01 Introduction

The growing social concern about personal image and beauty has added a special pressure on clinics and units dedicated to aesthetics. This has prompted all professionals in the area to a process of comprehensive updating, covering the multitude of new treatments and aesthetic approaches both for the skin and for physical activity or nutrition. TECH, in response to this demand, has developed this program. In it, the nursing have the opportunity to get involved in a first class clinical center, where they can acquire the most advanced and avant-garde daily practice by the hand of the best professionals in just 3 weeks.

“

TECH gives you the opportunity to update your knowledge and skills through the use, in situ, of the most sophisticated dermocosmetic treatments of Aesthetic Nursing”

The concern for skin care in the population increases every year, making Aesthetic Nursing treatments an increasingly demanded claim by the market. The advances that have been made in recent years in terms of painless intervention techniques and their increasingly promising results, make this specialty one of the most demanded within the profession.

For this reason, the professionals who want to dedicate their careers to this area of nursing must know in detail the latest scientific advances in order to be able to offer a professional practice adapted to the present day. The best way to achieve this is, undoubtedly, through a practical stay in a reference clinic such as the one this center offers you.

It is an experience distributed over 120 hours and framed in 3 weeks in which the specialist will be able to share his time with experts in Aesthetic Nursing and actively participate in the management of patients with different dermal pathologies. It is, therefore, a unique opportunity to get updated on the recommended treatments for each case and to put into practice their skills in the use of the same, acquiring the skills and abilities of a professional versed in the field.

02

Why Study an Internship Program?

With a growing demand for aesthetic treatments of all kinds, it is logical that not only specialists are looking for an effective update in the area, but also nursing dedicated to the aesthetic sector. Their role in many of these procedures is key, so it is important that they are also familiar with the latest working methods. This Internship Program offers, precisely, the possibility to be introduced in a highly qualified practical environment where, with the help of a team of aesthetic experts, the nurse will be able to get up to date in the most avant-garde Aesthetic Nursing.

Update yourself in a unique practical experience in the academic market, being able to get involved in the day to day of a high level aesthetic clinic"

1. Updating from the latest technology available

Technology is one of the most relevant points when talking about Aesthetics. The variety of treatments available today and the multitude of different approaches to attack the same problem are due, in part, to the technological advances produced in recent years. That is why during the Internship Program the nursing will have access to the most advanced equipment and machinery in this field.

2. Gaining In-Depth Knowledge from the Experience of Top Specialists

Thanks to the integration in a multidisciplinary team in the aesthetic field, the students will be able to benefit from the experience and effective management of an advanced working group. Sharing the day-to-day work of disciplined professionals with extensive experience in all types of aesthetic approaches, the Internship Program will have a high impact on the nurse's update.

3. Entering First-Class Clinical Environments

TECH carefully selects the clinical centers where the internships will be carried out, so that the students are guaranteed access to a practical environment of the highest possible quality. In this way, they will be able to see not only the most advanced work methodology but also how it is applied based on the latest technology available.

4. Putting the acquired knowledge into daily practice from the very first moment

The main objective of this Internship Program is to enable the nursing to get the most out of it. Therefore, the whole pedagogy of work is focused on being able to take all the knowledge and skills acquired to the professional practice itself immediately, ensuring an effective update.

5. Expanding the Boundaries of Knowledge

Given that in many cases the best way to continue expanding one's knowledge is to do it in a practical way. TECH guarantees that, upon graduation, the nursing will have taken a decisive step forward in the field of Aesthetic Nursing, bringing their competencies to the most current scientific rigor.

*You will have full practical immersion
at the center of your choice"*

03

Objectives

The objective of this program is to enable the graduates to acquire the most updated and avant-garde knowledge related to all anti-aging modalities and dermocosmetic treatments, being able to incorporate to their professional practice the most innovative strategies related to the tools to practice Aesthetic Nursing nowadays. In addition, it also aims to provide you with all the information that allows you to perform a comprehensive management of the aesthetic patient, being able to make an accurate diagnosis and apply the appropriate treatment based on the most current scientific evidence in the sector..

General Objectives

- Be updated in the most advanced procedures and techniques in Aesthetic Nursing
- Know first hand the practice of a first level aesthetic clinic
- Address the most common cases and pathologies presented by patients in an aesthetic clinic

Specific Objectives

- ◆ Know how to structure the organization of the dermo-aesthetic medicine practice
- ◆ Proper selection of the patient, prior preparation of the skin, as well as a correct follow-up and prescription of the PostPeeling treatment, adapted to the usual evolution after the use of each chemical agent or combination of them selected
- ◆ Update knowledge on the different pathologies that can be consulted in the Community Pharmacy, analyzing the different existing therapeutic approaches, both for their treatment and prevention
- ◆ Develop a proposal of action protocols for each pathology described
- ◆ Deepen in the aspects, classification and influence of laser hair removal
- ◆ Know how to apply esthetic massages for immediate effects
- ◆ Acquire in-depth knowledge of different procedures and treatments such as fillers or support threads
- ◆ Establish the contribution of micronutrients to normal nutritional status
- ◆ Examine the metabolic response during physical exercise
- ◆ Determine the different techniques for the physiological assessment of the patient
- ◆ Address sexual dysfunctions

04 Planning of teaching

This Internship Program in Aesthetic Nursing has been proposed by TECH with the aim of giving the specialist access to a stay in a prestigious clinical center. It is an experience distributed over 120 hours framed in 3 weeks, in which the graduate will be able to accompany, from Monday to Friday, an expert in the sector in their daily consultation. It is therefore presented as a unique opportunity to have access to real clinical cases and to manage patients, side by side, with a reference team in this area of nursing, using the most innovative tools and strategies in the sector.

In this completely practical Internship Program, the activities are aimed at developing and perfecting the skills necessary to provide healthcare care in areas and conditions that require highly qualified professionals, and are oriented towards specific expertise for practicing the activity, in a safe environment for the patient and with highly professional performance.

It is undoubtedly a unique opportunity to expand and update their knowledge by working in the innovative clinic of the future, where real-time health monitoring of patients is the center of the digital culture of its professionals, a new way of understanding and integrating health processes in their professional practice.

The practical teaching will be done with the active participation of the student performing the activities and procedures of each area of competence (learning to learn and learning to do), with the accompaniment and guidance of teachers and other training partners to facilitate teamwork and multidisciplinary integration as transversal competencies for the practice of Aesthetic Nursing (learning to be and learning to relate).

The procedures described below will form the basis of the practical part of the training, and their implementation is subject to both the suitability of the patients and the availability of the center and its workload, with the proposed activities being as follows:

Receive specialized education in an institution that can offer you all these possibilities, with an innovative academic program and a human team that will help you develop your full potential"

Module	Practical Activity
Aesthetic Nursing and cosmetic assessment	Apply rigorous hygienic measures in a cosmetic practice
	Assist in the practice of anti-aging medicine
	Assist in the application of cellular aging mechanisms
	Analyze the exposome and aging of the patient
	Develop the organization and management of a first level aesthetic practice
Dermatological pathologies and assessment of the skin	Evaluate patients with rosacea, acne and seborrheic dermatitis, atopic or contact dermatitis
	Analyze pigmentation disorders such as hyperpigmentations and hypopigmentations
	Analyze skin infections and infestations caused by pathogenic agents
	Practice facial and body hygiene treatments
	Assess the most effective methodology for deep skin cleansing
Peeling, hair removal and aesthetic massage	Practice techniques for performing aesthetic body massage
	Assess the procedures of photoepilation with pulsed light
	Prepare the patient before a procedure of peeling or laser hair removal
	Practice <i>superficial, medium or deep peeling</i>
	Plan the care examination of <i>Post-Peeling</i>
Nutrition, psychology and physical activity in Aesthetic Nursing	Practicing nursing care in the field of nutricosmetics and Antiaging
	Apply orthomolecular dermosmetics
	Analyze the most frequent nutritional alterations related to aesthetics
	Perform a psychological approach to the patient in aesthetic consultation
	Apply strategies for rehabilitation and recovery from physical exertion
	Analyze levels of sedentary lifestyle and obesity in the patient
Procedures and treatments in Aesthetic Nursing	Practice assisting in bioplasty or application of <i>facial fillers</i>
	Perform the relevant nursing care after the application of butolinic toxin
	Apply facial and body carboxytherapy
	Apply microdermabrasion
	Analyze rhinomodeling and mentoplasty processes

05

Where Can I Do the Internship Program?

For this Internship Program TECH has selected a group of renowned clinics on the national scene that have years of experience in the use of the best techniques and procedures related to Aesthetic Nursing. This is a reference center where the graduates will be able to work side by side with professionals who have a long and extensive professional career, an aspect that will allow them to update their knowledge in the management of patients in a more effective and efficient way.

“

An experience that will give you access to the most sophisticated and innovative clinical tools in the Aesthetic Nursing sector"

General Conditions

Civil Liability Insurance

This institution's main concern is to guarantee the safety of the trainees and other collaborating agents involved in the internship process at the company. Among the measures dedicated to achieve this is the response to any incident that may occur during the entire teaching-learning process.

To this end, this entity commits to purchasing a civil liability insurance policy to cover any eventuality that may arise during the course of the internship at the center.

This liability policy for interns will have broad coverage and will be taken out prior to the start of the practical training period. That way professionals will not have to worry in case of having to face an unexpected situation and will be covered until the end of the internship program at the center.

General Conditions of the Internship Program

The general terms and conditions of the internship agreement for the program are as follows:

1. TUTOR: During the Internship Program, students will be assigned with two tutors who will accompany them throughout the process, answering any doubts and questions that may arise. On the one hand, there will be a professional tutor belonging to the internship center who will have the purpose of guiding and supporting the student at all times. On the other hand, they will also be assigned with an academic tutor, whose mission will be to coordinate and help the students during the whole process, solving doubts and facilitating everything they may need. In this way, the student will be accompanied and will be able to discuss any doubts that may arise, both clinical and academic.

2. DURATION: The internship program will have a duration of three continuous weeks, in 8-hour days, 5 days a week. The days of attendance and the schedule will be the responsibility of the center and the professional will be informed well in advance so that they can make the appropriate arrangements.

3. ABSENCE: If the students does not show up on the start date of the Internship Program, they will lose the right to it, without the possibility of reimbursement or change of dates. Absence for more than two days from the internship, without justification or a medical reason, will result in the professional's withdrawal from the internship, therefore, automatic termination of the internship. Any problems that may arise during the course of the internship must be urgently reported to the academic tutor.

4. CERTIFICATION: Professionals who pass the Internship Program will receive a certificate accrediting their stay at the center.

5. EMPLOYMENT RELATIONSHIP: The Internship Program shall not constitute an employment relationship of any kind.

6. PRIOR EDUCATION: Some centers may require a certificate of prior education for the Internship Program. In these cases, it will be necessary to submit it to the TECH internship department so that the assignment of the chosen center can be confirmed.

7. DOES NOT INCLUDE: The Internship Program will not include any element not described in the present conditions. Therefore, it does not include accommodation, transportation to the city where the internship takes place, visas or any other items not listed.

However, students may consult with their academic tutor for any questions or recommendations in this regard. The academic tutor will provide the student with all the necessary information to facilitate the procedures in any case.

07 Certificate

This program will allow you to obtain your **Internship Program diploma in Aesthetic Nursing** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University is an official European University publicly recognized by the Government of Andorra (**official bulletin**). Andorra is part of the European Higher Education Area (EHEA) since 2003.
