Introduction

The business environment is highly competitive. Globalization has favored international trade, and the advance of new technologies has created new consumer habits. As a result, strategies to capture target audiences have evolved over the years. At this point, the figure of the sales and marketing director acquires a relevant role, being the person in charge of ensuring that the campaigns and strategies implemented comply with market requirements. With this TECH program, students are offered a unique opportunity to improve their qualifications in this sector, reaching a higher level of skills that will open the doors to the business world.

“

Sales and Marketing teams need to follow a series of strategies to achieve their company's objectives. Your work as a manager in these areas will be essential to ensure that all processes are followed"

Companies face new challenges every day. Adapting to the changes and demands of the market and striving to be more competitive are tasks that cannot be left aside at any time. To achieve this, it is essential to count on the sales and marketing areas, which are fundamental in any large company seeking greater growth. In this way, getting an effective boost from these departments will allow companies to acquire a great competitive advantage. But to be effective, managers must be clear about their company's objectives and know where to direct their efforts to achieve greater consumer support.

With this in mind, TECH has decided to create this Hybrid Professional Master's Degree, which offers students a theoretical and practical specialization to learn the most relevant aspects of business and marketing, but above all, it will be a unique opportunity to learn and develop leadership skills that they will have to put into practice during their work. To this end, students will initially access a one-year Master's Degree, which they will study online.

With this curriculum, students will specialize in different aspects related to business, such as *Management* and leadership, logistics management, market research, commercial management, or the different branches of marketing. Therefore, they will be able to acquire a deep knowledge of everything that surrounds this sector. This program will have a multitude of theoretical and practical resources, multimedia exercises, and an innovative teaching methodology that will favor the student's learning.

Once this part of the course has been passed, the professional will have the opportunity to access an intensive practical stay lasting 3 weeks, in which the student will be part of a real work team, knowing first-hand how the work in the sales and marketing departments is carried out, and the real benefits that these areas bring to their companies. Undoubtedly, this is the most complete program that students can find in the market to access a higher specialization, achieving a high level of competence, which they will be able to put into practice when they enter the labor market.

This **Hybrid Professional Master's Degree in Commercial and Marketing Management (CRO, Chief Revenue Officer)** contains the most complete and up-to-date program on the market. The most important features include:

- development of more than 100 case studies presented by experts in of marketing and Commercial Management
- The graphic, schematic and practical contents with which they are conceived, gather Specific information on those disciplines that are essential for professional practice
- Comprehensive systematized action plans in the business field
- Algorithm-based interactive learning system for decision-making in the situations that are presented to the student
- Practical guides for the use of the main Marketing tools
- Special emphasis on the most innovative methodologies for the application of leadership techniques in business
- All of this will be complemented by theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- Content that is accessible from any fixed or portable device with an Internet connection
- Furthermore, you will be able to do an internship in one of the best centers in the world

This specialization will provide you with the keys to access to top management and, therefore, to positions with higher salary expectations"

“

Your managerial skills will allow you to give a boost to your professional career, gaining access to the most internationally renowned companies”

In this Master Hybrid's program, of a professionalizing nature and hybrid learning modality, is aimed at updating professionals specialized in business who require a high level of qualification. The content is based on the latest scientific evidence and organized in a didactic way to integrate theoretical knowledge into daily practice. In this way, the theoretical-practical elements will facilitate the updating of knowledge and will allow decision-making in complex environments.

Thanks to its multimedia content developed with the latest educational technology, they will allow the student to obtain a situated and contextual learning, that is to say, a simulated environment that will provide an immersive learning programmed to prepare in real situations. This program is designed around Problem-Based Learning, whereby the professional must try to solve the different professional practice situations that arise throughout the program. For this purpose, the student will be assisted by an innovative interactive video system created by renowned experts.

Bet on Digital Marketing as the main method to reach your target audience.

Thanks to the management skills that you will be able to develop with this program, your work teams will achieve greater performance.

02

Why Study this Hybrid Professional Master's Degree?

Studying this program is essential for all those professionals who wish to update their knowledge about Sales and Marketing Management. The program offers the most innovative content in these sectors of the business world. At the same time, it is distinguished by its double didactic approach. On the one hand, it offers theoretical subjects of great relevance for this labor framework, and secondly, it has a first-level practical stay that will help students reinforce their mastery of these topics.

“

With TECH, you will acquire in-depth knowledge of financial logistics and apply it immediately in your daily work activities"

1. Updating from the latest technology available

The latest digital tools for Marketing Management are available to TECH students through this innovative program. They will also be able to examine directly all those technologies that enable proper business management in the companies of the XXI century.

2. Gaining In-Depth Knowledge from the Experience of Top Specialists

Throughout this program, TECH will be supported by leading experts. These professionals will be in charge of supervising the student's academic progress during the theoretical phase of this Hybrid Professional Master's Degree. In turn, those responsible for monitoring their professional practice in top-level centers will help them acquire the most sought-after skills in the labor market.

3. Entering first-class Corporate environments

After examining the most recognized companies in the market for their innovative commercial and marketing management, TECH has chosen a group of them to host its students. This will give way to a 100% practical and intensive professional internship, in which the student will be able to access the best knowledge from the hands of competitive professionals and state-of-the-art technologies.

4. Combining the Best Theory with State-of-the-Art Practice

Throughout 3 weeks of professional practice, the student will develop high-level tasks from the very first moment. This practical and immersive learning will facilitate the understanding of the most complex responsibilities and dynamics of the operation of the Sales and Marketing departments of companies.

5. Expanding the Boundaries of Knowledge

TECH has a large number of agreements and contacts through which it has organized the practical training of this Hybrid Professional Master's Degree. Through these collaborations, the student will have access to international companies and, from them, will master the most global standards of this professional area.

“

You will have full practical immersion at the center of your choice”

03 Objectives

The main objective of this Hybrid Professional Master's Degree in TECH is to offer students a complete specialization in which theory is as important as practice. In this way, the combination of both will favor the student's learning, providing them with the necessary skills to develop successfully in their professional career. Therefore, at the end of the course, the student will be able to lead work teams in the commercial and marketing areas to achieve the company's goals.

“

Successful marketing campaigns will give your company a competitive advantage”

General Objective

- Thanks to the completion of this Hybrid Professional Master's Degree in TECH, students will be able to develop the leadership skills essential to take charge of the sales and marketing departments of large multinational companies. In this way, they will learn, in a practical way, all the aspects that must be taken into account when managing work teams, achieving maximum performance and the greatest possible benefits for their businesses

 - 3.3.1. Technological Innovation and Economic Impact
 - 3.3.2. Knowledge Society
 - 3.3.3. The New Consumer Profile
- 3.4. Quantitative Research Methods and Techniques
 - 3.4.1. Variables and Measurement Scales
 - 3.4.2. Information Sources
 - 3.4.3. Sampling Techniques
 - 3.4.4. The Treatment and Analysis of Data
- 3.5. Qualitative Research Methods and Techniques
 - 3.5.1. Direct Techniques: *Focus Groups*
 - 3.5.2. Anthropological Techniques
 - 3.5.3. Indirect Techniques
 - 3.5.4. *The Two Face Mirror* and *The Delphi Method*

- 3.6. Market Segmentation
 - 3.6.1. Market Typologies
 - 3.6.2. Concept and Analysis of the Demand
 - 3.6.3. Segmentation and Criteria
 - 3.6.4. Defining the Target Audience
- 3.7. Types of Buying Behavior
 - 3.7.1. Complex Behavior
 - 3.7.2. Dissonance Reducing Behavior
 - 3.7.3. Variety Seeking Behavior
 - 3.7.4. Habitual Purchasing Behavior
- 3.8. Marketing Information Systems
 - 3.8.1. Conceptual Approaches to Marketing Information Systems
 - 3.8.2. *Data Warehouse and Data Mining*
 - 3.8.3. Geographical Information Systems
- 3.9. Research Project Management
 - 3.9.1. Information Analysis Tools
 - 3.9.2. Developing an Expectation Management Plan
 - 3.9.3. Assessing the Feasibility of Projects
- 3.10. Marketing *Intelligence*
 - 3.10.1. *Big Data*
 - 3.10.2. User Experience
 - 3.10.3. Applying Techniques

Module 4. Commercial Management

- 4.1. Commercial Negotiation
 - 4.1.1. Emotional Intelligence in Negotiation and Sales
 - 4.1.2. Self-Motivation and Empathy
 - 4.1.3. Developing Negotiation Abilities
- 4.2. Fundamentals of Commercial Management
 - 4.2.1. Internal and External Analysis. SWOT Analysis
 - 4.2.2. Sector and Competitive Analysis
 - 4.2.3. CANVAS Model

- 4.3. Decision-Making in Commercial Management
 - 4.3.1. Commercial Strategy and Competitive Strategy
 - 4.3.2. Decision Making Models
 - 4.3.3. Analytical and Decision Making Tools
- 4.4. Sales Network Management
 - 4.4.1. Sales Campaign Planning
 - 4.4.2. Networks Serving Commercial Activity
 - 4.4.3. Salesperson Recruitment and Training Policies
 - 4.4.4. *Sales Management*
- 4.5. Implementing the Commercial Function
 - 4.5.1. Commercial Contract
 - 4.5.2. Controlling Commercial Activity
 - 4.5.3. The Commercial Agent's Code of Ethics
- 4.6. *Key Account Management*
 - 4.6.1. Identifying Key Accounts
 - 4.6.2. Benefits and Risks of the *Key Account Manager*

Internship

Practical teaching is a must in any career, as it is the best way for students to really learn how to carry out all those concepts and strategies they have learned during their theoretical studies. Thanks to this Hybrid Professional Master's Degree, students will have the opportunity to access an intensive internship in a reference company in the commercial and marketing sector, which will be essential for their personal and professional growth.

“

Take advantage of this practical stay and make the most of the 3 weeks in which you will be surrounded by professionals with extensive experience in the sector”

The Internship Program consists of a practical internship in a prestigious clinical center, a 3-week period from Monday to Friday , with 8 consecutive hours of work with a professionals in the field. This stay will allow students to gain in-depth knowledge of the intricacies of management work in the commercial and marketing environment.

In this training proposal, of a completely practical nature, the activities are aimed at developing and perfecting the competencies necessary to perform managerial tasks in commercial and marketing areas, acquiring the qualifications required to manage all the tasks related to these departments.

It is, without a doubt, an opportunity to learn by working in the sales and marketing departments, which are essential in any company today. In this way, it will be an option of great value for the student to become part of the daily work in a leading company in the sector, getting up to date on the main advances in this field.

In this way, the practical stay in a reference company in the sector will allow the student to complete a series of practical activities in different areas and departments of the company, obtaining a general vision of the sector that will allow them to quickly join the labor market, becoming one of the most competitive professionals of the moment.

The internship will be carried out with the active participation of the student performing the activities and procedures of each area of competence (learning to learn and learning to do), with the accompaniment and guidance of teachers and other training partners that facilitate teamwork and multidisciplinary integration as transversal competencies for the praxis of Commercial and in Marketing (learning to be and learning to relate).

The procedures described below will form the basis of the practical part of the training, and their implementation is subject to both the suitability of the patients and the availability of the center and its workload, with the proposed activities being as follows:

Receive specialized education in an Company that can offer you all these possibilities, with an innovative academic program and a human team that will help you develop your full potential"

Module	Practical Activity
Sales and Marketing Management Strategies	Detect management gaps by building and coaching individuals and teams in sales and account management
	Implement solid sales management processes: pipeline, account planning, and proposals
Updated Marketing Trends for the Chief Revenue Officer	Facilitate building outreach to current and future customers and coordinate its implementation across sales channels, customer management, marketing, and communications
	Participate in the customer research process (quantity and quality) to provide strategic leadership to brand architecture and positioning
	Oversee channel/partner development, adding new sales channels and third-party resellers and partners
Updated Marketing Trends for the Chief Revenue Officer	Implement revenue and lead monitoring processes, adjusting them, if necessary, to create sustainable enablement
	Supporting the achievement of short-term results and long-term strategy, including revenue forecasting
Broader scope activities within the companies' Sales and Marketing Management	Participate in the process of prospecting and closing key customer relationships
	Supporting the implementation of growth strategies through actionable actions

Civil Liability Insurance

This institution's main concern is to guarantee the safety of the trainees and other collaborating agents involved in the internship process at the company. Among the measures dedicated to achieving this is the response to any incident that may occur during the entire teaching-learning process.

To this end, this entity commits to purchasing a civil liability insurance policy to cover any eventuality that may arise during the course of the internship at the center.

This liability policy for interns will have broad coverage and will be taken out prior to the start of the practical training period. That way professionals will not have to worry in case of having to face an unexpected situation and will be covered until the end of the internship program at the center.

General conditions of Internship Program

The general terms and conditions of the internship program agreement shall be as follows:

1. TUTOR: During the Hybrid Professional Master's Degree, students will be assigned with two tutors who will accompany them throughout the process, answering any doubts and questions that may arise. On the one hand, there will be a professional tutor belonging to the internship center who will have the purpose of guiding and supporting the student at all times. On the other hand, they will also be assigned with an academic tutor whose mission will be to coordinate and help the students during the whole process, solving doubts and facilitating everything they may need. In this way, the student will be accompanied and will be able to discuss any doubts that may arise, both clinical and academic.

2. DURATION: The internship program will have a duration of three continuous weeks, in 8-hour days, 5 days a week. The days of attendance and the schedule will be the responsibility of the center and the professional will be informed well in advance so that they can make the appropriate arrangements.

3. ABSENCE: If the students does not show up on the start date of the Hybrid Professional Master's Degree, they will lose the right to it, without the possibility of reimbursement or change of dates. Absence for more than two days from the internship, without justification or a medical reason, will result in the professional's withdrawal from the internship, therefore, automatic termination of the internship. Any problems that may arise during the course of the internship must be urgently reported to the academic tutor.

4. CERTIFICATION: Professionals who pass the Hybrid Professional Master's Degree will receive a certificate accrediting their stay at the center.

5. EMPLOYMENT RELATIONSHIP: the Hybrid Professional Master's Degree shall not constitute an employment relationship of any kind.

6. PRIOR EDUCATION: Some centers may require a certificate of prior education for the Hybrid Professional Master's Degree. In these cases, it will be necessary to submit it to the TECH internship department so that the assignment of the chosen center can be confirmed.

7. DOES NOT INCLUDE: The Hybrid Professional Master's Degree will not include any element not described in the present conditions. Therefore, it does not include accommodation, transportation to the city where the internship takes place, visas or any other items not listed

However, students may consult with their academic tutor for any questions or recommendations in this regard. The academic tutor will provide the student with all the necessary information to facilitate the procedures in any case.

Leading company in multimedia communication and content generation

Related internship programs:

- Graphic Design
- People Management

Take advantage of this opportunity to surround yourself with expert professionals and learn from their work methodology"

09

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

This program prepares you to face business challenges in uncertain environments and achieve business success.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“*You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments*”

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

10 Certificate

The Hybrid Professional Master's in Commercial and Marketing Management (CRO, Chief Revenue Officer) guarantees students, in addition to the most rigorous and up-to-date education, access to an Executive Master's Hybrid issued by TECH Technological University.
