Introduction

In education, the most important step that teachers can take is to maintain a broad and quality renewal in terms of methodologies and work systems that increase the quality of their performance. In this sense, educational centers and organizations benefit greatly from the work of advising educators, which, carried out by a specifically qualified professional, is a tool that makes this update more affordable for the whole team. This program will allow them to turn you into that person offering any educational company a profile of maximum interest.

“

A complete Postgraduate Certificate that will allow you to work as an educational consultant with the mastery of the most updated methodologies in teaching”

Education constantly incorporates educational innovations that mean for teachers and professionals in this field, opportunities for continuous improvement that result in higher quality in their work.

Knowing all the methodological advances that are coming to the sector is an effort that requires time and dedication: those that an active professional, sometimes, has difficulties to achieve. This niche of opportunity is the one that counseling for educators, as a professional practice, tries to cover.

This program is a complete training tool for professionals who wish to intervene in this field, with the most interesting new developments developed in a comprehensive and clear way, to enable students to incorporate the new methodologies.

Thanks to its high-impact learning structure, it will provide students with the necessary solvency to be able to effectively transmit this knowledge to other teachers.

A process of maximum interest for any professional that materializes in a practical way, the intentions of development, improvement and surpassing of the educational plans and the intervention of any center or institution.

This **Postgraduate Certificate in Teaching Methodologies and Educator Consulting** contains the most complete and up-to-date educational program on the market. The most important features include:

- ♦ Practical case studies presented by experts
- ♦ The graphic, schematic, and practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where the self-assessment process can be carried out to improve learning
- ♦ Its special emphasis on innovative methodologies

- ♦ Analyze the influence of creativity in teacher motivation and improvement
- ♦ Know and discuss alternative pedagogical theories
- ♦ Discuss the importance of the term community in schools
- ♦ Define the new challenges facing teaching practice
- ♦ Understand pedagogical accompaniment as a strategy to promote reflective practice

03

Structure and Content

With a comprehensive and fully updated syllabus, this program includes all the new developments that have arisen in the teaching sector. For this purpose, the most relevant and complete topics have been selected, with the most innovative and interesting methodologies of the moment. In an interesting way and with a constant and complete impact, it will allow professionals to grow from the first moment of the study.

“

Incorporate to your knowledge the new developments that educational research has contributed in the form of methodologies and prepare yourself to intervene as a consultant in educational centers”

Module 1. Teaching Methodologies and Educator Consulting

- 1.1. Pedagogical and Teaching Advice for the Improvement of the Educational Task
 - 1.1.1. Introduction to Pedagogical Counseling
 - 1.1.2. Strategies for Pedagogical Counseling
 - 1.1.3. Models and Types of Pedagogical Support
 - 1.1.4. Methodology of Accompaniment
 - 1.1.5. Professional Profile of the Pedagogical Advisors
- 1.2. Teaching as a Creative Process
 - 1.2.1. Notes on Creativity
 - 1.2.2. Strategies to Stimulate Creativity
 - 1.2.3. The Importance of Creativity in the Classroom
- 1.3. Educational Methodology: Ways to Vivify the Curriculum in the Classroom.
 - 1.3.1. Curriculum and Educational Achievement
 - 1.3.2. Curriculum Theory and Praxis
 - 1.3.3. Links between Teaching and Curriculum
- 1.4. Teaching as a Didactic Act
 - 1.4.1. Models of Didactic Acts
 - 1.4.2. Proposal of Didactic Act
 - 1.4.3. Analysis of the Components of the Didactic Act
 - 1.4.4. Communication and Interaction
- 1.5. Looking at Teaching from a Different Perspective: Alternative Pedagogies
 - 1.5.1. Questioning the Traditional Model
 - 1.5.2. Types of Alternative Pedagogies
 - 1.5.3. The Continuation of the School: Open Debate
- 1.6. Methods and Strategies for Active Learning
 - 1.6.1. Active Participation as a Key Concept: Introduction
 - 1.6.2. Traditional Teaching vs. Active Learning
 - 1.6.3. Resources and Strategies for Active Learning

- 1.7. Openness to the Community, Teaching in Relationship
 - 1.7.1. Environment and Medium
 - 1.7.2. Community-Centered School
 - 1.7.3. Learning Communities
 - 1.7.3. Theories about the Environment and Influence on Education
- 1.8. Teaching Methodologies and Educational Innovation
 - 1.8.1. Educational Innovation
 - 1.8.2. Active Methodologies
 - 1.8.3. Research in Educational Innovation
 - 1.8.4. Educational Innovation and ICT
- 1.9. Service Learning
 - 1.9.1. What Is Service Learning?
 - 1.9.2. Stages of Service Learning
 - 1.9.3. Service Learning Outcomes in Education
- 1.10. New Methodological and Counseling Challenges for Educators
 - 1.10.1. Discursive Practice in Complex Societies
 - 1.10.2. Challenges and Uncertainties in the School Context
 - 1.10.3. The New Role of the Teacher-Advisor

“*This exceptional quality syllabus is an invaluable tool for your professional development*”

04

Methodology

This training program offers a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH Education School we use the Case Method

In a given situation, what should a professional do? Throughout the program students will be presented with multiple simulated cases based on real situations, where they will have to investigate, establish hypotheses and, finally, resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method.

With TECH, educators can experience a learning methodology that is shaking the foundations of traditional universities around the world.

It is a technique that develops critical skills and prepares educators to make decisions, defend their arguments, and contrast opinions.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”

The effectiveness of the method is justified by four fundamental achievements:

1. Educators who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
2. The learning process is solidly focused on practical skills that allow educators to better integrate the knowledge into daily practice.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life teaching.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

Our University is the first in the world to combine case studies with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which represent a real revolution with respect to simply studying and analyzing cases.

Educators will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 85,000 educators with unprecedented success in all specialties. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialist educators who teach the course, specifically for the course, so that the teaching content is really specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Educational Techniques and Procedures on Video

TECH introduces students to the latest techniques, with the latest educational advances, and to the forefront of Education. All this, first-hand, with the maximum rigor, explained and detailed for your assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive multimedia content presentation training Exclusive system was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises: so that they can see how they are achieving your goals.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

05

Certificate

The Postgraduate Certificate in Teaching Methodologies and Educator Consulting guarantees, in addition to the most rigorous and updated training, access to a diploma issued by TECH Global University

“

*Successfully complete this program
and receive your university qualification
without having to travel or fill out
laborious paperwork”*

This program will allow you to obtain your **Certificate in Teaching Methodologies and Educator Consulting** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University, is an official European University publicly recognized by the Government of Andorra (*official bulletin*). Andorra is part of the European Higher Education Area (EHEA) since 2003.
