# 01

# Introduction

This program is designed to facilitate in-depth knowledge of chromotherapy as a tool to maintain, recover and improve health using light reflected in colors on the body and through the senses. Learn and update yourself in the possibilities of chromotherapy in a practical way, through the latest educational technology, 100% online, adapted to your personal and professional needs.

“

*The field of natural therapies is an emerging field of health sciences, which is being incorporated gradually and complementarily to traditional health structures. But in order to be able to respond to this emerging need, it is essential to have an adequate specialization"*

According to the Situation Analysis of Natural Therapies prepared in 2011 by the Ministry of Health, Social Policy and Equality, there is a growing trend in the use of natural therapies in Spain, similar to what is happening in most countries, as well as a greater dissemination and publicity of them. In fact, this emerging trend has been accompanied by an increase in the application of scientific research methods to studies on the effects of these techniques in specific clinical situations.

Natural therapies aim to be characterized by considering the person as a whole in continuous interaction and change with the environment, integrating physical, spiritual, mental, emotional, genetic, environmental and social aspects, without forgetting the biopsychosocial approach, one of the aspects most taken into account today in conventional health care. Chromotherapy is part of this set of techniques, working as an adjuvant to allopathic therapeutics.

The contents of the program are based on the latest scientific evidence and the experience of recognized professionals in the field of chromotherapy, which gives it a practical and easy to transfer to the usual clinical work.

This **Postgraduate Certificate in Chromotherapy** contains the most complete and up-to-date scientific program on the market. Its most notable features are:

- Contains the techniques of Chromotherapy presented by experts
- It presents the procedures developed in real cases and in an eminently practical and useful way to enhance the desired therapeutic action
- Includes questionnaires and self-assessment exercises on the contents presented to improve understanding of the concepts and enhance learning
- Video lessons about the different techniques and their approach
- Theoretical lessons questions to the expert, discussion forums on controversial issues, and individual Chromotherapy work
- The program allows access to content from any fixed or portable device with an Internet connection

*Expand your knowledge through the Postgraduate Certificate in Chromotherapy in a practical way and adapted to your needs"*

“

*This program is the best investment you can make in the selection of a refresher program for two reasons: in addition to updating your knowledge in Chromotherapy, you will obtain a university certificate from TECH Global University"*

The program's teaching staff includes professionals from the field who contribute their work experience to this educational program, as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the academic year. For this purpose, the students will be assisted by an innovative interactive video system created by renowned and experienced experts.

*The program allows you to complete the entire program from home, with a personalized itinerary at your learning pace.*

*Take the opportunity to update your knowledge in Chromotherapy to improve your patient care and complement the therapeutic indications.*

02

# Objectives

The main objective of the program is the development of theoretical and practical learning, so that the physician can master the procedures in chromotherapy in a practical and rigorous way.

“

*This refresher program will generate a sense of confidence when practising medicine, which will help you grow both personally and professionally”*

## General Objective

---

- ♦ Provide the knowledge and skills necessary for the correct development, application and integration of Natural Medicine in the clinical setting, in order to provide quality care based on the latest scientific evidence available

“

*Take the opportunity and take the step to get up to date on the latest developments in Chromotherapy”*

## Specific Objectives

---

- ♦ Define the anatomical, biochemical and nutritional functioning of the human body, identifying the different biorhythms and their pathognomonic components
- ♦ Describe the most important components in the basic systems of regulation, symbiosis and homeostasis
- ♦ Describe the color techniques of application on the sympathetic and parasympathetic nervous system
- ♦ Define the theory of global equivalence
- ♦ Establish the difference between electromagnetic energy and kinetic energy
- ♦ Lay the foundations of the phenomenology of light
- ♦ Address the management of the patient with auriculotherapy techniques
- ♦ Describe the physiological mechanisms of human health
- ♦ Define chromotherapy
- ♦ Explain the application of heat on the human psyche
- ♦ Point out the intervention strategies from the applied knowledge of TCM
- ♦ Establish the differences between the auriculotherapy technique and the color technique
- ♦ Define the apparatusology applied in chromotherapy

03

# Course Management

This program includes in its teaching staff health professionals of recognized prestige, and who pour into this refresher program the experience of their work. In addition, other professionals participate in its design and development, giving it its multidisciplinary character.

“

*Learn about the latest  
advances in Chromotherapy  
from leading professionals”*

## Management

### Dr. Corty Friedrich, Miguel

- Medical Specialist in Public Health
- Medical Director of Clinicas praxis
- Emergency and Repatriation Physician for Germany, Switzerland and Great Britain
- Degree in Medicine and Surgery from the University of Alicante
- Doctorate in Public Health, History of Science and Scientific Documentation from the University of Alicante
- Member of the illustate College of Medical of Alicante

### Dr. Rodríguez Picazo, Pedro

- Attending Director, UME clinic
- Director Founder of Medintegra
- Health Coordinator at Colisée
- Doctorate in Health Sciences, University of Alicante
- Degree in Nursing in Community Health from the University of Alicante
- University Specialist in Osteopathy, Kinesiology and Acupuncture by the University of Murcia
- Master's Degree in Advanced Integrative Health and Medicine by TECH Technological University
- ARPN, Sanitary Services by the European University Miguel de Cervantes. Member of: Editorial Board in the Journal Integrative Medicine RS&MI, Board of Directors of the Spanish Society of Integrative Health and Medicine, Member of the European Society of Integrative Medicine and Member of the Society of Integrative Oncology

## Professors

### Ms. Catalan García, Irene

- ◆ Physiotherapist expert in Global Postural Re-education
- ◆ Physiotherapist at Centro de Fisioterapia Especializada TMJ Marta Zorrilla
- ◆ Physiotherapist at Clínica MUHC Especialidades y Salud
- ◆ Physiotherapist at Cabinet de Kinésithérapie Rieuepeyroux, Aveyron, France
- ◆ Master in Osteopathic Techniques by the Madrid School of Osteopathy
- ◆ Expert in Global Postural Readjustment by the ST Mont Institute of France
- ◆ Expert in Myofascial Induction by the Tupimek School
- ◆ Postgraduate Certificate in Physiotherapy from the Miguel Hernández University

### Mr. Maestre Martí, Jorge

- ◆ Professor of Hatha Yoga and Kundalini Yoga
- ◆ Author of the books *Yoga for Children or Reading Comprehension: Melecu Teaching Guide*
- ◆ Degree in Pedagogy

### Ms. Zorrilla García, Marta

- ◆ Postgraduate Certificate in Physiotherapy from EUEF Blanquerna, Ramón Llull University of Barcelona
- ◆ Degree in Pedagogy
- ◆ Postgraduate in muscle chains according to the GDS method
- ◆ Muscle chain therapist according to the GDS method by the APGDS training center of Spain and Belgium (member of the Spanish society of APGD)
- ◆ Trained in Mezieres method, RPG, electrotherapy, treatment of myofascial PG
- ◆ University Expert in Tempomandibular Disorders; Craniomandibular Dysfunction and Orofacial Pain by the Faculty of Medicine and Physiotherapy San Pablo Ceu of Madrid

### Mr. Castell, Miguel

- ◆ Lecturer and Facilitator in Health topics
- ◆ Professor at EVES
- ◆ Professor at the Official College of Nursing
- ◆ Facilitator at Medintegra Clinic
- ◆ Research Sufficiency in Anthropology by the University of Alicante
- ◆ Degree in Social Anthropology and Cultural from the University of Miguel Hernández de Elche
- ◆ Diploma in Nursing

### Mr. Yáñez Barja, Pedro

- ◆ Director of the Fisiomedicin Clinic
- ◆ Professional Master's Professor, San Pablo University CEU
- ◆ Associate Professor Miguel Hernández University of Alicante, Faculty of Pharmacology
- ◆ Diploma in Physiotherapy
- ◆ Diploma in Osteopathy
- ◆ Post-Graduate in Osteopathy Introduction to Posturology
- ◆ Expert in Kinesiotaping and Psychoneuroimmunology, applied to Sport Posturology and Movement
- ◆ Expert in Sports Physiotherapy Universidad de Alcalá de Henares de Madrid

### Dr. Serra Vila, Mireia

- ◆ Music Therapist at the San José Institute Foundation Madrid
- ◆ Collaborating Psychologist at La Paz University Hospital. Madrid
- ◆ Degree in Philosophy and Letters from the Autonomous University of Barcelona.
- ◆ PhD in Clinical Psychology from the Ramón Llull University
- ◆ Music Therapist from Ramon Llull University

04

# Structure and Content

The structure of the contents has been designed by a team of professionals knowledgeable about the implications of Preparation in medical practice, aware of the relevance of the current knowledge to be able to act before the patient and committed to quality teaching through new educational technologies.

“

*This Postgraduate Certificate in Chromotherapy contains the most complete and up-to-date program on the market”*

### Module 1. Introduction to Integrative Medicine

- 1.1. Anatomy and Global Anatomical Structure of the Human Body
- 1.2. Chemical Fundamentals
- 1.3. Biology of Life
- 1.4. Microbiology
- 1.5. Psychology
- 1.6. Beliefs
- 1.7. Medical History
- 1.8. Social Life. Behavior and Conduct
- 1.9. Basic Aspects of Integrative Medicine

### Module 2. Chromotherapy

- 2.1. Concept of Applied Light from Modern Physics
- 2.2. Global Mechanics of the Theory of Global Equivalence
- 2.3. Phenomenology of Light
- 2.4. Difference between Electromagnetic Energy and Kinetic Energy
- 2.5. Study and Theory of Color: Primary, Secondary and Tertiary Colors
- 2.6. Influence and Application of Color on the Physiological Mechanisms of Human Health
- 2.7. Influence and Application of Color on the Human Psyche
- 2.8. Intervention Strategies from the Applied Knowledge of TCM
- 2.9. Direct Application in Auriculotherapy Techniques
- 2.10. Application of Color Techniques on the Sympathetic and Parasympathetic Nervous System
- 2.11. Chromotherapy Applied to Main Pathologies of the Human Being
- 2.12. Apparatology. Instrumentalization and Application of Fiber Optics

“

*A unique, key, and decisive educational experience to boost your professional development”*

05

# Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

*Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"*

## At TECH we use the Case Method

What should a professional do in a given situation? Throughout the program, students will face multiple simulated clinical cases, based on real patients, in which they will have to do research, establish hypotheses, and ultimately resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method. Specialists learn better, faster, and more sustainably over time.

*With TECH you will experience a way of learning that is shaking the foundations of traditional universities around the world.*

According to Dr. Gérvas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching power or because of its uniqueness or rarity. It is essential that the case is based on current professional life, trying to recreate the real conditions in the physician's professional practice.

“

*Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”*

The effectiveness of the method is justified by four fundamental achievements:

1. Students who follow this method not only achieve the assimilation of concepts, but also a development of their mental capacity, through exercises that evaluate real situations and the application of knowledge.
2. Learning is solidly translated into practical skills that allow the student to better integrate into the real world.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

## Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

This university is the first in the world to combine the study of clinical cases with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, a real revolution with respect to the mere study and analysis of cases.

*Professionals will learn through real cases and by resolving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.*

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology, more than 250,000 physicians have been trained with unprecedented success in all clinical specialties regardless of surgical load. Our pedagogical methodology is developed in a highly competitive environment, with a university student body with a strong socioeconomic profile and an average age of 43.5 years old.

*Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.*

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by TECH's learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

#### Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

#### Surgical Techniques and Procedures on Video

TECH introduces students to the latest techniques, the latest educational advances and to the forefront of current medical techniques. All of this in direct contact with students and explained in detail so as to aid their assimilation and understanding. And best of all, you can watch the videos as many times as you like.

#### Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

#### Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

#### Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

#### Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

#### Classes

There is scientific evidence on the usefulness of learning by observing experts. The system known as Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

#### Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

# 06 Certificate

The Postgraduate Certificate in Chromotherapy guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Global University.

“

*Successfully complete this program  
and receive your university qualification  
without having to travel or fill out  
laborious paperwork"*

This private qualification will allow you to obtain a **Postgraduate Certificate in Chromotherapy** endorsed by **TECH Global University**, the world's largest online university.

**Tech Global University** is an official European University publicly recognized by the Government of Andorra (*official bulletin*). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **Tech Global University** private qualification is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.
