01 Welcome

Knowing the viability of a product before launching it onto the market is fundamental to the success of sales of companies. With this high-level program, you will learn the latest techniques in Market Research from renowned professionals.

One of the main objectives of this TECH program in Market Research is to foster your personal and professional growth, helping you to achieve success in your company.

Executive Development Program in Market Research. TECH
Technological University

“

The figure of the upright, inflexible and authoritarian manager has become obsolete. A new profile has emerged, one that is much more in line with new trends and stands out for being technologically savvy, practising active listening and being self-critical of their work"

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class centre for intensive managerial skills training.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that combines the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"Microsoft Europe Success Story", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

100,000+
executives trained each year

200+
different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

500+ | collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case studies in the academic community"

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (a postgraduate learning methodology with the highest international rating) with the Case Study. A complex balance between tradition and state-of-the-art, within the context of the most demanding academic itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a groundbreaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you training of the highest academic level"

This program will provide students with a multitude of professional and personal advantages, particularly the following:

01

A significant career boost

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of participants achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of companies

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional areas.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

Take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different areas in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

Be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified professors from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to train with a team of world renowned teachers.

04

Objectives

This program is designed to strengthen management and leadership skills, in addition to developing new competencies and skills that will be essential in their professional development. After the program, they will be equipped to make global decisions with an innovative perspective and an international vision.

“

One of our fundamental objectives is to help you develop the essential skills to strategically manage a business”

TECH makes the goals of their students their own goals too.
Working together to achieve them.

The Executive Development Program in Market Research qualifies students to:

01

Define the latest trends developments in
business management

02

Develop strategies to carry out decision-making in a
complex and unstable environment

03

Develop a marketing plan for the company

04

Identify the types of market research and know how to apply the most appropriate one for the company

05

Develop the main techniques in market research

06

Know and apply the main digital tools for market analysis and metrics

05

Structure and Content

The Executive Development Program in Market Research is a tailor-made program for professionals, that is taught in a 100% online format so that they can choose the time and place that best suits their availability, schedules and interests.

A program that takes place over 6 months and is intended to be a unique and stimulating experience that lays the foundation for your success as a manager and entrepreneur.

“

What you study is very important. The abilities and skills you acquire are fundamental. You won't find a more complete syllabus than this one, believe us..."

Syllabus

The Executive Development Program in Market Research of TECH Technological University is an intensive program that prepares you to face challenges and business decisions globally.

The content of the Executive Development Program in Market Research is designed to promote the development of management skills that enable more rigorous decision-making in uncertain environments.

Throughout 900 hours of specialization, students analyze a multitude of practical cases through individual practice and teamwork. It is, therefore, an authentic immersion in real business situations.

This Executive Development Program in Market Research deals in depth with all financial areas of the company and is designed to help managers understand strategic management from a strategic, international and innovative perspective.

A plan designed for students, focused on their professional improvement, that also prepares them to achieve excellence in the field of business management and administration. A program that understands your needs and those of your company through innovative content based on the latest trends, and supported by the best educational methodology and an exceptional faculty, which will provide you with the skills to solve critical situations in a creative and efficient way.

This program takes place over 6 months, and is divided into 6 modules:

Module 1

Introduction to Market Research

Module 2

Qualitative Research Techniques

Module 3

Quantitative Research Techniques

Module 4

Market Research Production

Module 5

Internet Analytics and Metrics

Module 6

Analysis of Results and Market Research Applications

Where, When and How is it Taught?

TECH offers the possibility of developing this Executive Development Program in Market Research completely online. Over the course of 6 months, you will be able to access all the contents of this program at any time, allowing you to self-manage your study time

A unique, key, and decisive educational experience to boost your professional development and make the definitive leap.

Module 1. Introduction to Market Research

1.1. Market Research Fundamentals

- 1.1.1. Concept of Marketing Research and Marketing
- 1.1.2. Utility of Market Research
- 1.1.3. Market Research Ethics

1.2. Applications of Market Research

- 1.2.1. The Value of Research for Managers
- 1.2.2. Factors in the Decision to Investigate the Market
- 1.2.3. Main objectives of Market Research

1.3. Market Research Methods

- 1.3.1. Exploratory Research:
- 1.3.2. Descriptive Research
- 1.3.3. Causal Investigations

1.4. Types of Information

- 1.4.1. Elaboration: Primary and Secondary
- 1.4.2. Qualitative Nature
- 1.4.3. Quantitative Nature

1.5. Organization of Market Research

- 1.5.1. In-House Market Research Department
- 1.5.2. Research Outsourcing
- 1.5.3. Decision Factors: Internal vs. External

1.6. Research Project Management

- 1.6.1. Market Research as a Process
- 1.6.2. Planning Stages in Market Research
- 1.6.3. Stages of Market Research Implementation
- 1.6.4. Managing a Research Project

1.7. Desk Studies

- 1.7.1. Objectives of Desk Studies
- 1.7.2. Sources of Secondary Information
- 1.7.3. Results of the Desk Studies

1.8. Field Work

- 1.8.1. Obtaining Primary Information
- 1.8.2. Organization of Information Gathering
- 1.8.3. Interviewer Control

1.9. Online Market Research

- 1.9.1. Quantitative Research Tools in Online Markets
- 1.9.2. Dynamic Qualitative Customer Research Tools

1.10. The Market Research Proposal

- 1.10.1. Objectives and Methodology
- 1.10.2. Completion Deadlines
- 1.10.3. Budget

Module 2. Qualitative Research Techniques**2.1. Introduction to Qualitative Research**

- 2.1.1. Objectives of Qualitative Research
- 2.1.2. Sources of Qualitative Information
- 2.1.3. Characteristics of Qualitative Information

2.2. Group Dynamics

- 2.2.1. Concepts and Objectives
- 2.2.2. Organization and Implementation
- 2.2.3. Group Dynamics Results

2.3. The In-depth Interview

- 2.3.1. Concepts and Objectives
- 2.3.2. The In-Depth Interview Process
- 2.3.3. Application of In-Depth Interviews

2.4. Projective Techniques

- 2.4.1. Concepts and Objectives
- 2.4.2. Main Projective Techniques

2.5. Creativity Techniques

- 2.5.1. Concepts and Objectives
- 2.5.2. Intuitive Techniques: *Brainstorming*
- 2.5.3. Formal Techniques: Delphi Method
- 2.5.4. Other Creativity Techniques

2.6. Observation as a Qualitative Technique

- 2.6.1. Concept and Applications
- 2.6.2. Observation Scenarios
- 2.6.3. Technical Resources
- 2.6.4. Assessment of the Observation

2.7. Neuromarketing: The Responses of the Brain

- 2.7.1. Concept and Applications
- 2.7.2. Observation Scenarios in *Neuromarketing*
- 2.7.3. Neuromarketing Techniques

2.8. Pseudo-Purchase

- 2.8.1. Concept and Applications
- 2.8.2. Pseudo-Purchase Scenarios
- 2.8.3. Mystery Shopper

2.9. Digital Qualitative Research

- 2.9.1. Description and Characteristics
- 2.9.2. Main Online Qualitative Techniques

2.10. Application of Qualitative Research

- 2.10.1. Structure of Qualitative Research Results
- 2.10.2. Projection of Qualitative Research Results
- 2.10.3. Decision-Making Applications

Module 3. Quantitative Research Techniques

3.1. Introduction to Quantitative Research

- 3.1.1. Quantitative Research Objectives
- 3.1.2. Sources of Quantitative Information
- 3.1.3. Characteristics of Quantitative Information

3.2. Personal Survey

- 3.2.1. Concept and Characteristics
- 3.2.2. Types of Personal Survey
- 3.2.3. Advantages and Disadvantages of the Personal Survey

3.3. Telephone Survey

- 3.3.1. Concept and Characteristics
- 3.3.2. Types of Personal Survey
- 3.3.3. Advantages and Disadvantages of the Personal Survey

3.4. Self-Administered Survey

- 3.4.1. Concept and Characteristics
- 3.4.2. Online Survey
- 3.4.3. Postal and e-mail surveys
- 3.4.4. Survey by Personal Delivery

3.5. The Omnibus

- 3.5.1. Concept and Characteristics
- 3.5.2. Omnibus Results
- 3.5.3. Types of Omnibus

3.6. The Panel

- 3.6.1. Concept and Characteristics
- 3.6.2. Panel Results
- 3.6.3. Panel Types

3.7. Tracking

- 3.7.1. Concept and Characteristics
- 3.7.2. Tracking Results
- 3.7.3. Types of Tracking

3.8. Observation as a Quantitative Technique

- 3.8.1. Concept and Usefulness
- 3.8.2. Observation Scenarios
- 3.8.3. Technical Resources
- 3.8.4. Results of Quantitative Observation

3.9. Experimentation

- 3.9.1. Concept and Characteristics
- 3.9.2. Product Testing
- 3.9.3. Market Test

3.10. Application of Quantitative Research

- 3.10.1. Structure of Quantitative Research Results
- 3.10.2. Projection of Quantitative Research Results
- 3.10.3. Decision-Making Applications

Module 4. Market Research Production

4.1. The Quantitative Questionnaire

- 4.1.1. Concept, Functions and Type I:
- 4.1.2. Phases of the Questionnaire Design
- 4.1.3. Structure of the Questionnaire

4.2. Formulation of Questions

- 4.2.1. Types of Questions
- 4.2.2. Hierarchization of Questions
- 4.2.3. Pre-Test of the Questionnaire

4.3. Measuring Scales

- 4.3.1. Purpose and Types of Scales
- 4.3.2. Basic, Comparative and Non-Comparative Scales
- 4.3.3. Creation and Evaluation of Scales
- 4.3.4. Standardized Scales

4.4. Internet Questionnaire Design

- 4.4.1. Characteristics of the Online Questionnaire
- 4.4.2. Online Questionnaire Structure
- 4.4.3. Main Online Survey Supports

4.5. Scripts and Qualitative Interviews

- 4.5.1. Concept and Types
- 4.5.2. Structure of Scripts and Interviews
- 4.5.3. Formulation of Questions

4.6. Sampling

- 4.6.1. Sampling Concept and Process
- 4.6.2. Quantitative Sampling Methods
- 4.6.3. Sample Selection in Qualitative Research

4.7. Probability Sampling

- 4.7.1. Simple Sampling
- 4.7.2. Stratified Sampling
- 4.7.3. Cluster Sampling

4.8. Non-Probability Sampling

- 4.8.1. Random Route
- 4.8.2. Fees
- 4.8.3. Availability
- 4.8.4. Other Non-Probabilistic Methods

4.9. Sample size

- 4.9.1. Sample Size Determining Factors
- 4.9.2. Sample Size Calculation
- 4.9.3. Sample Size in Industrial Markets

4.10. Fieldwork Process

- 4.10.1. Interviewer Training
- 4.10.2. Coordination of Information Gathering
- 4.10.3. Evaluation and Incidents

Module 5. Internet Analytics and Metrics

5.1. Information Systems for Decision-Making

- 5.1.1. Business Intelligence
- 5.1.2. Data Warehouse
- 5.1.3. Balanced Scorecard (BSC)

5.2. Web Analysis

- 5.2.1. The Fundamentals of Web Analytics
- 5.2.2. Traditional Media vs. Digital Media
- 5.2.3. The Web Analyst's Basic Methodology

5.3. Google Analytics

- 5.3.1. Configuring an Account
- 5.3.2. Javascript Tracking API
- 5.3.3. Customized Reports and Segments

5.4. Qualitative Analysis

- 5.4.1. Research Techniques Applied in Web Analytics
- 5.4.2. Customer Journey
- 5.4.3. Purchase Funnel

5.5. Digital Metrics

- 5.5.1. Basic Metrics
- 5.5.2. Ratios
- 5.5.3. Setting Objectives and KPIs

5.6. Strategy Analysis Areas

- 5.6.1. Web Traffic Acquisition
- 5.6.2. Activation
- 5.6.3. Conversion
- 5.6.4. Loyalty

5.7. Data Science and Big Data

- 5.7.1. Business Intelligence
- 5.7.2. Methodology and Analysis of Large Volumes of Data
- 5.7.3. Data Extraction, Processing, and Loading

5.8. Web Analytics Tools

- 5.8.1. Technological Basis of WA Tool
- 5.8.2. Logs and Tags
- 5.8.3. Basic and Ad-hoc Labeling

5.9. Data Visualization

- 5.9.1. Viewing and Interpreting *Dashboards*
- 5.9.2. Converting Data into a Value
- 5.9.3. Integrating Sources
- 5.9.4. Presenting Reports

5.10. Mobile Analytics

- 5.10.1. Mobile Measurement and Analysis Methodologies
- 5.10.2. Mobile Metrics: Main KPIs
- 5.10.3. Profitability Analysis
- 5.10.4. Mobile Analytics

Module 6. Analysis of Results and Market Research Applications

6.1. Information Analysis Plan

- 6.1.1. Data Preparation
- 6.1.2. Stages of the Analysis Plan
- 6.1.3. Outline of the Analysis Plan

6.2. Descriptive Analysis of Information

- 6.2.1. Concept of Descriptive Analysis
- 6.2.2. Types of Descriptive Analysis
- 6.2.3. Statistical Programs in Descriptive Analysis

6.3. Bivariate Analysis

- 6.3.1. Hypothesis Contrast
- 6.3.2. Types of Bivariate Analysis
- 6.3.3. Statistical Programs in Bivariate Analysis

6.4. Multivariate Dependency Analysis

- 6.4.1. Concept and Characteristics
- 6.4.2. Types of Multivariate Dependency Analyses

6.5. Multivariate Analysis of Interdependence

- 6.5.1. Concept and Characteristics
- 6.5.2. Types of Multivariate Interdependence Analyses

6.6. Market Research Findings

- 6.6.1. Differentiation of Information Analysis
- 6.6.2. Joint Interpretation of Information
- 6.6.3. Application of the Conclusions to the Object of the Research

6.7. Creating a Report

- 6.7.1. Concept, Utility and Types
- 6.7.2. Structure of the Report
- 6.7.3. Editorial Standards

6.8. International Market Research

- 6.8.1. Introduction to International Market Research
- 6.8.2. International Market Research Process
- 6.8.3. The Importance of Secondary Sources in International Research

6.9. Feasibility Studies

- 6.9.1. Obtaining Information on Purchasing Behavior and Motives
- 6.9.2. Analysis and Evaluation of the Competitive Offer
- 6.9.3. Market Structure and Potential
- 6.9.4. Purchase Intention
- 6.9.5. Feasibility Results

6.10. Voting Intention Studies

- 6.10.1. Pre-Election Studies
- 6.10.2. Exit Polls
- 6.10.3. Vote Estimates

06

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

This program prepares you to face business challenges in uncertain environments and achieve business success.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“

You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

Our Students' Profiles

The Executive Development Program in Market Research is aimed at people with university education and at least four years of professional experience, who want to transform their career and orient it towards business management.

This program uses a multidisciplinary approach as the students have a diverse set of academic profiles and represent multiple nationalities.

“

If you have leadership and management experience, and are looking for an interesting career boost while continuing to work, then this is the program for you"

Average Age

Between **35** and **45** years old

Years of Experience

Training

Academic Profile

Geographical Distribution

Manuel Ortega

Manager of a Company

"No matter how much you want to, considering an Executive Development Program in Market Research is not a simple matter, especially when you have to balance it with your professional and family life. However, the TECH Technological University program offered me the possibility to do so. The skilful faculty made the experience and learning even more enriching. Largely as a result of that, today I'm the director of a large communication company, a new role that I carry out with enthusiasm and my best work. In short, change that comes from action"

08

Course Management

TECH has selected for this program a highly qualified teaching staff with extensive experience in corporate tax advice. Which, in addition to participating in its design and elaboration, bring into the development of the program its up-to-date and effective information, which will allow the student to expand their knowledge for the benefit of the sector.

“

We have a teaching team with extensive experience that will help you to specialize in this sector”

Management

Mr. López Rausell, Adolfo

- ♦ Commercial and Research Technician at Investgroup
- ♦ Marketing Consultant at Alcoworking
- ♦ Manager at Innovation Club of the Valencian Community
- ♦ Degree in Economics and Business Administration from the University of Valencia
- ♦ Certificate in Marketing from ESEM Business School
- ♦ Member of: AECTA (member of the Board of Directors for communication), AINACE (member of the Board of Directors), Marketing Club Valencia

09

Impact on Your Career

TECH is aware that studying a program like this entails great economic, professional and, of course, personal investment.

The ultimate goal of this great effort should be to achieve professional growth.

“

Generate a positive change in your career path: that is our challenge. We are fully committed to helping you achieve it"

Are you ready to take the leap? Excellent professional development awaits you

The Executive Development Program in Market Research of TECH Technological University is an intensive program that prepares you to face challenges and business decisions globally. Its main objective is to promote your personal and professional growth: to help you achieve success.

If you want to improve yourself, make a positive change professionally and network with the best, this is the place for you.

Don't miss the opportunity to train with us and you will find the career boost you were looking for.

If you want to make a positive change in your profession, the Executive Development Program in Market Research will help you achieve it.

When the change occurs

Type of change

Salary increase

This program represents a salary increase of more than **25.22%** for our students.

10

Benefits for Your Company

The Executive Development Program in Market Research contributes to raising the organization's talent to its maximum potential by creating high-level leaders.

Participating in this Executive Development Program in Market Research is a unique opportunity to access a powerful network of contacts in which to find future professional partners, customers or suppliers.

“

The executive will introduce the company to new concepts, strategies, and perspectives that can bring about significant changes in the organization”

Developing and retaining talent in companies is the best long-term investment.

01

Intellectual Capital and Talent Growth

The executive will introduce the company to new concepts, strategies, and perspectives that can bring about significant changes in the organization.

02

Retaining high-potential executives to avoid talent drain
