom whenever and wherever you want to consult the complete syllabus from the first day"

"Enhance your communication skills with your students with the peace of mind and security that comes from having the most reliable knowledge"

Access the best library of high-quality multimedia content, with in-depth videos on the Old Testament prophets.

Discover the latest trends in the teaching of Catholic doctrine and improve the pedagogical processes with your students of different educational cycles.

The program includes, among its teachers, professionals from the sector who bring their work experience to this program, as well as renowned specialists from prestigious reference societies and universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the educational year. For this purpose, the students will be assisted by an innovative interactive video system created by renowned and experienced experts.
02
Objectives

The Postgraduate Certificate in Old Testament and its Educational Approach is oriented to the teacher specialized in Catholic religion. The students will improve their knowledge through the acquisition of new competences necessary for the development of specific religious teaching, knowing the new studies in the stages that compose the Old Testament, from a current teaching perspective with which they will be able to reach their students. In this way, this program offers a delve into the New Prophecies and the formation of the Pentateuch. At the end of this program, the graduates will have learned in a constant and natural way thanks to a simple methodology, which includes valuable multimedia content.

"

TECH's main objective is based on creating high-level professionals, capable of standing out in their profession thanks to unique resources that you can only find in this Postgraduate Certificate"

General Objective

- To delve into the field of teaching Catholic religion, in order to achieve educational and teaching skills in the religion classroom in the different school cycles

"Achieve your goals of being the most up-to-date teacher specialist in each of the stages that make up the Old Testament and gain the confidence that comes from mastering the subject you teach"

Specific Objectives

- Know part of the Holy Scriptures
- Discover God's revelation to the people of Israel
- Know the teaching of the apostles and the fathers of the Church
- Discover the Old Testament through the history of Israel

Structure and Content

Given the importance of teaching in today's teaching framework, the syllabus that TECH has designed for this program brings together all the fundamental aspects that a teacher must know. In this way, you will delve deeper into your knowledge of the Old Testament and how to pass it on through a contemporary educational approach. TECH uses the innovative Relearning methodology in all its programs, based on the reiteration of fundamental concepts throughout the program to achieve a natural and effective integration. In this way, thanks to the high quality complementary multimedia materials offered, such as simulated scenarios and case studies, the student will learn while practicing, offering a form of study away from traditional memorization and understanding, in each case, how to apply it to their teaching work. In only 6 weeks, the graduates will be able to achieve their objectives and perfect their professional skills thanks to this Postgraduate Certificate.

"

Take advantage of this unique opportunity to specialize in the Old Testament through the most complete and dynamic teaching course on the market today"

Module 1. Old Testament and its Educational Approach

The most complete and reliable contents converge with your vocation to become your best teacher"

04
Methodology

This training program offers a different way of learning. Our methodology uses a cyclical learning approach: **Relearning.**
This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.
> *Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"*

At TECH Education School we use the Case Method

In a given situation, what should a professional do? Throughout the program students will be presented with multiple simulated cases based on real situations, where they will have to investigate, establish hypotheses and, finally, resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method.

With TECH, educators can experience a learning methodology that is shaking the foundations of traditional universities around the world.

It is a technique that develops critical skills and prepares educators to make decisions, defend their arguments, and contrast opinions.

Scientific Evidence

Optimal Decision

European Guidelines

Educational Community

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method"

The effectiveness of the method is justified by four fundamental achievements:

1. Educators who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.

2. The learning process is solidly focused on practical skills that allow educators to better integrate the knowledge into daily practice.

3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life teaching.

4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

Our University is the first in the world to combine case studies with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which represent a real revolution with respect to simply studying and analyzing cases.

Educators will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

01 learning from evidence

02 relearning from evidence

03 testing

04 learning from an expert

05 neurocognitive context dependent learning

06 Von-Restorff effect

07 case based learning through storytelling

08 competencies testing (retesting)

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 85,000 educators with unprecedented success in all specialties. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialist educators who teach the course, specifically for the course, so that the teaching content is really specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Educational Techniques and Procedures on Video

TECH introduces students to the latest techniques, with the latest educational advances, and to the forefront of Education. All this, first-hand, with the maximum rigor, explained and detailed for your assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.
This exclusive multimedia content presentation training Exclusive system was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises: so that they can see how they are achieving your goals.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

05

Certificate

The Postgraduate Certificate in Old Testament and its Educational Approach guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork"

This **Postgraduate Certificate in Old Testament and its Educational Approach** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.
