01
Introduction

The Mystery of God, in its complexity, has derived and motivated the development of thought throughout human history. In this line, a large number of theories have emerged to explain his figure, his contribution and the foundations of the Christian Faith, which philosophers must master to perfection in order to sophisticate their studies related to Religion. In this context, TECH has created this program, through which the student will handle the different existing ideas regarding God's Revelation or analyze the role of Faith as man's response to it. In a 100% online mode, you will obtain this exquisite learning without having to leave your home.

The Postgraduate Certificate in Fundamental Theology will allow you to identify the different existing and currently valid theories regarding God's Revelation"

Theology is the discipline that studies the figure of God, focusing on his deeds, his word, his legacy and the relationship of living beings with his image. This science, in its Fundamental branch, is oriented towards the investigation of the particularities of the Christian Faith and the existing differences between it and other types of religions. Its use is, therefore, essential for anyone who wishes to focus their career on the analysis of the ways of understanding Christianity or the historical facts of this religion.

This is why TECH has designed this program, which will enable students to learn about the most relevant aspects of Fundamental Theology and, in this way, enrich their professional growth. During 150 intensive hours of learning, you will identify the relationship between the history of Salvation, Creation, Natural Manifestation and Revelation or detect man's possible responses to the latter phenomenon. Likewise, it will delve into the credibility of the Faith in both its objective and subjective dimensions or master the magisterial peculiarities related to the adequate transmission of Revelation.

All this, following a 100% online methodology that will allow the student to obtain excellent learning without the need to make uncomfortable daily commutes to study centers. In the same way, the didactic materials to which you will have access will be present in supports as varied as the readings, the explanatory video or the evaluative tests. Therefore, the students will achieve a learning experience that is feasible 24 hours a day and completely adapted to their educational and personal requirements.

This **Postgraduate Certificate in Fundamental Theology** contains the most complete and up-to-date program on the market. The most important features include:

- Case studies presented by experts in Theology
- The graphic, schematic, and practical contents with which they are created, provide practical information on the disciplines that are essential for professional practice
- Practical exercises where self-assessment can be used to improve learning
- Its special emphasis on innovative methodologies
- Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- Content that is accessible from any fixed or portable device with an Internet connection

This Postgraduate Certificate has a 100% online methodology that will allow you to learn without having to travel to study centers"

"

In only 150 hours of teaching, you will enhance your knowledge in Fundamental Theology to optimize your analysis and studies related to the world of Religion"
Analyze, through this program, the relationship between the history of Salvation, Creation, Natural Manifestation and Revelation.

Learn about the objective and subjective dimension related to the credibility of Faith thanks to this program that TECH offers you.

The program's teaching staff includes professionals from the field who contribute their work experience to this educational program, as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the educational year. For this purpose, the students will be assisted by an innovative interactive video system created by renowned and experienced experts.

02
Objectives

The Postgraduate Certificate in Fundamental Theology has been designed to provide students with the most relevant and advanced knowledge in this field of study. In this way, it will review the Revelation of God or the different theological and magisterial reflections on it. This learning will be fully guaranteed through the achievement of the general and specific objectives that TECH has developed for this program.

tech

" *Increase your religious analysis skills by adopting the most relevant knowledge in Fundamental Theology"*

General Objective

- Delve into the field of teaching Catholic Religion, in order to achieve educational and teaching skills in the religion classroom in the different school cycles

" *Specialize, in only 6 weeks and through the achievement of sophisticated general and specific objectives, in Fundamental Theology"*

Specific Objectives

- Frame fundamental Theology as a specialized part of the discipline that seeks to understand the mystery of God in its totality
- Obtain a general and panoramic vision of Fundamental Theology in its different periods
- Understand the development of theological reflection on Revelation in the modern era
- Understand man's capacity, as a being open to God, in the face of the fact of revelation
- Know the content and characteristics of Faith as man's response to the God who reveals himself
- Value the reasonableness and human dimension of the Faith
- Understand the role that both Tradition and the Church play in the transmission of Revelation

03
Structure and Content

The syllabus of this Postgraduate Certificate is composed of 1 module through which the student will handle the most relevant concepts of Theology to increase their ability to study about God. In addition, the didactic contents accessible throughout this educational itinerary are available in cutting-edge formats such as self-assessment tests, interactive summaries or explanatory videos. In this way, together with a 100% online methodology, students will obtain a completely enjoyable and individualized learning experience.
The characteristic Relearning system of this program will allow you to learn at your own pace without the need to depend on external conditioning factors"

Module 1. Fundamental Theology

1.1.   Theology: A Reflection on Faith , in and from the Church

    1.1.1.   What is Theology?

    1.1.2.   Starting Point of Theology: Revelation

    1.1.3.   Faith and Theology

    1.1.4.   Sources of the Experience of Faith Topics

1.2.   Toward the Definition of Fundamental Theology

    1.2.1.   In Search of an Identity

    1.2.2.   The Path of Apologetics

    1.2.3.   The Conciliar Turn

    1.2.4.   Definition of Fundamental Theology

1.3.   Revelation of God

    1.3.1.   The Question and the Human Search for God

    1.3.2.   The Revelation of God in the History

    1.3.3.   Revelation in the Origins and Revelation in the Schaton

    1.3.4.   Relationship between Salvation History, Creation, Natural Manifestation, and Revelation

1.4.   Theological and Magisterial Reflection on Revelation

    1.4.1.   From the First Centuries to the Council of Trent (16th Century)

    1.4.2.   The Council of Trent (First Period: (1545-1547)

    1.4.3.   The First Vatican Council (1869-1870)

1.5.   Theological Reflection During the 20th Century

    1.5.1.   20th Century: Modernism and the Catholic Response

    1.5.3.   Philosophical-Theological Reflection on the Revelation of Christ

1.6.   The Possibility of Response to Revelation

    1.6.1.   Man as a Religious Being: Man's openness to God

    1.6.2.   Man as *Capax Dei*

Take this program and optimize your learning in Fundamental Theology through access to didactic resources in video or interactive summary format"

04
Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning.**
This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

"
At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

❝

Our program prepares you to face new challenges in uncertain environments and achieve success in your career"

The case method has been the most widely used learning system among the world's leading Humanities schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

01 learning from evidence

02 relearning from evidence

03 testing

04 learning from an expert

05 neurocognitive context dependent learning

06 Von-Restorff effect

07 case based learning through storytelling

08 competencies testing (retesting)

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

3%

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

Certificate

The Postgraduate Certificate in Fundamental Theology guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork"

This **Postgraduate Certificate in Fundamental Theology** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The diploma issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.
