01

Introduction

In the field of human rights, there are various systems of protection at the regional level, which complement and strengthen the efforts of international entities. These legal mechanisms are responsible for addressing any specific issue and have their own regulations, institutions and monitoring methods. In order to delve into the particularities of these entities, TECH has created a comprehensive program on the most outstanding bodies in Europe, America and Africa. An intensive syllabus where each graduate has a unique opportunity to broaden his or her competencies in order to practice with excellence in any specialized institution. It is, in short, a 100% online university program, which complements the learning process with an infinite number of audiovisual resources, presented by the best experts.

The understanding of the systems of protection of Human Rights is essential to specialize. Enroll now in this 100% online Postgraduate Certificate"

In an increasingly interconnected world, the protection of Human Rights has become the fundamental objective of governments. To address this issue, different international systems have emerged and each has its own protocols and policies. Unfortunately, this does not occur in the same way in different parts of the world, such as Asia and Oceania. For this reason, TECH presents this program as a measure to help the specialization of legal professionals.

Through this comprehensive program, students acquire a deep insight into the specific challenges faced by institutions in the promotion of Human Rights. First of all, the syllabus deals with the functioning of European mechanisms, from their creation to their evolution. In turn, it delves into the citizens' guarantees contemplated in the European Union and how they comply with its protocols. Finally, it analyzes the protection mechanisms in the framework of the ECtHR, the Inter-American Court of Human Rights and the African Court of Human Rights.

This program has been designed to be delivered online, which means that the lawyer is not conditioned by strict schedules and does not need to travel to a physical location to receive classes. You only need to connect through an electronic device with Internet access. In addition, the innovative Relearningteaching method, of which TECH is a pioneer, allows to consolidate the mastery of the most complex concepts in a fast and flexible way. This, thanks to the enhancement of practical applications and the analysis of real cases to facilitate the development of a praxis of excellence in each graduate. And all this through the academic advice of the best experts in international jurisprudence.

This **Postgraduate Certificate in International Systems for the Protection of Human Rights of a Regional Character** contains the most complete and up-to-date program on the market. The most important features include:

- The development of case studies presented by experts in the legal field
- The graphic, schematic and eminently practical contents with which it is conceived provide practical information on those disciplines that are essential for professional practice
- Practical exercises where the self-assessment process can be carried out to improve learning
- Its special emphasis on innovative methodologies
- Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- Content that is accessible from any fixed or portable device with an Internet connection

This Postgraduate Certificate contains the most complete and updated academic program in the market"

Access to an academic program conducted by the best experts in the field of Human Rights"

By enrolling, you will have access to a unique learning experience, key and fundamental to boost your personal development.

This entire program has been designed to be taught online: without schedules or travel. Study at your own pace!

The program includes in its teaching staff, professionals of the sector who pour in this training the experience of their work, in addition to recognized specialists of reference societies and prestigious universities.

Its multimedia content, developed with the latest educational technology, will provide the professionals with situated and contextual learning, i.e., a simulated environment that will provide an immersive education programmed to learn in real situations.

This program's design focuses on Problem-Based Learning, through which the professionals must try to solve the different professional practice situations that arise during the academic program. For this purpose, the students will be assisted by an innovative interactive video system created by renowned experts.

02

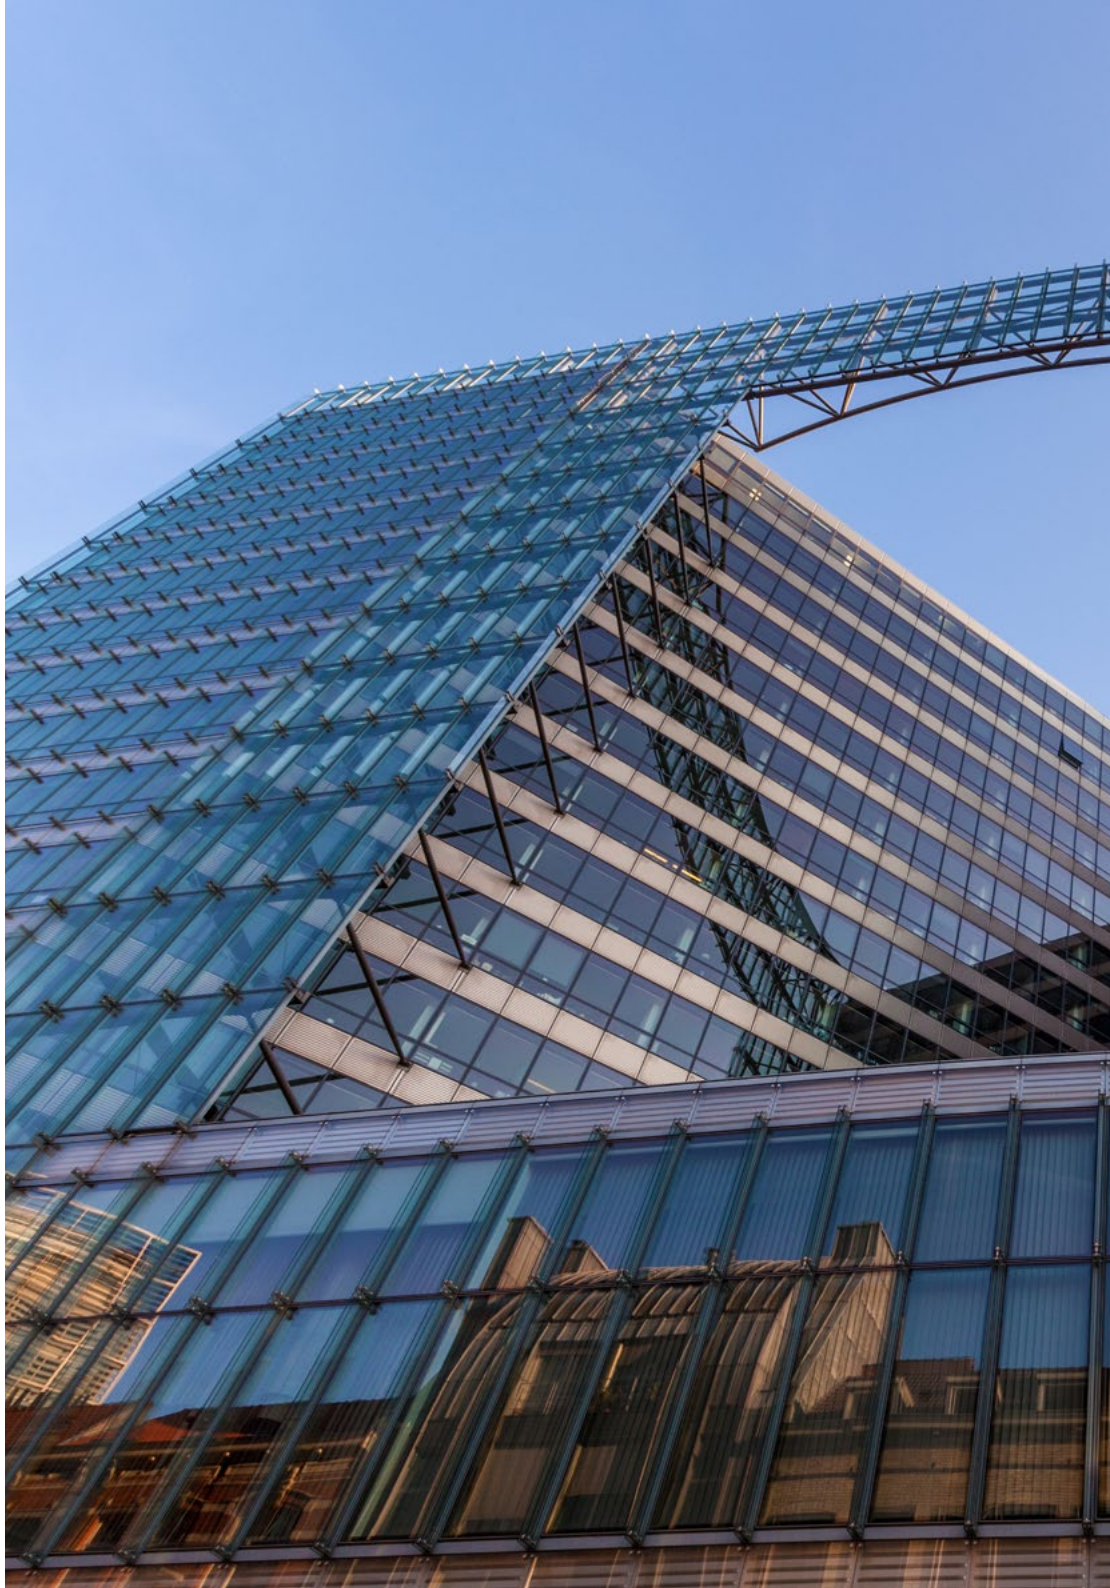
Objectives

TECH has designed this program with the objective of providing a unique and innovative training, motivating students to continue their specialization. Students will acquire the indispensable knowledge to critically analyze the role of international and regional organizations in charge of advocating for the promotion and protection of Human Rights. All this, condensed in a purely online syllabus and with multimedia resources presented by excellent experts.

Start this academic journey today and make a significant contribution to the protection of Human Rights around the world"

General Objectives

- Examine the foundations of International Human Rights Law and the transformations it has introduced in Public International Law
- Delve into the mechanisms of control of Human Rights present in Europe, America and Africa
- Develop knowledge of the rights of indigenous peoples from a holistic perspective
- Identify the different mechanisms of guarantee of Human Rights for the protection of women and the LGTBIQ+ community
- Delve into the international and European legal framework that regulates cyberspace, with special emphasis on the protection of Human Rights
- Investigate the relationship between business activity and Human Rights
- Broaden your knowledge of International Humanitarian Law



Specific Objectives

- Determine and identify the rights and freedoms protected within the European Union and their protection mechanisms
- Examine the functioning of the European, Inter-American and African systems of Human Rights protection
- Understand the Asian and Islamic culture and its conception of human rights

Specialize in just 6 weeks thanks to the best educational methodology, Relearning"

03

Course Management

In a diverse and globalized world, the protection of human rights is essential. For this reason, this program has a teaching team of the highest professional profile, with an extensive trajectory full of achievements and recognition for their hard work. They are committed to providing students with a high quality experience, fostering the development of their critical thinking and empowering them to advance in their profession.

The experience and passion of this faculty guarantees the highest level of academic learning. Enroll now!"

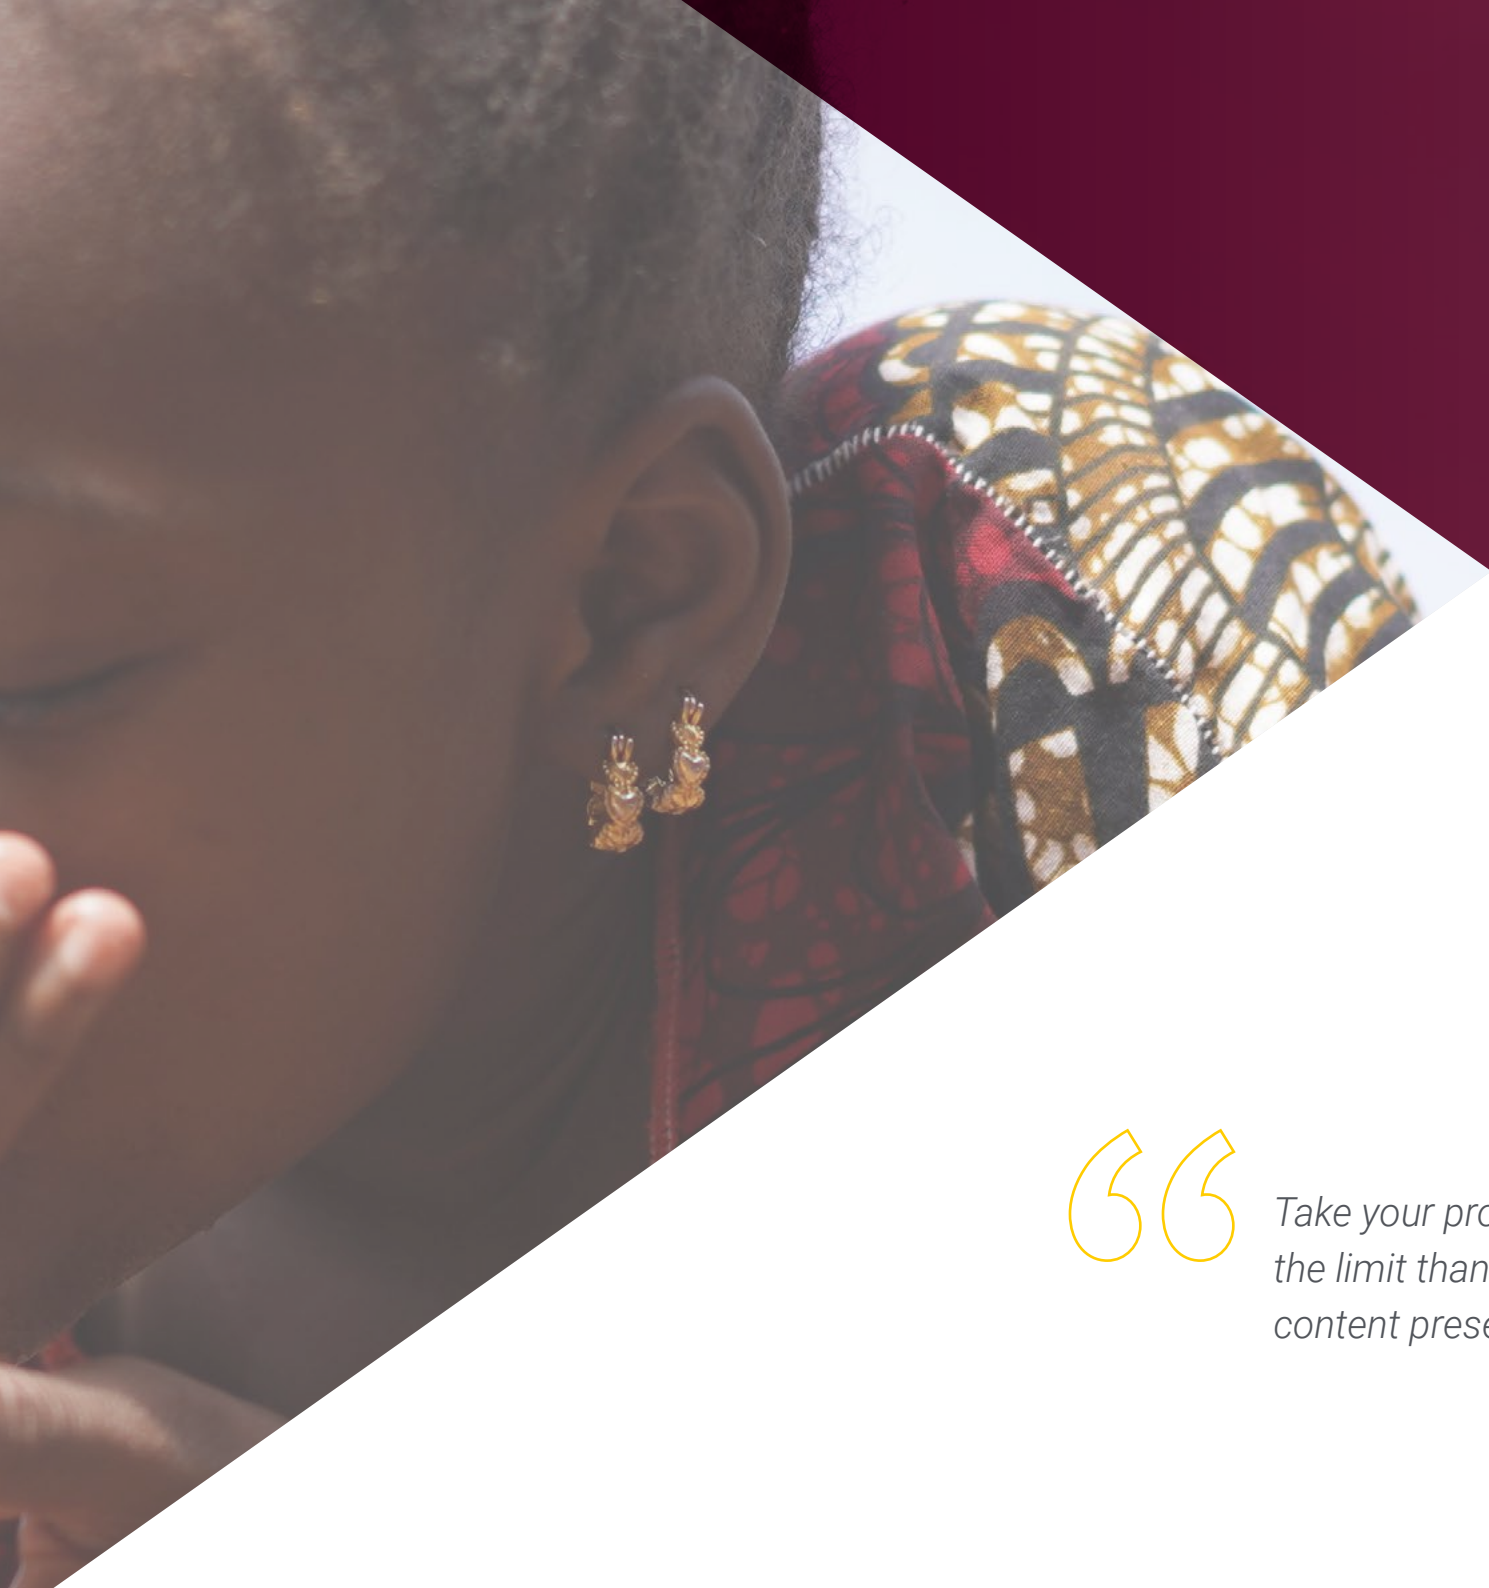
04

Structure and Content

The syllabus of this Postgraduate Certificate consists of a single module divided into 10 topics. These have been designed and selected following the most rigorous criteria presented by our excellent experts, who complete the syllabus with their extensive experience, allowing them to present various real cases and examples of the daily life of the organizations that protect Human Rights. Your study is enhanced by an innovative methodology, Relearning, and the exhaustive analysis of numerous practical and real cases.



Take your professional profile to the limit thanks to the innovative content presented by TECH"

Module 1. International Human Rights Protection Systems of a Regional Nature

1.1. Universalism versus regionalism in international protection of Human Rights
- 1.1.1. International protection system on the European continent
- 1.1.2. International protection system on the American continent
- 1.1.3. International protection system on the African continent

1.2. International organizations for the protection of human rights on the European continent
- 1.2.1. The European Convention on Human Rights and its Protocols
- 1.2.2. Other human rights conventions adopted within the framework of the Council of Europe
- 1.2.3. The European Court of Human Rights (ECtHR): jurisdiction, structure and organization

1.3. International organizations for the protection of human rights on the American continent
- 1.3.1. Historical context of their creation
- 1.3.2. The normative instruments of the inter-American system
- 1.3.3. The rights and freedoms recognized

1.4. International organizations for the protection of human rights on the African continent
- 1.4.1. Historical context of their creation
- 1.4.2. The normative instruments of the inter-American system
- 1.4.3. The rights and freedoms recognized

1.5. International tribunals in regional systems for the protection of Human Rights
- 1.5.1. The African Court of Human Rights
- 1.5.2. The Inter-American Court for the Protection of Human Rights
- 1.5.3. The European Court for the Protection of Human Rights

1.6. International protection of human rights protection and international integration organizations
- 1.6.1. In the framework of Mercosur
- 1.6.2. In the framework of the European Union
- 1.6.3. Other integration systems

1.7. Complaints procedures and value of the judgments of international tribunals
- 1.7.1. The complaints procedure and value of ECtHR rulings
- 1.7.2. The complaints procedure and value of judgments of the IACHR
- 1.7.3. The complaints procedure and value of the judgments of the IACHR

1.8. Initiatives and challenges for the protection of Human Rights in the East
  1.8.1. Asian perspective of Human Rights protection
  1.8.2. ASEAN Intergovernmental Commission on Human Rights
  1.8.3. Initiatives and challenges for the protection of Human Rights in Asia
1.9. The protection of Human Rights in the Arab-Islamic World
  1.9.1. Protection of Human Rights in the Arab-Islamic World
  1.9.2. The normative instruments of the inter-American system
  1.9.3. Reception of the international standard on the protection of Human Rights
1.10. The International Criminal Court and other international criminal tribunals
  1.10.1. The International Criminal Court and other International Criminal Tribunals
  1.10.2. Composition
  1.10.3. Functioning

Don't miss this opportunity to develop a personalized study program according to your needs and interests for academic improvement"

05

Methodology

This training program offers a different way of learning. Our methodology uses a cyclical learning approach: **Relearning.**

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH we use the Case Method

Our program offers a revolutionary method of skills and knowledge development. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

At TECH, you will experience a way of learning that is shaking the foundations of traditional universities around the world"

Our university is the first in the world to combine Harvard Business School case studies with a 100% online learning system based on repetition.

The student will learn, through collaborative activities and real cases, how to solve complex situations in real business environments.

A learning method that is different and innovative.

This intensive Law program at TECH Technological University will prepare you to face all the challenges in this area, both nationally and internationally. Its main objective is to promote personal and professional growth by helping you achieve success. For this purpose, we rely on Harvard Business school case studies with which we have a strategic Convention that allows us to use the materials used in the most prestigious university in the world.

> *We are the only online university that offers Harvard materials as teaching materials on its courses"*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the course, students will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

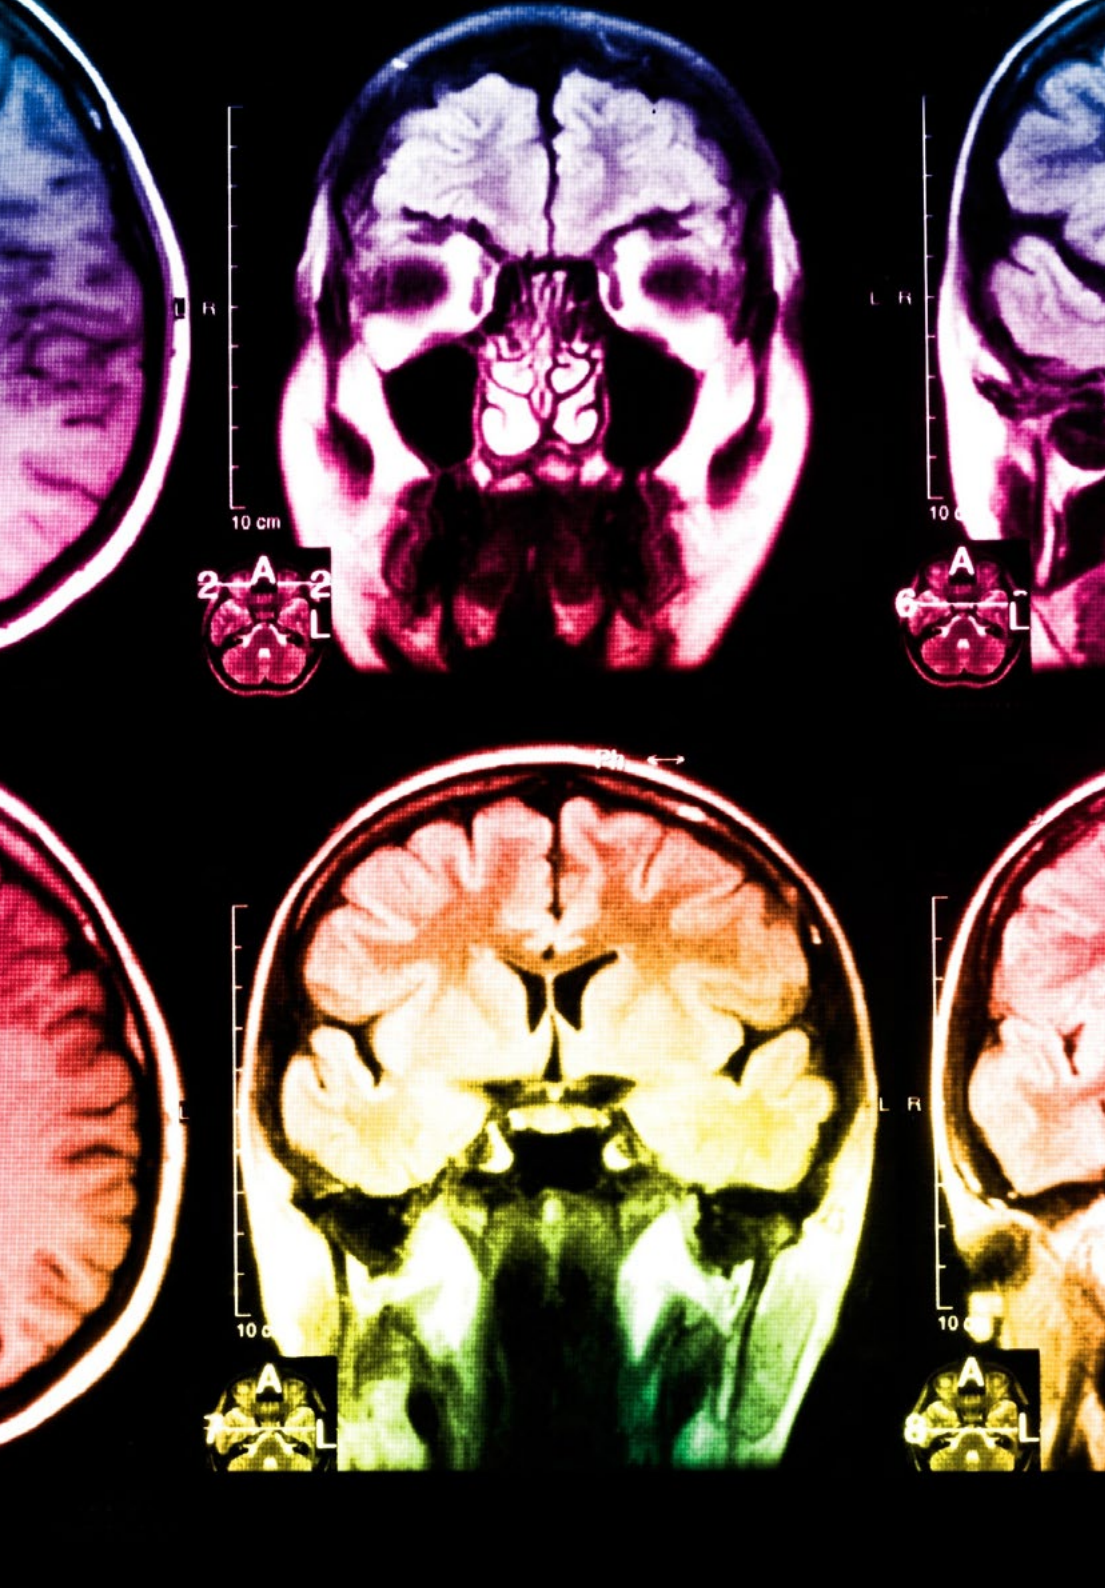
Relearning Methodology

Our university is the first in the world to combine the Harvard University case studies method with a 100% online learning system based on repetition, combining 8 different didactic elements in each lesson.

We enhance Harvard case studies with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.
Our university is the only university in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.



In our program learning is not a linear process, but rather, a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. This methodology has trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, and financial markets and instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

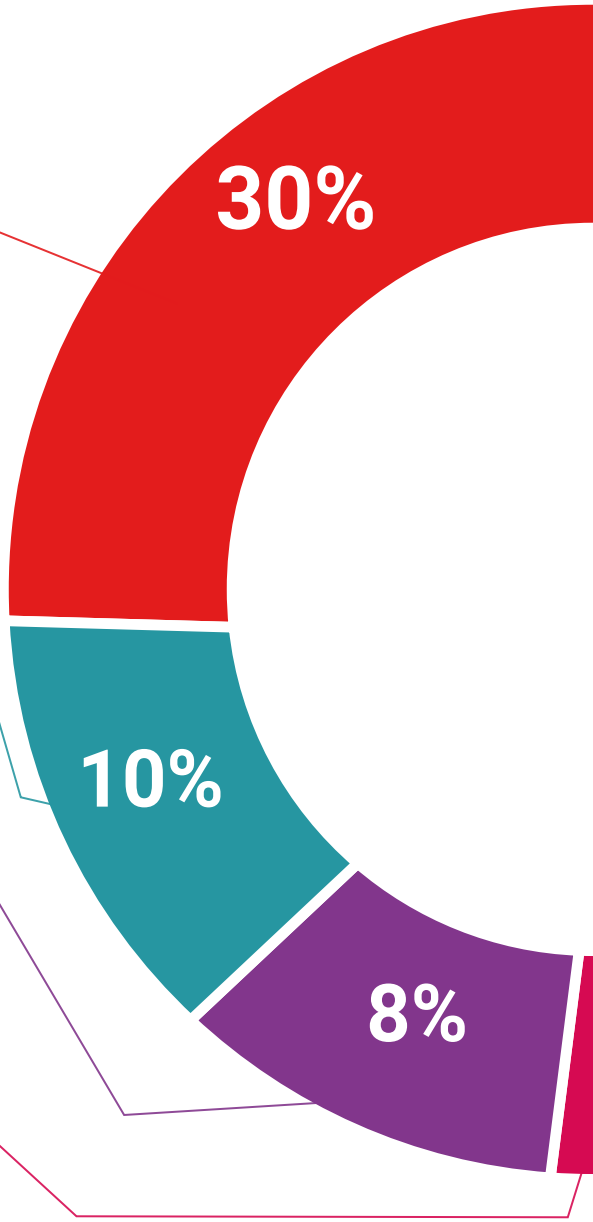
Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

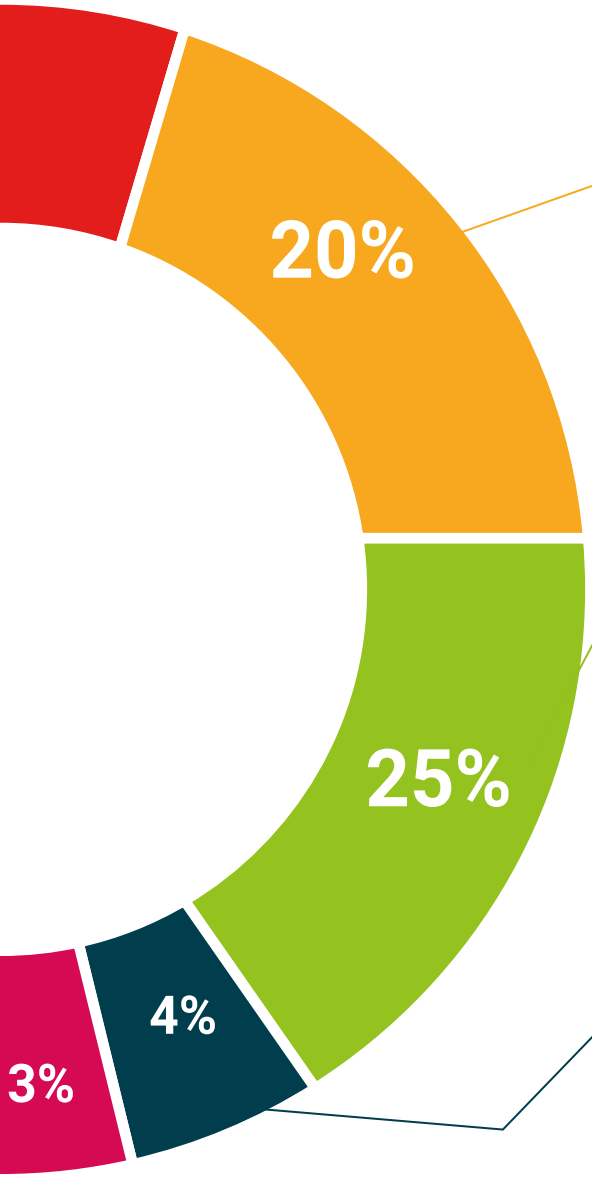
Practising Skills and Abilities

They will carry out activities to develop specific competencies and skills in each thematic area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.





Case Studies

They will complete a selection of the best case studies in the field used at Harvard. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive multimedia content presentation training tExclusive system was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises: so that they can see how they are achieving your goals.

06

Certificate

The Postgraduate Certificate in International Systems for the Protection of Human Rights of a Regional Character guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork"

This **Postgraduate Certificate in International Systems for the Protection of Human Rights of a Regional Character** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.
