01

Introduction

Leadership and politics, applied to the dynamics of group management in teaching, find an extraordinary impulse in neurosciences. From a scientific perspective, supported by medical advances, the brain reveals the key mechanisms and structures of emotional information processing that act on decision making. An innovative and enlightening vision that will soon become a must for all professionals in the teaching sector.

“

Innovative techniques of neuromarketing and neuroeconomics applied to teaching through a new vision of teaching"

This Postgraduate Diploma in Neuroleadership and Neuropolitics offers a broad and complete vision of the complex world of neurosciences from an applied perspective. Starting from the biological bases and the techniques of Neuro-Imaging, the different practical approaches existing in this discipline are collected.

In this program, the teaching professional will learn to understand and interpret neurosciences in order to apply them to their teaching experience.

During the training, two types of neuropsychological programs will be dealt with: the eminently biological ones focused on the neuronal bases and genetics of the brain, and the exclusively clinical programs, where the problems associated with pathologies affecting the brain and neurodegenerative diseases are studied in depth. This double vision allows a better understanding of the functioning of neurosciences from different fields, so that the professional can have different options for its application.

This Postgraduate Diploma addresses the new branches of neuroscience that are currently under development, both theoretical and applied, Neuro-Marketing and Neuro-Education, and introduces the new branches that in a few years will be demanded by different sectors, such as Neuro-Economics or Neuro-Leadership. These insurgent areas have not yet been included in the usual educational programs which makes this program a unique training opportunity that will prepare you in a very unique way.

Students will have access to the latest advances in neurosciences with the most complete theoretical contents and through a developed learning system supported by practice. Thus, at the end of their specialization, they will be able to apply everything they have learned in their work.

A complete program in which you will acquire extensive theoretical and practical knowledge that will improve your skills in the performance of your position.

This **Postgraduate Diploma in Neuroleadership and Neuropolitics**, contains the most complete and up-to-date program on the market. The most important features include:

- ♦ More than 75 practical cases presented by experts in neurosciences for teachers
- ♦ The graphic, schematic, and eminently practical contents with which they are created provide scientific and practical information on the disciplines that are essential for professional practice
- ♦ New developments in Neurosciences for teachers
- ♦ Practical exercises where the self-evaluation process can be carried out to improve learning
- ♦ With special emphasis on innovative methodologies in Neurosciences for teachers
- ♦ All of this will be complemented by theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Availability of content from any device, fixed or portable, with an Internet connection

Decision-making processes analyzed from the neurological structure: the key to understanding and leadership"

“

With the teaching application of neurosciences you will be able to advance in the integral conception of the student, in a high quality teaching style"

A high-intensity program designed to push the intervention of the teaching staff to another, broader and more innovative level.

This convenient and complete Postgraduate Diploma, which will allow you to access its contents from anywhere and at any time.

This Postgraduate Diploma is taught by professionals with extensive experience in the field of neurosciences for teachers, as well as recognized specialists in this area, belonging to reference societies and prestigious universities.

Thanks to its multimedia content, developed with the latest educational technology, the professional will enjoy situated and contextual learning. In other words, a simulated environment that will provide immersive learning, programmed to train you for real situations.

The design of this program is based on Problem-Based Learning, through which the student must try to solve different professional practice situations. This will be done with the help of an innovative interactive video system, one of the most advanced in the educational market.

02 Objectives

This program was created to train teachers in the application of neurosciences in the development of their work in the classroom, incorporating new forms of approach to their task as education. A high-level qualitative leap that will allow you to be at the forefront of education.

“

Obtain a Postgraduate Diploma in Neuroleadership and Neuropolitics and put yourself at the forefront of other professionals in the sector with the most advanced tools in this field"

General Objectives

- ♦ Update the knowledge on Neurosciences in their different fields of application, from the clinical, educational or social area
- ♦ Increase the quality of the teaching professional's praxis in their performance
- ♦ Introduce the teacher to the vast world of neurosciences from a practical perspective
- ♦ Know the different disciplines involved in the study of the brain in relation to human behavior and its possibilities
- ♦ Learn to use the tools used in Neuroscience research and practice
- ♦ Develop skills and abilities in emotional development in the classroom
- ♦ Direct the student towards continuing training and research

Specific Objectives

- ♦ Learn the training of the nervous system
- ♦ Understand the types of neurons
- ♦ Identify brain hemispheres and lobes
- ♦ Differentiate between localizationism and brain functionalism
- ♦ Discover the undifferentiated neurons
- ♦ Understand programmed neural death
- ♦ Recognise interneuronal electrical communication
- ♦ Determine the role of myelin in neurons
- ♦ Understand interneuronal chemical communication
- ♦ Classify neurohormones and their functions
- ♦ Differentiate between age and neuronal plasticity
- ♦ Discover neuronal development
- ♦ Learn the peculiarities of the human brain
- ♦ Unravel the left brain
- ♦ Explore the white matter
- ♦ Recognize gender differences at the neural level
- ♦ Classify hemispheric functions
- ♦ Discover the new localizationism
- ♦ Understand invasive techniques
- ♦ Recognize non-invasive techniques
- ♦ Discover the Papez circuit
- ♦ Explore the limbic brain
- ♦ Analyze the amygdala and positive emotion
- ♦ Understand the function of the amygdala and negative emotion
- ♦ Recognize the intensity of emotion
- ♦ Determine the affective value of emotion

The most advanced online teacher training on the market. Learn about leadership and politics from a neuropsychological approach created specifically for teachers"

03

Course Management

The management and development of the program will be carried out with the most qualified professors in this area, in a multidisciplinary approach: Leading experts in the field of neurosciences at the service of the best online training. Throughout the six months of specialization and through a high-tech communication system, you will be able to access tutoring and guidance from your faculty at all times. With the confidence of counting on the best.

“

The best experts in Neuroleadership and Neuropolitics, at your fingertips in online training of the highest quality in the educational market"

Management

Dr. De la Serna, Juan Moisés

- ◆ PhD in Psychology and Professional Master's Degree in Neurosciences and Behavioral Biology
- ◆ Author of the Cátedra Abierta de Psicología y Neurociencias and scientific disseminator

Dr. Jiménez Romero, Yolanda

- ◆ Educational psychologist
- ◆ Primary School Teacher with a specialization in English
- ◆ Educational psychologist
- ◆ Master's Degree in Neuropsychology of High Abilities
- ◆ Master's Degree in Emotional Intelligence
- ◆ Neurolinguistic Programming Practitioner

Professors

Dr. Pellicer Royo, Irene

- ♦ Physical Education Teacher at Fundació Jesuïtes Educació
- ♦ Degree in Sciences of Physical Activity and Sport, University of Lleida
- ♦ Master's Degree in Medical Sciences applied to Physical Activity and Sport, University of Lleida
- ♦ Master's Degree in Emotional Education and Well-being, University of Barcelona
- ♦ Postgraduate in Neuroeducation. Learning with all our potential, University of Barcelona

“

Discover the mechanisms that control and drive decision making and emotions from a neuropsychological point of view and get the resources you need to take advantage of them in just six months of high-level training”

04

Structure and Content

The structure of the contents in this Postgraduate Diploma in Neuroleadership and Neuropolitics has been designed by a team of professionals from the best educational centers and universities in Spain. Through the incorporation, as a priority, of new information and communication technologies, this program is an example of innovative training, of total and permanent relevance.

“

The most complete and advanced training program on the market, with specific contents, aimed at guaranteeing the best online learning results"

Module 1. Basis of Neurosciences

- 1.1. The Nervous System and Neurons
 - 1.1.1. Formation of the Nervous System
 - 1.1.2. Types of Neurons
- 1.2. Neurobiological Foundations of the Brain
 - 1.2.1. Brain Hemispheres and Lobes
 - 1.2.2. Localizationism vs Functionalism
- 1.3. Genetics and Neural Development
 - 1.3.1. Undifferentiated Neurons
 - 1.3.2. Programmed Neural Death
- 1.4. Myelination
 - 1.4.1. Inter-Neuronal Electrical Communication
 - 1.4.2. The Role of Myelin in Neurons
- 1.5. The Brains Neurochemistry
 - 1.5.1. Interneuronal Chemical Communication
 - 1.5.2. Neurohormones and Their Functions
- 1.6. Plasticity and Brain Development
 - 1.6.1. Age vs Neuronal Plasticity
 - 1.6.2. Neuronal Development
- 1.7. Hemispheric Differences
 - 1.7.1. Right Brain
 - 1.7.2. Left Brain
- 1.8. Interhemispheric Connectivity
 - 1.8.1. The White Matter
 - 1.8.2. Differences Between Genders
- 1.9. Localizationism vs Functionalism
 - 1.9.1. Hemispheric Functions
 - 1.9.2. New Localizationism
- 1.10. Invasive vs Non-Invasive Techniques for Studying the Brain
 - 1.10.1. Invasive Techniques
 - 1.10.2. Non-Invasive Techniques

Module 2. Neuromarketing

- 2.1. The Brain Faced With Decisions
 - 2.1.1. Single or Multiple Choices
 - 2.1.2. The Neural Learning of Choices
- 2.2. Pleasure vs. Surprise
 - 2.2.1. The Brain Faced With Pleasure
 - 2.2.2. The Brain Faced With Surprise
- 2.3. The Consumers Brain
 - 2.3.1. Decisions and Choices on a Neural Level
 - 2.3.2. Consumption as the Purpose of Choosing
- 2.4. The Ages of the Brain
 - 2.4.1. Children's Brain and Choices
 - 2.4.2. Adult Brain and Choices
- 2.5. Male Brain Vs. Female Brain
 - 2.5.1. Male Brain and Choices
 - 2.5.2. Female Brain and Choices
- 2.6. Mirror Neurons and Social Behavior
 - 2.6.1. The Relevance of Mirror Neurons in Marketing
 - 2.6.2. Social and Pro-Social Behavior in Marketing
- 2.7. Learning and Memory
 - 2.7.1. Learning Decisions
 - 2.7.2. Remembering and Forgetting Decisions
- 2.8. Techniques for Evaluating Neuro-Marketing
 - 2.8.1. Invasive Neural Techniques
 - 2.8.2. Non-Invasive Neural Techniques
- 2.9. Successes and Failures of Neuro-Marketing
 - 2.9.1. Applied Cases of Neuro-Marketing
 - 2.9.2. Results of Neuro-Marketing
- 2.10. Sales Techniques vs. Neuro-Marketing
 - 2.10.1. Sales Technology and the Brain
 - 2.10.2. Neuro-Marketing and Sales

Module 3. The Neuroeconomy

- 3.1. The Economic Brain
 - 3.1.1. Numbers and the Brain
 - 3.1.2. Mathematics and the Brain
- 3.2. Neural Foundations of Calculation Errors
 - 3.2.1. Simple Vs Complex Calculations. Complexity
 - 3.2.2. Common Mathematical Mistakes
- 3.3. Development of the Mathematical Brain
 - 3.3.1. Language vs. Mathematics on a Cerebral Level
 - 3.3.2. Mathematical Development
- 3.4. Mathematics vs. Intelligence
 - 3.4.1. Intelligence and Mathematics
 - 3.4.2. Multiple and Mathematical Intelligences
- 3.5. Trends and Fads at the Neural Level
 - 3.5.1. Implicit Theories Vs. Explicit Trend Indicators
 - 3.5.2. Fashion and Neural Idiom
- 3.6. Risk Assumption Vs. Conservation
 - 3.6.1. Personality and Risk
 - 3.6.2. The Brain and Risk
- 3.7. Mathematical Biases
 - 3.7.1. The Basic Biases of Mathematics
 - 3.7.2. The Complex Biases of Mathematics
- 3.8. Emotions Vs. Economy
 - 3.8.1. Positive Neural Emotions and the Economy
 - 3.8.2. Negative Neural Emotions and the Economy
- 3.9. Economic Success and Failure
 - 3.9.1. Economic Success on a Neural Level
 - 3.9.2. Economic Failure on a Neural Level
- 3.10. Economic Psychopathology
 - 3.10.1. Clinical and Economic Psychology
 - 3.10.2. Personality and the Economy

05

Methodology

This training program offers a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

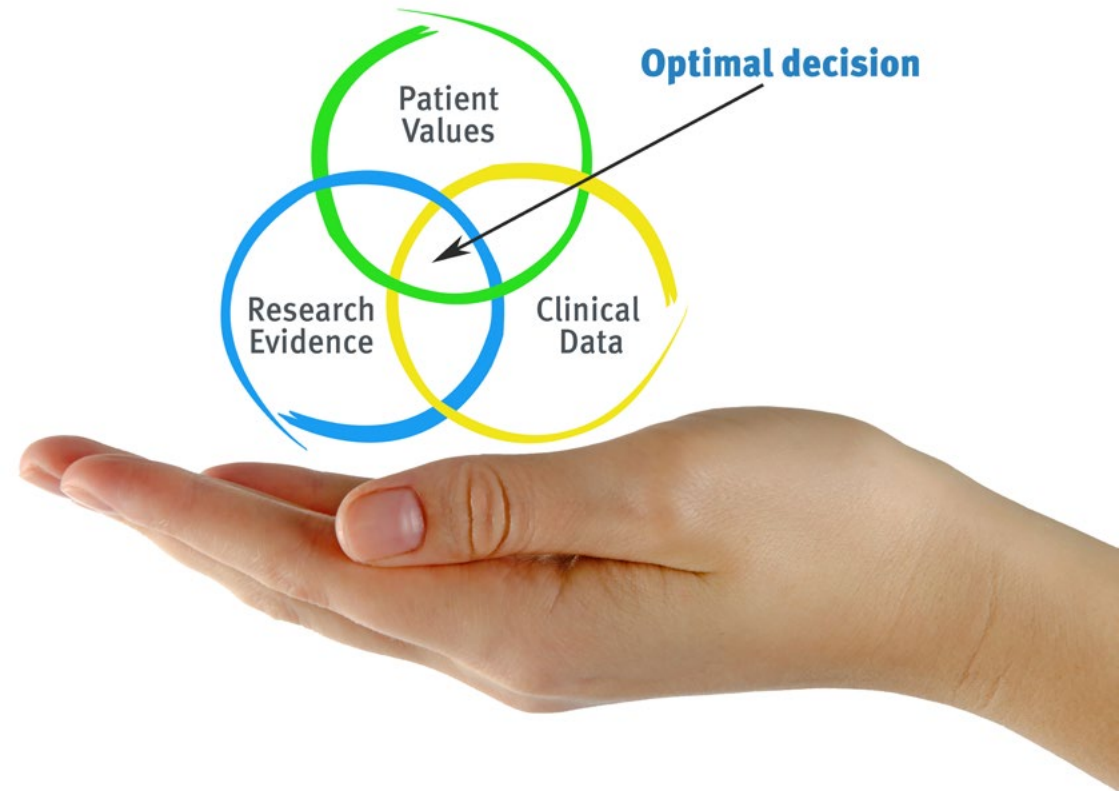

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH Education School we use the Case Method

In a given situation, what should a professional do? Throughout the program students will be presented with multiple simulated cases based on real situations, where they will have to investigate, establish hypotheses and, finally, resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method.

With TECH, educators can experience a learning methodology that is shaking the foundations of traditional universities around the world.

It is a technique that develops critical skills and prepares educators to make decisions, defend their arguments, and contrast opinions.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method.

The effectiveness of the method is justified by four fundamental achievements:

1. Educators who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
2. The learning process is solidly focused on practical skills that allow educators to better integrate the knowledge into daily practice.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life teaching.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the Harvard case method with the best 100% online teaching methodology available: Relearning.

Our University is the first in the world to combine case studies with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which represent a real revolution with respect to simply studying and analyzing cases.

Educators will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 85,000 educators with unprecedented success in all specialties. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialist educators who teach the course, specifically for the course, so that the teaching content is really specific and precise. These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Educational Techniques and Procedures on Video

TECH introduces students to the latest techniques, with the latest educational advances, and to the forefront of Education. All this, first-hand, with the maximum rigor, explained and detailed for your assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive multimedia content presentation training Exclusive system was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises: so that they can see how they are achieving your goals.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

06

Certificate

The Postgraduate Diploma in Neuroleadership and Neuropolitics guarantees, in addition to the most rigorous and update training, access to a Postgraduate Diploma issued by TECH Technological University.

“

*Successfully complete this training
and receive your university degree
without travel or laborious paperwork”*

This **Postgraduate Diploma in Neuroleadership and Neuropolitics**, contains the most complete and updated program on the market.

After the student has passed the evaluations, they will receive their corresponding **Postgraduate Diploma** issued by **TECH Technological University** by tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Diploma, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Diploma in Neuroleadership and Neuropolitics**

Official N° of hours: **450 h.**

*Apostille Convention. In the event that the student wishes to have their paper certificate issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
