Introduction

The need for reassurance through attention from the people around them is the main characteristic of patients with Histrionic Personality Disorder. Although their condition can be confused with the character of a jovial, cheerful, enthusiastic or lively person, the truth is that it represents a strong emotional instability for them, negatively affecting their quality of life and their psychosocial development. For this reason, early and accurate diagnosis of this syndrome can help them improve their mental health, allowing them to apply the most innovative treatments in the Psychiatry sector, aspects that will be worked on in this program. Furthermore, thanks to its 100% online modality, the specialist will be able to update himself in a way that is completely combined with the medical activity of his practice.

“

You have before you the best opportunity on the market to delve into Histrionic Personality Disorder and its psychiatric developments through a 100% online degree”

On many occasions, the diagnosis of Histrionic Personality Disorder represents a real challenge for medical professionals, since its clinical picture, in the best of cases, can be confused with that of a person with high self-esteem, with a lively, happy or enthusiastic character. However, the imperative need for approval and reaffirmation before the rest of society causes great disorder in their behavior, starring in theatrical scenes, allowing themselves to be easily influenced by other people or triggering inappropriate attitudes depending on the context.

All of this seriously affects the psychosocial development of the patient and their relationship with the environment, generating stress, anxiety and an increase in the chances of suffering from other disorders such as depression. This is why the importance of diagnosing this syndrome is imperative and the specialist must also know in detail the latest psychiatric developments in its treatment, in order to be able to influence its treatment in the most accurate way. With this Postgraduate Certificate, the graduates will be able to update themselves on the latest scientific evidence related to this disorder: diagnostic classifications, etiology, common symptoms, evolution, subtypes, pharmacological treatments, etc.

All this through a program presented in a comfortable and accessible 100% online format, designed by experts in the sector and aimed exclusively at medical professionals seeking to catch up through a degree that allows them to combine the perfection of academic activity with that of your consultation. That is why you can access the Virtual Classroom 24 hours a day throughout the week and from any device with an internet connection, whether mobile, computer or tablet.

This **Postgraduate Certificate in Histrionic Personality Disorder** contains the most complete and up-to-date scientific program on the market. The most important features include:

- ◆ The development of practical cases presented by experts in Psychiatry
- ◆ The graphic, schematic, and practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice
- ◆ Practical exercises where self-assessment can be used to improve learning
- ◆ Its special emphasis on innovative methodologies
- ◆ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ◆ Content that is accessible from any fixed or portable device with an Internet connection

You will be able to update yourself on the clinical characteristics of the disorder in a practical way through the resolution of real clinical cases extracted from Psychiatry consultations"

“

You will have detailed videos, images, complementary readings and research articles to contextualize and expand your knowledge in a dynamic way and through the best additional material”

The program’s teaching staff includes professionals from the sector who contribute their work experience to this educational program, as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the academic year. This will be done with the help of an innovative system of interactive videos made by renowned experts.

With this Postgraduate Certificate you will have the opportunity to delve deeper into the DSM-5, ICD-10 criteria and the differences and similarities in the diagnostic classifications of the disorder.

Knowing in detail the latest scientific evidence related to the prognosis and possible evolution of the treatment of this syndrome will help you manage your patients more accurately.

02 Objectives

The common characteristics of this disorder with others, as well as the complexity, at times, of its diagnosis, is the reason why TECH has considered it necessary to carry out this Postgraduate Certificate. For this reason, its objective is to provide the graduate with the most innovative and exhaustive information related to this syndrome, through which they can catch up, in just 6 weeks, and apply the latest developments in strategies and practices in their consultation. medical techniques in the Psychiatry sector.

“

If your goal is to acquire current and accurate knowledge of the clinical and differential diagnosis of Histrionic Personality Disorder, this Postgraduate Certificate has been designed for you”

General Objectives

- ◆ Delve into the newest aspects of Histrionic Personality Disorder
- ◆ Review the most relevant concepts related to the diagnosis and treatment guidelines for the disorder

“

Without face-to-face classes or restricted schedules, this Postgraduate Certificate adapts to your availability, giving you the possibility of connecting to the Virtual Classroom 24 hours a day”

Specific Objectives

- ◆ Classify the differences and similarities in the most widespread diagnostic classifications
- ◆ Delve into the pathogenesis of Histrionic Personality Disorder
- ◆ Analyze the most relevant psychotherapeutic treatments
- ◆ Study its evolution, prognosis and complications

03

Course Management

TECH always relies on the presence of the best teaching team for its degrees. For this reason, for this Postgraduate Certificate, a group of specialists in Psychiatry with years of experience in the clinical management of patients with Histrionic Personality Disorder and other syndromes has been selected. Furthermore, as they are active professionals, they know in detail the latest scientific developments related to the diagnosis and treatment of these pathologies, aspects that give the syllabus a current, critical and quality character.

“

You can request individualized online tutoring to resolve any possible doubts that may arise during the course of this academic experience”

Management

Dr. Benito Ruiz, Adolfo

- ♦ Medical specialist in Psychiatry in the Toledo Hospital Complex
- ♦ FEA of Psychiatry, Toledo Hospital Complex
- ♦ FEA of Psychiatry at the Francisco Díaz Mental Health Center
- ♦ Chief researcher in several studies related to Psychiatry.
- ♦ Author and co-author of dozens of scientific articles related to his specialty
- ♦ Author and coauthor of numerous book chapters
- ♦ Professor in Mental Health courses and in undergraduate studies
- ♦ Doctorate in Medicine, University of Alcalá
- ♦ Master's Degree in Psychotherapy, Integrated Perspective from the University of Alcalá Henares
- ♦ Awards of the Foundation for Biomedical Research of the Príncipe Asturias University Hospital

Professors

Dr. Benavides Rivero, Evelyn Fernanda

- ♦ Specialist in Psychiatry
- ♦ Psychiatry Faculty at the Toledo General University Complex
- ♦ Specialist physician at the Virgen de la Salud Hospital
- ♦ Aesthetic Physician in private practice
- ♦ Degree in Medicine from the University del Rosario
- ♦ Specialist in Aesthetic Medicine at the Distance University of Madrid.(UDIMA)

04

Structure and Content

This Postgraduate Certificate has been designed by the teaching team taking into account the immediate current events in the Psychiatry sector related to the diagnosis, clinical management and treatment of Histrionic Personality Disorder. In addition, they have selected for this program different additional materials presented in video format, images, research articles and complementary readings, so that they can not only contextualize the information developed in the syllabus, but also deepen and expand their knowledge in those sections that most interest them. interest the specialist.

“

You will be able to update yourself on the most effective pharmacological treatments: antipsychotics, antidepressants and anxiolytics”

Module 1. Histrionic Personality Disorder

- 1.1. Clinical Characteristics
- 1.2. Diagnostic Classifications
 - 1.2.1. DSM-5 Diagnostic Criteria
 - 1.2.2. CIE-10 Diagnostic Criteria
 - 1.2.3. Differences and similarities in classifications
- 1.3. Course
 - 1.3.1. Prognosis and Evolution
- 1.4. Etiology and Causes
- 1.5. Common Symptoms and Symptomatology
- 1.6. Clinical and Differential Diagnosis
 - 1.6.1. Differential Diagnosis with Functional Criteria Pathologies
 - 1.6.2. Comorbidities
- 1.7. Evolution
 - 1.7.1. Prognosis
 - 1.7.2. Complications
- 1.8. Histrionic Personality Disorder Subtypes
- 1.9. Pharmacological Treatment
 - 1.9.1. Antipsychotics
 - 1.9.2. Antidepressants
 - 1.9.3. Anxiolytics
- 1.10. Psychotherapeutic treatment
 - 1.10.1. Horowitz Integration Therapy
 - 1.10.2. The Beck's Cognitive Therapy
 - 1.10.3. Wessler Cognitive Appraisal Therapy

“

It is never too late to update your knowledge, and even less so with the facilities that TECH and its team put at your disposal with each of their degrees”

05

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH we use the Case Method

What should a professional do in a given situation? Throughout the program, students will face multiple simulated clinical cases, based on real patients, in which they will have to do research, establish hypotheses, and ultimately resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method. Specialists learn better, faster, and more sustainably over time.

With TECH you will experience a way of learning that is shaking the foundations of traditional universities around the world.

According to Dr. Gérvas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching power or because of its uniqueness or rarity. It is essential that the case is based on current professional life, trying to recreate the real conditions in the physician's professional practice.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”

The effectiveness of the method is justified by four fundamental achievements:

1. Students who follow this method not only achieve the assimilation of concepts, but also a development of their mental capacity, through exercises that evaluate real situations and the application of knowledge.
2. Learning is solidly translated into practical skills that allow the student to better integrate into the real world.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

This university is the first in the world to combine the study of clinical cases with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, a real revolution with respect to the mere study and analysis of cases.

Professionals will learn through real cases and by resolving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology, more than 250,000 physicians have been trained with unprecedented success in all clinical specialties regardless of surgical load. Our pedagogical methodology is developed in a highly competitive environment, with a university student body with a strong socioeconomic profile and an average age of 43.5 years old.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by TECH's learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Surgical Techniques and Procedures on Video

TECH introduces students to the latest techniques, the latest educational advances and to the forefront of current medical techniques. All of this in direct contact with students and explained in detail so as to aid their assimilation and understanding. And best of all, you can watch the videos as many times as you like.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

Classes

There is scientific evidence on the usefulness of learning by observing experts. The system known as Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

06 Certificate

The Postgraduate Certificate in Histrionic Personality Disorder guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork"

This **Postgraduate Certificate in Histrionic Personality Disorder** contains the most complete and up-to-date scientific on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Certificate in Histrionic Personality Disorder**

Official N° of Hours: **150 h.**

*Apostille Convention. In the event that the student wishes to have their paper certificate issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
