# Introduction

The main objective of this educational program is to increase the specialization of medical professionals in the field of Environmental Law and Cooperation. The participation of highly qualified development workers achieves the objectives of improving the living conditions of the neediest regions. This is a global need that has increased after the pandemic state experienced by humanity, so this program is presented as an opportunity to specialize in this area, responding to a demand towards which more and more doctors are focused.

“

*Work in the field of international cooperation and achieve remarkable improvements in the communities where you act, especially in the field of sustainability”*

Working in the field of International Cooperation is a way to help the neediest regions. This work can be carried out in different areas: social, economic, educational, etc., but it is always advisable to do it from an environmental point of view, focusing on environmental law, achieving progress in the regions by taking advantage of existing natural resources.

This Postgraduate Certificate in Cooperation and Environmental Law aims to train these professionals who work for the benefit of the most disadvantaged societies to increase their knowledge of the rules that regulate the relationship between people and the natural environment, favoring its maintenance.

This program combines basic knowledge in international development cooperation applied to the field of medicine, tools that allow the development worker to seek to improve the performance of their work in those areas that people and communities demand, guide them to change and focus them on the present situation through the tools and resources of cooperation.

In addition, as it is a 100% online program, the physician will be able to combine the study of this very complete program with the rest of their daily obligations, choosing at all times where and when to study. A high-level qualification that will take the medical professional to the highest level in their field of practice.

This **Postgraduate Certificate in Cooperation and Environmental Rights** contains the most complete and up-to-date scientific program on the market. The most important features include:

- ◆ Practical cases presented by experts in International Development Cooperation
- ◆ The graphic, schematic, and practical contents with which they are created provide scientific and practical information on the disciplines that are essential for professional practice
- ◆ Latest developments in Cooperation and Environmental Law
- ◆ Practical exercises where self-assessment can be used to improve learning
- ◆ Emphasis on innovative methodologies in International Development Cooperation
- ◆ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ◆ Content that is accessible from any fixed or portable device with an Internet connection

*Knowing the main tools of environmental law will allow us to fight for the benefit of sustainability. Think no more and give your profession a boost"*

*This Postgraduate Certificate is the best investment you can make when selecting a refresher program in the field of Cooperation and Environmental Law.*

The program's teaching staff includes professionals from the sector who contribute their work experience to this training program, as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive training programmed to train in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise throughout the program. This will be done with the help of an innovative system of interactive videos made by renowned experts.

*You have the opportunity to delve into environmental law from a medical perspective and learn more about the impact of environmental conditions on health.*

*Take this online program at the time that best suits you and combine your personal and work life with your studies.*

# 02 Objectives

The design of the program of this Postgraduate Certificate will allow the student to acquire the necessary skills to focus their knowledge as a physician on Global Cooperation and Environmental Law. To achieve this, it relies on the experience of professionals who have poured into the elaboration of the points of the curriculum the keys to the development of the skills that the doctor needs to be oriented to this field, with a comprehensive program for the achievement of the proposed objectives. Thus, you will develop your full potential in the medical field by adapting to vulnerable environments.

“

*You will learn about the interrelationship between all the elements of the environment and how they influence each other and health at local and global level"*

## General Objectives

- ◆ Provide students with advanced specialized training based on theoretical and instrumental knowledge in international cooperation
- ◆ Acquire and develop the skills necessary to obtain a qualification as an International Cooperation professional
- ◆ Provide the student with basic knowledge of the cooperation and development process based on the latest advances in policies on the sustainability processes involved in both economic and social aspects
- ◆ Improve professional performance and develop strategies for adapting and solving the problems of today's world by means of scientific research in cooperation and development processes
- ◆ Disseminate the basics of the current system and develop the critical and entrepreneurial spirit necessary to adapt to political changes, within the framework of international law

*Learn how migration is linked to the development of countries of origin and destination to understand the movement of infections and viruses"*

## Specific Objectives

---

- ◆ Understand, provide or collaborate in humanitarian activities directed to the victims of armed conflicts under the coverage of International Humanitarian Law
- ◆ Qualify the different types of armed conflicts by distinguishing them from other situations of armed violence; identify and classify the victims of such conflicts; know and understand the victim protection system and be able to apply it
- ◆ Be aware of the limitations that humanitarian law imposes on combatants in relation to the conduct of hostilities, respect for zones, places and installations marked with a protection sign, and the requirement of a code of conduct relating to victims, medical and religious personnel, and humanitarian organizations
- ◆ Identify situations and persons who are particularly vulnerable in armed conflicts, knowing the protection afforded to them by International Humanitarian Law
- ◆ Respond to crisis and humanitarian emergency situations by assessing the urgency of the situation and planning and developing actions to deal with them
- ◆ Stimulate the participation of the people and groups with whom cooperation activities are developed, enabling them to identify their problems and needs, lead their processes of change, assess their evolution and decide on new courses of action
- ◆ Raise awareness of the basic concepts related to the environment
- ◆ Know the interrelationship between all the elements of the environment and how they influence each other
- ◆ Recognize the different types of pollution and how they affect the environment
- ◆ Analyze the regulations and legislation in force on the subject
- ◆ Incorporate the notions of sustainability and environmental and ecological sustainability into cooperation projects and actions in a cross-cutting manner
- ◆ Understand the link between migration and the development of countries of origin and destination
- ◆ Know the migratory processes of refuge and asylum at world level and the different policies and actions carried out in the field of development cooperation with these groups
- ◆ Understand the concepts and definitions of NGOs
- ◆ Know the diversity of NGOs and their field or work
- ◆ Internalize the legislation of national and international NGOs, associations and foundations
- ◆ Learn the broad outlines of NGO management
- ◆ Be able to work in multidisciplinary and multicultural teams as an expert in international development cooperation
- ◆ Be able to Identify, understand and know how to use sources and tools to identify international development cooperation projects

03

# Course Management

The program's teaching staff includes leading experts in environmental law and global cooperation, who bring the experience of their work to this curriculum. Additionally, other recognized experts participate in its design and preparation, completing the program in an interdisciplinary manner. In this way, the student has the best tools for the development of their skills during the program, specializing in a sector that requires professionals with vocation.

“

*The best teachers in Cooperation and Environmental Rights are at the best university. Join TECH and see for yourself”*

## International Guest Director

Piotr Sasin is an international expert with experience in non-profit management, specializing in humanitarian assistance, resilience and international cooperation for the development of peoples. Indeed, he has worked in complex and challenging environments, helping communities affected by conflict, displacement and humanitarian crises. In addition, his focus on social innovations and participatory planning has allowed him to implement long-term solutions in vulnerable areas, significantly improving living conditions.

He has also held key roles as Director of Refugee Crisis Response at CARE, where he has led humanitarian initiatives to support displaced people in various regions. He has also worked as Country Director at People in Need, where he was responsible for coordinating community development and rapid emergency response programs. In turn, his role as Country Representative at the Terre des Hommes Foundation has allowed him to manage projects focused on child protection.

Consequently, at the international level, he has been recognized for his ability to manage large-scale projects in the field of international development cooperation, collaborating with governments, NGOs and multilateral agencies in various regions. Likewise, his leadership has been instrumental in promoting resilience in communities affected by disasters, fostering local empowerment through urban planning and sustainable development. In this way, he has been praised for his focus on conflict mitigation and his ability to build strategic partnerships.

Ultimately, Piotr Sasin has a strong academic background, with a Master's degree in Urban Planning and Regional Development, as well as a Bachelor's degree in Ethnology and Anthropological Culture, both degrees from the University of Warsaw in Poland. Thereby, his research has focused on international cooperation and sustainable planning in humanitarian crisis contexts.

## Mr. Sasin, Piotr

---

- Director of Refugee Crisis Response at CARE, Warsaw, Poland
- Country Director at People in Need
- Country Representative at Fondation Terre des Hommes
- Program Director at Habitat for Humanity Poland
- Master's Degree in Urban Planning and Regional Development from the University of Warsaw
- B.A. in Ethnology and Anthropological Culture, University of Warsaw

“

*Thanks to TECH, you will be able to learn with the best professionals in the world”*

## Guest Director

### Ms. Rodríguez Arteaga, Carmen

- ◆ Degree in Philosophy and Educational Sciences at UCM
- ◆ Expert in Educational Evaluation at OEI
- ◆ Expert in Educational Indicators and Statistics at UNED
- ◆ Expert in Development Cooperation in Education at the University of Barcelona
- ◆ Specialist in Knowledge Management
- ◆ Career Civil Servant

## Co-Direction

### Ms. Romero Mateos, María del Pilar

- ◆ Social Educator
- ◆ Postgraduate Diploma in International Development Cooperation
- ◆ Employment training teacher
- ◆ Gender Equality Agent
- ◆ Author and collaborator in educational projects at Abile Educativa

## Professors

### Ms. Sánchez Garrido, Araceli

- ◆ Degree in Geography and History with a major in Anthropology and Ethnology of America Complutense University of Madrid
- ◆ Deputy Head of Cultural Cooperation, Department of Cultural Cooperation and Promotion, Directorate of Cultural and Scientific Relations Since 2013
- ◆ Responsible for the application of AECID's Cultural Diversity Mainstreaming Guide and its application to development cooperation projects carried out by the agency
- ◆ Member of the Faculty of Museum Curators assigned to the American Museum in Madrid until 2007 as head of the Ethnology Department, when she moved to the Ministry of Foreign Affairs, European Union and Cooperation
- ◆ Professor of the Master in Cultural Management at Carlos III University of Madrid and participant in numerous training courses both in Latin America and Spain
- ◆ Lecturer in summer courses at the Complutense University of Madrid

### Mr. Cano Corcuera, Carlos

- ◆ Bachelor of Science in Biology with a major in Zoology
- ◆ Degree in Animal Ecology
- ◆ Specialist in Planning and Management of Development Cooperation Interventions by UNED (UNED)
- ◆ Specialization Courses in International Cooperation; Identification, Design and Monitoring of Cooperation Projects; Humanitarian Aid; Equal Opportunities; International Negotiations; Planning with a Gender Perspective; Results-Oriented Management for Development; Disability Approach in Cooperation Projects; European Union Delegated Cooperation, etc
- ◆ Work in different areas of international cooperation, mainly in Latin America

**Ms. Flórez Gómez, Mercedes**

- ◆ Degree in Geography and History from the Complutense University of Madrid
- ◆ MSC in Corporate Social Responsibility Pontificia University of Salamanca
- ◆ MSC in Information and Documentation Antonio de Nebrija University, Spain, and University College of Wales, UK
- ◆ Advanced Diploma in South Cooperation, Sur- FLACSO
- ◆ Specialist in Inequality, Cooperation and Development University Institute for Development and Cooperation- IUDC- Complutense University of Madrid
- ◆ Specialist in Planning and Management of Development Cooperation Projects in Education, Science and Culture (OEI)
- ◆ Diploma in Humanitarian Action- Institute of Studies on Conflict and Humanitarian Action- IECAH
- ◆ Director of the Spanish Cooperation Training Centers in Uruguay
- ◆ More than 20 years of experience in public institutions related to development cooperation, both for Ibero-America and Latin America, dedicated to institutional strengthening for the management of public policies through training and knowledge management for development

**Ms. Cristina Córdoba**

- ◆ Nurse
- ◆ Training and experience in International Development Cooperation Projects
- ◆ Co-founder and participant of PalSpain project
- ◆ Founder of the Youth Association APUMAK, Madrid, Spain

**Ms. Ramos Rollon, Marisa**

- ◆ Professor of Political Science and Administration at the Complutense University of Madrid
- ◆ Development Cooperation Advisor to the Vice Rector of International Relations and Cooperation of the Complutense University of Madrid
- ◆ Researcher focused on the areas of public policies and institutions in Latin America and on the topics of democratic governance and development policies, specifically linked to the connection between public policies and the 2030 Agenda
- ◆ Lecturer in the Political Science Degree, where in recent years she has taught subjects such as Comparative Politics, Spanish Political System and Latin American Political Systems
- ◆ Lecturer in the Master in Transparency and Governance Policies and Political Leadership, in the Master's Degree in Political Leadership, both at UCM and in the Master in Latin American-EU Relations at the University of Alcalá
- ◆ Director of the Complutense Summer School Course on Public Policy and Agenda 2030

# 04

# Structure and Content

The syllabus of this program has been designed based on the knowledge and needs of environmental law and knowledgeable cooperation in medicine. Thus, a curriculum has been developed with modules that offer a broad approach to the profession from a global point of view due to its application at international level, incorporating all the agents involved in the development of its functions. A challenge that will raise the student's capabilities in this subject, turning them into a professional dedicated to their vocation.

“

*By delving into human mobility as a challenge for global governance of development you will gain an understanding of issues that affect environmental impact"*

## Module 1. Human Rights (HR) and International Humanitarian Law (IHL)

- 1.1. Human Rights and International Humanitarian Law
  - 1.1.1. Introduction
  - 1.1.2. Concept and Definition of Human Rights
  - 1.1.3. Universal Declaration of Human Rights
    - 1.1.3.1. What Is the Universal Declaration of Human Rights?
    - 1.1.3.2. Authors of the Universal Declaration of Human Rights
    - 1.1.3.3. Preamble of the Universal Declaration of Human Rights
    - 1.1.3.4. Articles of the Universal Declaration of Human Rights
  - 1.1.4. Bibliography
- 1.2. International Humanitarian Law (IHL)
  - 1.2.1. What Is International Humanitarian Law? (IHL)
  - 1.2.2. Branches of IHL
  - 1.2.3. Geneva Convention and Fundamental Norms Underpinning the Geneva Conventions
  - 1.2.4. Scope of International Human Rights Law
    - 1.2.4.1. General Prohibitions and Restrictions on Certain Methods and Means of Warfare
    - 1.2.4.2. Specific Prohibitions and Restrictions
  - 1.2.5. When Does IHL Apply?
  - 1.2.6. Who Does IHL Protect and How?
  - 1.2.7. Bibliography
- 1.3. The UN and Human Rights
  - 1.3.1. The UN United Nations Organization
    - 1.3.1.1. What Is It?
    - 1.3.1.2. The History of the UN
    - 1.3.1.3. The ONU and Human Rights
  - 1.3.2. How Does the UN Promote and Protect Human Rights?
    - 1.3.2.1. High Commissioner for Human Rights
    - 1.3.2.2. Human Rights Council
    - 1.3.2.3. UNDG-HRM
    - 1.3.2.4. Special Advisors on the Prevention of Genocide and the Responsibility to Protect
  - 1.3.3. Conclusions
  - 1.3.4. Bibliography
- 1.4. UN Human Rights Protection Tools
  - 1.4.1. Introduction
  - 1.4.2. Legal Tools Assisting the UN in the Protection of Human Rights
    - 1.4.2.1. The International Bill of Human Rights
    - 1.4.2.2. Democracy
    - 1.4.2.3. Other UN Bodies in Charge of Protecting Human Rights
  - 1.4.3. Several Agencies Dealing with Different Issues
  - 1.4.4. General Secretary
  - 1.4.5. United Nations Peace Operations
  - 1.4.6. Commission on the Status of Women (CSW)
  - 1.4.7. Bibliography
- 1.5. International Human Rights Law
  - 1.5.1. Introduction
  - 1.5.2. What Is International Human Rights Law?
    - 1.5.2.1. Characteristics of International Human Rights Law
  - 1.5.3. Main Differences between International Humanitarian Law and International Human Rights Law
  - 1.5.4. Crimes against Humanity
    - 1.5.4.1. Crimes against Humanity throughout History
  - 1.5.5. Bibliography
- 1.6. Non-Governmental Organizations and Human Rights
  - 1.6.1. Introduction
    - 1.6.1.1. What Is a NGDO?
  - 1.6.2. NGOs and Human Rights
  - 1.6.3. Categories of Human Rights NGOs
  - 1.6.4. Main Characteristics of Human Rights NGOs
  - 1.6.5. Bibliography
- 1.7. Human Rights Violations in the World
  - 1.7.1. Introduction
  - 1.7.2. Cases of Human Rights Violations (HRV) by Articles

- 1.7.2.1. Article 3: Right to Live in Freedom
- 1.7.2.2. Article 4: No Slavery
- 1.7.2.3. Article 5: No Torture
- 1.7.2.4. Article 13: Freedom of Movement
- 1.7.2.5. Article 18: Freedom of Thought
- 1.7.2.6. Article 19: Freedom of Speech
- 1.7.2.7. Article 21: The Right to Democracy
- 1.7.3. Bibliography
- 1.8. Environmental Human Rights
  - 1.8.1. Environmental Protection as a Human Right
  - 1.8.2. Does the Environment Have Rights?
  - 1.8.3. Evolution of Human Rights in the Face of No Rights Cases
  - 1.8.4. Rights of Nature Evolution
    - 1.8.4.1. Statement of Intent Special Rapporteur
  - 1.8.5. Environmental Law
    - 1.8.5.1. UNEP United Nations Environment Programme
  - 1.8.6. Bibliography
- 1.9. Human Rights NGOs
  - 1.9.1. Introduction
  - 1.9.2. List of Human Rights NGOs
    - 1.9.2.1. 1 Kilo of Aid
    - 1.9.2.2. B. Soleil d'Afrique
    - 1.9.2.3. Aasara
    - 1.9.2.4. Andean Action
    - 1.9.2.5. Global Solidarity Action
    - 1.9.2.6. Verapaz Action
    - 1.9.2.7. ADANE Amics per al Desenvolupament a l'Àfrica Negra (Friends for African Development)
  - 1.9.3. Bibliography

## Module 2. Environmental Rights

- 2.1. Environmental Law
  - 2.1.1. Introduction
  - 2.1.2. What Is It?
  - 2.1.3. What Is Environmental Law?
  - 2.1.4. Characteristics of Environmental Law
  - 2.1.5. Legal Nature
  - 2.1.6. Medical History
  - 2.1.7. History
  - 2.1.8. Objective of Environmental Law
    - 2.1.8.1. Sources
  - 2.1.9. Principles
  - 2.1.10. Purposes
- 2.2. Environmental Rights
  - 2.2.1. What Do We Understand as Environment?
  - 2.2.2. What Are Our Environmental Rights?
    - 2.2.2.1. What are they?
  - 2.2.3. Right to Enjoy a Healthy Environment
  - 2.2.4. Right of Access to Information
  - 2.2.5. Right to Participation in Environmental Management
  - 2.2.6. Right of Access to Environmental Justice
  - 2.2.7. General Principles of Environmental Law
  - 2.2.8. International Conferences and Agreements
    - 2.2.8.1. Stockholm 1972
    - 2.2.8.2. Rio de Janeiro 1992
  - 2.2.9. Rules Protecting Environmental Rights
  - 2.2.10. Conclusion
- 2.3. Environmental Law Duties
  - 2.3.1. Introduction
  - 2.3.2. What Are Environmental Duties?
    - 2.3.2.1. Definition and Concept
  - 2.3.3. What Are the Environmental Rights?
  - 2.3.4. Duty to Conserve the Environment

- 2.3.5. Duty to Comply with Environmental Regulations
- 2.3.6. Duty of Citizen Watch
- 2.3.7. Duty to Inform
- 2.3.8. Duty for Environmental Damage
- 2.3.9. Conclusions
- 2.4. Citizen Participation in Environmental Protection
  - 2.4.1. Introduction
  - 2.4.2. Participatory Environmental Monitoring
    - 2.4.2.1. Introduction
    - 2.4.2.2. Concept of Monitoring
    - 2.4.2.3. What Is Participatory Environmental Monitoring?
    - 2.4.2.4. What is it for?
    - 2.4.2.5. Who Can Participate?
    - 2.4.2.6. Participatory Environmental Monitoring Plan
    - 2.4.2.7. Area of Influence of a Project or Activity
    - 2.4.2.8. Stages of Participatory Environmental Monitoring
    - 2.4.2.9. Phases
- 2.5. United Nations Environment Programme UNEP
  - 2.5.1. Introduction
  - 2.5.2. Definition and Concept
  - 2.5.3. UNEP Goals
    - 2.5.3.1. General Objective
  - 2.5.4. History & evolution
    - 2.5.4.1. Where and When was UNEP Born?
  - 2.5.5. UNEP Mission
  - 2.5.6. Activities
  - 2.5.7. UNEP Location
    - 2.5.7.1. At National and International Level
  - 2.5.8. Fourth Montevideo Program of Development and Periodic Review of Environmental Law
    - 2.5.8.1. Concept, Goals and Purpose
  - 2.5.9. Conclusion
- 2.6. Global Environment and Climate Change
  - 2.6.1. Introduction
  - 2.6.2. Global Environment
    - 2.6.2.1. Concept

- 2.6.3. Climate Change.
  - 2.6.3.1. Concept
- 2.6.4. Evolution of Climate Change Theory
- 2.6.5. Global Environmental Change
  - 2.6.5.1. Past and Present
- 2.6.6. Characteristics of Global Environmental Change
  - 2.6.6.1. Sea Level Changes
- 2.6.7. Consequences of Global Environmental Change
- 2.6.8. Dangers, Risks and Future Vulnerability
- 2.6.9. Climate Change and Impact on Agriculture
- 2.6.10. Survival Strategies and Dilemmas
  - 2.6.10.1. Migration
- 2.7. Environmental Rights in the World
  - 2.7.1. Introduction
  - 2.7.2. Countries Fighting for Environmental Rights
  - 2.7.3. Equator
  - 2.7.4. Spain
  - 2.7.5. Mexico
  - 2.7.6. Peru.
  - 2.7.7. Sustainable Development
    - 2.7.7.1. Concept
  - 2.7.8. History & evolution
  - 2.7.9. Sustainable Development Optics (SD)
  - 2.7.10. General Law on Sustainable Forestry Development
    - 2.7.10.1. Description
    - 2.7.10.2. Objective

05

# Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning.**

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

*Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"*

## At TECH we use the Case Method

What should a professional do in a given situation? Throughout the program, students will face multiple simulated clinical cases, based on real patients, in which they will have to do research, establish hypotheses, and ultimately resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method. Specialists learn better, faster, and more sustainably over time.

*With TECH you will experience a way of learning that is shaking the foundations of traditional universities around the world.*

According to Dr. Gérvas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching power or because of its uniqueness or rarity. It is essential that the case is based on current professional life, trying to recreate the real conditions in the physician's professional practice.

“

*Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”*

The effectiveness of the method is justified by four fundamental achievements:

1. Students who follow this method not only achieve the assimilation of concepts, but also a development of their mental capacity, through exercises that evaluate real situations and the application of knowledge.
2. Learning is solidly translated into practical skills that allow the student to better integrate into the real world.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

## Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

This university is the first in the world to combine the study of clinical cases with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, a real revolution with respect to the mere study and analysis of cases.

*Professionals will learn through real cases and by resolving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.*

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology, more than 250,000 physicians have been trained with unprecedented success in all clinical specialties regardless of surgical load. Our pedagogical methodology is developed in a highly competitive environment, with a university student body with a strong socioeconomic profile and an average age of 43.5 years old.

*Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.*

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by TECH's learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

### Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

### Surgical Techniques and Procedures on Video

TECH introduces students to the latest techniques, the latest educational advances and to the forefront of current medical techniques. All of this in direct contact with students and explained in detail so as to aid their assimilation and understanding. And best of all, you can watch the videos as many times as you like.

### Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

### Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

**Expert-Led Case Studies and Case Analysis**

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

**Testing & Retesting**

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

**Classes**

There is scientific evidence on the usefulness of learning by observing experts. The system known as Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

**Quick Action Guides**

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

# 06 Certificate

The Postgraduate Certificate in Cooperation and Environmental Law guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Global University.

“

*Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork"*

This program will allow you to obtain your **Postgraduate Certificate in Cooperation and Environmental Law** endorsed by **TECH Global University**, the world's largest online university.

**TECH Global University** is an official European University publicly recognized by the Government of Andorra (**official bulletin**). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University** title is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.
