01
Introduction

The 7 sacraments of the Catholic Church define the lifestyle a person must lead in order to attain holiness. This concept is closely related to ethics and morality, fields studied with special emphasis in Philosophy, so that obtaining a high level of knowledge of these sacraments will allow the experts in this discipline to have a complete vision in their professional performance. This is why TECH has created this program, which will enable the student to identify the particularities of each effective sign of divine grace or the principles of Christian moral education. All this, through a completely online methodology that will allow you to learn without having to travel to a study center.

"*This Postgraduate Certificate will allow you to detect the principles of Christian moral education in order to put them into practice in your philosophical studies*"

Baptism, Eucharist and Confirmation are some of the 7 sacraments that condition believers to be considered as children of God. Compliance with them has a direct impact on the way of understanding the life of each person, maintaining respect for others, the values of marital love and the confession of sins, among other issues. Given the close relationship between these efficacious signs of divine grace and morality, philosophers must know them thoroughly in order to analyze and study the extent of good or bad actions in this group of people.

In view of this circumstance, TECH has promoted this program, through which students will significantly increase their knowledge of the Church as an institution, the sacraments and Christian morality. During 6 weeks of intensive teaching, you will establish in depth the characteristics of the sacraments of healing, with special emphasis on the theological aspects linked to penance and the Anointing of the Sick. Likewise, they will identify the Christian life project based on morality and the fundamental option or detect the moral criteria regarding current issues from the believer's perspective.

Thanks to the 100% online modality in which this educational program is developed, the students will enable them to combine excellent learning with all their personal and professional obligations. Likewise, the didactic contents available are available in a wide range of textual and multimedia formats. As a result, you will be able to achieve an education based entirely on your study preferences, obtaining the opportunity to carry it out at any time and place.

This **Postgraduate Certificate in Church, Sacraments and Morality** contains the most complete and up-to-date program on the market. The most important features include:

- The development of case studies presented by experts in Catholic Education
- The graphic, schematic, and practical contents with which they are created, provide practical information on the disciplines that are essential for professional practice
- Practical exercises where self-assessment can be used to improve learning
- Its special emphasis on innovative methodologies
- Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- Content that is accessible from any fixed or portable device with an Internet connection

Establish, through this program, the existing moral criteria with respect to various current issues from a Christian perspective"

Enjoy a syllabus designed specifically for you, which will allow you to learn through didactic resources developed by the best experts in the Catholic field"

Manage your time as you wish and achieve a resolute learning through the online mode of delivery of this program.

Throughout this educational itinerary, it delves into the most current characteristics of the sacraments of penance and the Anointing of the Sick.

The program's teaching staff includes professionals from the sector who contribute their work experience to this training program, as well as renowned specialists from leading societies and prestigious universities.

Its multimedia content, developed with the latest educational technology, will allow the professional a situated and contextual learning, that is, a simulated environment that will provide an immersive training programmed to train in real situations.

The design of this program focuses on Problem-Based Learning, in which the professional will have to try to solve the different professional practice situations that will arise throughout the academic course. For this purpose, the student will be assisted by an innovative interactive video system created by renowned experts.

02
Objectives

TECH has designed this Postgraduate Certificate with the idea in mind of providing its students with the most advanced and relevant knowledge regarding the Christian sacraments, morals or the organization of the Church. In this way, it will delve into the particularities of penance or community service, acquiring a deep learning that will be guaranteed by the achievement of the following general and specific objectives.

tech

"

*Identify, with this program, the principal sacraments of the Church related to community service"*

General Objective

- Delve into the field of teaching Catholic Religion, in order to achieve educational and teaching skills in the religion classroom in the different school cycles

"

Develop an excellent professional performance in the area of Philosophy applied to Religion thanks to this Postgraduate Certificate"
Specific Objectives

- Know and be able to understand theological language
- Discover the foundation of the Church in God's plan
- Identify God's work of salvation
- Understand, analyze and discover the sacraments
- Interpret the action of man in the life of Christ

03
Structure and Content

The syllabus of this educational program consists of 1 module through which the students will increase their knowledge of the functioning of the Church as an institution, the sacraments or Christian morality. The didactic resources available throughout this program are accessible in a wide variety of textual and multimedia formats. For this reason, and thanks to its 100% online methodology, the students will achieve an education adapted to their study preferences and personal interests.

This Postgraduate Certificate has an excellent 100% online methodology that will enable you to learn without having to leave your own home"

Module 1. Church, Sacraments, and Morals

1.1.   The Church, the New People of God
    1.1.1.   The Beginning of the Church: Apostolic Church
    1.1.2.   The Church , People of God of the New Covenant
    1.1.3.   Universality and Catholicity of the People of God.
    1.1.4.   The Various Charisms and Ministries The Hierarchical Constitution of the Church
    1.1.5.   The Mission of the Church

1.2.   The Sacraments and the Worship of the Church.
    1.2.1.   The Sacraments, Effective Signs
    1.2.2.   Signs of Supernatural Grace
    1.2.3.   Sacramental Character
    1.2.4.   The Sacraments of Christ
    1.2.5.   Confident Signs of the Church
    1.2.6.   The Sacraments of Eternal Life

1.3.   The Sacraments of Christian Initiation
    1.3.1.   The Theology of Baptism
    1.3.2.   The Subject and the Minister of Baptism
    1.3.3.   The Celebration of Baptism
    1.3.4.   The Theology of Confirmation
    1.3.5.   The Subject and the Minister of Confirmation
    1.3.6.   The Celebration of Confirmation
    1.3.7.   The Theology of Eucharistic
    1.3.8.   The Celebration of Eucharist

1.4.   The Sacraments of Healing
    1.4.1.   The Theology of Penance
    1.4.2.   The minister of Penance
    1.4.3.   The Celebration of Penance
    1.4.4.   Theology of the Anointing of Sick
    1.4.5.   The Subject and the Minister of Anointing
    1.4.6.   The Celebration of Anointing

04
Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning.**

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

"

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

"

Our program prepares you to face new challenges in uncertain environments and achieve success in your career"

The case method has been the most widely used learning system among the world's leading Humanities schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

01 learning from evidence

02 relearning from evidence

03 testing

04 learning from an expert

05 neurocognitive context dependent learning

06 Von-Restorff effect

07 case based learning through storytelling

08 competencies testing (retesting)

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

30%

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

10%

Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

8%

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

20%

25%

4%

3%
Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

Certificate

The Postgraduate Certificate in Church, Sacraments and Morality guarantees, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork"

This **Postgraduate Certificate in Church, Sacraments and Morality** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.
