01

Introduction

Through the systematic analysis advanced by anthropology and ethics, this program will enable the student to conduct a comprehensive analysis of contemporary society, including political movements. A specialization that will include the study of the most relevant questions of metaphysics. With the most complete, analytical and up-to-date overview of contemporary philosophy.

“

Acquire specialist skills for the philosophical analysis of society, politics and knowledge of fundamental metaphysical issues with this highly specialized program"

All the knowledge acquired throughout this program has a personal growth objective that allows our students to conduct independent analysis of contemporary issues in society. It is this ability that will make the difference in the workplace, establishing them as a high-performing specialists.

In addition, the student will use the working methods of philosophical synthesis as a tool to philosophically examine man and the world, confidently and successfully, thanks to the intensive work undertaken for this Postgraduate Certificate.

In order to provide the best course possible, all the essential concepts have been included to propel students to advanced levels of philosophy, with guidance on how to convert this knowledge into effective and practical skills.

A complete compendium of knowledge and overview of developments that will propel you to the highest standards of professional competence, increasing your competitiveness in this field of work.

This Postgraduate Certificate will also teach students the most effective study methods.

If you seek self-improvement, to achieve a positive change at a personal level, to interact with the best and belong to a new generation of professionals capable of performing their work anywhere in the world, this may be the path for you.

A Postgraduate Certificate fully compatible with other work, personal, teaching or study commitments. Its system and teaching approach will flexibly adjust to student needs from beginning to end throughout the course. Consequently, the results are much more efficient, since study will not become an unbearable burden, but rather, a stimulating and easy challenge to undertake and bring to fruition.

This **Postgraduate Certificate in Philosophy and Society** contains the most complete and up-to-date program on the market. The most important features include:

- ◆ The examination of case studies to apply the theoretical content to real life situations
- ◆ Graphic, schematic, and practical contents which provide scientific and practical information on the disciplines that are essential for professional practice
- ◆ The inclusion of practical exercises where the self-evaluation process can be carried out to improve learning
- ◆ An algorithm-based interactive learning system for decision-making in the situations that are presented to the student
- ◆ Special emphasis on practical learning
- ◆ All of this will be complemented by theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ◆ Content that is accessible from any fixed or portable device with an Internet connection

A high-quality specialization that will propel you to the highest echelons of professional competence"

“*Study with the greatest University of the technological era and you will form part of an institution with a vocation of service, aware of the current needs of society, the world, and particularly of the individual*”

This Postgraduate Certificate is created to ensure you can study in a simple, efficient and flexible way, with the superior quality of an advanced academic program.

Study with the technical and human excellence of the world's largest 100% online university.

TECH Technological University offers the most innovative, creative and unique offering, in a dynamic, adept and internationally recognized institution. With a space to exchange ideas, experience and reflections. Students will be able to share their learning experience, through forums and other collaborative tools, all 100% online.

TECH supports its students at all times thanks to an involved and committed teaching team. The teaching team transmits their expertise in their professional performance, working from a real, lively and dynamic context. TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

02

Objectives

With this Postgraduate Certificate, students will be walked through the essential contents to approach this discipline effectively, learning to undertake analyses, dissertations, presentations, debates or publications related to the subject matter, with the support of the most comprehensive knowledge with which you will learn and enjoy the benefits of a course designed to optimize your work time to the maximum.

“

The best Postgraduate Certificate in Philosophy and Society on the market. An essential step to achieving excellence in your career"

 - 1.4.3. War and Conditions for Peace: Self-Defence and Community

The highest quality in online education delivered by the best professionals in the sector"

Module 2. Philosophical Synthesis

- 2.1. Metaphysics
 - 2.1.1. The Nature of Metaphysics
 - 2.1.2. The Dynamism of Being
 - 2.1.3. Casual Dynamism
 - 2.1.4. The Static of Being
 - 2.1.5. The Transcendental Properties of Being
 - 2.1.6. The Classification of Being
 - 2.1.7. The Participation and Analogy of Being
- 2.2. Philosophy of Nature
 - 2.2.1. The Nature of the Treaty
 - 2.2.2. The Intelligibility of Nature
 - 2.2.3. The Structure of Nature
 - 2.2.4. The Origin and Meaning of Nature
- 2.3. Philosophical Anthropology
 - 2.3.1. The Nature of Philosophical Anthropology
 - 2.3.2. Human Life
 - 2.3.3. The Phenomenology of Human Behavior
 - 2.3.4. Human Knowledge
 - 2.3.5. Human Desire
 - 2.3.6. Human Affectivity
 - 2.3.7. Human Unity and Dualism
 - 2.3.8. Humans as Personal Beings
 - 2.3.9. Dimensions of the Personal Being
 - 2.3.10. Death and Human Transcendence
- 2.4. Philosophy of Knowledge
 - 2.4.1. The Nature of Philosophy of Knowledge
 - 2.4.2. Fundamental Perspectives in Epistemology
 - 2.4.3. Knowledge in General
 - 2.4.4. Perceptual Knowledge
 - 2.4.5. Intellectual Knowledge
 - 2.4.6. Functions, Acts and Areas of Intellectual Knowledge
 - 2.4.7. The Truth of Knowledge and Its Discernment
- 2.5. Ethics
 - 2.5.1. The Nature of Ethics
 - 2.5.2. Human Goodness
 - 2.5.3. The Moral Subject
 - 2.5.4. Moral Law
 - 2.5.5. Moral Conscience
 - 2.5.6. Friendship Communities
 - 2.5.7. Matters in Bioethics
 - 2.5.8. Human Work
 - 2.5.9. Political Society
- 2.6. Philosophical Theology
 - 2.6.1. The Nature of Philosophical Theology
 - 2.6.2. God as a Problem
 - 2.6.3. The Existence of God
 - 2.6.4. The Essence of God
 - 2.6.5. God and the World
 - 2.6.6. God and Humans
- 2.7. Synthetic Vision
 - 2.7.1. Thematic and Argumentative Linking of Treaties
 - 2.7.2. Toward a Global Vision and Harmonic Reality

04

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

“*Our program prepares you to face new challenges in uncertain environments and achieve success in your career*”

The case method has been the most widely used learning system among the world's leading Humanities schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

05

Certificate

The Postgraduate Certificate in Philosophy and Society guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

*Successfully complete this program
and receive your university qualification
without travel or laborious paperwork”*

This **Postgraduate Certificate in Philosophy and Society** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The diploma issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations and professional career evaluation committees.

Title: **Postgraduate Certificate in Philosophy and Society**

Official N° of Hours: **250 h.**

*Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
