# Introduction

Communication and Marketing are very important aspects for companies when it comes to generating a positive image of the organization and reaching the right audience. For this reason, this educational program focuses on providing journalists and communication professionals with the necessary tools to work successfully in this sector. Additionally, this prestigious program contains an intensive plan that prepares you to face challenges and corporate decisions in the field of communication and Institutional Marketing. The main objective is to promote your personal and professional growth. If you want to improve, make a positive change at a professional level and network with the best, then this is the place for you.

“

*Communication and marketing play a decisive role for organizations. Learn how to manage these aspects through this Postgraduate Certificate"*

The content of the Postgraduate Certificate in Institutional Marketing and Communication is designed to promote the development of professional skills of journalists that allow them to make decisions with greater rigor in uncertain environments.

Throughout this educational program, the journalist will analyze a multitude of practical cases through individual and team work. It is, therefore, a complete immersion in real situations related to the area of Institutional Marketing and Communication.

This Postgraduate Certificate deals in depth with Institutional Marketing and Communication, and is designed to train communication professionals who want to learn more about how to manage these processes successfully and from a strategic, international and innovative perspective.

A plan created to favor students, focused on their professional improvement and that prepares them to achieve excellence in the field of Institutional Marketing and Communication. A program that understands the educational needs of the student and meets them through innovative content based on the latest trends and supported by the best educational methodology and an exceptional faculty, which will provide the professional with the competencies to solve critical situations in a creative and efficient way.

Furthermore, the 100% online format of the course allows the student to manage their own studies, without the inconvenience of traveling to an education center for classes.

This **Postgraduate Certificate in Institutional Marketing and Communication** contains the most complete and up to date program on the market. The most important features include:

- ♦ Practical cases presented by experts in Journalism and Institutional Communication
- ♦ The graphic, schematic, and practical contents with which they are created provide scientific and practical information on the disciplines that are essential for professional practice
- ♦ New developments in the world of journalism and communication
- ♦ Practical exercises where a self assessment process is carried out to improve learning
- ♦ Its special emphasis on innovative methodologies in institutional communication
- ♦ The interactive learning system based on algorithms for decision making on the situations posed in Journalism and Digital Communication
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

*Don't miss out on this great educational opportunity, as it will allow you to successfully perform within this exciting field"*

“

*Welcome to the educational program that will enhance your professional profile and help you reach the top"*

The program includes, in its teaching staff, professionals belonging to the field of journalism and communication, who bring to this training the experience of their work, as well as recognized specialists from prestigious reference societies and universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide an immersive training program designed to train in real situations.

This program is designed around Problem Based Learning, where the student must try to solve different professional practice situations that arise during the course. For this purpose, the professional will be assisted by an innovative interactive video system developed by renowned experts in the field of Judicial Journalism and with great experience.

*You will learn from the best professionals in the sector and you will feel how you begin to build up your professional career.*

*Institutional Communication is booming. Learn how to intervene in this exciting field with this TECH program.*

# 02

# Objectives

TECH designs all its programs with the objective of training the best professionals in the sector. To this end, it generates educational update plans that stand out for the quality of their contents and the academic rigor with which they have been created. In the specific case of this program, this objective becomes a reality by providing the professional with the necessary tools to face the challenge of creating a strategic plan in institutional communication. A goal that, in only a month, the student will be able to achieve, with a high intensity and precision Postgraduate Certificate.

“

*Your goals are our goals. If you grow, so does this University"*

# 03

## Course Management

The design of this educational program has been created by a team of professionals in Journalism and Political Communication, with years of professional and teaching experience. All of them, aware of the current need for quality training in the journalism and communication sector, have joined their knowledge to provide students with the most complete competencies in the market, which will allow them to develop in the field of institutional communication, achieving first class professional skills and becoming a much more reputable professional in the sector.

“

*The best faculty is at the best university.  
Don't miss this educational opportunity”*

## International Guest Director

With nearly 20 years of experience in political campaigns at the highest level and more than a decade in the media, Jess McIntosh is considered one of the most prestigious political communication strategists in the United States. Her professional skills allowed her to be part of the 2016 presidential race in that country as Director of Communications for candidate Hillary Clinton.

In addition to this professional achievement, McIntosh has been Deputy Communications Director of EMILY's List, a political action committee dedicated to the support of pro-choice Democratic female candidates for public office. She has also advised other organizations seeking to strengthen their social impact through hard-hitting messaging and to combat misinformation.

At the same time, she has served as an advisor to other political candidates such as Scott Stringer, for Manhattan Borough President, and Michael Bloomberg, for Mayor of New York City. She also participated in Al Franken's campaign for the U.S. Senate as his Secretary and later Press Secretary. She has also served as Spokesperson for the Minnesota Democratic-Farmer-Labor Party.

Likewise, in the media, this renowned specialist has also accumulated multiple achievements. She has worked behind the scenes and on camera for various television and cable news networks across North America such as CBS, CNN and MSNBC.

She has also created, developed and hosted critically acclaimed programs in the podcast and audio space. These include the award-winning SiriusXM radio show Signal Boost, co-hosted with political analyst Zerlina Maxwell. She has also written about politics and gender in countless print publications such as the Wall Street Journal, CNN, ELLE, Refinery29 and Shondaland, among others. She is also Executive Editor of Shareblue Media, a U.S. news outlet.

## Dña. McIntoch, Jess

---

- ♦ Political Advisor and former Communications Director for Hillary Clinton's presidential campaign
- ♦ Host of the multi-award winning SiriusXM Signal Boost radio show
- ♦ Executive Editor of Shareblue Media
- ♦ Political analyst on news channels such as CBS, CNN and MSNBC

**Business**

Our mission is to create a good company for US, our CUSTOMERS, and the WORLD.

US: Fun, purposeful team with a good work-life balance.  
CUSTOMERS: Connect with our customers and provide them with the best design resources and images. Ultimately we will be successful because we have the best quality work.  
WORLD: I have got into photography through travel. I submitted a very different side to the world to what I saw growing up in Redmarley, Gloucestershire.

- The world is messed up but I believe we are in a position now to help significantly to the lives of a lot of people.
- At least 50% of all revenue received by Instagram will go to children charities.
- Over the following years I plan to focus more and more on this side of the business and believe there is a huge potential.
- Make a difference through design photography and marketing.
- Obviously this completely rules out venture capital. On the one hand this is making it very hard to implement our plan.
- I believe we are better off for it as we have to focus on a quality product and efficiency to achieve our goals.

Having said that, we are exploring options for loans to accelerate things.

**SIMPLE STRATEGY** (Reasons we will be successful)

Our biggest advantage is the whole stock industry is completely amateur. The industry is massively undervalued. What we are doing updates with our systems is something already the world's best.

Virtually all stock photographers work alone or in small teams. They are all competing with each other. Nobody has ever really managed to scale. Several people have cloned themselves to produce more of the same look.

We are creating a system where very talented creatives can develop their own style and share everything. Some young talented kid comes along who can take better images than me. I'll open her images and ask others to it to regain the number one spot. At the end of the day, amazing photographers take a photo in New York and upload it. By the end of the day, zero amazing photographers have all added in their own style and our best graphic designers have already added their graphic concepts to it. We keep using the most talented

**Shoot Project Process : Move photo to system**

Company has been dedicated to creating fresh and amazing imagery for nearly a decade. We do better together. You need visual elements that reflect your world and your brand. Our images combine concept, styling, and professional quality. The result? Authentic, share-worthy content with endless potential applications. We put a lot into our photos, so you can get a lot out of them. Company has been dedicated to creating fresh and amazing stock imagery for nearly a decade. We're passion-driven, not profit-driven. Our photos, like us, are real and genuine. We put a lot into our photos, so you can get a lot out of them. Tell us what you need from a stock photo - we're listening! Company has been dedicated to creating fresh and amazing imagery for nearly a decade. We do better together.

  - 2.10.1. Corporate *Blogging*
  - 2.10.2. Content Marketing Strategy
  - 2.10.3. Creating a Content Plan
  - 2.10.4. Content Curation Strategy

*In a highly competitive professional world, training is the only means of professional differentiation"*

05

# Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning.**

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

*Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"*

## Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

*At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”*

*You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.*

### A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

“*Our program prepares you to face new challenges in uncertain environments and achieve success in your career*”

*The student will learn, through collaborative activities and real cases, how to solve complex situations in real business environments.*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

## Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

*In 2019, we obtained the best learning results of all online universities in the world.*

At TECH, you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

This methodology has trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, and financial markets and instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

*Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.*

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

### Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

### Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

### Practising Skills and Abilities

They will carry out activities to develop specific skills and abilities in each subject area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

### Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

#### Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best specialists in the world.

#### Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

#### Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

06

# Certificate

The Postgraduate Certificate in Institutional Marketing and Communication guarantees students, in addition to the most rigorous and up to date education, access to a Postgraduate Certificate issued by TECH Technological University.
