# 01 Introduction

Thanks to pharmacological and diagnostic advances, medical professionals have managed to improve the quality of life of women suffering from Endometriosis. In this way, progress has been made not only in the management of this disease, but also in women who suffer from this pathology and have difficulty in becoming pregnant. The advances made in this field cannot be understood without their practical application in real clinical settings. That is why TECH has created this qualification, which offers specialists the opportunity to expand and update their knowledge through a 3-week internship in a high-level hospital center and surrounded by real experts in the approach to this disease.

*This internship will allow you to incorporate the most relevant advances in the management of Endometriosis in fertile women in your daily life”*

Scientific studies have made it possible to prove that Endometriosis is a systemic disease and that, therefore, the diagnostic processes must contemplate a greater number of symptoms and require complementary tests in order to make a correct diagnosis.

This research has also contributed to the creation of more efficient pharmacological treatments adapted to the different existing Endometriosis. At the same time, these advances go together with the improvement of surgical and fertilization techniques. Faced with this scenario of progress, TECH provides medical professionals with a Internship Program, in which they will be able to expand their skills on-site for 3 weeks in a leading hospital in the approach to Endometriosis.

A unique clinical space, where they will also be guided, throughout 120 practical hours, by the best gynecological experts, who will show them the most innovative diagnostic processes, as well as the most precise therapeutic application according to the characteristics of each patient.

In this way, the specialist will work with total guarantee and safety in the management of the most avant-garde clinical technology, as well as in the use of the most effective diagnostic techniques. Therefore, they will improve the quality of life of patients suffering from this chronic disease.

# 02

## Why Study an Internship Program?

TECH is aware of the urgent need for medical professionals to obtain a real and practical up-to-date knowledge in the face of the continuous progress in diseases such as Endometriosis. That is why it has designed this program that provides the specialist with clinical experience, which will allow them to significantly improve their diagnostic and therapeutic skills and competences in this field. For this purpose, they will spend 3 weeks in a hospital center, which is at the forefront in the approach to this disease and which has in its team real experts in this field. A Internship Program, in which the specialist will be with the best and from whom they will acquire the update they are looking for on the management of the patient with Endometriosis.

*Get into real clinical scenarios and surround yourself with the best specialists in Endometriosis”*

### 1. Updating from the latest technology available

Technical advances in devices for the diagnosis of Endometriosis, in the performance of complementary tests and in fertilization processes make it necessary for medical professionals to be aware of these advances. For this reason, TECH has created this program, which gives the specialist the opportunity to enter a first level clinical environment, where they can access the latest technology for the assessment and treatment of patients with this disease.

### 2. Gaining In-Depth Knowledge from the Experience of Top Specialists

During the internship, the specialist will be accompanied by real experts, which is a guarantee of an up-to-date knowledge through the best. Therefore, throughout 3 weeks, they will be accompanied by an assigned tutor who will show them real patients in a cutting-edge environment, which will allow them to integrate the most effective diagnostic, surgical and follow-up techniques for women with Endometriosis into their daily practice.

### 3. Entering First-Class Clinical Environments

TECH carries out a rigorous selection of all hospital centers for the Internship Program. Thanks to this, the specialist will have access to a prestigious clinical environment in the care of patients with Endometriosis. This way, they will be able to observe the day-to-day work of top-level professionals in the field, and the most rigorous and scientific application of the progress achieved in the approach and management of this disease.

#### 4. Putting the acquired knowledge into daily practice from the very first moment

TECH has created an Internship Program designed by and for professionals who wish to expand their competencies and clinical skills through an experience in a first level Endometriosis center. Therefore, this institution provides a new model of knowledge update, 100% practical, which allows them to get in front of the most innovative and effective procedures in patients suffering from this disease, and all this, in just 120 hours of intensive professional practice.

#### 5. Expanding the Boundaries of Knowledge

This academic institution gives the opportunity to take this Internship Program in health environments of national and international reference. In this way, the medical professional will be able to expand their range of possibilities and apply in their daily practice the most significant advances in Endometriosis and associated pathologies. A unique opportunity that only TECH, the world's largest digital university, can offer.

*You will have full practical immersion at the center of your choice"*

# 03 Objectives

The objective of this Internship Program is to ensure that specialists obtain in 3 weeks of intensive work, the most up-to-date information on diagnostic procedures and treatment used in women suffering from Endometriosis and other diseases related to this pathology. All this, in a hospital center that has in its *staff* the best experts in this area.

## General Objectives

---

- ♦ Master the latest techniques, modern scientific postulates and pharmacological application in patients with Endometriosis
- ♦ Incorporate into clinical practice the most accurate diagnostic methods and tests to determine which disease the patient is suffering from
- ♦ Contribute to the improvement of the patient's quality of life by using the most innovative and effective treatments

## Specific Objectives

---

- Apply the benefits of combined clinical and ultrasound diagnostics with respect to surgical diagnosis, with an in-depth understanding of the risks, benefits and application in clinical practice
- Follow-up of the patient with Endometriosis with the most effective periodicity
- Carry out the necessary complementary tests according to the characteristics of each patient
- Perform a scrupulous anamnesis of the urinary symptoms that may appear, knowing the differential diagnosis and which complementary tests are necessary
- Apply the most innovative surgical techniques in Adenomyosis, taking into account the risks and limitations
- Treat Endometriosis by means of Dienogest, adequately informing about the effects on the disease and the side effects
- Use Danazol as a specific treatment for Endometriosis
- Keep up-to-date with the main complications of Endometriosis after surgery, particularly how to deal with recurrences or the appearance of Endometriosis in the surgical scars and strategies
- Apply the post-surgical protocols for Endometriosis with the follow-up and complementary tests used for such follow-up

# 04 Educational Plan

The Internship Program in Endometriosis consists of a practical stay in a relevant hospital environment. Therefore, in this environment, the specialist will spend 3 weeks, from Monday to Friday, 8 consecutive hours a day, in an innovative space surrounded by experts in this disease. This experience will allow them to observe real patients under the supervision and tutoring of an expert with extensive professional experience in the clinical care of women with this pathology and other associated diseases.

In this completely practical Internship Program, the activities are aimed at developing and perfecting the skills necessary to provide healthcare care in areas and conditions that require highly qualified professionals, and are oriented towards specific expertise for practicing the activity, in a safe environment for the patient and with highly professional performance.

In this way, TECH offers an opportunity to update knowledge in an innovative space, where the priority is to improve the quality of health of women suffering from this disease, as well as the achievement of their goals, such as becoming pregnant. This is a new way of understanding and integrating the latest healthcare processes, and turning a first-level center into the ideal teaching scenario for this experience in the improvement of professional competencies.

The student will actively participate by performing activities and procedures related to each area of competence (learning to learn and learning to do), with the support and guidance of the teachers and other classmates to facilitate teamwork and multidisciplinary integration as transversal competencies for the medical practice (learning to be and learning to relate to others).

*Receive specialized education in an institution that can offer you all these possibilities, with an innovative academic program and a human team that will help you develop your full potential"*

The procedures described below will form the basis of the practical part of the training, and their implementation is subject to both the suitability of the patients and the availability of the center and its workload, with the proposed activities being as follows:

Module	Practical Activity
<b>Clinical Assessment Techniques for Patients with Endometriosis</b>	Perform anamnesis in the patient with possible Endometriosis
	Assess the epigenetic risk factors of a patient with Endometriosis
	Determine the diagnosis of Endometriosis based on the patient's symptoms and perception
	Perform complementary tests to rule out Endometriosis in patients with gastrointestinal disorders
<b>Endometriosis Diagnostic Techniques</b>	Perform ultrasound testing of adnexal endometriosis
	Collaborate in the diagnosis of Endometriosis of the recto-vaginal septum
	Assist in the combined diagnosis
	Assist in the surgical diagnosis of Endometriosis
<b>Application of Surgical Treatment for Endometriosis</b>	Assess the performance of surgical techniques for superficial Endometriosis
	Collaborate in the performance of surgical techniques applied in extraperitoneal endometriosis
	Carry out post-surgical follow-up and treatment of patients with Endometriosis
	Apply the most precise and innovative genital radical surgical techniques in patients with Endometriosis
<b>Management of Endometriosis Patients with Fertility Problems and Other Pathologies</b>	Examine the possibilities of in vitro fertilization in patients with Endometriosis
	Assess the factors associated with infertility in patients with Endometriosis
	Provide adequate information on the possibilities of elective embryo freezing or fresh transfer
	Collaborate in the improvement of Endometriosis in pregnant patients

05

# Where Can I Do the Internship Program?

This Internship Program is created to offer the medical professional a complete update of their skills through a stay in a prestigious hospital center. Therefore, TECH offers the best clinical spaces specialized in the approach of Endometriosis and with the latest technology used for both diagnosis and treatment.

*Enroll in this Internship Program in an innovative clinical environment, where the latest advances in surgical treatment of patients with Endometriosis are applied"*

The student will be able to do this program at the following centers:

Medicine.

### Hospital Maternidad HM Belén

Country: Spain  
City: La Coruña

Address: R. Filantropía, 3, 15011, A Coruña

Network of private clinics, hospitals and specialized centers distributed throughout Spain.

**Related internship programs:**

- Update on Assisted Reproduction
- Hospitals and Health Services Management

Medicine.

### Hospital HM Rosaleda

Country: Spain  
City: La Coruña

Address: Rúa de Santiago León de Caracas, 1, 15701, Santiago de Compostela, A Coruña

Network of private clinics, hospitals and specialized centers distributed throughout Spain.

**Related internship programs:**

- Hair Transplantation
- Orthodontics and Dentofacial Orthopedics

Medicine.

### Hospital HM San Francisco

Country: Spain  
City: León

Address: C. Marqueses de San Isidro, 11, 24004, León

Network of private clinics, hospitals and specialized centers distributed throughout Spain.

**Related internship programs:**

- Update in Anesthesiology and Resuscitation
- Trauma Nursing

Medicine.

### Hospital HM Regla

Country: Spain  
City: León

Address: Calle Cardenal Landázuri, 2, 24003, León

Network of private clinics, hospitals and specialized centers distributed throughout Spain.

**Related internship programs:**

- Update on Psychiatric Treatment in Minor Patients

Medicine.

### Hospital HM Nou Delfos

Country: Spain  
City: Barcelona

Address: Avinguda de Vallcarca, 151, 08023 Barcelona

Network of private clinics, hospitals and specialized centers distributed throughout Spain.

**Related internship programs:**

- Aesthetic Medicine
- Clinical Nutrition in Medicine

Medicine.

### Hospital HM Madrid

Country: Spain  
City: Madrid

Address: Pl. del Conde del Valle de Súchil, 16, 28015, Madrid

Network of private clinics, hospitals and specialized centers distributed throughout Spain.

**Related internship programs:**

- Palliative Care
- Anaesthesiology and Resuscitation

Medicine.

### Hospital HM Montepíncipe

Country: Spain  
City: Madrid

Address: Av. de Montepíncipe, 25, 28660, Boadilla del Monte, Madrid

Network of private clinics, hospitals and specialized centers distributed throughout Spain.

**Related internship programs:**

- Palliative Care
- Aesthetic Medicine

Medicine.

### Hospital HM Torrelodones

Country: Spain  
City: Madrid

Address: Av. Castillo Olivares, s/n, 28250, Torrelodones, Madrid

Network of private clinics, hospitals and specialized centers distributed throughout Spain.

**Related internship programs:**

- Anaesthesiology and Resuscitation
- Palliative Care

### Hospital HM Sanchinarro

Country	City
Spain	Madrid

Address: Calle de Oña, 10, 28050, Madrid

Network of private clinics, hospitals and specialized centers distributed throughout Spain.

**Related internship programs:**

- Anaesthesiology and Resuscitation
- Palliative Care

### Hospital HM Nuevo Belén

Country	City
Spain	Madrid

Address: Calle José Silva, 7, 28043, Madrid

Network of private clinics, hospitals and specialized centers distributed throughout Spain.

**Related internship programs:**

- General and Digestive System Surgery
- Clinical Nutrition in Medicine

### Hospital HM Puerta del Sur

Country	City
Spain	Madrid

Address: Av. Carlos V, 70, 28938, Móstoles, Madrid

Network of private clinics, hospitals and specialized centers distributed throughout Spain.

**Related internship programs:**

- Palliative Care
- Clinical Ophthalmology

### Policlínico HM Cruz Verde

Country	City
Spain	Madrid

Address: Plaza de la Cruz Verde, 1-3, 28807, Alcalá de Henares, Madrid

Network of private clinics, hospitals and specialized centers distributed throughout Spain.

**Related internship programs:**

- Advanced Clinical Podiatry
- Optical Technologies and Clinical Optometry

Medicine.

### Policlínico HM Distrito Telefónica

Country	City
Spain	Madrid

Address: Ronda de la Comunicación, 28050, Madrid

Network of private clinics, hospitals and specialized centers distributed throughout Spain.

#### Related internship programs:

- Optical Technologies and Clinical Optometry
- General and Digestive System Surgery

Medicine.

### Policlínico HM Gabinete Velázquez

Country	City
Spain	Madrid

Address: C. de Jorge Juan, 19, 1º 28001, 28001, Madrid

Network of private clinics, hospitals and specialized centers distributed throughout Spain.

#### Related internship programs:

- Clinical Nutrition in Medicine
- Aesthetic Plastic Surgery

Medicine.

### Policlínico HM La Paloma

Country	City
Spain	Madrid

Address: Calle Hilados, 9, 28850, Torrejón de Ardoz, Madrid

Network of private clinics, hospitals and specialized centers distributed throughout Spain.

#### Related internship programs:

- Advanced Operating Room Nursing
- Orthodontics and Dentofacial Orthopedics

Medicine.

### Policlínico HM Las Tablas

Country	City
Spain	Madrid

Address: C. de la Sierra de Atapuerca, 5, 28050, Madrid

Network of private clinics, hospitals and specialized centers distributed throughout Spain.

#### Related internship programs:

- Trauma Nursing
- Diagnosis in Physiotherapy

Medicine.

### Policlínico HM Moraleja

Country City  
Spain Madrid

Address: P.º de Alcobendas, 10, 28109,  
Alcobendas, Madrid

Network of private clinics, hospitals and specialized centers  
distributed throughout Spain.

**Related internship programs:**

- Rehabilitation Medicine in Acquired Brain Injury Management

Medicine.

### Policlínico HM Sanchinarro

Country City  
Spain Madrid

Address: Av. de Manoteras, 10,  
28050, Madrid

Network of private clinics, hospitals and specialized centers  
distributed throughout Spain.

**Related internship programs:**

- Endometriosis

Medicine.

### Policlínico HM Rosaleda Lalín

Country	City
Spain	Pontevedra

Address: Av. Buenos Aires, 102, 36500, Lalín, Pontevedra

Network of private clinics, hospitals and specialized centers distributed throughout Spain.

**Related internship programs:**

- Advances in Hematology and Hemotherapy
- Neurological Physiotherapy

Medicine.

### Policlínico HM Imi Toledo

Country	City
Spain	Toledo

Address: Av. de Irlanda, 21, 45005, Toledo

Network of private clinics, hospitals and specialized centers distributed throughout Spain.

**Related internship programs:**

- Electrotherapy in Rehabilitation Medicine
- Hair Transplantation

# 06 General Conditions

## Civil Liability Insurance

This institution's main concern is to guarantee the safety of the trainees and other collaborating agents involved in the internship process at the company. Among the measures dedicated to achieve this is the response to any incident that may occur during the entire teaching-learning process.

To this end, this entity commits to purchasing a civil liability insurance policy to cover any eventuality that may arise during the course of the internship at the center.

This liability policy for interns will have broad coverage and will be taken out prior to the start of the practical training period. That way professionals will not have to worry in case of having to face an unexpected situation and will be covered until the end of the internship program at the center.

## General Conditions of the Internship Program

The general terms and conditions of the internship agreement for the program are as follows:

**1. TUTOR:** During the Internship Program, students will be assigned with two tutors who will accompany them throughout the process, answering any doubts and questions that may arise. On the one hand, there will be a professional tutor belonging to the internship center who will have the purpose of guiding and supporting the student at all times. On the other hand, they will also be assigned with an academic tutor, whose mission will be to coordinate and help the students during the whole process, solving doubts and facilitating everything they may need. In this way, the student will be accompanied and will be able to discuss any doubts that may arise, both clinical and academic.

**2. DURATION:** The internship program will have a duration of three continuous weeks, in 8-hour days, 5 days a week. The days of attendance and the schedule will be the responsibility of the center and the professional will be informed well in advance so that they can make the appropriate arrangements.

**3. ABSENCE:** If the students does not show up on the start date of the Internship Program, they will lose the right to it, without the possibility of reimbursement or change of dates. Absence for more than two days from the internship, without justification or a medical reason, will result in the professional's withdrawal from the internship, therefore, automatic termination of the internship. Any problems that may arise during the course of the internship must be urgently reported to the academic tutor.

**4. CERTIFICATION:** Professionals who pass the Internship Program will receive a certificate accrediting their stay at the center.

**5. EMPLOYMENT RELATIONSHIP:** The Internship Program shall not constitute an employment relationship of any kind.

**6. PRIOR EDUCATION:** Some centers may require a certificate of prior education for the Internship Program. In these cases, it will be necessary to submit it to the TECH internship department so that the assignment of the chosen center can be confirmed.

**7. DOES NOT INCLUDE:** The Internship Program will not include any element not described in the present conditions. Therefore, it does not include accommodation, transportation to the city where the internship takes place, visas or any other items not listed.

However, students may consult with their academic tutor for any questions or recommendations in this regard. The academic tutor will provide the student with all the necessary information to facilitate the procedures in any case.

# 07 Certificate

This private qualification will allow you to obtain a **Internship Program in Endometriosis** endorsed by **TECH Global University**, the world's largest online university.

**TECH Global University** is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

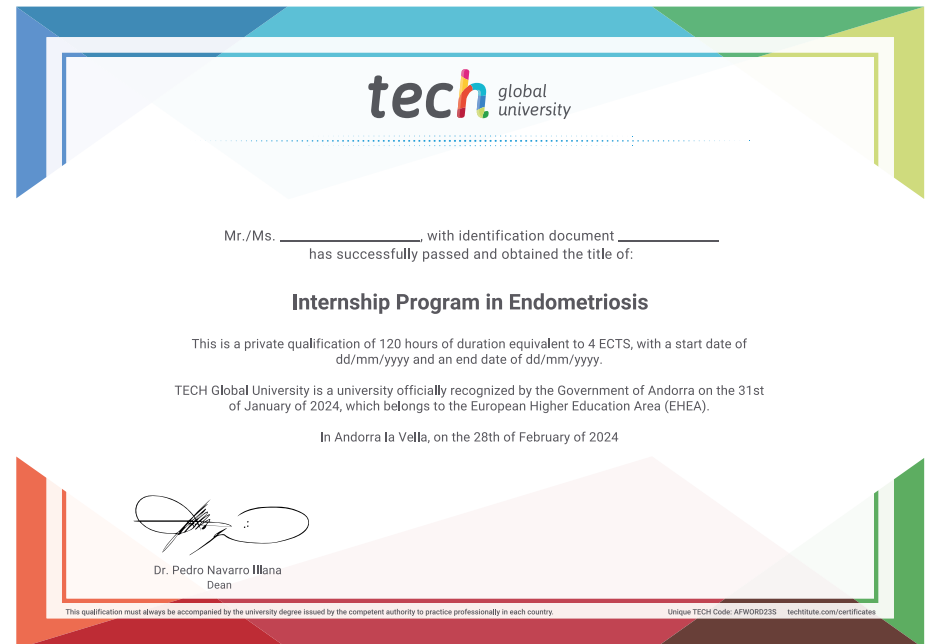

This **TECH Global University** private qualification is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.

Title: **Internship Program in Endometriosis**

Duration: **3 weeks**

Attendance: **Monday to Friday, 8-hour consecutive shifts**

Accreditation: **4 ECTS**
