# Introduction

Humanitarian aid, technical assistance, technology transfer, knowledge sharing, etc. International Development Cooperation involves many elements, contributing to a decisive Social Transformation to address the causes of Poverty, Inequality or Social Exclusion. However, it is palpable how this transformative process encounters many obstacles in many regions, so this qualification is an unique opportunity to update the Humanities professional in the best strategies to make the change real. To this end, the role of social movements and the basic theories of development in cultural, political or economic matters will be examined. In addition, this program will be taken entirely online for the convenience of the student.

“

*Update yourself in the tools that  
promote Social Transformation through  
International Development Cooperation”*

Social Transformation is essential to promote Sustainable Development, the preservation of the Environment, the protection of Human Rights and Gender Equality, as well as the improvement of Education, Health and Infrastructure. However, in more and more countries, transformational processes are facing growing resistance of various kinds that hinder changes in an authoritarian manner and without respecting the freedoms of individuals.

That is why it is required that the action from the International Development Cooperation is carried out on the basis of advanced and specific strategies for each context, facilitating that the Social Transformation culminates successfully in the long term. And Humanities professionals can play a decisive role in this thanks to this program, with which they will learn about the actors involved in Cooperation projects and delve into key concepts in this area, such as Sustainable Development.

In addition, this Postgraduate Diploma will also focus on Social Communication as an actor of change, gaining an overview of the media landscape and the current situation of Press Freedom worldwide. At the same time, students will examine how feminist movements are fighting for Gender Equality in different developing countries, reviewing their historical evolution.

All this and more will be available to the student in 600 hours of innovative educational content, which will be distributed in the number and duration of study sessions that the student deems appropriate.

This **Postgraduate Diploma in Social Transformation through International Development Cooperation** contains the Educational most complete and up-to-date scientific program on the market. Its most notable features are:

- ♦ The development of case studies presented by experts in Social Transformation through International Development Cooperation
- ♦ The graphic, schematic, and practical contents with which they are created, provide practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where the self-assessment process can be carried out to improve learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

*Contribute to the empowerment of women through your actions in regions where Gender Inequality is manifest”*

“

*Lead the change in the communities targeted by the International Development Cooperation considering the specificities of each of their social realities”*

*Specialize from home or wherever you deem appropriate with 600 hours of innovative educational materials on Social Transformation through International Development Cooperation.*

*Test your skills in demanding case studies where you will have to incorporate the gender approach in development processes.*

The program's teaching staff includes professionals from the field who contribute their work experience to this educational program, as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the academic year. For this purpose, the students will be assisted by an innovative interactive video system created by renowned and experienced experts.

# 02 Objectives

The objectives of the Postgraduate Diploma are to provide the student with the advanced competences needed to lead the processes of Social Transformation within the projects of International Development Cooperation. In this way, their mastery of the sociological theories of development or of the actors involved in these initiatives will allow them to design and implement strategies that end up promoting public policies that guarantee Human Rights.

A photograph of the UNESCO World Heritage Centre building in Paris, France. The building is a large, light-colored stone structure with the words "NATIONS UNIES" visible on its facade. In the foreground, a long row of national flags from various countries is displayed on tall, gold-tipped poles. The image is partially obscured by a large, diagonal, brown and white graphic overlay.

NATIONS UNIES

“

*Achieve TECH's objectives and develop yourself as a social communicator of reference in developing areas”*

## General Objectives

---

- ♦ Provide students with advanced knowledge in International Cooperation, of a specialized nature and based on theoretical and instrumental knowledge that will allow them to acquire and develop the skills and abilities necessary to obtain a qualification as a solidarity professional
- ♦ Provide the student with basic knowledge of the cooperation and development process based on the latest advances in policies on the sustainability processes involved in both economic and social aspects
- ♦ Improve professional performance and develop strategies for adapting and solving the problems of today's world , by means of scientific research in cooperation and development processes
- ♦ Disseminate the basics of the current system and develop is the critical and entrepreneurial spirit necessary to adapt to political changes within the framework of International Law

*Establishes the appropriate cooperation instruments to break down the walls that prevent Social Transformation in different countries"*

## Specific Objectives

---

### Module 1. The Development of Peoples: Introduction and Challenges

- ♦ Understand the importance of the development of peoples
- ♦ Become aware of the actors involved in development, why and its consequences
- ♦ Know and clarify such basic concepts as poor and impoverished
- ♦ Become aware of the world situation and development
- ♦ Familiarize the student with the economic structure of the world
- ♦ Manage the concepts of sustainable development, sustainable objectives, etc. to meet their goals and objectives
- ♦ Know the basic theories of development in its economic, social, cultural and political aspects

### Module 2. International Development Cooperation

- ♦ Know different methods of research in International Development Cooperation
- ♦ Gain knowledge on methodologies for public policy advocacy, social communication, political change, etc
- ♦ Know the evolution and status of current debates on development
- ♦ Become familiar with the instruments of international cooperation for development, as well as the types of projects and existing NGOs
- ♦ Develop skills to work with the main vulnerable subjects involved in development cooperation actions and programs
- ♦ Understand the international cooperation system and the different members that make it up

### Module 3. Social and Transformative Communication

- ♦ Prepare social communicators who can apply their knowledge at the different levels
- ♦ Identify, understand and know how to use sources, statistical techniques and computer tools to organize selected information and plan development and cooperation reports, analyses and actions
- ♦ Conduct an ethical reflection on cooperation, information, images and their applicability in specific contexts and information sources

### Module 4. Equality and Cooperation

- ♦ Internalize, analyze and understand what we mean when we talk about gender, development and women's rights.
- ♦ Know the role of feminist movements in the processes of social advancement and transformation
- ♦ Intervene under gender perspectives in international development cooperation

# 03

# Course Management

One of the hallmarks of TECH in the design of its programs is to bet on experts with extensive experience in the area under study. And this is what they have done in this Postgraduate Diploma, incorporating eminent experts in International Development Cooperation who have worked in different agencies and organizations, promoting social change in vulnerable communities. All this background is included in the educational materials, from which the student will benefit enormously.

“

*Give the impetus you are looking for in your career by drawing on the experience of experts in International Cooperation who have worked with different agencies and organizations in development projects”*

## Guest Director

### Ms. Rodríguez Arteaga, Carmen

- ♦ Liaison Advisor for the 2030 Agenda at AECID
- ♦ Director of the Studies Office of the INEM Directorate
- ♦ Head of Education, Strategic Planning and Coordinator of Knowledge Networks in AECID
- ♦ Degree in Philosophy and Educational Sciences at UCM
- ♦ Specialist in Knowledge Management
- ♦ Expert in Educational Evaluation at OEI
- ♦ Expert in Educational Indicators and Statistics at UNED
- ♦ Expert in Development Cooperation in Education at the University of Barcelona

## Management

### Ms. Romero Mateos, María del Pilar

- ♦ Social Educator Specialized in Child Empowerment
- ♦ Employment training teacher
- ♦ Gender Equality Agent
- ♦ Author and collaborator in educational projects at Abile Educativa
- ♦ Co-Author of the book: 'Principeso Cara de Beso'
- ♦ Postgraduate Diploma in International Development Cooperation

## Professors

### Mr. Cano Corcuera, Carlos

- ♦ Specialist in Planning and Management of Cooperation Development Interventions
- ♦ General Coordinator of the Spanish Cooperation in the Dominican Republic
- ♦ General Coordinator of the Spanish Cooperation in Mexico
- ♦ Degree in Biology with a major in Zoology and a minor in Animal Ecology.
- ♦ Specialization courses in the following areas: International Cooperation; Identification, Formulation and Monitoring of Cooperation Projects; Humanitarian Aid; Equal Opportunities; International Negotiations; Planning with a Gender Perspective; Results-Oriented Management for Development; Disability Approach in Cooperation Projects; European Union Delegated Cooperation, etc

### Ms. Sanchez Garrido, Arceli

- ♦ Deputy Head of the Department of Cultural Cooperation and Promotion of the DRCC
- ♦ Responsible for the application of AECID's Cultural Diversity Mainstreaming Guide.
- ♦ Professor of the Master in Cultural Management at the Carlos III University of Madrid
- ♦ Degree in Geography and History, specializing in Anthropology and Ethnology of America, Complutense University of Madrid
- ♦ Member of the Faculty of Museum Curators assigned to the Museo de América de Madrid

### Ms. Cordoba, Cristina

- ♦ International Cooperation Nurse Specialist
- ♦ Training and experience in International Development Cooperation Projects
- ♦ Co-founder and participant of PalSpain project
- ♦ Founder of the Youth Association APUMAK

### Ms. Florez Gomez, Mercedes

- ♦ Specialist in International Cooperation in Iberoamerica
- ♦ Director of the CFCE in Montevideo
- ♦ Degree in Geography and History from the Complutense University of Madrid
- ♦ Advanced Diploma in South Cooperation
- ♦ Diploma in Humanitarian Action - Institute of Studies on Conflict and Humanitarian Action
- ♦ MSc in Corporate Social Responsibility from the Pontifical University of Salamanca
- ♦ MSc in Information and Documentation from the Antonio de Nebrija University
- ♦ Specialist in Inequality, Cooperation and Development, Instituto Universitario de Desarrollo y Cooperación, Complutense University of Madrid
- ♦ Specialist in Planning and Management of Development Cooperation Projects in Education, Science and Culture (OEI)

### Dr. Ramos Rollon, Marisa

- ♦ Specialist on public policies and institutions in Latin America and on the issues of democratic governance and development policies
- ♦ Coordinator of the department of Democratic Governance in the Eurosocal program
- ♦ Full Professor of Political Science at UCM
- ♦ Responsible for the Democratic Governance sector at the Spanish Agency for International Cooperation
- ♦ Professor of Political Science at the University of Salamanca  
Development Cooperation Advisor to the Vice-Rector for International Relations of the University of Salamanca
- ♦ Relations and Cooperation at the Complutense University of Madrid
- ♦ Doctor of Political Science from the Complutense University of Madrid in the Contemporary Latin America program
- ♦ Bachelor's Degree in Political Science with a major in International Relations and Latin American Studies from UCM

# 04

# Structure and Content

The frenetic pace of today's society and intense professional activity means that today's students demand more than ever before flexibility in educational programs. Since its creation, TECH has listened carefully to these concerns and has incorporated into its programs numerous facilities that make the educational cycle much more comfortable and versatile. In this sense, students will be able to develop this specialization in the study periods they deem appropriate and without going to an on-site center at any time. In fact, the resources on Social Transformation through International Development Cooperation will remain available 24 hours a day on the Virtual Campus for downloading.

“

*Download with your PC or Tablet the most complete and up to date educational materials on Social Transformation through International Development Cooperation"*

**Module 1. The Development of Peoples: Introduction and Challenges**

- 1.1 Development
  - 1.1.1. Introduction
  - 1.1.2. What Is Meant by Development?

  - 4.9.5.2. Areas to Which Indicators May Be Addressed
  - 4.9.5.3. Characteristics of the Gender Indicators
  - 4.9.5.4. Purpose of Gender Indicators
- 4.9.6. Bibliography

05

# Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

*Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"*

## Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

*At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”*

*You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.*

*The student will learn to solve complex situations in real business environments through collaborative activities and real cases.*

### A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

“*Our program prepares you to face new challenges in uncertain environments and achieve success in your career*”

The case method has been the most widely used learning system among the world's leading Humanities schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

## Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

*In 2019, we obtained the best learning results of all online universities in the world.*

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

*Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.*

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

#### Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

#### Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

#### Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

#### Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

#### Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

#### Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

#### Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

# Certificate

The Postgraduate Diploma in Social Transformation through International Development Cooperation guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Diploma issued by TECH Global University.

“

*Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”*

This program will allow you to obtain your **Postgraduate Diploma in Social Transformation through International Development Cooperation** endorsed by **TECH Global University**, the world's largest online university.

**TECH Global University** is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University** title is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.

Title: **Postgraduate Diploma in Social Transformation through International Development Cooperation**

Modality: **online**

Duration: **6 months**

Accreditation: **24 ECTS**

\*Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH Global University will make the necessary arrangements to obtain it, at an additional cost.
