Introduction

All sports entities and organizations are subject to a permanent change in their environment, objectives, mission and vision. As a result, they are forced to reflect on the path they should take in the future. In order to carry out all these actions, it is necessary to have a qualified manager who meets a profile of excellence to perform quality management. With this in mind, this program focused on the development of physiotherapists who wish to aspire to a management position has been developed. In this way, they will learn about all aspects related to the purchase and sale of sports entities or business development.

“

Learn the structure and sports planning to increase your capacity as a manager of a sports entity”

The world of sports offers multiple business opportunities and challenges for the managers of these organizations. For this reason, strategic planning must be perfectly understood to ensure high-level management, knowing every little aspect of it, i.e. strengths and weaknesses, keeping clear and defined objectives to set the proper strategies to achieve them.

For this reason, this program focused on introducing students to Sports Law has been developed. In this way, the professional who wishes to be in charge of a sports institution will have a perfect understanding of the different organizations that work in harmony on a daily basis to ensure the internationalization of these entities.

Furthermore, it is a 100% online Postgraduate Certificate that provides students with comfortable study and ease, wherever and whenever they want it. All you need is a device with internet access to take your career one step further. A modality according to the current times with all the guarantees to position the physiotherapist in a highly demanded sector.

This **Postgraduate Certificate in Strategic Planning in Sports Organizations** contains the most complete and up-to-date scientific program on the market. The most important features of the program include:

- ♦ The development of numerous practical cases presented by specialists in Strategic Planning of Sports Organizations

In this way, students have the guarantees they need to specialize at an international level in a booming sector that will catapult them to professional success.

“

*Learn about strategic planning of a sports center
from the best professionals”*

International Guest Director

Brad Burlingame is an outstanding professional with an established career in the sports industry, where he has made a significant mark internationally. With more than 15 years of experience in corporate partnership management, he has proven to be an exceptional leader in generating revenue through innovative strategies and the creation of strategic alliances.

As such, he has served as Director of Partnership Sales at the Dallas Cowboys Football Club, one of the most prestigious sports organizations in the world. Here, during his career, he has led teams dedicated to exceeding financial goals, establishing the club as the undisputed leader in sponsorship revenue in the National Football League (NFL). In fact, his ability to take full advantage of intellectual property rights, the team's extensive television and radio network, as well as digital and social platforms, has been instrumental in maintaining the club's leading position in the marketplace.

He has also been Manager of Corporate Alliances at the Miami Heat basketball team, as well as Sales Manager at Palace Sports & Entertainment, accumulating extensive experience in the professional sports industry. In this sense, his ability to develop innovative ideas that drive sponsors' business, as well as his focus on leading results-oriented teams, have positioned him as a key figure in the global sports sales arena.

- 1.9. Holding Companies and Investment Funds
- 1.10. Practical Business Models

“

It is your moment to stand out in a labor field that every day demands excellence from its professionals"

05

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH we use the Case Method

What should a professional do in a given situation? Throughout the program, students will face multiple simulated clinical cases, based on real patients, in which they will have to do research, establish hypotheses, and ultimately resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method. Physiotherapists/kinesiologists learn better, faster, and more sustainably over time.

With TECH you will experience a way of learning that is shaking the foundations of traditional universities around the world.

According to Dr. Gérvas, the clinical case is the annotated presentation of a patient, or group of patients, which becomes a "case", an example or model that illustrates some peculiar clinical component, either because of its teaching power or because of its uniqueness or rarity. It is essential that the case is based on current professional life, trying to recreate the real conditions of professional physiotherapy practice.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”

The effectiveness of the method is justified by four fundamental achievements:

1. Physiotherapists/kinesiologists who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
2. The learning process has a clear focus on practical skills that allow the physiotherapist/kinesiologist to better integrate into the real world.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH we enhance the case method with the best 100% online teaching methodology available: Relearning.

This university is the first in the world to combine the study of clinical cases with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, a real revolution with respect to the mere study and analysis of cases.

The physiotherapist/kinesiologist will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we trained more than 65,000 physiotherapists/kinesiologists with unprecedented success in all clinical specialties, regardless of the workload. Our pedagogical methodology is developed in a highly competitive environment, with a university student body with a strong socioeconomic profile and an average age of 43.5 years old.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is really specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Physiotherapy Techniques and Procedures on Video

TECH brings students closer to the latest techniques, the latest educational advances and to the forefront of current Physiotherapy techniques and procedures. All of this in direct contact with students and explained in detail so as to aid their assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This unique multimedia content presentation training system was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

Classes

There is scientific evidence on the usefulness of learning by observing experts. The system known as Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

06

Certificate

The Postgraduate Certificate in Strategic Planning in Sports Organizations guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

This **Postgraduate Certificate in Strategic Planning in Sports Organizations** contains the most complete and up-to-date scientific program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The diploma issued by TECH Technological University will reflect the qualification obtained in the Postgraduate Diploma, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.
