01 Introduction

Gynecology is one of the most demanded areas in the clinical field, mainly due to the wide range of services offered for the promotion of women's health and disease prevention. It is also a context in which, for reasons of effectiveness and efficiency, countless advances have been made, thanks to which professionals such as Nursing can carry out an increasingly specialized, safe and exhaustive approach to the numerous cases that come to their offices every day. In order for them to be able to update their practice in situ, TECH offers them an eminently practical program with which they will have the opportunity to be part of a gynecological team of the highest level for 120 hours in a clinical center of international prestige.

Enjoy an intensive 3-week stay in a reputable center and get up to date on the latest clinical procedures to achieve professional growth"

The factors that can cause a disease related to gynecological physiology are diverse. For this reason, every year, from the health field, special emphasis is placed on the importance of preventive consultation, which has become a significant asset to combat, for example, breast cancer or uterine cancer, two of the most deadly cancers in the world. For issues such as this, the nurse, as a leading agent in gynecological care, must keep abreast of developments in this environment, in order to be able to offer, always, a service according to the forefront of modern medicine.

And for this, you can count on this complete and exhaustive program that TECH has prepared exclusively for you. This is a Practical Training in Nursing in the Gynecology Service, which aims to cover the updating space demanded by professionals interested in this area, seeking usefulness in routine clinical practice and encouraging high-level research in the aspects covered. professionals interested in this area, seeking usefulness in the usual clinical practice and encouraging high-level research in the aspects covered. Therefore, this intensive 3-week experience is intended to serve as an update for Nursing who want to meet the health needs of women with scientific rigor and the highest professional standards.

The aim is to respond to the growing need posed by the new challenges of a changing and increasingly demanding society, in order to raise awareness of the importance of incorporating new values, new work systems and new areas of action in La profession. A social need where women demand specialized and specific attention in the field of gynecological health. Therefore, it is essential that the nursing professional can respond adequately to these needs to increase gynecological and professional care to women, something that, undoubtedly, will work with this Practical Training.

02

Why Study an Internship Program?

TECH is a pioneer in the entire academic sector for offering degrees such as this Practical Training in Nursing in the Gynecology Service. Thanks to the course of this type of program, the graduate can apply their knowledge and learn in detail the day to day life of a clinic pioneer of the latest strategies related to the diagnostic and therapeutic approach to the different cases that may arise in the specialized consultation in women's health care.

An eminently practical program with which you will approach the novelties of puberty and the climacteric period for a more specific attention according to the patient's condition"

1. Updating from the Latest Technology Available

Any graduate who chooses this Practical Training as a tool for his or her updating will have unquestionable access to the most sophisticated, complex and avant-garde clinical equipment. In this way, you will be able to learn more about their use, as well as the casuistry to be taken into account when using them in the management of patients according to their pathology and physiological state.

2. Gaining In-depth Knowledge from the Experience of Top Specialists

The nurse will be assigned an internship tutor, who will accompany them during the entire period of stay in the clinical center. This professional will share with the student his experience, as well as his strategies for the most effective management of the different cases that may arise in the gynecological practice.

3. Entering First-Class Clinical Environments

TECH guarantees the active participation of graduates in all the cases they receive during their internship, therefore enabling them to work on the improvement of their skills through a protagonist approach to the different cases. For this reason, you will be able to expand your skills in the management of different gynecological contexts, developing, in addition, a specific ability for assertive and empathic communication in complex environments.

4. Putting the acquired knowledge into daily practice from the very first moment

The practical stay will guarantee the graduate a real up-to-date on the procedures that are currently being carried out in the gynecological nursing activity. Therefore, everything you learn from this experience will help you to apply it later in any place, allowing you to broaden your intervention strategies to adapt them to the context in which you develop your praxis.

5. Expanding the Boundaries of Knowledge

The list of clinics that are part of TECH's catalog of internships occupy different places on the map, giving the graduate the opportunity to be part of an experience in which they will be involved with a multidisciplinary team of international character and whose location goes beyond its borders. In this way, you can get a different view of the nursing profession, while keeping up to date with developments in the rest of the world.

You will have full practical immersion at the center of your choice"

03 Objectives

The general objective of this program is to ensure that the professional updates the diagnostic and therapeutic procedures of this specialty in exclusively practical and practical way, through a hospital internship designed with clinical and educational rigor, under the guidance of renowned professionals , in a hospital center of the highest scientific quality and technological innovation. Thanks to This Practical Training will enable the professional to improve and enhance his or her skills in nursing care by addressing the main different interventions.

General Objectives

- ♦ Promote work strategies based on a comprehensive approach to the patient as a standard model for achieving excellent care
- ♦ Favour the acquisition of technical skills and abilities through a powerful audiovisual system Cone possibility of development through specific education
- ♦ Encourage professional stimulation through continuous education and research

Specific Objectives

- ♦ For this reason the fundamentals and principles of the anatomy and physiology of the male and female sexual apparatus
- ♦ Understand reproductive endocrinology
- ♦ Learn about the development of sex differentiation
- ♦ Acquire knowledge of the ovarian and uterine cycle
- ♦ Understand male physiology
- ♦ Understand the neurohormonal regulation of reproductive function
- ♦ Update knowledge of puberty
- ♦ Understand the physiological process of the climacteric period
- ♦ Learn about the physiology of sexuality
- ♦ Know concepts related to menstrual symptoms
- ♦ Update knowledge on gynecological examinations
- ♦ Acquire knowledge about the biological process of reproduction and the sexual cycle of women and its psychological and social implications
- ♦ Identify the various pathologies related to puberty
- ♦ Describe the different menstrual disorders
- ♦ Understand hypothalamic and pituitary amenorrheas

06 General Conditions

Civil Liability Insurance

This institution's main concern is to guarantee the safety of the trainees and other collaborating agents involved in the internship process at the company. Among the measures dedicated to achieve this is the response to any incident that may occur during the entire teaching-learning process.

To this end, this entity commits to purchasing a civil liability insurance policy to cover any eventuality that may arise during the course of the internship at the center.

This liability policy for interns will have broad coverage and will be taken out prior to the start of the practical training period. That way professionals will not have to worry in case of having to face an unexpected situation and will be covered until the end of the internship program at the center.

General Conditions of the Internship Program

The general terms and conditions of the internship agreement for the program are as follows:

1. TUTOR: During the Internship Program, students will be assigned with two tutors who will accompany them throughout the process, answering any doubts and questions that may arise. On the one hand, there will be a professional tutor belonging to the internship center who will have the purpose of guiding and supporting the student at all times. On the other hand, they will also be assigned with an academic tutor, whose mission will be to coordinate and help the students during the whole process, solving doubts and facilitating everything they may need. In this way, the student will be accompanied and will be able to discuss any doubts that may arise, both clinical and academic.

2. DURATION: The internship program will have a duration of three continuous weeks, in 8-hour days, 5 days a week. The days of attendance and the schedule will be the responsibility of the center and the professional will be informed well in advance so that they can make the appropriate arrangements.

3. ABSENCE: If the students does not show up on the start date of the Internship Program, they will lose the right to it, without the possibility of reimbursement or change of dates. Absence for more than two days from the internship, without justification or a medical reason, will result in the professional's withdrawal from the internship, therefore, automatic termination of the internship. Any problems that may arise during the course of the internship must be urgently reported to the academic tutor.

4. CERTIFICATION: Professionals who pass the Internship Program will receive a certificate accrediting their stay at the center.

5. EMPLOYMENT RELATIONSHIP: The Internship Program shall not constitute an employment relationship of any kind.

6. PRIOR EDUCATION: Some centers may require a certificate of prior education for the Internship Program. In these cases, it will be necessary to submit it to the TECH internship department so that the assignment of the chosen center can be confirmed.

7. DOES NOT INCLUDE: The Internship Program will not include any element not described in the present conditions. Therefore, it does not include accommodation, transportation to the city where the internship takes place, visas or any other items not listed.

However, students may consult with their academic tutor for any questions or recommendations in this regard. The academic tutor will provide the student with all the necessary information to facilitate the procedures in any case.

07 Certificate

This program will allow you to obtain your **Internship Program diploma in Nursing in the Gynecology Service** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University** title is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.

Title: **Internship Program in Nursing in the Gynecology Service**
