Introduction

The Classical Culture corresponds to the flourishing of the Greco-Roman culture, located in the Mediterranean basin and the coasts of the Near East. It is the time when Greek civilization reached its maximum artistic, philosophical, architectural and economic splendor and the development of the Hellenistic Period, during which its civilization spread throughout the East. Therefore, due to the relevance of this field of study, this program has been opened, which is oriented to the teaching professional by providing the most innovative and exclusive content regarding the development of a broad and specialized knowledge about the structures of government and social classes in Greece and Rome. This will be achieved with the support of didactic tools and the convenience of a 100% online pedagogical format.

“

This Postgraduate Certificate aims to provide you with material focused on the political institutions of Rome and the conception of government in Greece"

One of the main focuses is on the development of Roman culture in the Italian peninsula and its conquest of the Mediterranean region and the Near East. In this way, both civilizations constitute a fundamental antecedent of today's Western culture, since they created institutions, practices and ways of thinking that continued to influence European societies for centuries. That is why, according to the studies that are continually being developed with respect to the Classical Culture, the teacher today has improved the teaching systems in this area with the innovations and novelties that you will find in the most up-to-date specialized readings in the field.

In this way, research in this area has made progress, strengthening this field of study and making it clear that professionals in Classical Culture must give continuity to learning and updating in order to be at the forefront in this area of knowledge. In consequence, this Postgraduate Certificate will offer the professional the most recent developments related to the Teaching of Politics and Society in Classical Culture.

The professional will enhance their skills through the approach of aspects such as the understanding of the concept of citizenship in Antiquity and what it meant to be a citizen in Athens, Sparta and Rome, which has become a current object of study, where concepts such as science and Greco-Roman literature have been deepened. A program that integrates a specialized teaching staff along with a high quality multimedia content that offers ease of learning in the development of the program.

Also, TECH thinks about comfort and excellence, making the program focus on offering the most complete and highest standards update, making it a flexible program that requires only an electronic device with internet connection to easily access the virtual platform from the comfort of the place where you are.

The **Postgraduate Certificate in Teaching Politics and Society in Classical Culture** contains the most complete and up-to-date program the market.

Its most notable features are:

- ♦ Practical cases presented by experts in Humanities, Art History and Teaching
- ♦ The graphic, schematic, and practical contents with which they are created, provide practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where the self-assessment process can be carried out to improve learning.
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

With TECH you will gain the necessary skills to offer your students the most complete material on science in Greece and Rome"

“

If you want to be at the forefront of Politics and Society in Classical Culture, enroll now and become part of the TECH community”

In this Postgraduate Certificate you will enhance your knowledge related to the social classes in Greece and Rome through dozens of hours of the best educational material.

TECH provides you with the best technological tools with the highest standards, bringing out the best of you in the process of the educational program.

The program's teaching staff includes professionals in the field who contribute their work experience to this degree as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the academic year. For this purpose, the students will be assisted by an innovative interactive video system created by renowned and experienced experts.

02

Objectives

This Postgraduate Certificate in Teaching Politics and Society in Classical Culture has been created primarily to provide the expert with the most recent updates in the field of Classical Culture. In this way, TECH offers multiple tools of educational innovation, ensuring the successful development of the program. At the end of this program, students will have reinforced their knowledge of the characteristics and social significance of public performances in Greek and Roman theater.

“

TECH has for you the best didactic resources such as specialized reading and video summaries, facilitating your learning throughout the course of the program"

General Objectives

- ♦ General Objectives Introduce students to the world of teaching from a broad perspective that will prepare them for future work
- ♦ Favor knowledge acquisition of the contents of the subject of Latin and Classical Culture
- ♦ Acquire a responsible civic conscience for a more just society
- ♦ Identify facts, events and other factors born in the Greco-Latin civilization that have survived to this day

 - 1.7.5. Religious Life
 - 1.7.6. Significant Women Ancient Greece and Rome

“ *TECH is innovation and excellence: a place where you will have the opportunity to grow as a professional alongside the best* ”

05

Methodology

This training program offers a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH Education School we use the Case Method

In a given situation, what should a professional do? Throughout the program students will be presented with multiple simulated cases based on real situations, where they will have to investigate, establish hypotheses and, finally, resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method.

With TECH, educators can experience a learning methodology that is shaking the foundations of traditional universities around the world.

It is a technique that develops critical skills and prepares educators to make decisions, defend their arguments, and contrast opinions.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”

The effectiveness of the method is justified by four fundamental achievements:

1. Educators who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
2. The learning process is solidly focused on practical skills that allow educators to better integrate the knowledge into daily practice.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life teaching.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

Our University is the first in the world to combine case studies with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which represent a real revolution with respect to simply studying and analyzing cases.

Educators will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 85,000 educators with unprecedented success in all specialties. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialist educators who teach the course, specifically for the course, so that the teaching content is really specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Educational Techniques and Procedures on Video

TECH introduces students to the latest techniques, with the latest educational advances, and to the forefront of Education. All this, first-hand, with the maximum rigor, explained and detailed for your assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive multimedia content presentation training Exclusive system was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises: so that they can see how they are achieving your goals.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

06

Certificate

The Postgraduate Certificate in Teaching Politics and Society in Classical Culture guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork"

The **Postgraduate Certificate in Teaching Politics and Society in Classical Culture** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via **tracked delivery***.

The diploma issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations and professional career evaluation committees.

Title: **Postgraduate Certificate in Teaching Politics and Society in Classical Culture**

Official N° of Hours: **150 h.**

*Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
