01 Introduction

Large companies such as Pepsi, Coca-Cola, and Nike make a difference with their competitors through advertising campaigns that greatly impact consumers. Therefore, their business success depends to a great extent on the achievement of such campaigns carried out by the best advertising creatives in the world. Reaching this goal is undoubtedly the objective of professionals who wish to succeed in the advertising communication sector. That is why TECH has created this program that offers a practical internship in a prestigious advertising company. Therefore, during 3 intensive weeks, the professional will be able to expand their competencies in this field and fulfill their leadership and management goals in the field of advertising communication.

“

Enjoy an intensive 3-week internship in a prestigious center and update yourself on the latest developments in the area of advertising communication to grow professionally”

Nowadays, companies that do not have a good communication strategy can hardly be maintained, especially given the high competitiveness in e-commerce. That is why communication agencies are in great demand, and advertising departments themselves are part of large companies.

Therefore, without a doubt, a good communication and advertising strategy are key tools for business success. In this scenario, the professional who wishes to lead impactful advertising campaigns or plan them within his organization must be aware of the latest developments in the best agencies' techniques, support, and methods. This is why this Internship Program was created, which offers specialists a 3-week stay in a leading advertising company in their sector.

In this way, the professional will be able to test the work processes in an excellent environment and with first-class specialists who will guide him during this period to achieve his aspirations of progression in a field where innovation and creativity go hand in hand. A unique opportunity in the academic panorama that only TECH offers you.

“

With TECH, you will have a distinctive, unique, and effective practice in the advertising industry”

02

Why Study an Internship Program?

In the field of advertising communication, professionals must know how to deal with different scenarios where creativity and the creation of persuasive messages are key. Therefore, from the mastery of theory, it is necessary to move on to the direct action of practice, where a specialist develops. That is why TECH has created this Practical Training that offers a practical internship in a prestigious advertising company. An ideal environment to enhance the skills of professionals who aspire to top management positions in a highly competitive environment. In this way, during 3 intensive weeks, the professional will be integrated into a work team that will take them to learn first-hand both the latest technical advances and how to apply them in order to create truly effective advertising. A unique opportunity that moves away from traditional pedagogical systems to bring the professional closer to advanced, effective and useful learning.

TECH offers you the opportunity to step forward in your professional career as an advertising manager through an Internship Program unique in the academic panorama"

1. Updating from the latest technology available

Social networks, artificial intelligence, or Virtual Reality are just some of the new technologies used in the field of advertising to reach target audiences. For this reason, and in order to bring the specialist closer to these digital tools, TECH presents this Internship Program, where the professional can see firsthand what are the most relevant advances in this field, where the creative capacity coupled with the technology are crucial.

2. Gaining In-Depth Knowledge from the Experience of Top Specialists

In this Internship Program, the professional will have the opportunity to be side by side with the best specialists in Advertising Communication, members of the prestigious company where the stay will take place. In this way, during 3 intensive weeks, they will be able to see firsthand the methods, processes, and techniques used in a sector characterized by tough competition. All this thanks to the tutoring of a specialist with extensive experience in this field

3. Entering first-class environments

TECH carries out a rigorous selection procedure of all the centers available for the Internship Programs. In this way, this academic institution seeks to guarantee access to first-class environments where the professional who attends this program can optimally achieve their progression objectives, in this case, in the field of Advertising Communication.

4. Putting the acquired knowledge into daily practice from the very first moment

Far from the traditional theoretical concept, this program immerses the professional from the first day in practical actions, which will be very useful for their aspirations in the field of Advertising Communication. Therefore, with a 100% practical model, the specialists will be able to develop their skills in the creation of campaigns or advertising content focused on different audiences and clients.

5. Expanding the Boundaries of Knowledge

This program offers the professional a view of expansion within the field of Advertising Communication. The opportunity to spend 3 intensive weeks in a leading advertising agency will allow you to integrate the techniques and methods used by the best. A unique environment to progress that only TECH, the world's largest digital university, can provide.

You will have full practical immersion at the center of your choice"

03 Objectives

This Internship program is designed to help students face new professional challenges, allowing them to acquire the knowledge they need to communicate properly in all areas, channels, and networks, using the appropriate languages for each communication style. At the end of this program, you will be able to develop a corporate identity creation plan and write high-impact advertising copy.

General Objectives

- Master the current trends in the communication media used, especially in the digital field
- Incorporate the methods and techniques used in a first-level advertising department into daily work
- Know the digital programs used for creating projects, designing creativities, and monitoring advertising campaigns

Specific Objectives

- Acquire the necessary skills for the professional practice of the Advertising Communication with the knowledge of all the necessary factors to perform it with quality and solvency
- Know how to use the different online communication platforms
- Develop a plan for the creation of the corporate identity
- Create communication in the digital environment
- Use psychological mechanisms present in communication
- Using advertising language
- Apply creative techniques in communication
- Writing advertising copy
- Perform art direction in advertising contexts
- Develop a corporate identity for an organization
- Recognize the flows of public opinion and the ability to exert force on them

This program will help you generate a sense of confidence and security when working as a communications manager or copywriter"

04 Educational Plan

Communication professionals who enroll in this program will be able to carry out a practical internship for a period of 3 weeks in a center of recognized prestige. During this period, they will have a schedule from Monday to Friday with 8 consecutive hours of practical training with an expert professional. In this way, they will be able to train in a real and controlled environment to gain experience and safety.

In this practical internship program, the activities are aimed at the development and improvement of the skills necessary for the creation of a communication plan in a digital environment, as well as the application of advertising language according to the target audience and which are oriented to the specific training for the exercise of the activity.

It is undoubtedly an opportunity to learn in a prestigious company's marketing and communication departments. Becoming familiar with the day-to-day of the work of a team of editors, community, or any other area. Therefore, it is the perfect choice for the student who wishes to improve or acquire new skills in this sector.

The practical teaching will be carried out with the active participation of the student performing the activities and procedures of each area of competence (learning to learn and learning to do), with the accompaniment and guidance of teachers and other training partners that facilitate teamwork and multidisciplinary integration as transversal competencies for advertising communication practice (learning to be and learning to relate).

The procedures described below will be the basis of the practical part of the training, and their implementation will be subject to the center's own availability and workload, the proposed activities being the following:

Receive specialized education in an institution that can offer you all these possibilities, with an innovative academic program and a human team that will help you develop your full potential”

06 General Conditions

Civil Liability Insurance

This institution's main concern is to guarantee the safety of the trainees and other collaborating agents involved in the internship process at the company. Among the measures dedicated to achieve this is the response to any incident that may occur during the entire teaching-learning process.

To this end, this entity commits to purchasing a civil liability insurance policy to cover any eventuality that may arise during the course of the internship at the center.

This liability policy for interns will have broad coverage and will be taken out prior to the start of the practical training period. That way professionals will not have to worry in case of having to face an unexpected situation and will be covered until the end of the internship program at the center.

General Conditions of the Internship Program

The general terms and conditions of the internship agreement for the program are as follows:

1. TUTOR: During the Internship Program, students will be assigned with two tutors who will accompany them throughout the process, answering any doubts and questions that may arise. On the one hand, there will be a professional tutor belonging to the internship center who will have the purpose of guiding and supporting the student at all times. On the other hand, they will also be assigned with an academic tutor, whose mission will be to coordinate and help the students during the whole process, solving doubts and facilitating everything they may need. In this way, the student will be accompanied and will be able to discuss any doubts that may arise, both clinical and academic.

2. DURATION: The internship program will have a duration of three continuous weeks, in 8-hour days, 5 days a week. The days of attendance and the schedule will be the responsibility of the center and the professional will be informed well in advance so that they can make the appropriate arrangements.

3. ABSENCE: If the students does not show up on the start date of the Internship Program, they will lose the right to it, without the possibility of reimbursement or change of dates. Absence for more than two days from the internship, without justification or a medical reason, will result in the professional's withdrawal from the internship, therefore, automatic termination of the internship. Any problems that may arise during the course of the internship must be urgently reported to the academic tutor.

4. CERTIFICATION: Professionals who pass the Internship Program will receive a certificate accrediting their stay at the center.

5. EMPLOYMENT RELATIONSHIP: The Internship Program shall not constitute an employment relationship of any kind.

6. PRIOR EDUCATION: Some centers may require a certificate of prior education for the Internship Program. In these cases, it will be necessary to submit it to the TECH internship department so that the assignment of the chosen center can be confirmed.

7. DOES NOT INCLUDE: The Internship Program will not include any element not described in the present conditions. Therefore, it does not include accommodation, transportation to the city where the internship takes place, visas or any other items not listed.

However, students may consult with their academic tutor for any questions or recommendations in this regard. The academic tutor will provide the student with all the necessary information to facilitate the procedures in any case.
