tech 06 | Introduction

When designing and managing an International Development Cooperation project, attention and meticulousness in every single detail of the initiative is a crucial aspect. Not surprisingly, these programs are thoroughly evaluated by international actors as relevant as the European Commission. In fact, this body demands a clear and transparent framework that facilitates independent evaluations.

Therefore, a program that provides an update in the Management, Design and Evaluation of International Cooperation for Development Projects has an even more important value in today's world. And this is precisely what TECH offers, allowing the Humanities professional to design initiatives based on the latest tools that allow their management to be optimal, enhancing their viability. In this sense, students will go through each and every one of the actors involved in development programs, delving into the most effective instruments of International Cooperation.

Likewise, the students will analyze in detail the elements that make up the management cycle of these initiatives and the areas of work faced by an NGO; without a doubt, a really necessary specialization that the students have the opportunity to develop from home or wherever they deem appropriate. The online nature of the Postgraduate Diploma provides numerous flexibilities to delve into a syllabus prepared by leading teachers in International Cooperation for Development.

This Postgraduate Diploma in Management, Design and Evaluation of International Cooperation for Development Projects contains the most complete and up-to-date program on the market. The most important features include:

- Practical case studies presented by experts in Management, Design and Evaluation of International Cooperation for Development Projects
- The graphic, schematic, and practical contents with which they are created, provide practical information on the disciplines that are essential for professional practice
- Practical exercises where the self-assessment process can be carried out to improve learning
- Its special emphasis on innovative methodologies
- Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- Content that is accessible from any fixed or portable device with an Internet connection

Project yourself in a sector within the International Cooperation that is demanding fully updated professionals to enhance the viability of development programs"

Delve into the most updated syllabus of the Management, Design and Evaluation of International Cooperation for Development Projects"

The program's teaching staff includes professionals from the field who contribute their work experience to this educational program, as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the academic year For this purpose, the students will be assisted by an innovative interactive video system created by renowned and experienced experts.

Enroll now to master all aspects of the development project management cycle.

Effectively lead the management of projects organized by NGOs, examining each and every area of their work.

tech 10 | Objectives

General Objectives

- Provide students with advanced knowledge in International Cooperation, of a specialized nature and based on theoretical and instrumental knowledge that will allow them to acquire and develop the skills and abilities necessary to obtain a qualification as a solidarity professional
- Provide the student with basic knowledge of the cooperation and development process based on the latest advances in policies on the sustainability processes, involved in both economic and social aspects
- Improve professional performance and develop strategies of adaptation and resolution to the problems of today's world through scientific research in cooperation and development processes
- Disseminate the basics of the current system and develop the critical and entrepreneurial spirit necessary to adapt to political changes, within the framework of international law

Reach all your professional goals thanks to a comprehensive specialization that will give you a valuable global vision of the main problems in the regional and international spheres"

Module 1. The Development of Peoples: Introduction and Challenges

- · Understand the importance of the development of peoples
- Become aware of the actors involved in development, why and its consequences
- Know and clarify such basic concepts as poor and impoverished
- · Become aware of the world situation and development
- Familiarize the student with the economic structure of the world
- Manage the concepts of sustainable development, sustainable objectives, etc., meet their goals and objectives
- Know the basic theories of development in its economic, social, cultural and political aspects

Module 2. International Development Cooperation

- Know different methods of research in International Development Cooperation
- Gain knowledge on methodologies for public policy advocacy, social communication, political change, etc
- Know the evolution and status of current debates on development
- Become familiar with the instruments of international cooperation for development, as well as the types of projects and existing NGOs
- Develop skills to work with the main vulnerable subjects involved in development cooperation actions and programs
- Understand the international cooperation system and the different members that make it up

Module 3. Design, Monitoring and Assessment of International Development Cooperation Projects

- Know the management cycle of a development project
- Know the techniques, trends and projects of international development cooperation
- Understand the main problems of the different regional and international environments
- Know the different systems, modalities and basic actors of International Development Cooperation
- Know the regional particularities of development and cooperation

Module 4. NGDOs and Local, Regional and International Solidarity

- Understand the concepts and definitions of NGOs
- Know the diversity of NGOs and their field or work
- · Learn the broad outlines of NGO management
- Identify, understand and know how to use sources and tools to identify international development cooperation projects

tech 14 | Course Management

Guest Director

Ms. Rodríguez Artega, Carmen

- Director of the Studies Office of the INFM Directorate
- Head of Education, Strategic Planning and Coordinator of Knowledge Networks in AECII
- Degree in Philosophy and Educational Sciences at UCM
- Specialist in Knowledge Management
- Postgraduate Diploma in Educational Evaluation at OE
- Postgraduate Diploma in Educational Indicators and Statistics at UNEI
- Postgraduate Diploma in Development Cooperation in Education at the University of Barcelona

Management

Ms. Romero Mateos, María del Pilar

- Social Educator Specialized in Child Empowerment
- Employment training teacher
- Gender Equality Agen
- Author and collaborator in educational projects at Abile Educativa
- Co-Author of the book: 'Principeso Cara de Beso'
- Postgraduate Diploma in International Development Cooperation

Professors

Ms. Sánchez Garrido, Araceli

- Deputy Head of the Department of Cultural Cooperation and Promotion of the DRCC
- Responsible for the application of AECID's Cultural Diversity Mainstreaming Guide
- Professor of the Professional Master's Degree in Cultural Management at the Carlos III University of Madrid
- Degree in Geography and History, specializing in Anthropology and Ethnology of America, Complutense University of Madrid
- Member of the Faculty of Museum Curators assigned to the Museo de América de Madrid

Ms. Córdoba, Cristina

- International Cooperation Nurse Specialist
- Training and experience in International Development Cooperation Projects
- Co-founder and participant of PalSpain project
- Founder of the Youth Association APUMAK

tech 16 | Course Management

Mr. Cano Corcuera. Carlos

- Specialist in Planning and Management of Cooperation Development Interventions
- General Coordinator of the Spanish Cooperation in the Dominican Republic
- General Coordinator of the Spanish Cooperation in Mexico
- Degree in Biology with a major in Zoology and a minor in Animal Ecology
- Specialization courses in the following areas: International Cooperation; Identification,
 Formulation and Monitoring of Cooperation Projects; Humanitarian Aid; Equal
 Opportunities; International Negotiations; Planning with a Gender Perspective; ResultsOriented Management for Development; Disability Approach in Cooperation Projects;
 European Union Delegated Cooperation, etc

Ms. Flórez Gómez, Mercedes

- · Specialist in International Cooperation in Iberoamerica
- Director of the CFCE in Montevideo
- Degree in Geography and History from the Complutense University of Madrid
- Advanced Diploma in South Cooperation
- Postgraduate Diploma in Humanitarian Action Institute of Studies on Conflict and Humanitarian Action
- MSc in Corporate Social Responsibility from the Pontifical University of Salamanca
- MSc in Information and Documentation from the Antonio de Nebrija University
- Specialist in Inequality, Cooperation and Development, University Institute for Development and Cooperation, Complutense University of Madrid
- Specialist in Planning and Management of Development Cooperation Projects in Education, Science and Culture (OEI)

Dr. Ramos Rollon, Marisa

- Specialist on public policies and institutions in Latin America and on the issues of democratic governance and development policies
- Coordinator of the department of Democratic Governance in the Eurosocial program
- Full Professor of Political Science at UCM
- Responsible for the Democratic Governance sector at the Spanish Agency for International Cooperation
- Professor of Political Science at the University of Salamanca
- Development Cooperation Advisor to the Vice Rector of International
- Relations and Cooperation of the Complutense University of Madrid
- PhD in Political Science from the Complutense University of Madrid in the Contemporary Latin America program
- Bachelor's Degree in Political Science with a major in International Relations and Latin American Studies from UCM

Take the opportunity to learn about the latest advances in this field in order to apply it to your daily practice"

Module 1. People's Development: Introduction and Challenges

1.1. Development	1.	.1		Dev	elo	pm	en1
------------------------------------	----	----	--	-----	-----	----	-----

- 1.1.1. Introduction
- 1.1.2. What Is Meant by Development?
- 1.1.3. Sociological Theories for Development
 - 1.1.3.1. Development through Modernization
 - 1.1.3.2. Development through Dependency
 - 1.1.3.3. Neoinstitutional Development Theory
 - 1.1.3.4. Development through Democracy
 - 1.1.3.5. Theory of Development through Cultural Identity
- 1.1.4. Stakeholders Involved in Development
 - 1.1.4.1. Depending on How It Is Channeled, the Aid Can Be
 - 1.1.4.2. According to their Shape
- 1.1.5. Poor or Impoverished Countries
 - 1.1.5.1. What Is Meant by Impoverished?
- 1.1.6. Economic, Social and Sustainable Development
- 1.1.7. UNDP
- 1.1.8. Bibliography
- 1.2. Power, Dynamics and Stakeholders in the International Society
 - 1.2.1. Introduction
 - 122 Power Flements
 - 1.2.3. The International Society
 - 1.2.4. International Society Models
 - 1.2.4.1. Static
 - 1.2.4.2. Dynamic
 - 1.2.4.3. Global
 - 1.2.5. Characteristics of the International Society
 - 1.2.5.1. It is a Global Benchmark Company
 - 1.2.5.2. It Is Distinct from the Interstate Society
 - 1.2.5.3. International Society Requires a Relational Dimension
 - 1.2.5.4. International Society Enjoys a Common Order

- 1.2.6. Social Structure of the Society
- 1.2.7. Structure of the International Society
 - 1.2.7.1. Spatial Extension
 - 1.2.7.2. Structural Diversity
 - 1.2.7.3. The Cultural Dimension of International Society
- 1.2.8. Polarization of the International Society
 - 1.2.8.1. Concept
- 1.2.9. Degree of Institutionalization of the International Society
- 1.2.10. Bibliography
- 1.3. Free Trade
 - 1.3.1. Introduction
 - 1.3.2. Unequal Interdependence between Countries
 - 1.3.3. Transnational Companies
 - 1.3.3.1. What are they?
 - 1.3.4. Current Trade Situation
 - 1341 Transpationals and Free Trade
 - 1.3.5. The WTO
 - 1.3.5.1. Concept
 - 1.3.5.2. Brief History
 - 1.3.5.3. The WTO's Activities Are Built Around Three Pillars
 - 1.3.6. Rounds, Conferences and Lobbying
 - 1.3.7. Fair Trade Relations
 - 1.3.8. CONGDE (Spanish Coordinator for NGO Development Activities)
 - 1.3.8.1. CONGDE Proposals
 - 1.3.9. Corporate Social Responsibility
 - 1.3.10. A Global Pact
 - 1.13.11. Fair Trade
 - 1.3.11.1. International Definition
 - 1.3.12. Bibliography

Examine with this syllabus the strategic management of an NGO and how to get key partners to achieve any goal in development programs"

tech 34 | Methodology

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career"

The case method has been the most widely used learning system among the world's leading Humanities schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

tech 36 | Methodology

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

Methodology | 37 tech

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

20%

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

tech 42 | Certificate

This Postgraduate Diploma in Management, Design and Evaluation of International Cooperation for Development Projects contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Diploma** issued by **TECH Technological University** via tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Diploma, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: Postgraduate Diploma in Management, Design and Evaluation of International Cooperation for Development Projects

Official No of Hours: 600 h.

^{*}Apostille Convention. In the event that the student wishes to have their paper certificate issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
