Introduction

Protecting and respecting the rights of each individual is a global priority. This is why governments and international organizations frequently update and adapt their legal strategies in this regard. Keeping up to date is a challenge, and TECH has a program that addresses the different methodologies for the application of citizen guarantees around the world. In addition, the university program has been designed by high-profile experts who are able to provide lawyers seeking to update their skills with a solid understanding of their professional challenges. This is supported by a 100% online syllabus that allows professionals to access the content at any time and adapt it to their pace of life.

“

Thanks to this 100% online Postgraduate Certificate, you will develop a critical vision of the growing problem of Human Rights"

Human Rights guarantee the dignity of a person, allowing them to access basic services, enjoy freedoms and live without worries. The governments of each country are responsible for protecting and safeguarding them, creating agreements and treaties with international entities. This obligation also requires that it be implemented for all citizens, regardless of their ideologies, religion, skin color or culture.

Even so, it is public knowledge that this is often not fulfilled. Therefore, there is a need to delve into the content and protection mechanisms available to denounce any violation. That is why it becomes evident the great need for legal professionals who are able to meet this challenge and bring all cases before international bodies.

With this in mind, TECH Technological University has designed this academic program which delves into the normative and institutional elements that make up the international system of human rights protection that emerged at the end of World War II. In addition, it addresses the role of civil society in the search for citizen guarantees, peacekeeping and social inclusion.

This content represents a unique opportunity to specialize through a 100% online program, allowing students to decide where and when to take their classes, but, above all, with the advantage of not having to abandon their daily obligations. In addition, they have a unique opportunity to expand their competencies through the disruptive *Relearning* method. This state-of-the-art teaching system enhances the assimilation of complex concepts through repetition, guaranteeing each lawyer a theoretical and practical understanding of each content and its applications.

This **Postgraduate Certificate in Universal Human Rights Protection** contains the most complete and up-to-date program on the market. The most important features include:

- ♦ The development of case studies presented by experts in the legal field
- ♦ The graphic, schematic, and practical contents with which they are created, provide practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where the self-assessment process can be carried out to improve learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

Delve into the current mechanisms for the protection of Human Rights"

“

Do you want to advance your career? Enroll in this Postgraduate Certificate and provide legal protection to victims of violence”

The program includes in its teaching staff, professionals of the sector who pour in this training the experience of their work, in addition to recognized specialists of reference societies and prestigious universities.

Its multimedia content, developed with the latest educational technology, will provide the professionals with situated and contextual learning, i.e., a simulated environment that will provide an immersive education programmed to learn in real situations.

The design of this program focuses on Problem-Based Learning, by means of which the professionals must try to solve the different professional practice situations that are presented throughout the academic course. For this purpose, the students will be assisted by an innovative interactive video system created by renowned experts.

This program is a unique opportunity to specialize with a teaching team of the highest level.

A different, unique and disruptive program that is taught in a modality without rigid schedules or pre-established chronograms.

02

Objectives

The growing need for professionals trained to promote the defense and enforcement of human rights is undeniable. Therefore, this program has a clear objective: to provide students with the necessary tools to understand and advocate for justice and equality in a diverse and constantly changing world. In this way, an intensive tour will be made by each agency responsible for providing such protection, as well as the most current protocols for action.

“

In TECH you will find an advanced program, specifically designed to help you become a professional of great international prestige”

General Objectives

- ♦ Examine the foundations of International Human Rights Law and the transformations it has introduced in Public International Law
- ♦ Delve into the mechanisms of control of Human Rights present in Europe, America and Africa
- ♦ Develop knowledge of the rights of indigenous peoples from a holistic perspective
- ♦ Identify the different mechanisms of guarantee of Human Rights for the protection of women and the LGTBIQ+ community
- ♦ Delve into the international and European legal framework that regulates cyberspace, with special emphasis on the protection of Human Rights
- ♦ Investigate the relationship between business activity and Human Rights
- ♦ Broaden your knowledge of International Humanitarian Law

Specific Objectives

- Examine the content and scope of the Universal Declaration of Human Rights
- Determine the instruments of national application of the different sources of International Law and European Union Law in relation to Human Rights

“

*Achieve your career goals today.
Enroll and gain access to a unique
and innovative program”*

03

Course Management

This Postgraduate Certificate has been designed by a teaching team of the highest level, composed of experts in the field of Human Rights. Each one of them brings their valuable experience and knowledge in the area, which further enriches the students' learning experience. That is why they will guarantee a content specially designed to respond to current issues, favoring the development of critical thinking. Their extensive experience and passion will be the maximum guarantee of the quality of this syllabus.

“

The teaching staff of this Postgraduate Certificate has a team of professionals of the highest level, dedicated to safeguarding the human rights of the most vulnerable"

Management

Dr. Gutiérrez Castillo, Víctor Luis

- ♦ Researcher specialized in Common European Law and International Studies
- ♦ Head of Cabinet of the Presidency of the Junta de Andalucía (Andalusian Regional Government)
- ♦ Legal advisor for public institutions
- ♦ Member of the Royal Academy of Jurisprudence and Legislation of Spain
- ♦ Member of the Scientific Committee of the Institut *Economique du Droit de la Mer* of Monaco
- ♦ European PhD in Law

Professors

Mr. Tuset Varela, Damián

- ♦ Researcher specialized in data protection in cyberspace
- ♦ Head of Section at the General Technical Secretariat of the Ministry of Foreign Affairs and European Union and Cooperation
- ♦ Teacher in university studies
- ♦ Professional Master's Degree in Public and Public Administration Law
- ♦ Professional Master's Degree in Science and Law

04

Structure and Content

This Postgraduate Certificate has a complete and updated syllabus that addresses the fundamental aspects in the field of Human Rights. In this way, students will have a deep understanding of important topics such as the historical context of the UDHR, the international covenant on civil and political rights, and the interpretation of international human rights treaties of the UN. As such, this program provides a solid foundation and global perspective, preparing graduates to advocate for justice and dignity for all people in a diverse and challenging world.

“

Through practicala, real-world case studies, you will delve into the fundamentals of human rights. Enroll now!”

Module 1. Universal Human Rights Protection

- 1.1. Background of Human Rights
 - 1.1.1. Human rights in historical perspective
 - 1.1.2. Human rights and contemporary international society
 - 1.1.3. The United Nations Charter and Human Rights
- 1.2. The Universal Declaration of Human Rights (UDHR)
 - 1.2.1. Historical context of the UDHR and the process of adoption of the UDHR
 - 1.2.2. Structure and content of the UDHR
 - 1.2.3. Legal value of the UDHR
- 1.3. International Bill of Human Rights
 - 1.3.1. International Covenant on Civil and Political Rights
 - 1.3.2. International Covenant on Economic, Social and Cultural Rights
 - 1.3.3. The Optional Protocols to the Covenants
- 1.4. International protection of the principle of equality and non-discrimination
 - 1.4.1. International elimination of all forms of racial discrimination
 - 1.4.2. Elimination of all Forms of Discrimination against Women
 - 1.4.3. Elimination of Disability Discrimination
- 1.5. International protection of specific groups
 - 1.5.1. International protection of children
 - 1.5.2. International protection of refugees
 - 1.5.3. International Protection of Minorities
- 1.6. International protection of the dignity and integrity of individuals and their families
 - 1.6.1. The international prohibition against torture and other cruel, inhuman or degrading treatment or punishment
 - 1.6.2. The protection of all persons from enforced disappearance
 - 1.6.3. The protection of the rights of migrant workers and their families
- 1.7. International Mechanisms derived from the Human Rights bodies in the Charter
 - 1.7.1. The Human Rights Council
 - 1.7.2. The Universal Periodic Review
 - 1.7.3. Special Procedures

- 1.8. Interpretation of UN international human rights treaties by the Committees
 - 1.8.1. The international human rights treaty bodies of the United Nations: competence in the field of human rights
 - 1.8.2. Mechanisms for the protection of human rights established in treaties and optional protocols
 - 1.8.3. Procedural requirements for individual complaints to the Human Rights Committees
- 1.9. Other international human rights treaties of a general nature adopted by the UN
 - 1.9.1. Scope and number of States parties
 - 1.9.2. The international human rights treaty bodies of the United Nations: competence in the field of human rights
 - 1.9.3. Mechanisms for the protection of human rights established in treaties and optional protocols
- 1.10. The Role of Civil Society (CS) in the International Protection of Human Rights
 - 1.10.1. Manifestations of civil society in contemporary international society
 - 1.10.2. Participation of CS in official protection mechanisms
 - 1.10.3. Other forms of control and monitoring

“

A unique opportunity to specialize with the best experts in Human Rights”

05

Methodology

This training program offers a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH we use the Case Method

Our program offers a revolutionary method of skills and knowledge development. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a way of learning that is shaking the foundations of traditional universities around the world”

Our university is the first in the world to combine Harvard Business School case studies with a 100% online learning system based on repetition.

A learning method that is different and innovative.

This intensive Law program at TECH Technological University will prepare you to face all the challenges in this area, both nationally and internationally. Its main objective is to promote personal and professional growth by helping you achieve success. For this purpose, we rely on Harvard Business school case studies with which we have a strategic Convention that allows us to use the materials used in the most prestigious university in the world.

We are the only online university that offers Harvard materials as teaching materials on its courses"

The student will learn, through collaborative activities and real cases, how to solve complex situations in real business environments.

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the course, students will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

Our university is the first in the world to combine the Harvard University case studies method with a 100% online learning system based on repetition, combining 8 different didactic elements in each lesson.

We enhance Harvard case studies with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only university in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program learning is not a linear process, but rather, a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

This methodology has trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, and financial markets and instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific competencies and skills in each thematic area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

They will complete a selection of the best case studies in the field used at Harvard. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.
This exclusive multimedia content presentation training tExclusive system was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises: so that they can see how they are achieving your goals.

06

Certificate

The Postgraduate Certificate in Universal Human Rights Protection guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

*Successfully complete this program
and receive your university qualification
without having to travel or fill out
laborious paperwork”*

This **Postgraduate Certificate in Universal Human Rights Protection** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Certificate in Universal Human Rights Protection**

Official N° of Hours: **150 h.**

*Apostille Convention. In the event that the student wishes to have their paper certificate issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
