Introduction

To engage in theological criticism based on theology or any branch of Religious Studies, professionals must know the formal theological principles involved in the theological reading of Sacred Scripture: canonicity, inspiration and inerrancy, which will enable solvent work in all aspects related to the explanation of the fact of Divine Revelation. Throughout this exceptional program, students will be able to analyze the different facts of the Revealed Word of God and other relevant historical books with a broad and effective criterion. A deep and complete study that will boost the knowledge of theologians in this area to the next level.

st sendeth out ST. MATTHEW, 10. his twelve apostles.

CHAPTER 10.

1 Christ sendeth out his twelve apostles, enabling them with power to do miracles, 5 giveth them their charge, teacheth them, 16 comforteth them against persecutions: 40 and promiseth a blessing to those that receive them.

AND [a] when he had called unto him his twelve disciples, he gave them power [2] against unclean spirits, to cast them out, and to heal all manner of sickness and all manner of disease.

2 Now the names of the twelve apostles are these; The first, Simon, [b] who is called Peter, and Andrew his brother; James *the son* of Zebedee, and John his brother;

3 Philip, and Bartholomew; Thomas, and Matthew the publican; James *the son* of Alphæus, and Lebbæus, whose surname was Thaddæus;

4 [c] Simon the Canaanite, and Judas [d] Iscariot, who also betrayed him.

5 These twelve Jesus sent forth, and commanded them, saying, [e] Go not into the way of the Gentiles, and into *any* city of [f] the Samaritans enter ye not:

6 [g] But go rather to the [h] lost sheep of the house of Israel.

7 [i] And as ye go, preach, saying, [k] The kingdom of heaven is at hand.

8 Heal the sick, cleanse the lepers, raise the dead, cast out devils: [l] freely ye have received, freely give.

9 [m] [3] Provide neither gold, nor silver, nor [n] brass in your purses,

10 Nor scrip for *your* journey, neither two coats, neither shoes, nor yet [4] staves: [o] for the workman is worthy of his meat.

11 [p] And into whatsoever city or town ye shall enter, enquire who in it is worthy; and there abide till ye go thence.

12 And when ye come into an house, salute it.

13 [q] And if the house be worthy, let your peace come upon it: [r] but if it be not worthy, let your peace return to you.

14 [s] And whosoever shall not receive you, nor hear your words, when ye depart out of that house or city, [t] shake off the dust of your feet.

15 Verily I say unto you, [u] It shall be more tolerable for the land of Sodom and Gomorrha in the day of judgment, than for that city.

16 ¶ [x] Behold, I send you forth as sheep in the midst of wolves: be ye therefore wise as serpents, and [5] harmless as doves.

17 But beware of men: for they will deliver you up to the councils, and they will scourge you in their synagogues;

18 And ye shall be brought before governors and kings for my sake, for a testimony against them and the Gentiles.

19 But when they deliver you up, take no thought how or what ye shall speak: for [y] it shall be given you in that same hour what ye shall speak.

20 [z] For it is not ye that speak, but the Spirit of your Father which speaketh in you.

21 [a] And the brother shall deliver up the brother to death, and the father the child: and the children shall rise up against *their* parents, and cause them to be put to death.

22 And [b] ye shall be hated of all *men* for my name's sake: [i] but he that endureth to the end shall be saved.

23 But [k] when they persecute you in this city, flee ye into another: for verily I say unto you, Ye shall not [2] have gone over the cities of Israel, [l] till the Son of man be come.

24 [m] The disciple is not above *his* master, nor the servant above his lord.

25 It is enough for the disciple that he be as his master, and the servant as his lord. If [n] they have called the master of the house [3] Beelzebub, how much more *shall they call* them of his household?

26 Fear them not therefore: [o] for there is nothing covered, that shall not be revealed; and hid, that shall not be known.

27 What I tell you in darkness, *that* speak ye in light: and what ye hear in the ear, *that* preach ye upon the housetops.

28 [p] And fear not them which kill the body, but are not able to kill the soul: but rather fear him which is able to destroy both soul and body in hell.

29 Are not two sparrows sold [4] farthing? and one of them [illegible] not fall on the ground with[illegible] Father.

30 [q] But the very hair[illegible] are all numbered.

31 Fear ye not [illegible] more value th[illegible]

The complete analysis of biblical texts, with the keys of hermeneutics and the indispensable elements for its understanding, all in a high level academic course"

Within the field of Theology and Religious Studies, studying the Revealed Word of God is one of the most interesting areas of analysis to answer the mysteries that took place billions of years ago. Throughout the program, students will acquire knowledge of hermeneutics, a necessary analytical tool to study and understand biblical texts.

One of the bases for understanding the contents of the books studied in this area is the contextualization of the theological thought on Old Testament prophets in the general field of biblical revelation, since it helps to identify the fundamental characteristics of the history and structure of the works that constitute prophetic literature.

Students will recognize the Gospel literary genre in its first synoptic form, understand the contexts that generated its production, analyze the main theological themes that emerge from it and the text of the Acts of the Apostles, which will allow them to discuss the different hypotheses presented throughout history.

Through this program, students will also gain access to a way of working in which the scientific method is incorporated into religious thought, in favor of a global analysis of all its implications and developments. A 100% online program, with no fixed schedules or cumbersome procedures.

This **Postgraduate Diploma in The Revealed Word of God** contains the most complete and up-to-date educational program on the market. The most important features include:

- Practical cases that apply the theoretical content through real life situations
- The graphic, schematic, and eminently practical content with which they are conceived
- The great variety of practical exercises where the self evaluation process can be carried out to improve learning
- An algorithm-based interactive learning system that enables decision-making in the situations presented
- Its intensive focus on practical learning
- High quality theoretical lessons, with questions to the expert, discussion forums on controversial topics and individual reflection work
- Content that is accessible from any fixed or portable device with an Internet connection

A complete course that will allow you to recognize the Gospel literary genre in its first synoptic form, and to understand the contexts that generated its production"

A program created with the best educational materials in online education, which will prove to be the process of maximum professional growth you are looking for"

Study with the confidence that a high quality educational institution provides, benefiting from the experience of the best experts and the convenience of a program that adapts to your needs.

Learn to interpret and appreciate the theological and pastoral relevance of the different writings of the authors of the sacred books.

The teaching staff includes professionals from the field of Theology and other related fields, who bring their experience to this program, as well as renowned specialists from leading scientific societies.

The multimedia content developed with the latest educational technology will provide students with situated and contextual learning, i.e., a simulated environment that will provide immersive learning programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby students must try to solve the different professional practice situations that arise throughout the program. For this purpose, professionals will be assisted by an innovative, interactive video system created by renowned and experienced experts in the Revealed Word of God who also have extensive teaching experience.

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning.**

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

> *Our program prepares you to face new challenges in uncertain environments and achieve success in your career"*

The case method has been the most widely used learning system among the world's leading Humanities schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

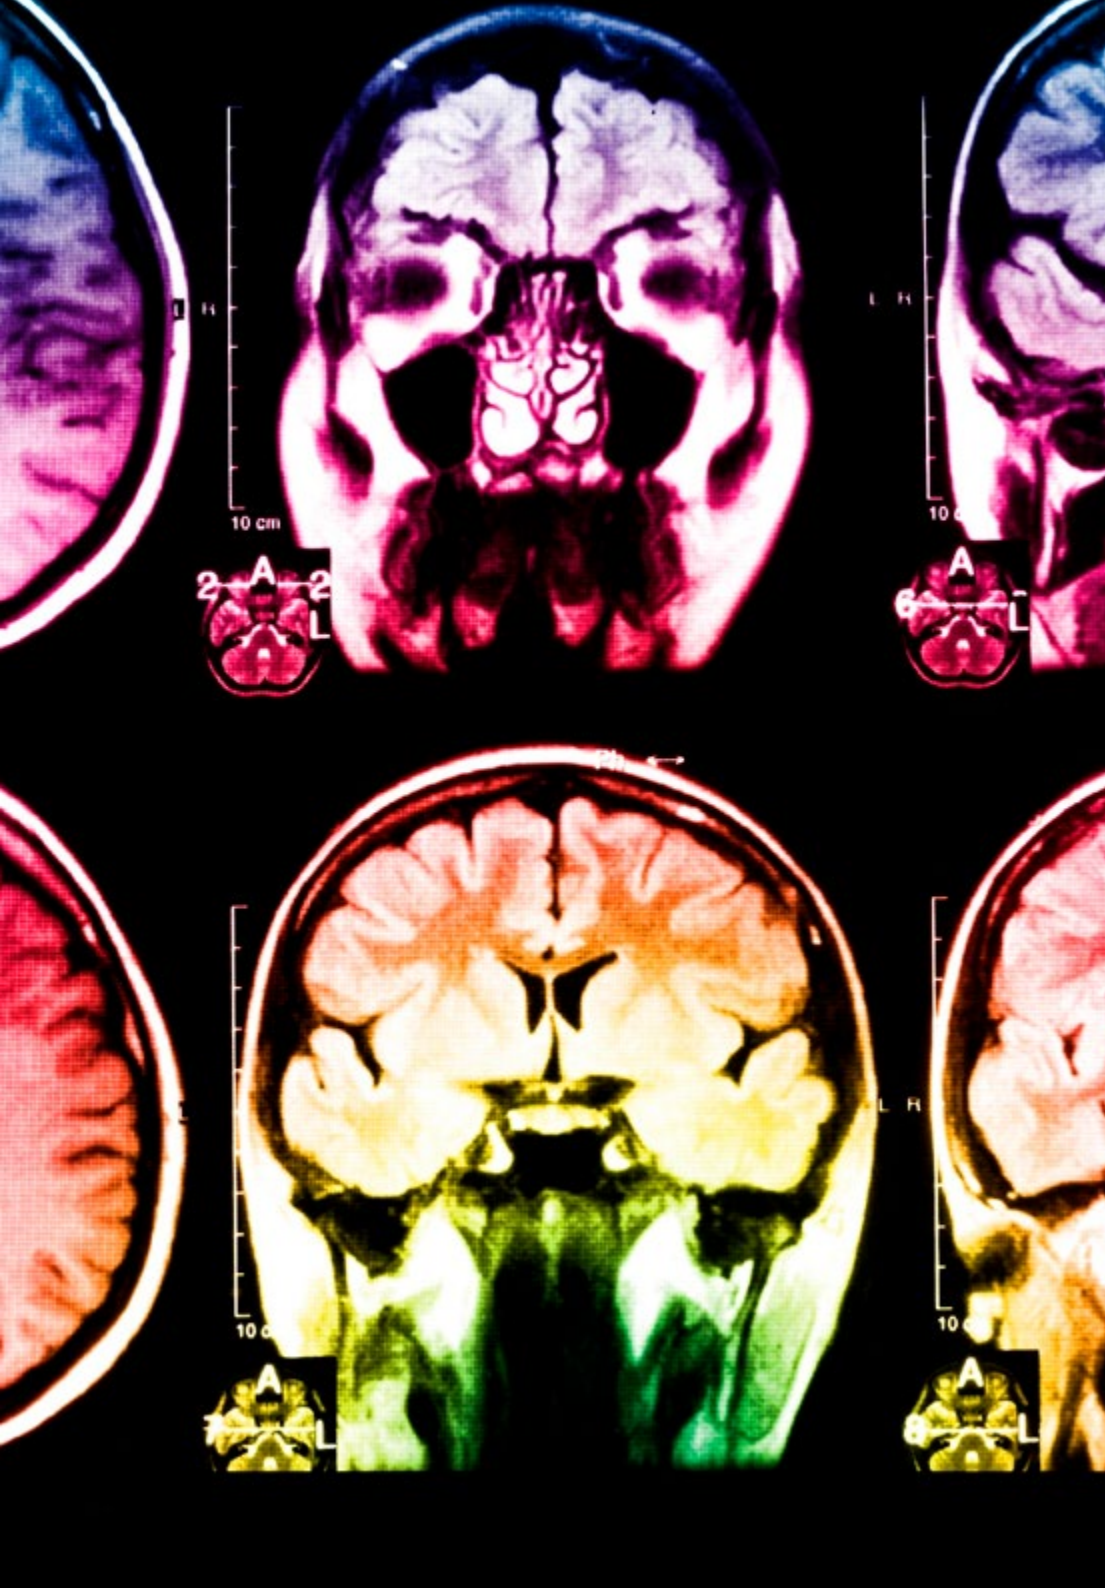
TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.



In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

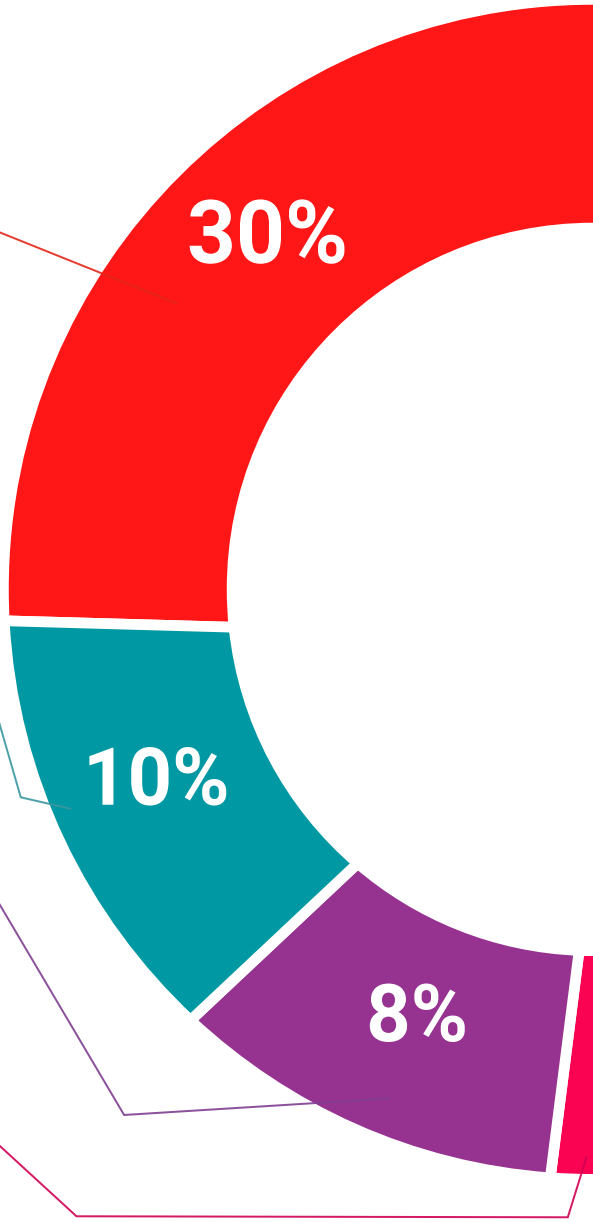
Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

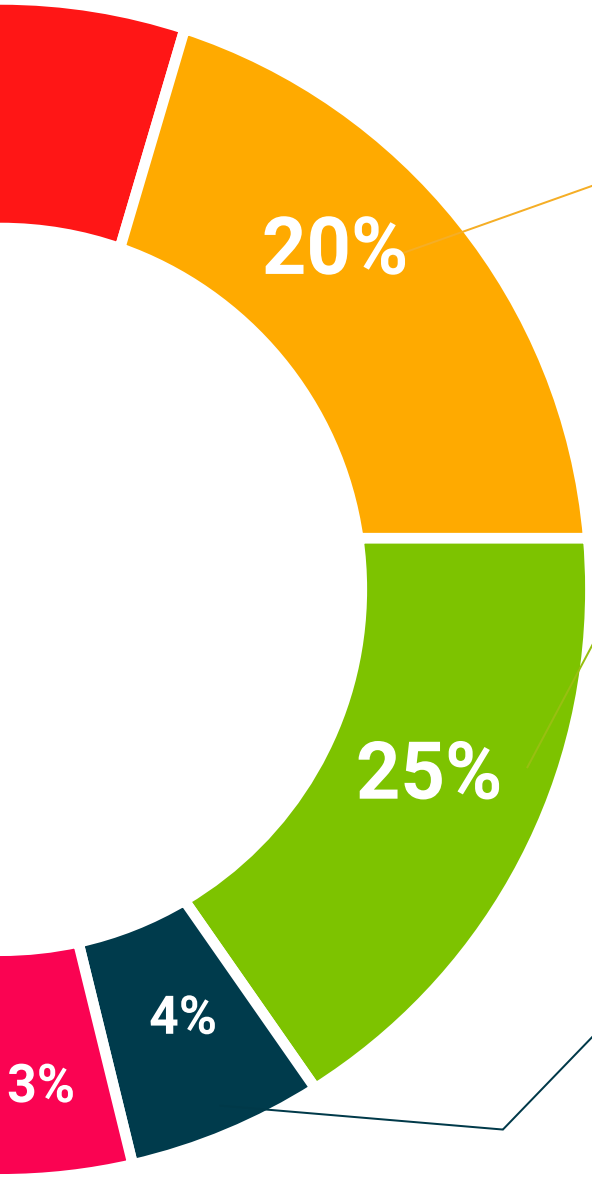
Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.





Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.
