Introduction

The Bible is the sacred text of Christianity in which the principles and bases of this religion are contained. In this way, its understanding, its correct interpretation and its adaptation to the present day is essential so that those involved in its dissemination in the educational field can reliably transmit its values to the youngest. This is why TECH has promoted the creation of this program, with which the student will identify the particularities of the different Bibles according to their language or master the meaning and significance of the same in today's cultures. In addition, you will achieve this through a 100% online methodology that will allow you to learn without having to travel to a study center.

Through this program, you will identify the meaning and significance of the Bible in different current cultural contexts"

The Bible, despite being the book par excellence of Christianity, dates from such a distant date of creation that many of its precepts are outdated with respect to the evolution of today's society. In this sense, it has received numerous criticisms even from within the Church itself given the limited applicability of various ideas, calling for an openness in thinking and interpretation towards the way of seeing the world today. In view of this circumstance, those responsible for studying the texts pertaining to it or for transmitting the Catholic Religion in educational centers must master the cutting-edge meaning of The Bible in order to successfully disseminate its values.

For this reason, TECH has designed this Postgraduate Certificate, through which the student will learn the most relevant points of the Bible, as well as identify and understand the context of its texts and ideas today. Throughout this educational period, you will delve into the currents of research that reject the idea that the Bible has not undergone any kind of change or delve into the critical movements regarding the content of this text within the Church itself. You will also master the semiotic analysis and the most cutting-edge methods of interpreting the Bible or the truth of the biblical text.

Since this program is developed through a completely online mode of delivery, the student will perfectly combine an exquisite learning with their personal and professional duties. In addition, you will have at your disposal didactic materials elaborated by the best experts in the field of Education and Catholic Religion, so that all the knowledge you will assimilate will be fully applicable in your working life.

This **Postgraduate Certificate in The Bible and Its Context** contains the most complete and up-to-date program on the market. The most important features include:

- The development of case studies presented by experts in Catholic Education
- The graphic, schematic, and practical contents with which they are created, provide practical information on the disciplines that are essential for professional practice
- Practical exercises where the process of self-assessment can be used to improve learning
- Its special emphasis on innovative methodologies
- Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection work
- Content that is accessible from any fixed or portable device with an Internet connection
- Features of the presentation

Learn, through this program, how to use the most sophisticated methods of interpreting the Bible to convey its meaning in an accurate way"

The modern Relearning system offered by this program will allow you to learn at your own pace from anywhere"

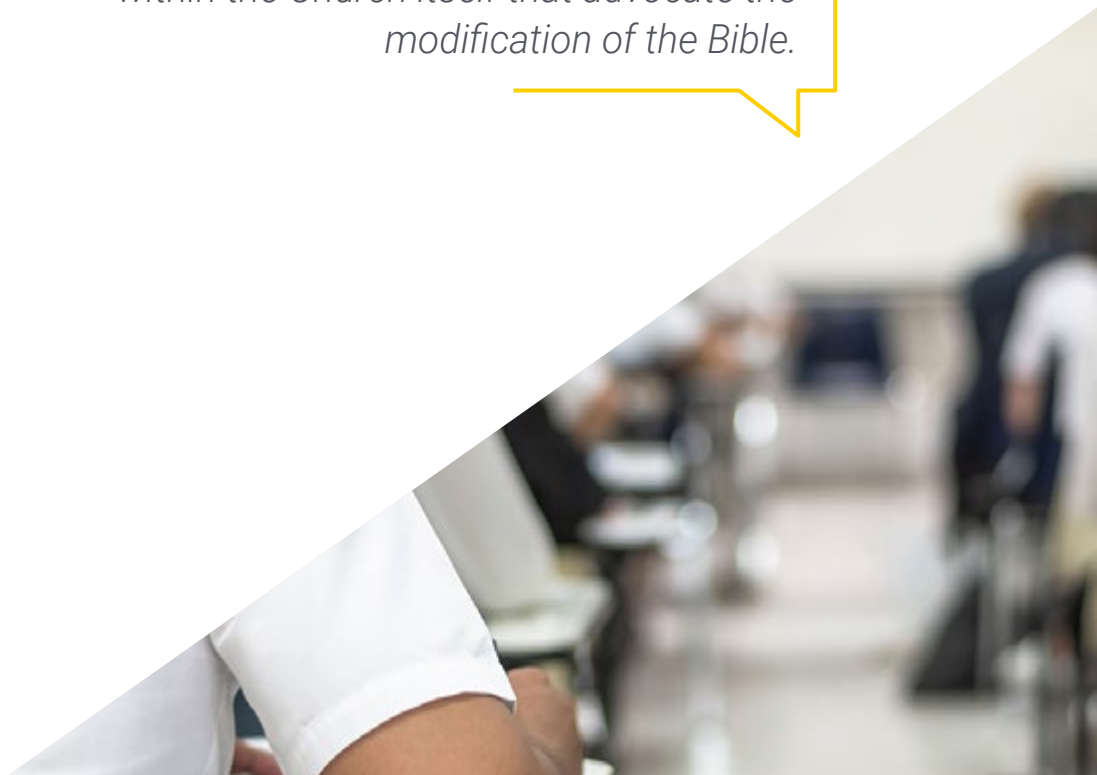
Combine your personal tasks with your excellent learning thanks to the study facilities offered by this Postgraduate Certificate.

Throughout this program, you will delve into the critical biblical currents produced within the Church itself that advocate the modification of the Bible.

The program's teaching staff includes professionals from the industry who contribute their work experience to this program, as well as renowned specialists from leading societies and prestigious universities.

Its multimedia content, developed with the latest educational technology, will allow the professional a situated and contextual learning, that is, a simulated environment that will provide an immersive training programmed to train in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the educational year. For this purpose, it will be assisted by an innovative system of interactive videos made by renowned experts.



02

Objectives

TECH has created the Postgraduate Certificate in The Bible and its Context with the intention of favoring the acquisition of the most relevant knowledge in this subject by the student. In this way, it will review its meaning throughout history up to the current situation. All of this, ensuring the fulfillment of the following general and specific objectives of this program.

Increase your professional competencies in the transmission of the meaning of the Bible through this Postgraduate Certificate"

General Objectives

- Delve into the field of teaching Catholic Religion, in order to achieve educational and teaching skills in the religion classroom in the different school cycles

Specific Objectives

- Know the Bible
- Addres the cultural and religious influence of the Bible
- Understand the value of the Bible as a literary work
- Understand and know the influence of cultures in the configuration of the Bible
- Understand biblical thought
- Analyze historical contexts

Once you have completed this Postgraduate Certificate, you will have a series of knowledge that will multiply your professional opportunities linked to religious teaching"

04

Structure and Content

The syllabus of this program has been designed with the intention of providing the student with the most advanced knowledge in the interpretation of the Bible and its adaptation to the current context. All the didactic materials you will have at your disposal throughout this educational program are available in a wide range of different textual and multimedia formats. In this way, the students will obtain a learning process that completely adapts to all their study preferences.

This syllabus is designed by the best experts in Catholic Education to provide you with the most professionally applicable content in this field"

Module 1. The Bible and Its Context

1.1. History
- 1.1.1. Bible Writing
- 1.1.2. Bible Constitution
- 1.1.3. What Is the Bible for Christians?
- 1.1.4. Old and New Testament

1.2. Structure
- 1.2.1. Parts of the Bible
- 1.2.2. The Hebrew Bible
- 1.2.3. The Jewish Bible
- 1.2.4. The Christian Bible

1.3. Biblical Canons
- 1.3.1. What Does Canon Mean?
- 1.3.2. Books that Compose the Bible

1.4. The Christian Bible in History
- 1.4.1. The Judaism of the Second Temple Galilee and Judea
- 1.4.2. The Historical Figure of Jesus in the Judaism of the Second Temple
- 1.4.3. The Literary Impact on the First Generation
- 1.4.4. The Literary Impact on the Second Generation

1.5. Bible Integrity
- 1.5.1. The Nicene Creed
- 1.5.2. Findings that Reject the Idea that the Bible has Not Undergone Changes

1.6. Archaeology
- 1.6.1. What Is Biblical Archaeology?
- 1.6.2. The Historical Testimony
- 1.6.3. Events Corroborated by Archaeology

1.7. Biblical Criticism
- 1.7.1. What Is Biblical Criticism?
- 1.7.2. Criticism of the Old Testament
- 1.7.3. New Testament Criticism
- 1.7.4. The Synoptic Gospels
- 1.7.5. The Critical Movement within the Church
- 1.7.6. The Reaction Against Criticism

1.8. The Bible and the Different Languages
- 1.8.1. The Hebrew Bible
- 1.8.2. The Greek Bible
- 1.8.3. The Latin Bible
- 1.8.4. Bible Translations

1.9. The Bible in Today's Cultures
- 1.9.1. The Meanings of the Bible The Biblical Interpretation in the Christianity of the Antiquity
- 1.9.2. Uses and Abuses of the Biblical Interpretation Until the. Century. 19th Century
- 1.9.3. Theory of the Reading and the Meaning of the Texts (Semiotic Analysis and Bible Interpretation)
- 1.9.4. Meaning and Truth of the Biblical Text
- 1.9.5. Symbolic Hermeneutics and the Bible: Universal Symbols and Archetypes in the Biblical Texts
- 1.9.6. The Bible in Literature and The Bible in the Cinema

1.10. The Land of the Bible
- 1.10.1. Fundamental Features of the Physical Geography of the Syro-Palestinian Region
- 1.10.2. Fundamental Features of the Human Geography of the Area in the Different Historical Periods
- 1.10.3. History of the Archaeological Discipline of the Region
- 1.10.4. Main Archaeological Sites and their Contribution to the History of the Region as a Contextual Framework for the Understanding of the Biblical Text
- 1.10.5. Travel and Pilgrimage in Antiquity. Ancient Testimonies of Early Travelers and Other Authors

Study through convenient textual and multimedia formats tailored to your educational and personal needs when you enroll in this program"

05

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning.**

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

> *Our program prepares you to face new challenges in uncertain environments and achieve success in your career"*

The case method has been the most widely used learning system among the world's leading Humanities schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

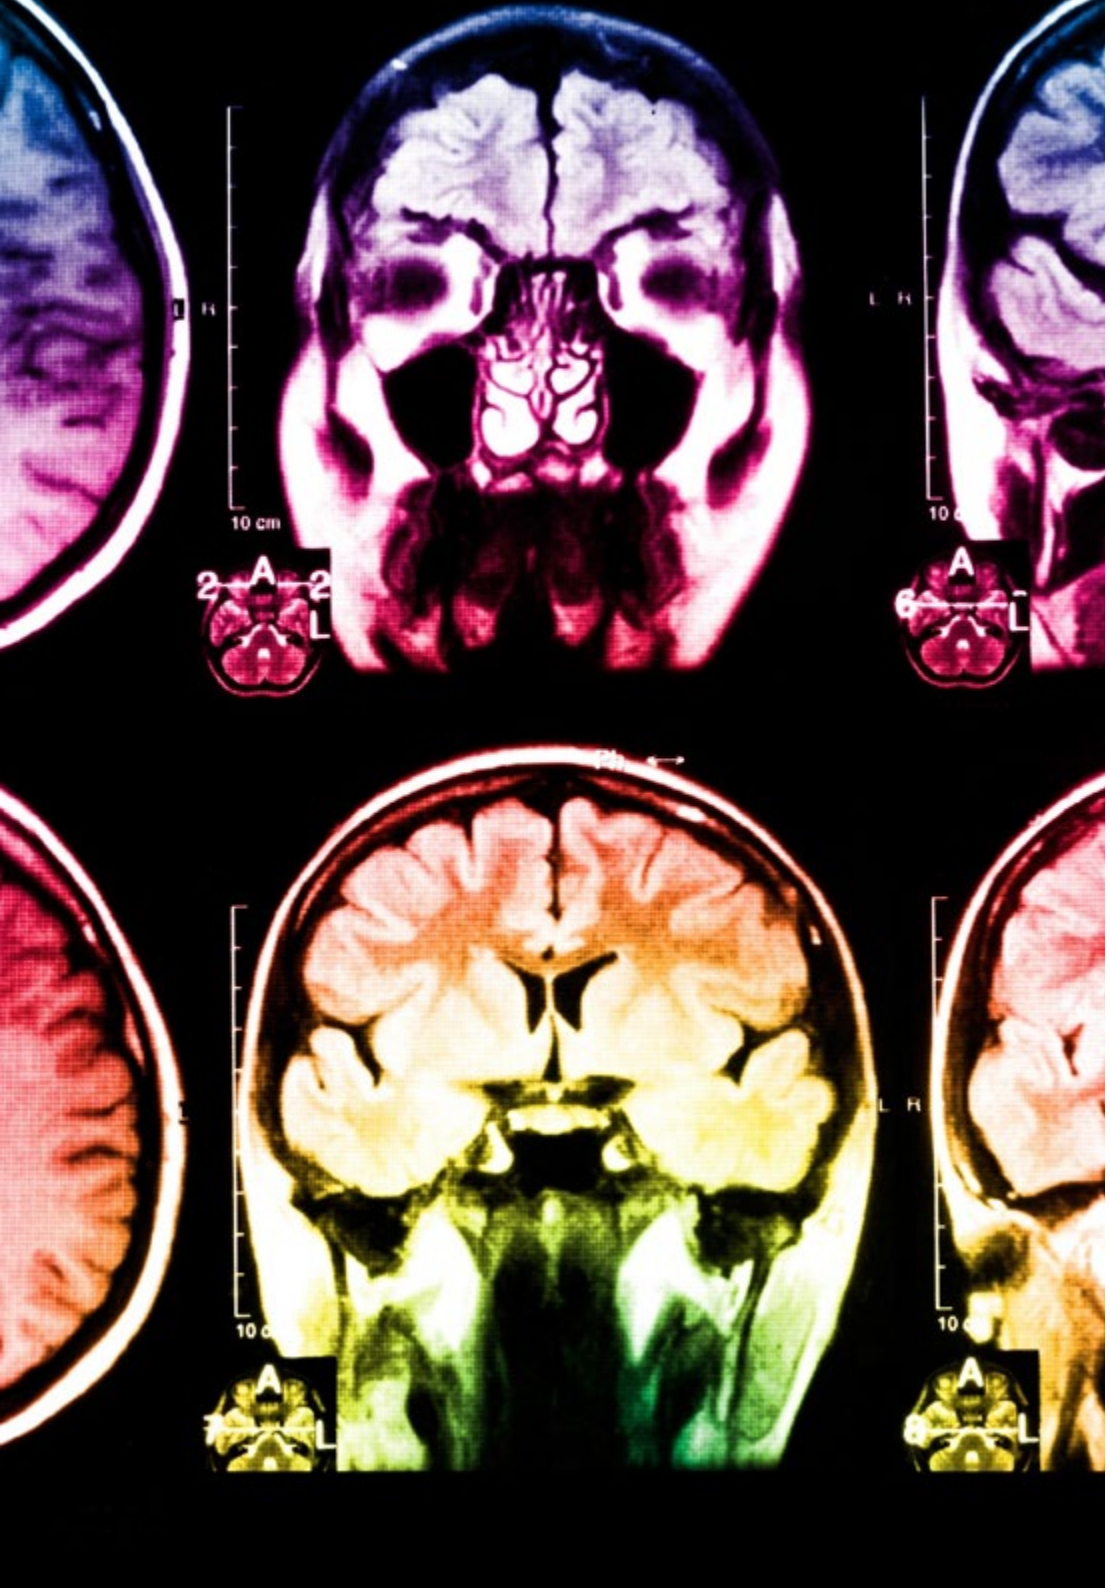
TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.



In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

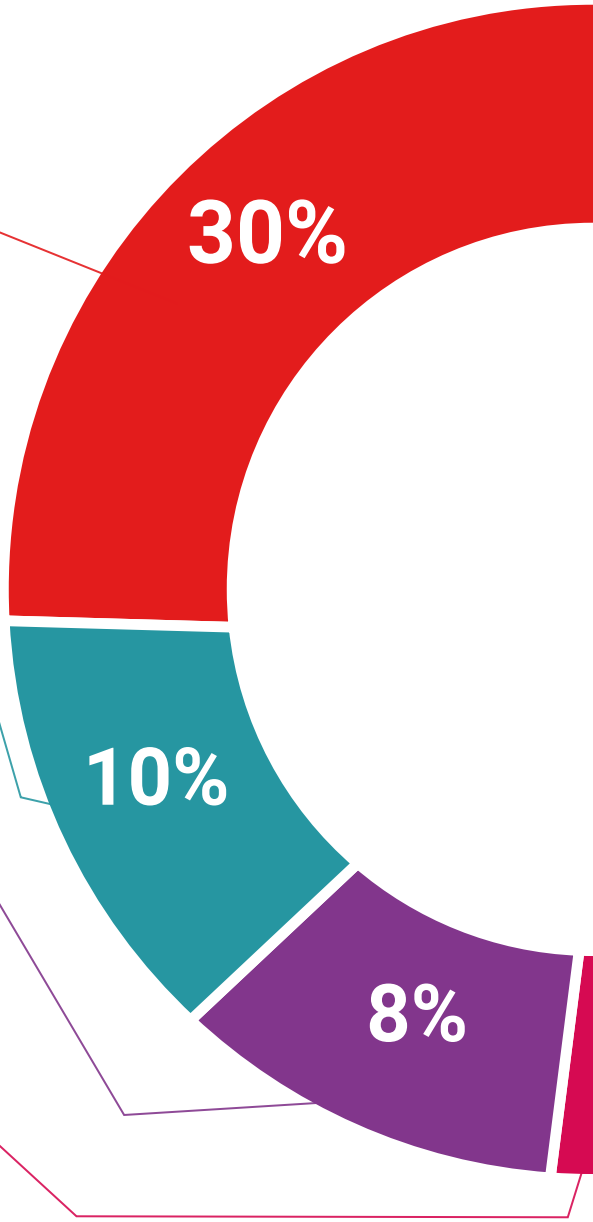
Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

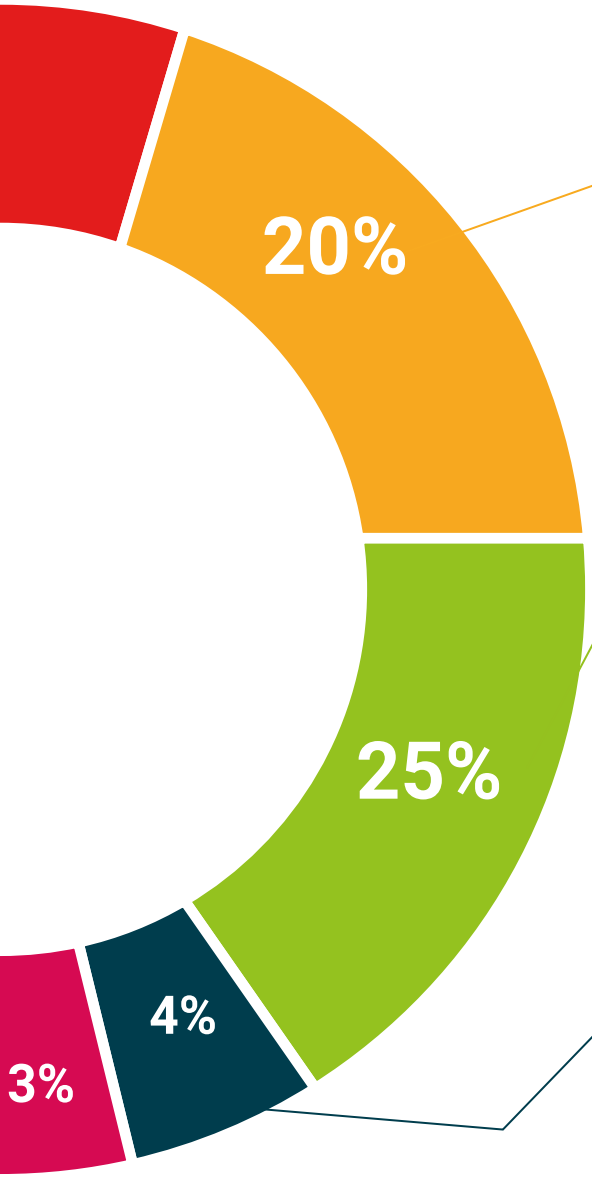
Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.





Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

06

Certificate

The Postgraduate Certificate in The Bible and Its Context guarantees, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Global University.

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork"

This program will allow you to obtain your **Postgraduate Certificate in The Bible and Its Context** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University is an official European University publicly recognized by the Government of Andorra (***official bulletin***). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University** title is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.

Title: **Postgraduate Certificate in The Bible and Its Context**
