01
Introduction

Nursing plays an essential role in dozens of health-related activities. Without nurses, patient care would be deficient. Thus, there are more and more specializations in which nursing professionals are required who are able to respond to these challenges. The area of dermo-aesthetics is one of them. This is a growing field, with many patients requesting specific treatments and techniques, so it is important to master this knowledge in order to offer quality services. Thus, this degree is what nurses need to become true experts in the field, being able to develop their professional career in the field of dermo-aesthetics.

> " *Skin care is critical and patients rely on nursing professionals to provide them with the best treatments*"

Healthy, well-groomed skin is a major concern for millions of people. For this reason, dermoesthetics is an area in constant expansion. It is required by people of all ages and also reaches different disciplines such as nursing.

Nursing is essential in the healthcare field and can bring a wealth of qualities to the field of aesthetics. Specifically, it performs fundamental work in skin care and its services are in demand by a large number of patients. For this reason, it is advisable to specialize in the field in order to be able to offer the best techniques in your professional practice.

Thus, this Postgraduate Certificate in Dermo-aesthetic Nursing offers its students the possibility of improving their future thanks to the enormous amount of new skills and competencies that they will acquire throughout the development of this degree. In addition, thanks to its 100% online teaching methodology, it is the perfect educational program for those who need to combine their studies and work, as it adapts to each case.

This **Postgraduate Certificate in Dermo-aesthetic Nursing** contains the most complete and up-to-date educational program on the market. The most important features include:

- The development of case studies presented by experts in dermo-aesthetics applied to nursing.
- The graphic, schematic, and eminently practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice.
- Practical exercises where self-assessment can be used to improve learning.
- Its special emphasis on innovative methodologies
- Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- Content that is accessible from any fixed or portable device with an Internet connection

You will be the best professional in nursing applied to dermo-aesthetics in your environment"

Specialize in dermoesthetics and watch your nursing career advance rapidly"

Patients will only want to be treated by you.

Combine your nursing knowledge with this degree to become a great expert in dermo-aesthetics.

The program's teaching staff includes professionals from the sector who contribute their work experience to this training program, as well as renowned specialists from leading societies and prestigious universities.

Its multimedia content, developed with the latest educational technology, will allow the professional a situated and contextual learning, that is, a simulated environment that will provide an immersive training programmed to train in real situations.

This program is designed around Problem Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the academic year. For this purpose, the student will be assisted by an innovative interactive video system created by renowned and experienced experts.

02
Objectives

This Postgraduate Certificate in Dermo-aesthetic Nursing has as its main objective to offer its students the possibility of obtaining a breakthrough in their careers and in their lives, thanks to the new knowledge they will learn here. Thus, this degree is what any nursing professional needs to become a true expert in the application of skin care and treatment. In this way, the students of this program will be able to immediately incorporate everything they have learned into their work practice.
"You need new goals and this Postgraduate Certificate will help you to be ambitious"

General Objectives

- Comprehensively manage the esthetic patient, being able to make an accurate diagnosis and apply the most appropriate treatment
- Update and reinforce the knowledge in dermatology necessary for the correct care of esthetic nursing patients
- Provide nurses with the necessary tools and guidelines to deal efficiently with the different dermatological pathologies
- Reinforce the role of the nurse in the treatment of these pathologies
- Identify the role of treatments in the prevention and treatment of dermatological pathologies
- Know how to differentiate and approach the most common topical pathologies.

Specific Objectives

- Know the basics of dermo-esthetic nursing
- Know how to structure the organization of the dermo-esthetic medicine practice
- Correctly manage the hygienic and sanitary protocols in the dermo-esthetic nursing office
- Know how to manage sanitary waste
- In-depth study of the legal aspects that should govern health care in dermo-esthetic nursing

Don't settle: you want to turn your career around and this degree will help you get there"

03
Structure and Content

This Postgraduate Certificate in Dermo-aesthetic Nursing is structured in 1 module, composed of 9 subjects, through which students can learn issues such as nursing diagnosis, hygiene of utensils, organization of a dermo-aesthetic practice, management of technical resources and equipment, the code of ethics that applies in this discipline or emergencies related to the dermo-aesthetic nursing practice. In this way, students will receive a complete education that will help them in their professional practice.

"

These contents will make you a great expert in dermo-aesthetics"

Module 1. Esthetic Nursing

You won't find a more comprehensive specialized dermo-aesthetic nursing program than this one"

04

Methodology

This training provides you with a different way of learning. Our methodology uses a cyclical learning approach: *Re-learning*.

This teaching system is used in the most prestigious medical schools in the world, and major publications such as the *New England Journal of Medicine* have considered it to be one of the most effective.

Discover Re-learning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization".

At TECH Nursing School we use the Case Method

In a given clinical situation, what would you do? Throughout the program, you will be presented with multiple simulated clinical cases based on real patients, where you will have to investigate, establish hypotheses and, finally, resolve the situation. There is abundant scientific evidence on the effectiveness of the method. Nurses learn better, faster, and more sustainably over time.

With TECH, nurses can experience a learning methodology that is shaking the foundations of traditional universities around the world.
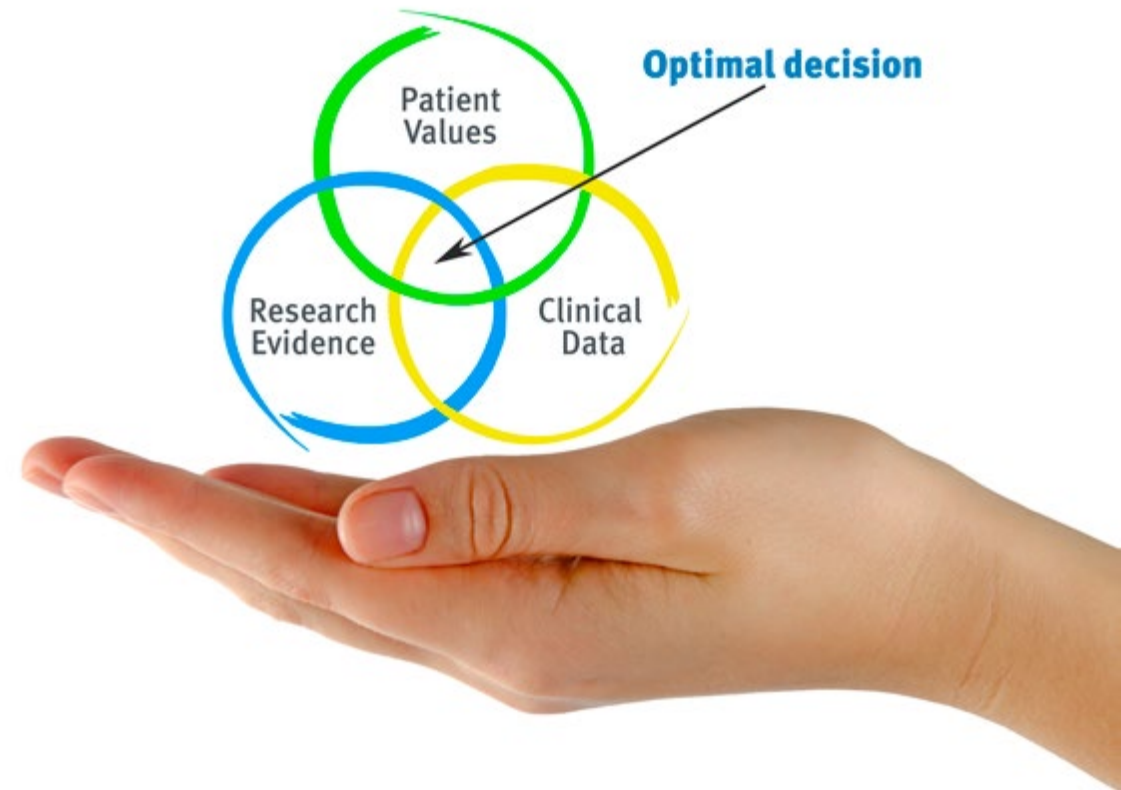

According to Dr. Gérvas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching power or because of its uniqueness or rarity. It is essential that the case is based on current professional life, in an attempt to recreate the real conditions in professional nursing practice.

Did you know that this method was developed in 1912 at Harvard for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method.

The effectiveness of the method is justified by four fundamental achievements:

1. Nurses who follow this method not only grasp concepts, but also develop their mental capacity by evaluating real situations and applying their knowledge.

2. The learning process has a clear focus on practical skills that allow the nursing professional to better integrate knowledge acquisition into the hospital setting or primary care.

3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.

4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the university program.

Re-Learning Methodology

At TECH we enhance the Harvard case method with the best 100% online teaching methodology available: Re-learning.

Our University is the first in the world to combine the study of clinical cases with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which represent a real revolution with respect to simply studying and analyzing cases.

The nurse will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

01 learning from evidence

02 relearning from evidence

03 testing

04 learning from an expert

05 neurocognitive context dependent learning

06 Von-Restorff effect

07 case based learning through storytelling

08 competencies testing (retesting)

At the forefront of world teaching, the Re-learning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best Spanish-speaking online university (Columbia University).

With this methodology we have trained more than 175,000 nurses with unprecedented success, in all specialties regardless of from the workload. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Re-learning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (we learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

In this program you will have access to the best educational material, prepared with you in mind:
Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is really specific and precise.

This content is then adapted in an audiovisual format that will create our way of working online, with the latest techniques that allow us to offer you high quality in all of the material that we provide you with.

20%

Nursing Techniques and Procedures on Video

We introduce you to the latest techniques, to the latest educational advances, to the forefront of current nursing procedures and techniques. All this, in first person, with the maximum rigor, explained and detailed for your assimilation and understanding. And best of all, you can watch them as many times as you want.

15%

Interactive Summaries

We present the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This unique multimedia content presentation training system was awarded by Microsoft as a "European Success Story".

15%

3%

Additional Reading

Recent articles, consensus documents, international guides. in our virtual library you will have access to everything you need to complete your training.

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, we will present you with real case developments in which the expert will guide you through focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Re-testing

We periodically evaluate and re-evaluate your knowledge throughout the program, through assessment and self-assessment activities and exercises: so that you can see how you are achieving your goals.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an expert strengthens knowledge and memory, and generates confidence in our future difficult decisions.

Quick Action Guides

We offer you the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help you progress in your learning.

05
Certificate

The Postgraduate Certificate in Dermoesthetic Nursing guarantees, in addition to the most rigorous and up-to-date training, access to a Postgraduate Certificate issued by TECH - Technological University.

Successfully complete this training and receive your university degree without travel or laborious paperwork".

This program will allow you to obtain your **Postgraduate Certificate in Dermo-aesthetic Nursing** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University is an official European University publicly recognized by the Government of Andorra *(official bulletin)*. Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This TECH Global University title is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.
