- 12.2.1. Main Marketing Strategies
- 12.2.2. Segmentation, Targeting and Positioning
- 12.2.3. Managing Strategic Marketing

12.3. Marketing Strategy Dimensions

- 12.3.1. Necessary Resources and Investments
- 12.3.2. Fundamentals of Competitive Advantage
- 12.3.3. Company's Competitive Behavior
- 12.3.4. Focus Marketing

12.4. New Product Strategy Development

- 12.4.1. Creativity and Innovation in Marketing
- 12.4.2. Generation and Filtering of Ideas
- 12.4.3. Commercial Viability Analysis
- 12.4.4. Development, Market Testing and Commercialization

12.5. Pricing Policies

- 12.5.1. Short and Long Term Aims
- 12.5.2. Types of Pricing
- 12.5.3. Factors that Affect Pricing

12.6. Promotion and Merchandising Strategies

- 12.6.1. Advertising Management
- 12.6.2. Communication and Media Plan
- 12.6.3. Merchandising as a Marketing Technique
- 12.6.4. Visual Merchandising

12.7. Distribution, Expansion and Intermediation Strategies

- 12.7.1. Outsourcing of Sales Force and Customer Service
- 12.7.2. Commercial Logistics in Product and Service Sales Management
- 12.7.3. Sales Cycle Management

12.8. Developing the Marketing Plan

- 12.8.1. Analysis and Diagnosis
- 12.8.2. Strategic Decisions
- 12.8.3. Operational Decisions

Module 13. Operational Marketing

13.1. Marketing Mix

- 13.1.1. The Marketing Value Proposition
- 13.1.2. Marketing Mix Policies, Strategies and Tactics
- 13.1.3. Elements of the Marketing Mix
- 13.1.4. Customer Satisfaction and Marketing Mix

13.2. Product Management

- 13.2.1. Consumption Distribution and Product Life Cycle
- 13.2.2. Obsolescence, Expiration, Periodic Campaigns
- 13.2.3. Order Management and Stocks Control Ratios

13.3. Pricing Principles

- 13.3.1. Environmental Analysis
- 13.3.2. Production Costs and Discount Margins
- 13.3.3. Final Price and Positioning Map

13.4. Distribution Channel Management

- 13.4.1. Trade Marketing
- 13.4.2. Distribution Culture and Competition
- 13.4.3. Designing and Managing Channels
- 13.4.4. Functions of Distribution Channels
- 13.4.5. Route to Market

13.5. Promotion and Sales Channels

- 13.5.1. Corporate Branding
- 13.5.2. Advertising
- 13.5.3. Sales Promotion
- 13.5.4. Public Relations and Personal Selling
- 13.5.5. Street Marketing

13.6. Branding

- 13.6.1. Brand Evolution
- 13.6.2. Creating and Developing a Successful Brand
- 13.6.3. Brand Equity
- 13.6.4. Category Management

13.7. Managing Marketing Groups

- 13.7.1. Work Teams and Meeting Management
- 13.7.2. Coaching and Team Management
- 13.7.3. Managing Equality and Diversity

- 19.8.2. Defining the Strategy to be Applied in Each Media
- 19.8.3. Contingency Protocol in Case of Crisis

A very well-structured program to help you expand your knowledge in this field"

07

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

This program prepares you to face business challenges in uncertain environments and achieve business success.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“

You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and relearn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent elearning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

08

Our Students' Profiles

The Advanced Master's Degree MBA in Marketing Management from TECH is a program aimed at marketing professionals who want to update their knowledge, discover new ways of successfully carrying out their roles and advance their professional career. The diversity of participants with different academic profiles and from multiple nationalities, make up the multidisciplinary approach of this program.
