# 01

# Introduction

Nowadays it is impossible to understand the Dermo-aesthetic Pharmacy practice without taking into account the most incipient novelties of the profession, as well as other relevant concepts such as the organization of the practice itself or the management of health care waste in an updated and controlled manner. It is of vital importance that the professional pharmacist has a complete mastery of this subject, which is why this Postgraduate Certificate makes an extensive tour of those general issues of Dermo-aesthetic Pharmacy of greatest interest. A high-level teaching team has collected all the contents of this degree, providing a necessary practical vision of rigor to the most current scientific theory on Dermo-aesthetics in pharmacy.

“

*It reviews the main novelties in Dermo-aesthetic Pharmacy, with topics dedicated to organization, hygiene, diagnosis and PAE applied to Dermo-aesthetics”*

The role of the pharmacy as a means of consultation on dermo-aesthetic issues is fundamental, as it is usually the main avenue of care to which the patient goes first. The pharmacist knows the product firsthand and can offer personalized advice about each patient's ailments, which generates a unique bond of trust.

The complication arises with the constant advances that occur in the field of Dermo-aesthetic Pharmacy, as well as the growing concern for various pathologies of all kinds. The pharmacist must perform regular updating work in order to keep up to date with the main novelties, being able to maintain his high level of professional praxis.

This is where this TECH Postgraduate Certificate comes into play, offering a quick and effective solution for the pharmacist to access the latest content in Dermo-aesthetic Pharmacy. Compiled by experts in the field, the topics covered range from the organization of the practice itself to the use of modern antiseptics, emergencies in the dermo-aesthetic pharmacy practice and the most current diagnosis and pharmaceutical registry.

In this way, the pharmacy professional obtains a generalized vision of the main novelties in Dermo-aesthetic Pharmacy, and it is also available in a completely online format. With no on-site classes or fixed schedules, it is the pharmacist who decides when to take on the entire course load, being able to download the complete syllabus from the first day.

This **Postgraduate Certificate in Dermo-aesthetic Pharmacy** contains the most complete and up-to-date scientific program on the market. The most important features include:

- ♦ Practical cases presented by experts in Aesthetic Medicine
- ♦ The graphic, schematic, and practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where self-assessment can be used to improve learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions for experts and individual reflection work
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

*Get up to date on the most pressing issues in Dermo-aesthetic Pharmacy, including ethical-legal aspects, regulations and liability insurance”*

“

*Take advantage of this unique and quality opportunity to update you on specific developments that affect the proper functioning of the dermo-aesthetic pharmacy practice"*

The program's teaching staff includes professionals from the sector who contribute their work experience to this educational program, as well as renowned specialists from leading societies and prestigious universities.

Its multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide an immersive education programmed to learn in real situations.

The design of this program focuses on Problem-Based Learning, by means of which the professional must try to solve the different professional practice situations that are presented throughout the academic course. For this purpose, the student will be assisted by an innovative interactive video system created by renowned experts.

*The teaching team has worked meticulously to offer you the best possible content, supported by high quality audiovisual material.*

*You will be able to decide where, when and how to study, adapting the entire degree to your own pace and responsibilities.*

# 02

# Objectives

Since Dermo-aesthetic Pharmacy is such a broad and continuously evolving area, the framework of this Postgraduate Certificate is intended to be general, offering the pharmacist a broad vision of the most important novelties and developments in organization, hygiene, legality and consultation in Dermo-aesthetic Pharmacy. That way, they will have greater insight to incorporate the Updates presented throughout the syllabus into their daily work.

“

*You will have the opportunity to get up to date in the best possible way, with constant contextualization through real cases collected by the teaching team”*

## General Objectives

---

- ◆ Delve into the latest developments in dermo-aesthetic pharmacy
- ◆ Know the proper functioning of a dermo-aesthetic pharmacy practice
- ◆ Elaborate an organized and efficient pharmaceutical registry
- ◆ Delve into the complications that can occur in the dermo-aesthetic pharmacy

“

*You will achieve your professional updating objectives even sooner than you expect, boosted by TECH's efficient teaching methodology”*

## Specific Objectives

---

- ◆ Know the basics of dermo-aesthetic pharmacy
- ◆ Know how to structure the organization of the dermo-esthetic pharmacy practice
- ◆ Correctly manage hygienic and sanitary protocols in the dermo-esthetic nutrition clinic
- ◆ Know how to manage sanitary waste
- ◆ Explore the legal aspects that govern health care in dermo-esthetic pharmacy

03

# Structure and Content

The structure and contents that make up this Postgraduate Certificate have been exhaustively elaborated by the teaching team, dividing each point into convenient topics for consultation. These can even be studied in any order, according to the pharmacist's own interests or priorities, which gives extra versatility to the program. In addition, the teaching load is greatly reduced thanks to the support of a large amount of supplementary material, including high-quality videos and self-awareness exercises.

“

*The high quality of the didactic contents provided makes them even an excellent reference material after completion of the degree"*

## Module 1. Dermo-aesthetic Pharmacy

- 1.1. Dermo-Esthetic Pharmacy: New Developments in the Profession
- 1.2. Most Commonly Used Active Ingredients in Dermatology
- 1.3. Diagnosis and Pharmaceutical Records
- 1.4. Hygiene in the Dermo-Esthetics Consultation
- 1.5. Antiseptics
  - 1.5.1. Hand Hygiene
  - 1.5.2. Utensil Hygiene
  - 1.5.3. Sanitary Waste Management
- 1.6. Organizing Dermo-Esthetic Consultations
  - 1.6.1. Diary
  - 1.6.2. Technical Resources
  - 1.6.3. Personal Resources
  - 1.6.4. Material and Equipment
  - 1.6.5. Supplies
  - 1.6.6. Management Dermo-Esthetic Consultations
  - 1.6.7. Criminal and Civil Liability of Nutritional Personnel
  - 1.6.8. Liability Insurance
  - 1.6.9. Regulations for Opening Health Care Center
- 1.7. Most Commonly Used Excipients in Dermatology
- 1.8. Urgency in the Dermo-Esthetic Pharmacy Practice
- 1.9. Complications in Dermo-Esthetic Pharmacy

“

*You will explore what's new in Dermo-Aesthetic Pharmacy with in-depth videos, video summaries, real case studies and further reading"*

04

# Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

*Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"*

## At TECH we use the Case Method

What should a professional do in a given situation? Throughout the program, students will be confronted with multiple simulated clinical cases based on real patients, in which they will have to investigate, establish hypotheses and ultimately, resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method. Pharmacists learn better, more quickly and more sustainably over time.

*With TECH you will experience a way of learning that is shaking the foundations of traditional universities around the world.*

According to Dr. Gérvas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching power or because of its uniqueness or rarity. It is essential that the case is based on current professional life, attempting to recreate the actual conditions in a pharmacist's professional practice.

“

*Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”*

The effectiveness of the method is justified by four fundamental achievements:

1. Pharmacists who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
2. Learning is solidly translated into practical skills that allow the student to better integrate into the real world.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

## Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

Our University is the first in the world to combine the study of clinical cases with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which represent a real revolution with respect to simply studying and analyzing cases.

*Pharmacists will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.*

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology, more than 115,000 pharmacists have been trained with unprecedented success in all clinical specialties, regardless of the surgical load. This pedagogical methodology is developed in a highly demanding environment, with a university student body with a high socioeconomic profile and an average age of 43.5 years.

*Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.*

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by TECH's learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

### Study Material

All teaching material is created specifically for the course by specialist pharmacists who will be teaching the course, so that the didactic development is highly specific and accurate.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

### Video Techniques and Procedures

TECH introduces students to the latest techniques, to the latest educational advances, to the forefront of current pharmaceutical care procedures. All of this, first hand, and explained and detailed with precision to contribute to assimilation and a better understanding. And best of all, you can watch them as many times as you want.

### Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This unique multimedia content presentation training system was awarded by Microsoft as a "European Success Story".

### Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

**Expert-Led Case Studies and Case Analysis**

Effective learning ought to be contextual. Therefore, we will present you with real case developments in which the expert will guide you through focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

**Testing & Retesting**

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

**Classes**

There is scientific evidence on the usefulness of learning by observing experts. The system known as Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

**Quick Action Guides**

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

# 05 Certificate

The Postgraduate Certificate in Dermo-aesthetic Pharmacy guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Global University.

“

*Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”*

This private qualification will allow you to obtain a **Postgraduate Certificate in Dermo-Esthetic Pharmacy** endorsed by **TECH Global University**, the world's largest online university.

**TECH Global University** is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University** private qualification is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.

Title: **Postgraduate Certificate in Dermo-Esthetic Pharmacy**

Modality: **online**

Duration: **6 weeks**

Accreditation: **6 ECTS**

\*Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
