Introduction

The community pharmacy plays a fundamental role in the nutritional management of patients with overweight, obesity and their comorbidities. For this reason, the professional in this area must know in detail the latest scientific advances related to this pathology and its specific treatment through specialized and personalized diets for each case. All the information you need to know to stay up to date can be found in this comprehensive program, which covers the essential and latest aspects of nutrition, health and disease prevention. All this through a convenient online format, a comprehensive and dynamic syllabus and the guarantee of having the support of a teaching team specialized in the area.

“

You will learn about the most innovative aspects of nutrition applied to the pharmaceutical field through a degree designed by experts and aimed at improving your professional skills”

Although issues related to overweight and obesity are usually more related to other areas, the fact is that the community pharmacy and its specialists play a vital role in the nutritional treatment of this pathology. Today, millions of pharmacists versed in this area dedicate their daily work to the development of diets and dietary strategies that help not only to treat these types of pathologies, but also to prevent their onset or possible complications.

For this reason, TECH has adapted this Postgraduate Diploma in Nutrition in Overweight, Obesity and their Comorbidities in Diet Therapy, so that these professionals have access to a degree that allows them to be updated on the latest scientific evidence and can update their practice according to the most effective and innovative nutritional recommendations. This is a program that begins by delving into nutrition, health and disease prevention through food, and continues by going deeper into the assessment of nutritional status and the calculation of adapted plans, their recommendations and the specifications for their correct follow-up. Finally, it places special emphasis on the characteristics of overweight, obesity, its comorbidities and its treatment through a diet adapted to each patient.

A way to catch up in a dynamic and 100% online way with which the pharmacist will not only see his knowledge updated and expanded in a very short time, but will also see his improvement in the improvement of his professional skills and competences. All this through a syllabus designed exclusively by experts in the sector, who, in addition, have selected hours of high quality additional material to deepen those aspects of each module that are most relevant to your career.

This **Postgraduate Diploma in Nutrition in the Overweight and Obese Population and their Comorbidities in Diet Therapy** contains the most complete and up-to-date scientific program on the market. The most important features include:

- ♦ The development of practical cases presented by experts in Nutrition and Endocrinology
- ♦ The graphic, schematic, and practical contents with which they are created, provide scientific and practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where the self-assessment process can be carried out to improve learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection work
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

You will delve into calorimetry and the impact on the personalized treatment of patients with obesity or overweight and the recommendations for each case”

“

You will be able to put your skills into practice through the study of common and complex real clinical cases, perfecting your strategies and improving your approach to your patients”

You will be able to get up to date in everything related to pharmacological treatments in obesity and drug-nutrient interactions and adaptation to the nutritional plan.

You will have access to a catalog of nutritional recommendations according to age or condition, for example, for pregnant women, menopausal women, children or athletes.

The program's teaching staff includes professionals from the sector who contribute their work experience to this educational program, as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise during the academic year. This will be done with the help of an innovative system of interactive videos made by renowned experts.

02 Objectives

According to the World Health Organization, the increase in the number of overweight and obese people has been dizzying. For this reason, the more professionals involved in its treatment and prevention, the easier it will be to alleviate this health problem. That is why the objective of this Postgraduate Diploma is to provide pharmacists with the best syllabus and the most effective academic tools so that they can, in just 6 months, get up to date in everything related to nutrition adapted to this type of cases.

“

In only 6 months of online degree you will have achieved the academic objectives that face-to-face classes are not able to provide”

General Objectives

- ♦ Broaden knowledge and incorporate advanced and innovative knowledge in food and nutrition in the daily clinical practice of the Pharmacist
- ♦ Revise the fundamental aspects of healthy eating, with a current approach aimed at risk prevention
- ♦ Delve into the correct management of daily nutrition
- ♦ Examine the most common syndromes and symptoms related to nutritional problems

Take advantage of the opportunity and take the step to get up to date on the latest developments in Nutrition in the Overweight and Obese Population and their Comorbidities in Diet Therapy”

Specific Objectives

Module 1. Nutrition, Health and Disease Prevention: Current Issues and Recommendations for the General Population

- ◆ Analyze patient's eating habits, as well as their problems and motivation
- ◆ Update nutritional recommendations based on scientific evidence for their application in clinical practice
- ◆ Prepare for the design of nutritional education strategies and patient care

Module 2. Assessment of Nutritional Status and Calculation of Personalized Nutritional Plans, Recommendations and Monitoring

- ◆ Adequate La assessment of the clinical case: interpretation of causes and risks
- ◆ Personalized calculation of nutritional plans taking into account all individual variables
- ◆ Planning nutritional plans and models for a complete and practical recommendation

Module 3. Nutrition in Overweight, Obesity and their Comorbidities

- ◆ Adequate assessment of the clinical case, interpretation of causes of overweight and obesity, comorbidities and risks
- ◆ Calculate and individually prescribe the different models of hypocaloric diets
- ◆ Plan consultations and multidisciplinary team in obesity

03

Course Management

The teaching team of this Postgraduate Diploma in Nutrition in Overweight, Obesity and its Comorbidities in Diet Therapy is composed of a group of professionals from the areas of Nutrition and Endocrinology. It is a group of active professionals with a long and extensive experience in the management of common and complex clinical cases and who have achieved very demanding objectives with patients with serious pathologies. In addition, having a faculty like this one will provide the syllabus with a critical, realistic and innovative character that will facilitate the updating of the graduate.

“

Learn from reference professionals, the latest advances in Nutrition in Overweight, Obesity and its Comorbidities in Diet Therapy”

Management

Dr. Vázquez Martínez, Clotilde

- ♦ Corporate Head of the Endocrinology and Nutrition Departments, Jiménez Díaz La Foundation
- ♦ Head of the Endocrinology and Nutrition Department at Ramón y Cajal Hospital (Madrid) and Severo Ochoa Hospital, Leganés
- ♦ President of La SENDIMAD (Society of Endocrinology, Nutrition, and Diabetes of the Community of Madrid)
- ♦ Coordinator Therapeutic Education Group Group of the Spanish Society of Diabetes
- ♦ Doctorate from the Faculty of Medicine at the Autonomous University of Madrid
- ♦ Degree in Medicine and Surgery from the Faculty of Medicine of the University of Valencia
- ♦ Specialist in Endocrinology and Nutrition via Medical Residency at the Jimenez Díaz Foundation
- ♦ Abraham García Almansa Clinical Nutrition Lifetime Achievement Award
- ♦ Recognized among the 100 best Doctors in Spain according to Forbes list
- ♦ Castilla La Mancha Diabetes Foundation (FUCAMDI) Diabetes and Nutrition Lifetime Achievement Award

Dr. Montoya Álvarez, Teresa

- ♦ Head of the Endocrinology and Nutrition Service of the Infanta Elena University Hospital
- ♦ Head of Volunteering at the Garrigou Foundation
- ♦ Degree in Medicine and Surgery from the University of Navarra
- ♦ Master in Obesity and its Comorbidities: Prevention, Diagnosis and Integral Treatment at the University Rey Juan Carlos
- ♦ Course in Bariatric Antecedents of Surgery Patient Emergencies: Key References for the Attending Physician
- ♦ Member of: Institute for Health Research Foundation Jiménez Díaz, Health Commission of FEAPS Madrid, Trisomy 21 Research Society

Dr. Sánchez Jiménez, Álvaro

- ◆ Specialist in Nutrition and Endocrinology at Jiménez Díaz Foundation University Hospital
- ◆ Nutritionist at Medicadiet
- ◆ Clinical Nutritionist specialized in prevention and treatment of obesity, diabetes and their comorbidities
- ◆ Nutritionist in the Predimed Plus Study
- ◆ Nutritionist at Eroski
- ◆ Nutritionist at Axis Clinic
- ◆ Professor, Master's Degree in Obesity and comorbidities, Rey Juan Carlos University
- ◆ Professor at the Course of Excellence in Obesity at the university Fundación Jimenez Díaz Hospital, Novo Nordisk
- ◆ Graduate in Human Nutrition and Dietetics from the Complutense University of Madrid
- ◆ Nutrition in the elderly, Complutense University of Madrid
- ◆ Nutrition and Sport for Professionals, Tripartite Foundation
- ◆ Refresher course on practical type 1 and 2 diabetes for healthcare professionals

Professors

Dr. Fernández Menéndez, Amanda

- ♦ Doctor Specialist in Pediatric Endocrinology and Nutrition at the Foundation Jimenez Diaz Hospital
- ♦ Specialist in Pediatrics, Centro de Salud Doctor Castroviejo(SERMAS)
- ♦ Attending physician specializing in Pediatric Endocrinology and Nutrition at La Paz University Hospital
- ♦ International Cooperation in Health and Development in India (development of health projects in the field)
- ♦ Degree in Medicine and Surgery from the Autonomous University of Madrid
- ♦ Master's Degree in Obesity and its Comorbidities: Prevention, Diagnosis and Integral Treatment at the University Rey Juan Carlos
- ♦ Expert in Clinical Bioethics from the Complutense University

Dr. Núñez Sanz, Ana

- ♦ Dietician and nutritionist, expert in pregnancy, breastfeeding and infancy
- ♦ López-Nava Obesity Nutritionist
- ♦ Nutritionist at Medicadiet
- ♦ Dietitian and nutritionist *freelancer*
- ♦ Dietitian and nutritionist at Menudiet, S.L
- ♦ Contributor on food and nutrition in Castilla La Mancha Television
- ♦ Promoter of talks and workshops on healthy eating for kindergartens, schools and companies
- ♦ Graduate in Human Nutrition and Dietetics at the Complutense University of Madrid
- ♦ Master's Degree in Nutrition and Health at the Open Official of Catalonia

Dr. Gutiérrez Pernia, Belén

- ♦ Nutritionist in Obesity at Medicadiet
- ♦ López-Nava Obesity Nutritionist. Madrid
- ♦ Dietitian and Nutritionist in Research Projects of PREDIMED plus
- ♦ Grade in Human Nutrition and Dietetics from the Autonomous University of Madrid
- ♦ Master in Clinical Nutrition and Endocrinology at the Institute of Nutrition and Health Sciences

Ms. López Escudero, Leticia

- ♦ Nutritionist at Diet La Clinic
- ♦ Clinical Dietician and Nutritionist at La Hospital university Fundación Jiménez Díaz
- ♦ Dietician and Clinical Nutritionist at the University Hospital Infanta Elena
- ♦ Lecturer in graduate studies Degree in Human Nutrition and Dietetics
- ♦ Graduate in Human Nutrition and Dietetics at the Complutense University of Madrid
- ♦ Master in Obesity and its Comorbidities: Prevention, Diagnosis and Integral Treatment at the University Rey Juan Carlos
- ♦ Master's Degree in Nutrition in Physical Activity and Sport, Open University of Catalunya (UOC)

Dr. Alcarria Águila, María del Mar

- ♦ Nutritionist Clinical Symptoms at Medicadiet
- ♦ López-Nava Obesity Nutritionist
- ♦ Dietitian and Nutritionist at Predimed-Plus
- ♦ Grade in Human Nutrition and Dietetics from the Complutense University of Madrid
- ♦ Master in Rehabilitation Nutrition and Endocrinology at the Institute of Nutrition and Health Sciences.(ICNS)

Dr. Miguélez González, María

- ◆ Attending Physician of Endocrinology and Nutrition at the Jiménez Díaz Foundation. of Madrid
- ◆ Degree in Medicine from the University of Valladolid
- ◆ Collaborating lecturer in the subject of Ophthalmology at the Complutense University of Madrid
- ◆ Professor of the Master Expert in Obesity and Metabolic Complications, endorsed by SEEDO

Ms. Labeira Candel, Paula

- ◆ Clinical nutritionist in the Bariatric Endoscopy Unit at HM Hospitales
- ◆ Sports and clinical nutritionist at Quirón Salud- Instituto de Sobrepeso y Obesidad
- ◆ Nutritionist Sports and Clinical at Medicadiet, Slimming & Nutrition
- ◆ Sports nutritionist at C.F. Trivalderas de Alcorcón
- ◆ Food and water quality analyst in the Andalusian Health Service
- ◆ Diploma in Human Nutrition and Dietetics at the Pablo Olavide University of Seville
- ◆ Bachelor 's Degree in Food Science and Technology
- ◆ Diploma in Human Nutrition and Dietetics
- ◆ Master's Degree in Sports Training and Nutrition at the European University of Madrid

Mr. Martínez Martínez, Alberto

- ◆ Nutritional Advisor at Santiveri
- ◆ Dietitian responsible for the menu of children with food allergy. Gastronomic
- ◆ Dietician- Clinical Nutritionist at the University Hospital Antonio
- ◆ Degree in Human Nutrition and Dietetics. Fluminense Federal University
- ◆ Graduate in Human Nutrition and Dietetics at the University of Valencia
- ◆ Master's Degree in Agri-environmental and Agri-food Sciences. Autonomous University of Madrid

Dr. Sanz Martínez, Enrique

- ◆ Clinical Nutritionist at the University Hospital General de Villalba and Rey Juan Carlos University Hospital
- ◆ Dietitian in the project PLUS researcher in the Health Research Institute of the Jiménez Diaz Foundation
- ◆ Researcher and collaborator in the NUTRICOVID study
- ◆ Researcher and collaborator in the cross-sectional prospective OBESTIGMA study
- ◆ Graduate in Human Nutrition and Dietetics at the Complutense University of Madrid
- ◆ Master's Degree in Clinical Nutrition at the Catholic University of San Antonio in Murcia
- ◆ Master in Obesity and its Comorbidities: Prevention, Diagnosis and Integral Treatment at the University Rey Juan Carlos

“

Take the opportunity to learn about the latest advances in this field in order to apply it to your daily practice”

04

Structure and Content

TECH's success lies in the development of specialized degrees in each field and in the use of the most avant-garde teaching methodology in the university academic sector. In addition, they prepare their syllabi following the guidelines of the teaching team, so that the content always meets the standards of quality, timeliness and completeness. In addition, the faculty is also responsible for developing and selecting additional material in different formats, so that the graduates have a dynamic alternative with which to contextualize the information and delve into the aspects they deem necessary in a personalized manner.

“

You will delve into the importance of nutrition education, as well as the latest developments related to strategies for maintaining eating habits”

Module 1. Nutrition, Health and Disease Prevention: Current Issues and Recommendations for the General Population

- 1.1. Feeding Habits in the Current Population and Health Risks
- 1.2. Mediterranean and Sustainable Diet
 - 1.2.1. Recommended Dietary Pattern
- 1.3. Comparison of Dietary Patterns or "Diets"
- 1.4. Nutrition in Vegetarians
- 1.5. Childhood and Adolescence
 - 1.5.1. Nutrition, Growth and Development
- 1.6. Adults
 - 1.6.1. Nutrition for the Improvement of Quality of Life
 - 1.6.2. Prevention
 - 1.6.3. Treatment of disease
- 1.7. Pregnancy and Lactation Recommendations
- 1.8. Recommendations in Menopause
- 1.9. Advanced Age
 - 1.9.1. Nutrition in Aging
 - 1.9.2. Changes in Body Composition
 - 1.9.3. Abnormalities
 - 1.9.4. Malnutrition
- 1.10. Nutrition in Athletes

Module 2. Assessment of Nutritional Status and Calculation of Personalized Nutritional Plans, Recommendations and Monitoring

- 2.1. Medical History and Background
 - 2.1.1. Individual Variables Affecting Nutritional Plan Response
- 2.2. Anthropometry and Body Composition
- 2.3. Assessment of Eating Habits
 - 2.3.1. Nutritional Assessment of Food Consumption
- 2.4. Interdisciplinary Team and Therapeutic Circuits
- 2.5. Calculation of Energy Intake
- 2.6. Calculation of Recommended Macro- and Micronutrient Intakes
- 2.7. Quantity and Frequency of Food Consumption Recommendations
 - 2.7.1. Dietary Patterns
 - 2.7.2. Planning
 - 2.7.3. Distribution of Daily Feedings
- 2.8. Diet Planning Models
 - 2.8.1. Weekly Menus
 - 2.8.2. Daily Intake
 - 2.8.3. Methodology by Food Exchanges
- 2.9. Hospital Nutrition
 - 2.9.1. Dietary Models
 - 2.9.2. Decision Algorithms
- 2.10. Educational
 - 2.10.1. Psychological Aspects
 - 2.10.2. Maintenance of Feeding Habits
 - 2.10.3. Discharge Recommendations

Module 3. Nutrition in Overweight, Obesity and their Comorbidities

- 3.1. Pathophysiology of Obesity
 - 3.1.1. Precision Diagnosis
 - 3.1.2. Analysis of Underlying Causes
- 3.2. Phenotypic Diagnosis
 - 3.2.1. Body Composition and Calorimetry and Impact on Personalized Treatment
- 3.3. Treatment Target and Hypocaloric Diet Models
- 3.4. Prescription of Physical Exercise in Overweight and Obesity
- 3.5. Psychology Associated with Slimming Nutrition: Psychonutrition
- 3.6. Comorbidities Associated with Obesity
 - 3.6.1. Nutritional Management in Metabolic Syndrome
 - 3.6.2. Insulin Resistance
 - 3.6.3. Type 2 Diabetes and Diabetes
- 3.7. Cardiovascular Risk and Nutritional Adaptations in Hypertension, Dyslipidemias and Atherosclerosis
- 3.8. Digestive Pathologies Associated with Obesity and Dysbiosis
- 3.9. Pharmacological Treatment in Obesity and Drug-Nutrient Interactions and Adaptation of the Nutritional Plan
- 3.10. Bariatric and Endoscopic Surgery
 - 3.10.1. Nutritional Adaptations

“

You are only 450 hours away from becoming a Postgraduate Diploma in Nutrition in Overweight, Obesity and its Comorbidities in Diet Therapy. Shall we start it?”

05

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH we use the Case Method

What should a professional do in a given situation? Throughout the program, students will be confronted with multiple simulated clinical cases based on real patients, in which they will have to investigate, establish hypotheses and ultimately, resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method. Pharmacists learn better, more quickly and more sustainably over time.

With TECH you will experience a way of learning that is shaking the foundations of traditional universities around the world.

According to Dr. Gervas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching power or because of its uniqueness or rarity. It is essential that the case is based on current professional life, attempting to recreate the actual conditions in a pharmacist's professional practice.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”

The effectiveness of the method is justified by four fundamental achievements:

1. Pharmacists who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
2. Learning is solidly translated into practical skills that allow the student to better integrate into the real world.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

Our University is the first in the world to combine the study of clinical cases with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which represent a real revolution with respect to simply studying and analyzing cases.

Pharmacists will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology, more than 115,000 pharmacists have been trained with unprecedented success in all clinical specialties, regardless of the surgical load. This pedagogical methodology is developed in a highly demanding environment, with a university student body with a high socioeconomic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by TECH's learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is created specifically for the course by specialist pharmacists who will be teaching the course, so that the didactic development is highly specific and accurate.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Video Techniques and Procedures

TECH introduces students to the latest techniques, to the latest educational advances, to the forefront of current pharmaceutical care procedures. All of this, first hand, and explained and detailed with precision to contribute to assimilation and a better understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

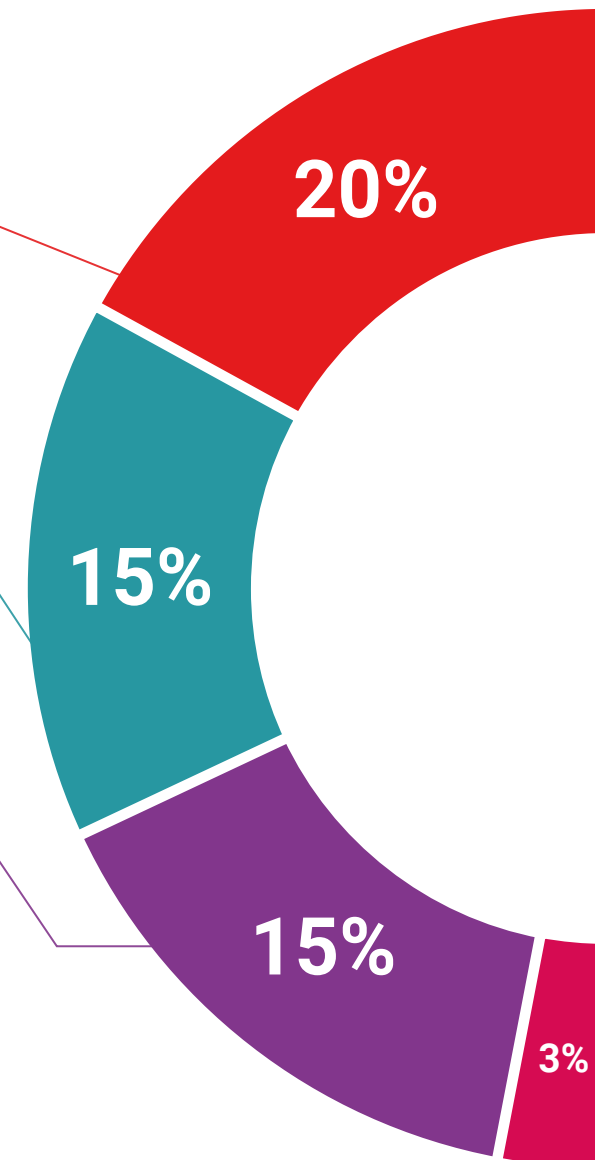

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

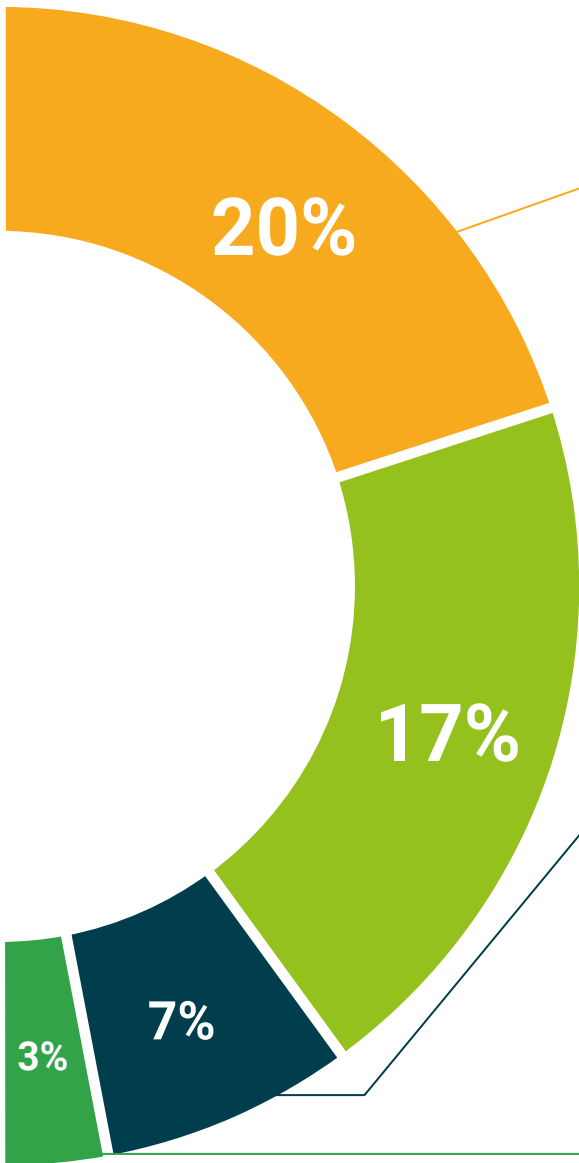

This unique multimedia content presentation training system was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, we will present you with real case developments in which the expert will guide you through focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

Classes

There is scientific evidence on the usefulness of learning by observing experts. The system known as Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

06

Certificate

The Postgraduate Diploma in Nutrition in the Overweight and Obese Population and their Comorbidities in Diet Therapy guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Diploma issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

This **Postgraduate Diploma in Nutrition in the Overweight and Obese Population and their Comorbidities in Diet Therapy** contains the most complete and up-to-date scientific program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Diploma** issued by **TECH Technological University** via tracked delivery*.

The certificate issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Diploma, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Diploma in Nutrition in Overweight, Obesity and their Comorbidities in Diet Therapy**

Official N° of Hours: **450 h.**

*Apostille Convention. In the event that the student wishes to have their paper certificate issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
