Introduction

The World Health Organization states that nursing services have a holistic and interdisciplinary approach, based on scientific, humanistic and ethical principles, based on respect for life and human dignity. Humanitarian action is increasingly necessary in the world, and the look towards a more sustainable society will be possible with international cooperation and integration of all sectors. In this sense, trained personnel in the area will be increasingly necessary and from the health area Nurses play a key role, so they must update their knowledge and in this exclusive academic program 100% online from TECH, they will find all the necessary knowledge to move forward in this field.

“

With this academic program, you will be updated on the processes to be followed in a project of Humanitarian Aid and International Law with a Gender Perspective from the work of Nursing”

Humanitarian Action is probably one of the best-known international cooperation projects in the world. To talk about Humanitarian Action is to talk about helping the neediest people, especially when they are in situations of extreme poverty, suffer wars or have suffered a natural catastrophe. The important mission of the nursing professional in this sense is linked to providing the greatest welfare in terms of health to individuals, and their intervention must be linked to the principles of International Cooperation for Development and gender equality, as well as sustainable development.

This Postgraduate Diploma aims to provide the graduate with the deepest knowledge in the field and to obtain the tools needed to successfully develop in projects of Humanitarian Action and International Law with a Gender Perspective.

Through the most modern study methodology of the current pedagogical market, this program presents a high quality content, put together by the most experienced teachers. In this way, different methods of research in International Cooperation for Development will be presented and the student will develop skills to work with the main vulnerable subjects protagonists of actions and programs of Cooperation for Development.

Identify the processes of design, monitoring and assessment of development cooperation actions, so that they have a complete understanding of what a cooperation project is Knowledge of project development methodologies and mastery of technical skills for the identification, formulation, planning, programming, management and monitoring of development cooperation projects.

It will also delve into the role of feminist movements in the processes of advancement and social transformation, to finally be able to intervene from gender perspectives in International Cooperation for Development. Being a 100% online program, the nurse will be able to combine the study with the rest of their daily obligations, with the desired comfort and quality.

This **Postgraduate Diploma in Humanitarian Action and International Law from a Gender Perspective** contains the most complete and up-to-date educational program on the market. The most important features include:

- ♦ The development of case studies presented by experts in International Cooperation for the Development of the Peoples
- ♦ The graphic, schematic, and practical content with which they are created, provides scientific and practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where self-assessment can be used to improve learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

By completing this Postgraduate Diploma you will have the ability to know in depth the context and nature of Humanitarian Aid actions"

“

You will have a complete understanding of what a cooperation project is, identifying the processes of formulation, monitoring and evaluation of actions”

The program’s teaching staff includes professionals from the field who contribute their work experience to this educational program, as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the academic year. For this purpose, the students will be assisted by an innovative interactive video system created by renowned and experienced experts.

The methodology implemented by TECH will allow you to go at your own pace and acquire knowledge in a dynamic way.

You will be able to participate in cooperation projects, leading change processes and proposing new ways of action.

02 Objectives

This Postgraduate Diploma in Humanitarian Action and International Law with Gender Perspective for Nursing has as main objective to consolidate in the Nurse an updated background and according to the new Public Policies about equality, development of peoples, socio-sanitary actions and project design to expand its role within the health sector. Therefore, this academic program will help you to achieve this goal in an easy and safe way with the best methodology in the market.

“

The best opportunity to build a professional background adequate for the social reality that humanity lives and to master working methods towards egalitarian social action from Nursing"

General Objectives

- Provide students with an advanced qualification in International Development Cooperation, specialized and based on theoretical and instrumental knowledge that will allow them to acquire and develop the necessary skills to obtain a qualification as a professional in international cooperation
- Provide the student with basic knowledge of the cooperation and development process based on the latest advances in policies on the sustainability processes involved in both economic and social aspects
- Improve professional performance and develop strategies for adapting and solving the problems of today's world by means of scientific research in cooperation and development processes
- Disseminate the basics of the current system and develop the critical and entrepreneurial spirit necessary to adapt to political changes within the framework of international law

Develop a specialized profile in Humanitarian Action and International Law from a Gender Perspective with the study of this Postgraduate Diploma"

Specific Objectives

Module 1. International Development Cooperation

- ◆ Know about different methods of research in International Development Cooperation
- ◆ Gain knowledge on methodologies for public policy advocacy, social communication, political change, etc
- ◆ Know about the evolution and status of current debates on development
- ◆ Become familiar with the instruments of international cooperation for development, as well as the types of projects and existing NGOs
- ◆ Develop skills to work with the main vulnerable subjects involved in Development Cooperation actions and programs.
- ◆ Understand the international cooperation system and the different members that make it up

Module 2. Humanitarian Action and International Development Cooperation

- ◆ Identify the processes of design, monitoring and assessment of development cooperation actions, so that they have a complete understanding of what a cooperation project is
- ◆ Develop a global vision on the nature, perspective and objectives of development cooperation actions
- ◆ Analyze and assess the sense of sectoral and geographic priorities of international development cooperation, identify the strategic axes that guide cooperation policies and actions, the sectors of action and the instruments for their implementation
- ◆ Promote debate and analysis on aspects related to the development of cooperation policies and actions and strategies aimed at improving their quality and effectiveness

- ◆ Knowledge of project development methodologies and mastery of technical skills for the identification, formulation, planning, programming, management and monitoring of development cooperation projects
- ◆ Understand in depth the context and nature of humanitarian aid actions
- ◆ Assess the process and final result of the different development cooperation projects

Module 3. Human Rights (HR) and International Humanitarian Law (IHL)

- ◆ Qualify the different types of armed conflicts by distinguishing them from other situations of armed violence; identify and classify the victims of such conflicts; know and understand the victim protection system and be able to apply it
- ◆ Be aware of the limitations that humanitarian law imposes on combatants in relation to the conduct of hostilities, respect for zones, places and installations marked with a protection sign, and the requirement of a code of conduct relating to victims, medical and religious personnel, and humanitarian organizations
- ◆ Identify situations and persons who are particularly vulnerable in armed conflicts, knowing the protection afforded to them by International Humanitarian Law
- ◆ Stimulate the participation of the people and groups with whom cooperation activities are developed, enabling them to identify their problems and needs, lead their processes of change, assess their evolution and decide on new courses of action

Module 4. Equality and Cooperation

- ◆ Internalize, analyze and understand what we mean when we talk about gender, development and women's rights
- ◆ Know about the role of feminist movements in the processes of social advancement and transformation
- ◆ Intervene under gender perspectives in international development cooperation

03

Course Management

Specialists in the area of International Cooperation and Humanitarian Action have developed a high quality content due to its topicality and context, which will allow the graduate to perform comprehensive work in humanitarian projects and social care. In addition, specific master classes will be given by guest professors who will make a significant contribution to their learning.

“

TECH facilitates the accompaniment of a team of experts for your professional development during the 6 months of study”

Guest Director

Ms. Rodríguez Arteaga, Carmen

- ◆ Director of the Studies Office of the INEM Directorate
- ◆ Head of Education, Strategic Planning and Coordinator of Knowledge Networks in AECID
- ◆ Degree in Philosophy and Educational Sciences at UCM
- ◆ Specialist in Knowledge Management
- ◆ Expert in Educational Evaluation at OEI
- ◆ Expert in Educational Indicators and Statistics at UNED
- ◆ Expert in Development Cooperation in Education at the University of Barcelona

Management

Ms. Romero Mateos, María del Pilar

- ◆ Social Educator Specialized in Child Empowerment
- ◆ Employment training teacher
- ◆ Gender Equality Agent
- ◆ Author and collaborator in educational projects at Abile Educativa
- ◆ Co-Author of the book: *'Principeso Cara de Beso'*
- ◆ Postgraduate Diploma in International Development Cooperation

Professors

Ms. Flórez Gómez, Mercedes

- ◆ Specialist in International Cooperation in Iberoamerica
- ◆ Director of the CFCE in Montevideo
- ◆ Degree in Geography and History from the Complutense University of Madrid
- ◆ Advanced Diploma in South Cooperation
- ◆ Diploma in Humanitarian Action - Institute of Studies on Conflict and Humanitarian Action
- ◆ MSc in Corporate Social Responsibility from the Pontifical University of Salamanca.
- ◆ MSc in Information and Documentation from the Antonio de Nebrija University
- ◆ Specialist in Inequality, Cooperation and Development, Instituto Universitario de Desarrollo y Cooperación, Complutense University of Madrid
- ◆ Education, Science and Culture by the OEI.

Dr. Ramos Rollon, Marisa

- ◆ Specialist in public policies and institutions in Latin America and on the issues of democratic governance and development policies.
- ◆ Coordinator of the department of Democratic Governance in the Eurosocal program.
- ◆ Full Professor of Political Science at UCM
- ◆ Responsible for the Democratic Governance sector at the Spanish Agency for International Cooperation
- ◆ Professor of Political Science at the University of Salamanca
- ◆ Development Cooperation Advisor to the Vice Rector of International Relations and Cooperation of the Complutense University of Madrid
- ◆ Doctor of Political Science from the Complutense University of Madrid in the Contemporary Latin America program
- ◆ Bachelor's Degree in Political Science with a major in International Relations and Latin American Studies from UCM.

Ms. Sánchez Garrido, Araceli

- ◆ Deputy Head of the Department of Cultural Cooperation and Promotion of the DRCC
- ◆ Responsible for the application of AECID's Cultural Diversity Mainstreaming Guide
- ◆ Professor of the Master in Cultural Management at the Carlos III University of Madrid
- ◆ Degree in Geography and History, specializing in Anthropology and Ethnology of America, Complutense University of Madrid
- ◆ Member of the Faculty of Museum Curators assigned to the Museo de América de Madrid

Mr. Cano Corcuera, Carlos

- ◆ Specialist in Planning and Management of Cooperation Interventions for Development
- ◆ General Coordinator of the Spanish Cooperation in the Dominican Republic
- ◆ General Coordinator of the Spanish Cooperation in Mexico

“Experience the best 100% online educational methodology in the current educational market. Enroll now”

05

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

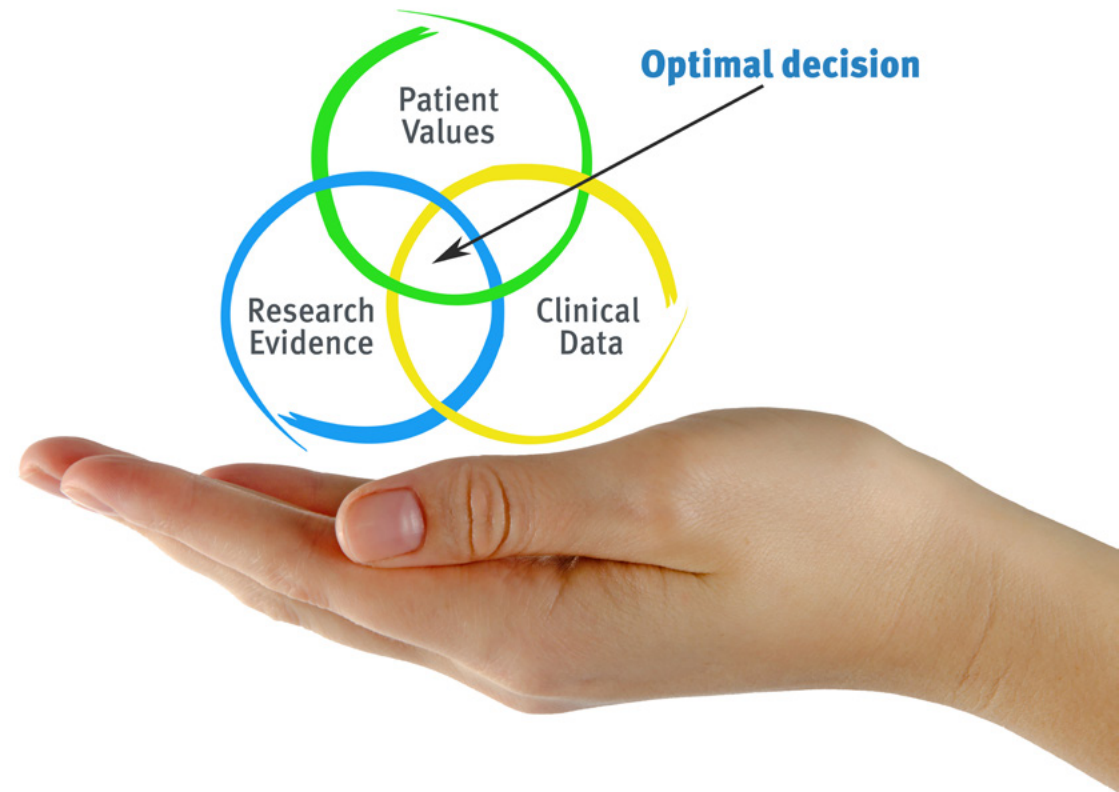

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH Nursing School we use the Case Method

In a given situation, what should a professional do? Throughout the program, students will face multiple simulated clinical cases, based on real patients, in which they will have to do research, establish hypotheses, and ultimately resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method. Nurses learn better, faster, and more sustainably over time.

With TECH, nurses can experience a learning methodology that is shaking the foundations of traditional universities around the world.

According to Dr. Gérvas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching power or because of its uniqueness or rarity. It is essential that the case is based on current professional life, in an attempt to recreate the real conditions in professional nursing practice.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”

The effectiveness of the method is justified by four fundamental achievements:

1. Nurses who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
2. The learning process has a clear focus on practical skills that allow the nursing professional to better integrate knowledge acquisition into the hospital setting or primary care.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

This university is the first in the world to combine case studies with a 100% online learning system based on repetition combining a minimum of 8 different elements in each lesson, which is a real revolution compared to the simple study and analysis of cases.

The nurse will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 175,000 nurses with unprecedented success in all specialities regardless of practical workload. Our pedagogical methodology is developed in a highly competitive environment, with a university student body with a strong socioeconomic profile and an average age of 43.5 years old.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by TECH's learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is really specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Nursing Techniques and Procedures on Video

We introduce you to the latest techniques, to the latest educational advances, to the forefront of current medical techniques. All of this in direct contact with students and explained in detail so as to aid their assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.
Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

06

Certificate

The Postgraduate Diploma in Humanitarian Action and International Law from a Gender Perspective guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Diploma issued by TECH Global University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

This private qualification will allow you to obtain a **Postgraduate Diploma in Humanitarian Action and International Law from a Gender Perspective** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University** private qualification is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.

Title: **Postgraduate Diploma in Humanitarian Action and International Law from a Gender Perspective**

Modality: **online**

Duration: **6 months**

Accreditation: **24 ECTS**

*Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH Global University will make the necessary arrangements to obtain it, at an additional cost.

Postgraduate Diploma Humanitarian Action and International Law from a Gender Perspective

- » Modality: online
- » Duration: 6 months
- » Certificate: TECH Global University
- » Credits: 24 ECTS
- » Schedule: at your own pace
- » Exams: online
