01

Introduction

Canon Law, due to its particular idiosyncrasy, reveals, for the scholar of the subject, different and characteristic aspects of enormous interest. During this program that we now offer you, we will study the basic aspects of the subject, its purpose, its juridical character and its autonomy from the scientific point of view. With a new way of approaching learning, through a next generation teaching plan, and a 100% online format, students will have access to an innovative, creative and effective approach that will help them grow professionally. And, above all, it will provide them with specific knowledge and analysis of the Fundamental Canon Law. A high-quality program that you cannot afford to miss.

Welcome to the new era of education. Welcome to TECH. A different, convenient and guaranteed way to access the best high-level university education"

The labor market demands increasingly qualified professionals. Trained and educated individuals who are able to face the challenges that work, and the social relationships that surround it, present on a daily basis.

Acquiring this level of specialization is an essential step in the process. But it is also an important milestone in personal growth, which will open paths of development and achievement.

This Postgraduate Certificate in Fundamental Canon Law has been created so students can acquire the essential knowledge in the field in an intensive and efficient manner. An opportunity for students to improve their qualifications, with the convenience of the most effective online method in the teaching market. TECH offers the opportunity to incorporate knowledge in the discipline into an academic specialization program with this online Postgraduate Certificate. With this Postgraduate Certificate, students will also gain access to a way of working in which the scientific method is incorporated into religious thought, in favor of a global analysis of all its implications and developments.

If you want to excel as a professional, achieve a positive change at a professional level, interact with the best through an interesting online universe and belong to the new generation of future theologians, able to develop their work anywhere in the world, this may be your path.

This **Postgraduate Certificate in Fundamental Canon Law** contains the most complete and up-to-date program on the market. The most important features include:

- Practical cases that apply the theoretical content through real life situations
- The graphic, schematic, and eminently practical content with which they are conceived
- The great variety of practical exercises where the self-evaluation process can be carried out to improve learning
- An algorithm-based interactive learning system that enables decision-making in the situations presented
- Its intensive focus on practical learning
- High-quality theoretical lessons, with questions to the expert, discussion forums on controversial topics and individual reflection work
- Content that is accessible from any fixed or portable device with an Internet connection

Improve your qualifications and you will improve your professional future. Now is always the best time"

“

The greatest University in the technological era is placed at the service of the current needs of society, at a global level, and of the individual, in particular, with a transforming spirit and vocation for social change"

The most relevant historical developments in an intensive, highly specialized Postgraduate Certificate.

The most technologically developed university in the area of eLearning, offers you the technical and human reliability of the largest Spanish-speaking, 100% online university in the world.

TECH offers the most innovative, creative and distinctive proposal, in a dynamic, talented and internationally recognized institution. This pedagogical model was chosen as a "**Microsoft Europe Success Story**" for incorporating the innovative interactive multi-video system into its programs. The team also received the "**Entrepreneur Award**" at the Expo-eLearning 2010 World Congress, the most important e-learning event in the Spanish-speaking world.

TECH also makes it easy for students to balance their education with their professional and personal activities. They will be able to balance their studies with a full-time job, adapting the process to their obligations and successfully completing the program without having to sacrifice everything else.

With a virtual space to exchange ideas and reflections, students will be able to share their learning experience through forums and other collaborative tools, 100% online.

We support you at all times, thanks to an involved and committed teaching staff. The teaching team transmits their expertise of their professional performance, working from a real, lively and dynamic context.

But above all, TECH explores students' critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

02
Objectives

The main objective of this program is to provide students with a complete and reliable vision of the theological developments in personal morality from a Fundamental Canon Law perspective with this highly specialized Postgraduate Certificate: An indispensable discipline for professional theologians. Therefore, TECH has developed a program that focuses on concrete, measurable and useful objectives that will allow students to grow both on a professional and a personal level. And thus creating useful professionals for an improved society.

"

At TECH Global University you will learn to enhance your skills, increase your critical capacity and think in a humanistic way. With the guarantee that only the best educational foundation can bring professionals"

General Objectives

♦ Learn the theological foundations, the creative sources of law and the main canonical institutions present in the code of canon law

♦ Indicate the general norms of Canon Law, their influence on the Christian faithful and the sanctions that can be applied by the Church

♦ Indicate how the theological foundations and creative sources of Canon Law are concretely applied in the pastoral action of the Church

♦ Identify current debates and argue about them using canon law in a precise manner

♦ Interpret various canons

Specific Objectives

- To know the definitions of general and canon law
- To study the general norms of Canon Law
- To know about the rights and obligations of the faithful
- Analyze the hierarchical constitution of the Church
- Delve into in the Educational Function of the Church
- Learn about the sanctions of the Church

Today more than ever theologians need the endorsement of a solid and updated body of knowledge to confront their experience with the real world with guarantees of success"
04
Structure and Content

This curriculum is designed for those who want to increase their professional competence in Religious Studies or deepen their humanistic side. Created with high-quality content, it prepares students to reach the highest levels in their profession. The program has been developed in a comprehensive manner to achieve the most complete competencies in each of its areas. The teaching staff is highly qualified at both the theological and teaching levels, and they implement the best educational methodology. Because learning from the best is the easiest way to become the best.

Adaptable, flexible and versatile: Our curriculum is designed so you can decide when, how and the amount of time and effort you wish to devote to your training.

A curriculum designed to make it easy for you to achieve your Postgraduate Certificate in Fundamental Canon Law with fluency and efficiency"

05
Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning.**
This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

"

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

> *Our program prepares you to face new challenges in uncertain environments and achieve success in your career"*

The case method has been the most widely used learning system among the world's leading Humanities schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

01 learning from evidence

02 relearning from evidence

03 testing

04 learning from an expert

05 neurocognitive context dependent learning

06 Von-Restorff effect

07 case based learning through storytelling

08 competencies testing (retesting)

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

30%

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

10%

Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

8%

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

20%

25%

4%

3%
Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

Certificate

The Postgraduate Certificate in Fundamental Canon Law guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Global University.

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork"

This program will allow you to obtain your **Postgraduate Certificate in Fundamental Canon Law** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University is an official European University publicly recognized by the Government of Andorra (*official bulletin*). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University** title is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.
