Introduction

Social, economic, gender and educational inequalities, as well as inequalities of access to services or common goods, can only be solved through international cooperation. The Nurse as a health professional must be aware of the different treaties and action plans proposed to alleviate this situation, especially as a transforming agent from a public or private organization or from voluntary actions. In this sense, TECH has developed this academic program from the hands of the most versed teachers, for the update in terms of Social Transformation through International Cooperation for Development is concerned. It will be a 100% online tour through the most complete study material, available from any device with internet connection.

“

You will update your knowledge of Social Transformation through International Development Cooperation for Nursing in only 6 months and 100% online”

Achieving the Social Transformation of the most disadvantaged peoples thanks to International Cooperation has been the objective set out in the different agendas and international treaties, with the convergence of nations from all continents. To meet this objective, it is essential to have trained professionals who are up-to-date with the main actions that can be carried out in these places, within their field of action. This is how this Postgraduate Diploma will prepare nurses to update the knowledge they need to intervene in the health sector.

This program contemplates the most relevant and updated aspects regarding the development of villages and the public and private figures involved. Together with the different methods of research in International Cooperation for Development, sources such as statistical techniques and computer tools to organize the selected information and plan reports, analysis and measures of development and cooperation, among other factors, which will allow the Nurse to develop an outstanding work in projects of Social Transformation.

For its configuration, TECH has chosen the most experienced professionals in the area of research and International Cooperation and social projects for development. Composed of 4 study modules, the student will have a series of multimedia resources at their disposal that will make learning more dynamic, such as: detailed videos, interactive summaries, quick response guides, among others, as well as Masterclasses by highly specialized guest lecturers.

In addition, as it is a 100% online specialization, the Nurse will be able to combine the study of this comprehensive program with the rest of their daily obligations, choosing at all times where, and when to study. An update with the highest academic level that will lead the professional to complete a specialized profile in this field of action.

This **Postgraduate Diploma in Social Transformation Through International Development Cooperation for Nursing** contains the most complete and up-to-date scientific program on the market. The most important features include:

- ♦ The development of case studies presented by experts in International Cooperation for the Development of the Peoples
- ♦ The graphic, schematic, and practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where self-assessment can be used to improve learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

You will be able to integrate projects in favor of social welfare, both for the general population and for specific sectors”

“

Identify, understand and know how to use sources, statistical techniques and computer tools to organize selected information and plan development and cooperation reports, analyses and actions”

You will obtain the fundamental knowledge for good practices in International Development Cooperation.

Thanks to the most avant-garde methodology implemented by TECH, you will study comfortably and from your favorite digital device.

The program's teaching staff includes professionals from the field who contribute their work experience to this educational program, as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the academic year. For this purpose, the students will be assisted by an innovative interactive video system created by renowned and experienced experts.

02 Objectives

TECH, with the aim of providing the nursing professional with the most updated and specific knowledge in the area of Social Transformation and International Cooperation, has developed this exclusive academic program, which will allow the development of new personal and professional skills in the Nurse of today, for their future. So, over 6 months, they will be able to evolve in the understanding of fundamental aspects such as the Sustainable Development Agenda or how to become a communication agent for transformation, among other qualities.

“

You will delve into the role of equality and movements in the processes of social advancement and transformation”

General Objectives

- Provide students with an advanced qualification in International Development Cooperation, specialized and based on theoretical and instrumental knowledge that will allow them to acquire and develop the skills necessary to obtain a qualification as a professional in international cooperation
- Provide the student with basic knowledge of the cooperation and development process based on the latest advances in policies on the sustainability processes involved in both economic and social aspects
- Improve professional performance and develop strategies for adapting and solving the problems of today's world by means of scientific research in cooperation and development processes
- Disseminate the basics of the current system and develop the critical and entrepreneurial spirit necessary to adapt to political changes within the framework of international law

Thanks to the intervention of a team of specialists in International Cooperation, this program will have a guarantee of assurance and quality that determines its high academic level"

Specific Objectives

Module 1. The Development of Peoples: Introduction and Challenges

- ♦ Understand the importance of the development of peoples
- ♦ Become aware of the actors involved in development, why and its consequences
- ♦ Know and clarify such basic concepts as poor and impoverished
- ♦ Become aware of the world situation and development

03

Course Management

This academic program has a team of highly qualified professionals with extensive experience in the field of International Cooperation and the promotion of culture, education, and social work in disadvantaged areas in its teaching staff. Thanks to their specific knowledge, they will offer the best tools for students to develop new skills during their studies. In this way, they will be given the proper scenario to perfect their skills and daily praxis.

“

*The most experienced professionals
are leading this Postgraduate Diploma”*

International Guest Director

Piotr Sasin is an international expert with experience in non-profit management, specializing in humanitarian assistance, resilience and international cooperation for the development of peoples. Indeed, he has worked in complex and challenging environments, helping communities affected by conflict, displacement and humanitarian crises. In addition, his focus on social innovations and participatory planning has allowed him to implement long-term solutions in vulnerable areas, significantly improving living conditions.

He has also held key roles as Director of Refugee Crisis Response at CARE, where he has led humanitarian initiatives to support displaced people in various regions. He has also worked as Country Director at People in Need, where he was responsible for coordinating community development and rapid emergency response programs. In turn, his role as Country Representative at the Terre des Hommes Foundation has allowed him to manage projects focused on child protection.

Consequently, at the international level, he has been recognized for his ability to manage large-scale projects in the field of international development cooperation, collaborating with governments, NGOs and multilateral agencies in various regions. Likewise, his leadership has been instrumental in promoting resilience in communities affected by disasters, fostering local empowerment through urban planning and sustainable development. In this way, he has been praised for his focus on conflict mitigation and his ability to build strategic partnerships.

Ultimately, Piotr Sasin has a strong academic background, with a Master's degree in Urban Planning and Regional Development, as well as a Bachelor's degree in Ethnology and Anthropological Culture, both degrees from the University of Warsaw in Poland. Thereby, his research has focused on international cooperation and sustainable planning in humanitarian crisis contexts.

Mr. Sasin, Piotr

- Director of Refugee Crisis Response at CARE, Warsaw, Poland
- Country Director at People in Need
- Country Representative at Fondation Terre des Hommes
- Program Director at Habitat for Humanity Poland
- Master's Degree in Urban Planning and Regional Development from the University of Warsaw
- B.A. in Ethnology and Anthropological Culture, University of Warsaw

“

Thanks to TECH, you will be able to learn with the best professionals in the world”

Guest Director

Ms. Rodríguez Arteaga, Carmen

- ◆ Director of the Studies Office of the INEM Directorate
- ◆ Head of Education, Strategic Planning and Coordinator of Knowledge Networks in AECID
- ◆ Degree in Philosophy and Educational Sciences at UCM
- ◆ Specialist in Knowledge Management
- ◆ Expert in Educational Evaluation at OEI
- ◆ Expert in Educational Indicators and Statistics at UNED
- ◆ Expert in Development Cooperation in Education at the University of Barcelona

Management

Ms. Romero Mateos, María del Pilar

- ◆ Social Educator Specialized in Child Empowerment
- ◆ Employment training teacher
- ◆ Gender Equality Agent
- ◆ Author and collaborator in educational projects at Abile Educativa
- ◆ Co-Author of the book: 'Principeso Cara de Beso'
- ◆ Postgraduate Diploma in International Development Cooperation

Professors

Dr. Ramos Rollon, Marisa

- ◆ Specialist on public policies and institutions in Latin America and on the issues of democratic governance and development policies
- ◆ Coordinator of the department of Democratic Governance in the Eurosocietal program
- ◆ Full Professor of Political Science at UCM
- ◆ Responsible for the Democratic Governance sector at the Spanish Agency for International Cooperation

 - 1.3.12. Bibliography

- 1.4. Sustainable Development and Education
 - 1.4.1. Introduction
 - 1.4.2. Education on Sustainable Development and Education for Sustainable Development
 - 1.4.2.1. Main Differences
 - 1.4.3. Sustainability
 - 1.4.3.1. Concept
 - 1.4.4. Sustainable Development
 - 1.4.4.1. Concept
 - 1.4.5. Components of Sustainable Development
 - 1.4.6. Principles of Sustainable Development
 - 1.4.7. Education for Sustainable Development (ESD)
 - 1.4.7.1. Definition
 - 1.4.8. History of Education for Sustainable Development
 - 1.4.8.1. Concept
 - 1.4.9. Redirect Education
 - 1.4.10. Guidelines for Sustainable Development
 - 1.4.11. Bibliography
- 1.5. Sustainable Development Goals (SDGs)
 - 1.5.1. Introduction
 - 1.5.2. Millennium Development Goals (MDGs)
 - 1.5.2.1. Background
 - 1.5.3. Millennium Campaign
 - 1.5.4. MDG Results
 - 1.5.5. Sustainable Development Goals
 - 1.5.5.1. Definition
 - 1.5.5.2. Who Is Involved?
 - 1.5.6. What Are the SDGs?
 - 1.5.6.1. Features
 - 1.5.7. Differences between the MDGs and the SDGs
 - 1.5.8. Sustainable Development Agenda
 - 1.5.8.1. The 2030 Agenda
 - 1.5.8.2. Are the SDGs Legally Binding?
 - 1.5.9. Monitoring the Achievement of the SDGs
 - 1.5.10. Bibliography
- 1.6. Theories about Sustainable Development
 - 1.6.1. Introduction
 - 1.6.2. Development Participants
 - 1.6.3. Problems of Education for Sustainable Development
 - 1.6.3.1. Skills
 - 1.6.4. The UN and Its Development Work
 - 1.6.4.1. The History of the UN
 - 1.6.4.2. The UN and Sustainability
 - 1.6.5. Agenda 21: UN Agenda 21
 - 1.6.5.1. Objectives of Agenda 21
 - 1.6.6. UNDP
 - 1.6.6.1. History of UNDP
 - 1.6.6.2. UNDP Goals
 - 1.6.7. Other Theories to Support Sustainable Development
 - 1.6.7.1. Degrowth
 - 1.6.8. Alternative Theories to Sustainable Development

 - 4.9.6. Bibliography

A complete academic program that you can develop at your own pace thanks to its 100% online modality. Freedom, comfort, and quality in one place”

05

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

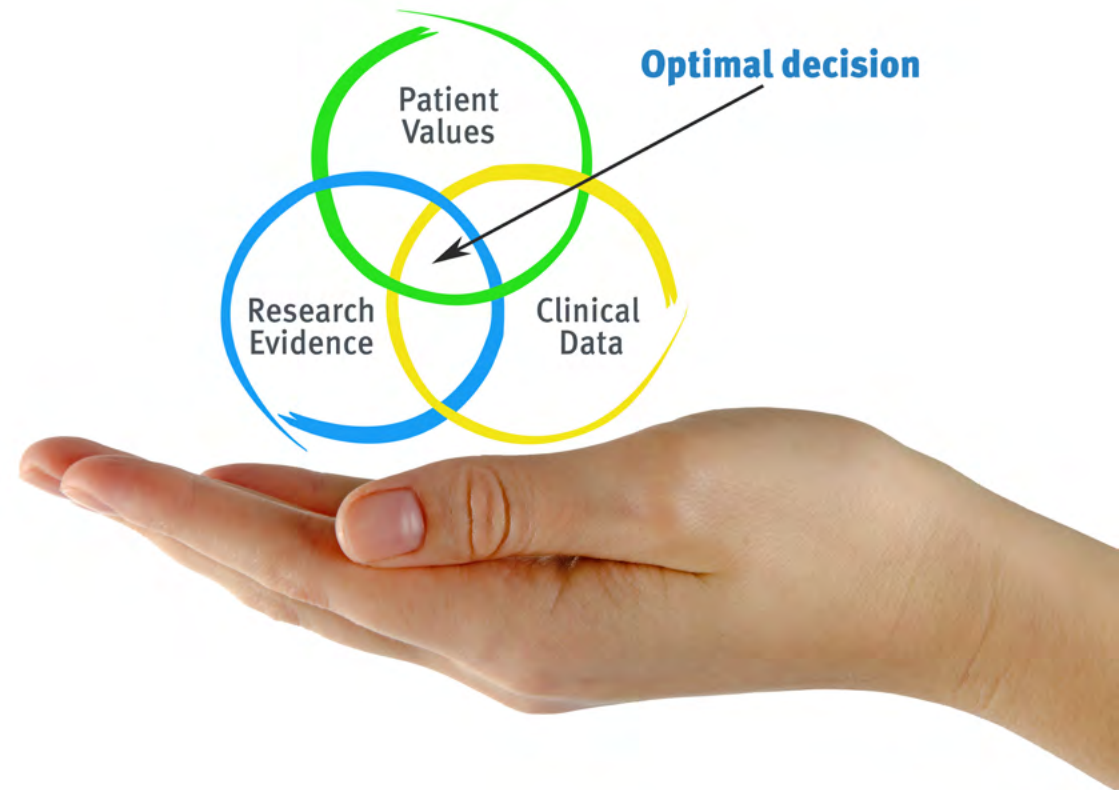

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization”

At TECH Nursing School we use the Case Method

In a given situation, what should a professional do? Throughout the program, students will face multiple simulated clinical cases, based on real patients, in which they will have to do research, establish hypotheses, and ultimately resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method. Nurses learn better, faster, and more sustainably over time.

With TECH, nurses can experience a learning methodology that is shaking the foundations of traditional universities around the world.

According to Dr. Gervas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching power or because of its uniqueness or rarity. It is essential that the case is based on current professional life, in an attempt to recreate the real conditions in professional nursing practice.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”

The effectiveness of the method is justified by four fundamental achievements:

1. Nurses who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
2. The learning process has a clear focus on practical skills that allow the nursing professional to better integrate knowledge acquisition into the hospital setting or primary care.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

This university is the first in the world to combine case studies with a 100% online learning system based on repetition combining a minimum of 8 different elements in each lesson, which is a real revolution compared to the simple study and analysis of cases.

The nurse will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 175,000 nurses with unprecedented success in all specialities regardless of practical workload. Our pedagogical methodology is developed in a highly competitive environment, with a university student body with a strong socioeconomic profile and an average age of 43.5 years old.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by TECH's learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is really specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Nursing Techniques and Procedures on Video

We introduce you to the latest techniques, to the latest educational advances, to the forefront of current medical techniques. All of this in direct contact with students and explained in detail so as to aid their assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

06

Certificate

The Postgraduate Diploma in Social Transformation through International Development Cooperation for Nursing guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Diploma issued by TECH Global University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

This private qualification will allow you to obtain a **Postgraduate Diploma in Social Transformation through International Development Cooperation for Nursing** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University** private qualification is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.

Title: **Postgraduate Diploma in Social Transformation through International Development Cooperation for Nursing**

Modality: **online**

Duration: **6 months**

Accreditation: **24 ECTS**

*Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH Global University will make the necessary arrangements to obtain it, at an additional cost.
