01 Welcome

Finance moves in complex and constantly changing environments, due to financial crises or market variation, for example. Therefore, it is important to have trained professionals, since financial management is one of the most important areas of any company. This program in Finance has been created to train you in the financial management of a company. Quality, up-to-date content and the latest developments are the bases that will allow you to achieve success. The content of this program can be divided into three main blocks: financial management, banking and financial markets, and research in economic sciences. Each of these blocks provides the student with the necessary skills for the development of their profession, since they are three totally linked and complementary areas that allow a global and more complete specialization, which will also favor your personal and professional growth.

Advanced Master's Degree in Finance TECH Technological University

“

The world of finance is quite complex, so professionals with high qualifications and the ability to move in a constantly changing environment are required”

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class centre for intensive managerial skills training.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that combines the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"Microsoft Europe Success Story", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

100,000+
executives trained each year

200+
different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

500+ | collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (a postgraduate learning methodology with the highest international rating) with the Case Study. A complex balance between tradition and state-of-the-art, within the context of the most demanding academic itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a groundbreaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case studies in the academic community"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you training of the highest academic level"

This program will provide students with a multitude of professional and personal advantages, particularly the following:

01

A significant career boost

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of participants achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of companies

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional areas.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

Take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different areas in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

Be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified professors from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to train with a team of world renowned teachers.

04 Objectives

This program is designed to strengthen management and leadership skills, as well as to develop new competencies and skills that will be essential in the student's professional development. After the program, you will be equipped to make global decisions with an innovative perspective and an international vision.

“

One of our fundamental objectives is to help you develop the essential skills to strategically manage a business”

Your goals are our goals.

We work together to help you achieve them.

- 9.8.5. Characteristics of an Options Portfolio

9.9. OTC Derivative Products

- 9.9.1. FRA Markets
- 9.9.2. Swap
- 9.9.3. Cap, Floor and Collar

9.10. Foreign Exchange Market

- 9.10.1. Operation and Regulatory Agencies
- 9.10.2. Spot Foreign Exchange Transactions
- 9.10.3. Parity Conditions
- 9.10.4. Exchange to Local Currency

9.11. Investment Funds

- 9.11.1. Fixed Income Funds
- 9.11.2. Mixed Fixed Income Funds
- 9.11.3. Equity Funds
- 9.11.4. Equity Funds

9.12. Liberalization of Financial Markets

- 9.12.1. Eurodollars and Eurobonds
- 9.12.2. New International Titles
- 9.12.3. Globalization

Module 10. Financial Analysis and Planning

10.1. Accounting and Bank Consolidation

- 10.1.1. Analysis of the Economic Situation
- 10.1.2. Industry and Company Analysis
- 10.1.3. Types of Graphs
- 10.1.4. Main Theories

10.2. Fundamental and Technical Analysis

- 10.2.1. Analysis of the Balance Sheet
- 10.2.2. Analysis of the Income Statement
- 10.2.3. Management Ratios
- 10.2.4. Selection Criteria for Investing in a Credit Institution

10.3. Analysis of Financial Statements

- 10.3.1. Equity Analysis
- 10.3.2. Degree of Liquidity of Assets
- 10.3.3. Efficiency and Profitability of Investments

10.4. Financial Prediction

- 10.4.1. Economic Forecasting Models
- 10.4.2. Univariate Models
- 10.4.3. Multivariate Models
- 10.4.4. Techniques for Estimating Financial Variables

10.5. Balance Sheet and Risk Analysis

- 10.5.1. Risks of Credit Institutions
- 10.5.2. Information Required for Risk Analysis
- 10.5.3. Analysis of the Situation and Possible Evolution of the Companies
- 10.5.4. Short and Long-Term Financing

10.6. Solvency Management

- 10.6.1. Shareholders Equity in the Banking Company and Solvency Ratio
- 10.6.2. Capital Optimization and Pillar II
- 10.6.3. Basel III
- 10.6.4. Internal Control and Pillar III

10.7. Profitability Analysis Models

- 10.7.1. Risk Adjusted Return Analysis
- 10.7.2. Asset and Liability Pricing Models
- 10.7.3. Strategic Map: Definition and Elaboration
- 10.7.4. Scorecards

10.8. Valuation of Credit Institutions

- 10.8.1. Basic Principles in the Valuation of a Financial Institution
- 10.8.2. Modeling of a Credit Institution
- 10.8.3. Methodologies for the Valuation of Financial Institutions

Module 11. Financial Products and Banking Asset Products**11.1. Public Fixed Income Assets**

- 11.1.1. Treasury Bills
- 11.1.2. Government Bonds and Debentures
- 11.1.3. Debt of the Autonomous Community and Other Public Entities

11.2. Equity Assets

- 11.2.1. The Regulation of Equity Markets
- 11.2.2. Contracting in Equity Markets
- 11.2.3. Companies in the Stock Market
- 11.2.4. Stock Market Information

11.3. Derivative Financial Products

- 11.3.1. Short-Term Derivative Products
- 11.3.2. Options
- 11.3.3. Swaps
- 11.3.4. Credit Derivatives

11.4. Structured Financial Products

- 11.4.1. Structured Interest Rate Swaps
- 11.4.2. Structured Exchange Rate
- 11.4.3. Structured Equity Securities
- 11.4.4. "Commodities" Structures

11.5. Bank Loans to Individuals

- 11.5.1. Analysis of Effective Rates
- 11.5.2. Financial Characteristics
- 11.5.3. Legal Characteristics

11.6. Corporate Banking Asset Products

- 11.6.1. Bank Discount
- 11.6.2. Credit Policies
- 11.6.3. Credit Advances

11.7. Mortgage Loans

- 11.7.1. Appraisals
- 11.7.2. Mortgage Subrogation
- 11.7.3. Mortgage Novations

11.8. Working Capital Financing Products

- 11.8.1. Factoring
- 11.8.2. Confirming

11.9. Insurance Products

- 11.9.1. Models and Characteristics
- 11.9.2. Regulation and Tax Treatment of Pension Funds and Plans
- 11.9.3. Marketing of Insurance Products from Credit Institutions

11.10. Liability Products

- 11.10.1. Remuneration and Profitability
- 11.10.2. APR
- 11.10.3. Legal and Tax Aspects
- 11.10.4. Target Audience

Module 12. Collective Investment**12.1. Investment Funds**

- 12.1.1. Manager and Depositary
- 12.1.2. Investment Funds
- 12.1.3. Supervision
- 12.1.4. Characteristics of the Funds

12.2. Equity Management

- 12.2.1. Analysis of Investment Funds
- 12.2.2. Equity Management Tools
- 12.2.3. Analysis of a Portfolio of Financial Assets
- 12.2.4. Reinstatement of Truncated Financial Investments

12.3. Asset Allocation

- 12.3.1. Portfolio Advisory Process
- 12.3.2. Strategic and Tactical Asset Allocation
- 12.3.3. Institutional Manager
- 12.3.4. Strategic Portfolio and Tactical Portfolio

12.4. Portfolio Building

- 12.4.1. Market Risk
- 12.4.2. International Investment
- 12.4.3. Asset Classes, Utility Curves and CAMP
- 12.4.4. Portfolio Formation Strategies

12.5. Equity Management Strategies

- 12.5.1. Markowitz Portfolio Selection Theory
- 12.5.2. Systematic and Specific Risks
- 12.5.3. Financial Crisis Management
- 12.5.4. Portfolio Management in Emerging Markets

12.6. Fixed Income Management Strategies

- 12.6.1. Fixed Income Portfolio Management
- 12.6.2. Hedging in Fixed Income Portfolios
- 12.6.3. Securitizations

12.7. Insurance

- 12.7.1. Fundamentals of the Insurance Activity
- 12.7.2. Unit Linked, Coinsurance and Reinsurance
- 12.7.3. Insurance Sector Institutions
- 12.7.4. Insurance Companies and Mutual Benefit Societies

12.8. Taxation

- 12.8.1. Taxation of Financial Products
- 12.8.2. Taxation of Social Security Products
- 12.8.3. Spanish Tax Framework

Module 13. Financial Risk and Corporate Finance

13.1. Financial Management and Corporate Finance

- 13.1.1. Business Management and Value Creation
- 13.1.2. Capital Structure and Financial Leverage
- 13.1.3. Weighted Average Cost of Capital
- 13.1.4. Capital Asset Pricing Model and Other Models

13.2. Company Valuation Methods

- 13.2.1. Dividend Discount
- 13.2.2. Flow Discount
- 13.2.3. Comparable Multiples

13.3. Corporate Operations

- 13.3.1. Mergers.
- 13.3.2. Acquisition
- 13.3.3. Mergers and Acquisitions
- 13.3.4. Tax Regime for Restructuring Operations

13.4. Studying Other Types of Companies

- 13.4.1. Unlisted Companies
- 13.4.2. SMES
- 13.4.3. Family Businesses
- 13.4.4. Foundations and Non-Profit Organizations
- 13.4.5. Social Economy Enterprise

13.5. Strategy and Risk Control

- 13.5.1. Management Control Systems
- 13.5.2. Risks and Internal Control
- 13.5.3. Review and Audit of the Control System
- 13.5.4. Financial Risk Management

13.6. Risk, Profitability and Indebtedness

- 13.6.1. Economic Profitability and Financial Profitability
- 13.6.2. Financial Profitability and Indebtedness
- 13.6.3. Risk and Profitability

13.7. Sources of Financing

- 13.7.1. Bank Financing
- 13.7.2. Issuance of Debentures and Securitization of Assets
- 13.7.3. Private Equity and Venture Capital
- 13.7.4. Subsidies and Fiscal Support

13.8. Corporate Transactions and Bankruptcy

- 13.8.1. Declaration of Bankruptcy and its Effects
- 13.8.2. Settlement and Liquidation Phases
- 13.8.3. The International Tender
- 13.8.4. Scoring the Tender
- 13.8.5. Conclusion and Reopening of the Tender

Module 14. Financial Marketing

14.1. Bank Office Market Research

- 14.1.1. Specific Aspects of Financial Services Marketing
- 14.1.2. Determining Factors When Choosing a Bank
- 14.1.3. Development of New Banking Products and Services
- 14.1.4. Tools for Bank Marketing Research

14.2. Sales and Communication Techniques

- 14.2.1. Notions of Psychology Applied to Sales
- 14.2.2. Techniques to Improve Verbal and Non-Verbal Communication
- 14.2.3. Negotiation Tactics
- 14.2.4. Closing and Customer Commitment

14.3. Financial Marketing Plan

- 14.3.1. Pricing of Banking Products
- 14.3.2. Product Promotion and Advertising Campaigns
- 14.3.3. Distribution Systems Used in Financial Services Marketing
- 14.3.4. Segmentation, Targeting and Positioning

14.4. New Strategies for Sales Growth and Cost Savings

- 14.4.1. Electronic Banking.
- 14.4.2. CRM (Customer Relationship Management)
- 14.4.3. Cross-Selling and Up-Selling

14.5. Relationship Marketing

- 14.5.1. Customer Development and Loyalty
- 14.5.2. Marketing Tools for Customer Loyalty and Retention
- 14.5.3. Customer Retention Strategies

14.6. Inbound Marketing in the Banking Sector

- 14.6.1. Effective Inbound Marketing
- 14.6.2. The Benefits of Inbound Marketing
- 14.6.3. Measuring the Success of Inbound Marketing

14.7. Developing E-Mail Campaigns

- 14.7.1. Designing E-Mail Marketing Campaigns
- 14.7.2. E-Mail Marketing
- 14.7.3. Lists of Subscribers, Leads and Customers

14.8. Corporate Branding

- 14.8.1. Brand Evolution
- 14.8.2. Creating and Developing a Successful Brand
- 14.8.3. Brand Equity

Module 15. International Finance
15.1. Business & International Strategy

- 15.1.1. Internationalization
- 15.1.2. Globalization
- 15.1.3. Growth & Development in Emerging Markets
- 15.1.4. International Monetary System

15.2. Foreign Exchange Market

- 15.2.1. Foreign Exchange Transactions
- 15.2.2. Forward Foreign Exchange Market
- 15.2.3. Derivative Instruments for Hedging Exchange Rate and Interest Rate Risks
- 15.2.4. Currency Appreciation and Depreciation

15.3. International Payment and Collection Methods

- 15.3.1. Bills, Personal Check and Bank Check
- 15.3.2. Transfer, Payment Order and Remittance
- 15.3.3. Documentary Clauses and Credits
- 15.3.4. Factoring, International Swap and Other Means

15.4. Financing Operations in International Markets

- 15.4.1. Incoterms
- 15.4.2. Derivative Instruments to Hedge Possible Fluctuations in the Price of Raw Materials
- 15.4.3. Export Credits With Official Support
- 15.4.4. Hedging with Swap Contracts.
- 15.4.5. The OECD Consensus

15.5. International Financial Institutions

- 15.5.1. The Fund for the Internationalization of the Company
- 15.5.2. The World Bank Group
- 15.5.3. The Inter-American Development Bank
- 15.5.4. The Caribbean Development Bank

15.6. Formation of Exchange Rates

- 15.6.1. Interest Rate Parity Theory
- 15.6.2. Theory of Exchange Rate Expectations
- 15.6.3. Purchasing Power Parity (PPP) Theory
- 15.6.4. Capital Market Balance

15.7. Debt Conversion Programs

- 15.7.1. Legal Framework
- 15.7.2. Operation
- 15.7.3. Conversion of Debt into Public Investments
- 15.7.4. Conversion of Debt into Private Investments

15.8. International Stock Market

- 15.8.1. Wall Street Market (New York)
- 15.8.2. Gold Market
- 15.8.3. World External Debt
- 15.8.4. Paris Club
- 15.8.5. ADR and GDR Securities Market

Module 16. Startups Creation and Financing
16.1. Creation of a Startup

- 16.1.1. From the Idea to the Business Model
- 16.1.2. Partners
- 16.1.3. Legal Considerations
- 16.1.4. Organization and Culture
- 16.1.5. Venture Capital and Entrepreneurial Management

16.2. Startup Financial Management and Administration

- 16.2.1. Introduction to Financial Management in Startup Companies
- 16.2.2. Financial Metrics for Startups
- 16.2.3. Financial Planning: Projection Models and their Interpretation
- 16.2.4. Valuation Methods
- 16.2.5. Legal Aspects

16.3. The Business Plan

- 16.3.1. Contents
- 16.3.2. Introduction
- 16.3.3. SWOT
- 16.3.4. The Canvas Model

16.4. Growth Phases in Startup Companies

- 16.4.1. Seed Phase
- 16.4.2. Startup Phase
- 16.4.3. Growth Phase
- 16.4.4. Consolidation Phase

16.5. Financing Startups

- 16.5.1. Bank Financing
- 16.5.2. Subsidies
- 16.5.3. Seed Capital and Accelerators. Business Angels
- 16.5.4. Venture Capital. IPO
- 16.5.5. Public to Private Partnership

16.6. National and International Venture Capital and Seed Capital Entities

- 16.6.1. Public Institutions: CDTI, ENISA
- 16.6.2. National and International Venture Capital Entities
- 16.6.3. Private Investors: Caixa Capital Risc. Bstartup
- 16.6.4. FOND-ICO Global
- 16.6.5. Accelerators: Wayra, Lanzadera and Plug & Play

Module 17. Social Science Research

17.1. Introduction to Investigative Methodology	17.2. Methodologies in Economics and Management	17.3. Data Sources	17.4. Fundamentals of Statistics
17.5. Research in Economics	17.6. Management Research	17.7. Design of a Market Study	17.8. History of Economics and Business
17.9. Philosophical Currents in Business and Economics	17.10. New Trends		

Module 18. Researcher's Tools

18.1. Thesis and Report Writing	18.2. Use of Database Managers	18.3. Scientometrics and Scientific Databases	18.4. Spreadsheet for Economics and Finance
18.5. Bibliographic Sources	18.6. Advanced Internet Searching	18.7. Statistical Packages	18.8. Data Analysis Tools
18.9. Algorithm Fundamentals	18.10. New Trends		

Module 19. Behavioral Economics

19.1. Introduction to Behavioral Economics Research	19.2. Fundamentals of Behavioral Economics	19.3. Psychology of Economics	19.4. Choice in Economics
19.5. Decision-Making Process	19.6. Frames	19.7. Behavioral Finance	19.8. General Applications
19.9. Criticism of Behavioral Economics	19.10. Future Tendencies		

Module 20. Financial Economics

20.1. Introduction to Financial Economics Research	20.2. Economic and Financial Fundamentals	20.3. Accounting Fundamentals	20.4. Corporate Finance
20.5. Economic Financial Control	20.6. Global Risks	20.7. Capital Markets	20.8. Financing
20.9. Audits	20.10. Future Tendencies		

Module 21. International Trade Economics

21.1. Introduction to Research in International Economics	21.2. Fundamentals of International Economics	21.3. History of the International Economy	21.4. International Economic Institutions and Organizations
21.5. Economic Diplomacy	21.6. Country Analysis	21.7. Economic Globalism	21.8. International Taxation
21.9. Economic Blocks and International Relations	21.10. Future Tendencies		

Module 22. Industrial Economics

22.1. Introduction to Research in Industrial Economics	22.2. Fundamentals of Industrial Economy	22.3. Economics, Markets and Efficiency	22.4. Economics and Innovation
22.5. Economics of Services	22.6. Internet Economy	22.7. Sharing economy and Platform Economy	22.8. Industrial Crisis and Creative Destruction
22.9. Public Companies and Market	22.10. Future Tendencies		

Module 23. Entrepreneurial Innovation and Initiative

23.1. Introduction to Entrepreneurship Research 23.1.1. Entrepreneurship 23.1.2. Strengths and Weaknesses of a Business Plan	23.2. Introduction to Innovation Research 23.2.1. Historical Overview of Innovation 23.2.2. Technology Transfer Processes	23.3. Creativity 23.3.1. The Theoretical Framework of Ideation and Creation 23.3.2. Creativity and Innovation 23.3.3. Creative Companies 23.3.4. Creative Tools 23.3.5. Selection of Ideas	23.4. Agile Startups 23.4.1. Lean Startup Model 23.4.2. Development of Products and Services with Agile 23.4.3. DevOps in ICT Startups
23.5. Innovation Management 23.5.1. Analysis of Types of Innovation 23.5.2. Innovation Levers 23.5.3. Scope of Innovation 23.5.4. Comparative Analysis of Innovation Cases 23.5.5. R+D Management	23.6. Entrepreneurial Context: Information Society 23.6.1. Entrepreneurs and their Time 23.6.2. Opportunities and Challenges of Contemporary Entrepreneurship	23.7. Globalization 23.7.1. The Globalization 23.7.2. Lawyer and Detractors 23.7.3. Influence on the Entrepreneurial Project 23.7.4. Economic Analysis of International Environments	23.8. Project Management 23.8.1. The Business Plan. 23.8.2. Conventional Project Management 23.8.3. Agile Project Management
23.9. Intrapreneurship 23.9.1. Intrapreneurship Specificities 23.9.2. Comparative Analysis of Intrapreneurship Cases	23.10. Future Tendencies 23.10.1. New Entrepreneurship Niches 23.10.2. Social Entrepreneurship 23.10.3. Senior Entrepreneurship		

07

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

This program prepares you to face business challenges in uncertain environments and achieve business success.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“

You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

08

Our Students' Profiles

The Advanced Master's Degree in Finance is a program aimed at professionals who specialize in business management, and who want to update their knowledge and progress in their professional career. This program uses a multidisciplinary approach as the students have a diverse set of academic profiles and represent multiple nationalities.

“

If you have experience in Finance and are looking for an interesting career enhancement while continuing to work, this is the program for you”

Average Age

Between **35** and **45** years old

Years of Experience

Training

Academic Profile

Geographical Distribution

Paula Sánchez

"Carrying out a program of this type involves a great deal of effort and dedication. Two years of work have paid off in daily practice. And so, I am very happy to have taken the step forward and decided to go for this TECH Advanced Master's Degree. A unique opportunity without which I wouldn't have been able to advance professionally to become CFO of my company"

09

Course Management

The program includes in its teaching staff leading experts in financial management and direction, who bring to this program the experience of their years of work. In addition, other specialists of recognized prestige in related areas participate in its design and elaboration, completing the Advanced Master's Degree in an interdisciplinary way, making it, therefore, a unique academic experience for the student.

“

A teaching staff ready to teach you everything you need to know to be successful in your daily work”

International Guest Director

Erdi Karaca is a prominent leader in banking and financial product development, specialized in digital strategies, data and Artificial Intelligence. With a focus on creating innovative solutions, he has contributed to the advancement of digital banking and the implementation of emerging technologies in the financial sector. In fact, his interests include the integration of AI to improve customer experience and the optimization of banking processes, as well as the design of strategies for banking products.

Throughout his career, he has held leadership positions in global institutions such as HSBC Kinetic, where he has worked as Head of Mobile Banking and Co-Head of Business Banking, where he has led teams in the development of HSBC Kinetic and mobile services for business banking in the United Kingdom. In addition, his management has focused on the creation of innovative digital products, such as payment solutions, cards, loans and financial management tools. He has also been Head of Banking and Beyond Banking, where he has overseen projects that have transformed SME banking through digital products.

Internationally, Erdi Karaca has been recognized for his ability to lead complex teams and develop strategies that have driven innovation in digital banking. He has led global programs that have promoted smart banking and technology integration in diverse markets. His work has been instrumental in the implementation of AI-driven smart banking solutions and in the management of financial products for business customers globally. He has also contributed to the research of multiple products for the financial sector, publishing articles on the implementation of AI in banking, as well as presenting his work at international conferences.

Mr. Karaca, Erdi

- Head of Mobile Banking at HSBC Kinetic, London, United Kingdom
- Co-Head of Enterprise Banking at HSBC Kinetic
- Head of Banking and Beyond Banking at HSBC Kinetic
- CDO of Global Commercial Banking at HSBC Kinetic Innovation, Strategy and
- Innovation in Commercial Banking at NatWest Group
- Digital Strategy and Product Development Manager at NatWest Group
- Master in Business from Oxford University
- Course in Artificial Intelligence: Implications for Business Strategy from the MIT Sloan School of Management
- Master's Degree in International Politics from the University of Surrey
- Bachelor of Arts in Social Sciences from Oxford Technical College

“

Thanks to TECH, you will be able to learn with the best professionals in the world”

International Guest Director

Loretta Napoleoni, a renowned economist and bestselling author (Maonomics, Rogue Economics and Terror Incorporated), has made her mark in the international arena with her innovative and visionary work. With extensive experience in **advising governments and international organizations**, she has excelled in focusing on critical areas such as **money laundering and counter-terrorism**.

Napoleoni's research delves into complex issues such as **terrorism, economics and foreign policy**, addressing fundamental questions for the global future. His presence in print media is not limited to books, but his writings on money laundering and economics have been published in European financial newspapers such as **El Pais, The Guardian and Le Monde**. Also, as a respected voice in the media, he contributes as a regular commentator on renowned channels such as **CNN, Sky and the BBC**, extending his influence beyond print.

Adding to her prolific career as an **author and analyst**, she shares her knowledge in academic settings, teaching Postgraduate Certificate courses at such prestigious institutions as the **Judge Business School in Cambridge**. Indeed, her ability to merge her practical experience with her deep theoretical understanding has made her a leading figure in understanding the intertwined worlds of **terrorism, economics and geopolitics**.

Napoleoni's contributions transcend academia and writing, as in the 1970s she was active in the **feminist movement** and a prominent personality in the political sphere. In addition, her ability to foresee and analyze economic trends is extraordinary, being one of the few professionals who anticipated the **credit crisis and recession**, advising financial institutions on strategies to mitigate it. Likewise, as **Chair of the Club de Madrid's anti-terrorist financing group**, she managed to unite heads of state from around the world to create a new strategy for the fight against the financing of terrorist networks.

Her academic background, with a **Master's Degree in Philosophy in International Relations** from the London School of Economics, has been enriched by work in **banks and international organizations** in Europe and the United States, including the **National Bank of Hungary, the Moscow Narodny Bank in the United Kingdom, the Food and Agriculture Organization of the United Nations (FAO) and the European Bank for Reconstruction and Development (EBRD)**.

Ms. Napoleoni, Loretta

- Founding Partner of G-Risk
- Chair of the anti-terrorist financing group, Club de Madrid.
- Lecturer at the Judge Business School in Cambridge
- Bestselling author (Maonomics, Rogue Economics and Terror Incorporated).
