Introduction

Worship of the figure of Jesus Christ or thoughts about the processes that take place after death are two essential assets to explain the beliefs of Christianity. Its relevance has made the mastery of Christology and Eschatology fundamental for philosophers to be able to give a reasoned response to the questions that arise in relation to these topics. Given this context, TECH has created this program, through which the student will delve into the idea of the existence of life beyond death or establish the keys to the Historical-Dogmatic Christology. In a 100% online way, you will be able to complete your learning without depending on tight schedules.

“

The Postgraduate Certificate in Christology and Eschatology will enable you to learn about the different aspects related to the existence of life after death"

Eschatology is an essential discipline in the field of Christianity, since it is responsible for studying, from a theological point of view, what happens after the death of an individual. On the other hand, Christology, a branch responsible for analyzing the figure of Jesus Christ and his contributions to ensure the welfare of people, has a similar relevance. The high transcendence of these areas of Theology in the meaning of Christian beliefs highlights the importance of having a broad knowledge in these fields on the part of the philosopher to explain with solvency the circumstances that surround Religion and the human being.

That is why TECH has designed this program, with which the students will acquire the most relevant and up-to-date peculiarities regarding Christology and Eschatology in order to improve their professional performance. During 150 intensive hours of learning, you will delve deeply into the field of Systematic Christology, identifying the role of Jesus Christ in salvation or his figure as true man and true God. In the same way, students will analyze the vision of Eschatology in the New and Old Testament or detect the position of the Church regarding the existence of life after death.

All this, following a 100% online teaching methodology that will allow the student to make their own study schedules to obtain an effective teaching. Likewise, you will have at your disposal teaching contents expressly elaborated by the best experts who actively work in different fields related to Catholic Religion, so that all the knowledge you will assimilate will be fully and constantly up-to-date.

This **Postgraduate Certificate in Christology and Eschatology** contains the most complete and up-to-date educational program on the market. The most important features include:

- ♦ The development of case studies presented by experts in Catholic Education
- ♦ The graphic, schematic, and practical contents with which they are created, provide practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where self-assessment can be used to improve learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

It detects, by means of this program, all the contributions made by Jesus Christ to guarantee the salvation of believing man, according to the beliefs of Christianity"

“

*Thanks to the study facilities
TECH offers you, you will be able
to combine your excellent learning
with your personal life"*

The program's teaching staff includes professionals from the field who contribute their work experience to this educational program, as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the educational year. For this purpose, the students will be assisted by an innovative interactive video system created by renowned and experienced experts.

*It enjoys a program developed
through a 100% online methodology
to learn at any time and place.*

*Get to know the keys to Christology
from a Historical-Dogmatic and
systematic perspective through this
Postgraduate Certificate.*

02 Objectives

This Postgraduate Certificate has been designed to provide students with the most up-to-date and relevant knowledge in the field of Christology and Eschatology. During this educational program, you will identify the particularities of the different branches existing in both disciplines, preserving an excellent learning through the achievement of the following general and specific objectives that TECH has created specifically for this program.

“

Grow professionally in the field of Christology and Eschatology through this program that TECH makes available to you"

General Objective

- Delve into the field of teaching Catholic Religion, in order to achieve educational and teaching skills in the religion classroom in the different school cycles

“

Get the tools you need to perfect your skills and competencies in Christology and Eschatology in only 150 hours”

Specific Objectives

- ♦ Acquire an awareness of the idiosyncrasies of christian Eschatology
- ♦ Know the fundamental data of the ES and Tradition on Eschatology
- ♦ Identify what are the hot topics in Eschatology of all times
- ♦ Adopt a critical, rigorous, up-to-date and contextualized knowledge of the fundamental theological categories of Christology
- ♦ Assimilate a high level of knowledge of the Christological dogmas, as well as of the historical context in which they were formulated
- ♦ Detect the most significant Christological Issues

03

Structure and Content

The syllabus of this Postgraduate Certificate is composed of 1 module through which the student will adopt the most advanced knowledge in Christology and Eschatology in only 6 weeks. Furthermore, the teaching contents available throughout this educational experience are available in a wide range of textual and multimedia media, which are widely varied. With this, and by means of a 100% online methodology, you will acquire a resolute and completely accessible education 24 hours a day.

“

The cutting-edge Relearning system provided by this TECH program will favor customized learning without external conditioning factors"

Module 1. Christology and Eschatology

- 1.1. Waiting for the Savior
 - 1.1.1. Sources for the Historical Study of Jesus
 - 1.1.2. On the Historicity of the Gospels

 - 1.2.1. Jesus in Christology Origins
 - 1.2.2. The identity and Mission of Jesus According to the New Testament
- 1.3. Historical-Dogmatic Christology
 - 1.3.1. The Formulation of the Christological Dogma
 - 1.3.2. Christological Theology
- 1.4. Systematic Christology
 - 1.4.1. Fundamental Christology
 - 1.4.2. Jesus, True Man and True God
 - 1.4.3. Salvation, the Work of Christ
- 1.5. Various Christological Questions
 - 1.5.1. The Incarnation of the Son of God
 - 1.5.2. Human Knowledge of Christ
 - 1.5.3. The Human Will and the Suffering of Christ
 - 1.5.4. The Holiness of Jesus
 - 1.5.5. Hypostatic Union
 - 1.5.6. Delving into the Knowledge of Jesus
- 1.6. The Horizons of Christian Hope
 - 1.6.1. Eschatology from Yesterday to Today
- 1.7. Eschatological Hope in the Bible and Tradition
 - 1.7.1. Eschatology in the OT
 - 1.7.2. Eschatology in the NT
 - 1.7.3. Eschatology in the Tradition of the Church

- 1.8. The Hope that Ferments in History
 - 1.8.1. Christ, the Church's Hope for the World
- 1.9. Collective Eschatology
 - 1.9.1. The Christological Horizon of Human Existence and the Cosmos
- 1.10. Individual Eschatology
 - 1.10.1. Death and Life After Death
 - 1.10.2. Paradise Topic
 - 1.10.3. Hell Topic
 - 1.10.4. Purgatory

“

Obtain a first level learning with this Postgraduate Certificate thanks to the accessibility to teaching resources in different textual and multimedia supports”

04

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

“*Our program prepares you to face new challenges in uncertain environments and achieve success in your career*”

The case method has been the most widely used learning system among the world's leading Humanities schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

05

Certificate

The Postgraduate Certificate in Christology and Eschatology guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

*Successfully complete this program
and receive your university qualification
without having to travel or fill out
laborious paperwork”*

This **Postgraduate Certificate in Christology and Eschatology** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Certificate in Christology and Eschatology**

Official N° of hours: **150 h.**

*Apostille Convention. In the event that the student wishes to have their paper certificate issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
