# 01

# Introduction

Estimates by the United Nations High Commissioner for Refugees (UNHCR) state that approximately 3.6% of the world's population are migrants. The arrival of many of them in other nations implies a significant economic, political and legislative challenge. In this sense, professionals with a holistic understanding of the regulations that protect these citizens are in charge of promoting strategies for a peaceful and assertive social integration. For this reason, TECH has devised a comprehensive program to update the skills of legal personnel on the latest tools in defense of the Human Rights of these people. All this through a 100% online academic methodology that provides its students with a personalized pace of study from anywhere.

“

*Enroll in this Postgraduate Certificate and dominate the latest trends in asylum law and its different regulations"*

In today's global context, migration has become an inescapable reality that challenges nations, governments and communities around the world. Displacement flows of people originate for a variety of reasons, including armed conflict, persecution, forced displacement, precarious economic conditions and the search for a safe haven. This situation has accentuated the need for professionals trained in the promotion and protection of the fundamental rights of these displaced persons, which justifies the existence of a training program dedicated to the subject.

The Postgraduate Certificate in Migratory Flows and Human Rights is an essential response to this growing demand. Developed by a team of legal experts, this program explores the most crucial aspects of this exodus, from asylum procedures to the safeguarding of social guarantees. In addition, the complexity of the challenges facing both these citizens and the receiving societies is reflected throughout the syllabus.

On the other hand, the university program delves into the functioning of border control agencies, understanding their roles and responsibilities. At the same time, the academic itinerary comprehensively analyzes the strategies against human smuggling, examining the legal and operational measures implemented at national and international level to combat it.

To facilitate a solid mastery of these contents, TECH implements its innovative Relearning methodology, which involves the repetition of key concepts. This ensures that graduates not only acquire knowledge, but also internalize it and are able to apply it effectively in real situations. With this Postgraduate Certificate, participants will be prepared to address contemporary challenges in the field of migration and human rights, contributing to the promotion of more inclusive and just societies.

This **Postgraduate Certificate in Migratory Flows and Human Rights** contains the most complete and up-to-date program on the market. The most important features include:

- ♦ The development of practical cases presented by experts in Migratory Flows and Human Rights
- ♦ The graphic, schematic and practical contents with which it is designed provide advanced and practical information on those disciplines that are essential for professional practice
- ♦ Practical exercises where the self-assessment process can be carried out to improve learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

*The latest developments in migration law and human rights in 150 hours of exclusive multimedia resources"*

“

*Join this program to contribute to address the current challenges in the field of migration with a 100% online methodology”*

*Expand your skills and become a lawyer specialized in Migratory Flows and Human Rights.*

*A unique and disruptive program taught from a cutting-edge virtual platform.*

The program's teaching staff includes professionals from sector who contribute their work experience to this educational program, as well as renowned specialists from leading societies and prestigious universities.

Its multimedia content, developed with the latest educational technology, will provide the professionals with situated and contextual learning, i.e., a simulated environment that will provide an immersive education programmed to learn in real situations.

The design of this program focuses on Problem-Based Learning, by means of which the professionals must try to solve the different professional practice situations that are presented throughout the academic course. For this purpose, the students will be assisted by an innovative interactive video system created by renowned experts.

# 02 Objectives

TECH has designed this Postgraduate Certificate with the objective of allowing students to delve deeper into crucial aspects of Human Rights as applied to migration, including the functioning of asylum procedures. The multimedia teaching materials, created by experts with extensive experience in the legal field, offer a versatile learning pathway. The ability to access these resources from any device with an Internet connection allows students to adapt their pace of study to achieve their objectives.

“

*Don't lose sight of your goals and become one of the most sought-after professionals in the field of Immigration Law"*

## General Objectives

---

- ♦ Examine the foundations of International Human Rights Law and the transformations it has introduced in Public International Law
- ♦ Delve into the mechanisms of control of Human Rights present in Europe, America and Africa
- ♦ Delve into the international and European legal framework that regulates cyberspace, with special emphasis on the protection of Human Rights
- ♦ Investigate the relationship between business activity and Human Rights
- ♦ Broaden your knowledge of International Humanitarian Law

## Specific Objectives

---

- Delve into the functioning of the asylum procedures in the European Union
- Approach the regime applicable to immigrants and refugees
- Determine the functioning of the *Schengen* visa regime

*Enroll now at TECH, the world's top-rated university by its students on Trustpilot "*

03

# Course Management

With the purpose of guaranteeing academic excellence in all its programs, TECH has summoned an outstanding group of experts in the legal field to teach the Postgraduate Certificate. These professionals, active in the field of law, will assume the responsibility of developing the contents of the program, which ensures that the knowledge transmitted to students remains fully updated on the legal protection that protects migratory flows. This approach guarantees quality academic preparation in a legal field of great relevance today.

“

*The No. 1 Postgraduate Certificate in  
Migratory Flows and Human Rights.  
Study with a world-class faculty”*

## Management

### Dr. Gutiérrez Castillo, Víctor Luis

- ♦ Researcher specialized in Common European Law and International Studies

# Structure and Content

The syllabus of this Postgraduate Certificate responds to the new challenges posed by migratory flows in the current global context. The faculty has proposed a study plan in which graduates will delve into key aspects such as the right to asylum and its regulation in different continents, or how this phenomenon interacts with other issues such as war. In addition, students will broaden their knowledge and skills through disruptive methodologies and the use of practical and real examples.

“

*A syllabus developed by experts and quality multimedia content are the key to successful learning"*

## Module 1. Migratory flows and Human Rights

- 1.1. International migration flows
  - 1.1.1. The international organization of migration
  - 1.1.2. International trends
  - 1.1.3. Interaction of migration flows with other global challenges

  - 1.2.1. Historical origins
  - 1.2.2. Emergence and evolution of diplomatic asylum
  - 1.2.3. Crystallization of asylum as a human right in international instruments
- 1.3. The international application of asylum in the world
  - 1.3.1. The right to seek asylum and its application on the European continent
  - 1.3.2. The right to seek asylum and its application on the American continent
  - 1.3.3. The right to seek asylum and its application on the African continent
- 1.4. Refugee status as a universal protection regime
  - 1.4.1. International categories of protection
  - 1.4.2. New challenges: LGBTQ+ community protection
  - 1.4.3. New challenges: climate change and disaster displacement
- 1.5. International migration and asylum policies
  - 1.5.1. Origins
  - 1.5.2. Migration crises and political impulses
  - 1.5.3. Competencies in international integration organizations
- 1.6. Integration processes: Freedom of movement and borders
  - 1.6.1. Freedom of movement
  - 1.6.2. The Schengen area
  - 1.6.3. Re-establishment of internal borders in the framework of the Schengen area
- 1.7. Agencies and border control
  - 1.7.1. European border control agencies
  - 1.7.2. European agencies guaranteeing the protection of DDFF
  - 1.7.3. Cooperation between European and national agencies

- 1.8. External dimension of external border control
  - 1.8.1. European Union and neighboring countries
  - 1.8.2. European Union and third countries
  - 1.8.3. European Union and Latin America
- 1.9. Border Control and Human Rights
  - 1.9.1. European Union and European system of human rights protection
  - 1.9.2. Responsibility of European agencies
  - 1.9.3. International jurisprudence and relationship between international tribunals
- 1.10. Combating the smuggling of migrants in international society
  - 1.10.1. International organized crime situation
  - 1.10.2. International instruments
  - 1.10.3. Regional instruments

*With this academic program you will become an expert in immigration law. Enroll and take your career to the next level"*

05

# Methodology

This training program offers a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

*Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"*

## At TECH we use the Case Method

Our program offers a revolutionary method of skills and knowledge development. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

*At TECH, you will experience a way of learning that is shaking the foundations of traditional universities around the world”*

*Our university is the first in the world to combine Harvard Business School case studies with a 100% online learning system based on repetition.*

### A learning method that is different and innovative.

This intensive Law program at TECH Technological University will prepare you to face all the challenges in this area, both nationally and internationally. Its main objective is to promote personal and professional growth by helping you achieve success. For this purpose, we rely on Harvard Business school case studies with which we have a strategic Convention that allows us to use the materials used in the most prestigious university in the world.

*We are the only online university that offers Harvard materials as teaching materials on its courses"*

*The student will learn, through collaborative activities and real cases, how to solve complex situations in real business environments.*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the course, students will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

## Relearning Methodology

Our university is the first in the world to combine the Harvard University case studies method with a 100% online learning system based on repetition, combining 8 different didactic elements in each lesson.

We enhance Harvard case studies with the best 100% online teaching method: Relearning.

*In 2019, we obtained the best learning results of all online universities in the world.*

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only university in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program learning is not a linear process, but rather, a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

This methodology has trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, and financial markets and instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

*Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.*

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

### Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

### Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

### Practising Skills and Abilities

They will carry out activities to develop specific competencies and skills in each thematic area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization we live in.

### Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

**Case Studies**

They will complete a selection of the best case studies in the field used at Harvard. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

**Interactive Summaries**

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.  
This exclusive multimedia content presentation training tExclusive system was awarded by Microsoft as a "European Success Story".

**Testing & Retesting**

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises: so that they can see how they are achieving your goals.

06

# Certificate

The Postgraduate Certificate in Migratory Flows and Human Rights guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

*Successfully complete this program  
and receive your university qualification  
without having to travel or fill out  
laborious paperwork”*

This **Postgraduate Certificate in Migratory Flows and Human Rights** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery\*.

The diploma issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Certificate in Migratory Flows and Human Rights**

Official N° of Hours: **150 h.**
