# 01 Introduction

According to a report published by the International Monetary Fund, global economic growth faces multiple challenges, from financial market volatility to political uncertainties affecting international investments. In this context, financial management becomes critical to ensure the stability and sustained growth of companies. Given this reality, professionals face a variety of challenges that require a combination of analytical, strategic and leadership skills. For example, experts must incorporate advanced technologies such as Artificial Intelligence, Big Data, or Blockchain. With the aim of helping them, TECH launches a disruptive program consisting of a 3-week practical stay in a prestigious entity.

*Thanks to this Internship Program, you will efficiently manage the capital structure of your organization to optimize profitability and sustainability"*

Financial Management is a crucial discipline in any organization, as it is in charge of managing the company's financial resources to achieve the established objectives. In an increasingly competitive and globalized business environment, making sound financial decisions is essential to ensure the long-term sustainability and growth of the institution. In this situation, managers need to keep abreast of the most sophisticated tools used in economic management in order to implement them in their practice and maximize the efficiency of their respective tasks.

To support them with this update, TECH has designed a program consisting of a 120-hour stay in a leading company in the field of Financial Management. So, during 3 weeks, the graduates will join a multidisciplinary work team composed of specialists of the highest level, with whom they will work actively in tasks such as the development of marketing plans, financial accounting or strategic planning.

It should be noted that, during the academic itinerary, students will be guided by specialists with extensive professional experience. These experts will help the graduates to consolidate their mastery of the most complex terms and tasks. Thanks to this, at the end of the on-site stay, managers will have all the resources they need to overcome the challenges in the field of Financial Management and experience a significant leap in quality in their daily practice.

# 02

## Why Study an Internship Program?

Financial Management is a field in constant evolution, due to the changes that occur in both the economic and business environment. With the globalization and digitalization of the economy, companies need the services of highly skilled professionals in this field to remain competitive in the market. Faced with this, TECH has created an exclusive and disruptive academic product in the current educational landscape, which will allow the specialist to enter a real working environment where to put into practice the latest procedures and techniques in the field of Financial Management.

*You will work in a modern work environment, together with a team of professionals who will bring great advances to your daily practice in Financial Management"*

### **1. Updating from the Latest Technology Available**

The Fourth Industrial Revolution has had a significant impact on the field of financial management, providing specialists with a wide range of tools to facilitate their work. For example, encryption systems help prevent fraud and data theft. In this sense, through this Internship Program, TECH will provide students with the most sophisticated technological tools to carry out their tasks efficiently.

### **2. Gaining In-depth Knowledge from the Experience of Top Specialists**

Throughout the practical period, a team of experts in the Financial Management sector will accompany the students, thus guaranteeing the updating of all their knowledge and skills. In addition, a specially assigned tutor will guide and advise them at all times. In this way, graduates will be prepared to incorporate into their daily practice the most effective procedures for managing financial institutions.

### **3. Entering First-Class Professional Environments**

In its top priority to provide the most optimal Internship Programs, TECH carefully selects all available centers for on-site placements. In this way, graduates are guaranteed access to a prestigious business environment in the field of Financial Management. This will allow them to become acquainted with the day-to-day work of a demanding area, always applying the latest advances in their work methodology.

#### **4. Putting the Acquired Knowledge into Daily Practice from the Very First Moment**

TECH offers a 100% practical learning model, which aims to break away from the traditional pedagogical programs existing in the market. Thanks to this, students will be able to reconcile their learning with the rest of their daily activities. In line with this, this program will not only allow them to get to know the latest procedures in Financial Management, but also to put them into professional practice during 3 intensive weeks.

#### **5. Expanding the Boundaries of Knowledge**

For this Internship Program, TECH offers a wide range of opportunities in national and international centers. In this way, CFOs will be able to expand their frontiers and acquire knowledge from the best specialists in the sector, who perform their duties in first class companies in different continents.

*You will have full practical immersion  
at the center of your choice"*

# 03 Objectives

Through this revolutionary Internship Program, graduates will be highly qualified to assume responsibilities ranging from financial planning to cash flow control and investor management. In this way, professionals will maximize shareholder value while ensuring long-term financial stability. In addition, experts will ensure that the company scrupulously complies with all applicable financial regulations and maintains transparent communication with stakeholders through accurate reporting.

## General Objectives

---

- Acquire leadership skills essential for managing teams in the field of finance
- Define the latest trends and developments in business management
- Develop competencies to design financial strategies aligned with the company's strategy
- Develop strategies to make decisions investment and financing in a complex and unstable environment, evaluating their impact on the company

## Specific Objectives

---

- Develop the ability to detect, analyze and solve and problem solving
- Explain the company from a global point of view, as well as the responsibility and the new role of CFOs
- Develop the essential skills to strategically manage the company's financial activity
- Design innovative strategies and policies to improve management and financial efficiency
- Formulate and implement financial policies to adequately manage cash flow, investments and tax planning as growth strategies to adapt the company to changes in the national and international environment
- Obtain in-depth knowledge in accounting, both financial and managerial
- Understand the financial risks associated with certain transactions
- Carry out competitive strategies to meet the entity's objectives
- Understand and analyze all the company's financial information
- Knowledge of the economic environment and the markets in which the company operates
- Understand investment risks and be able to control them
- Make responsible investments, following business ethics

*You will be able to develop and execute financial plans that support your organization's long-term goals"*

# 04 Educational Plan

The Internship Program of this MBA program in Financial Management consists of a practical internship in a reference institution, lasting 3 weeks, from Monday to Friday with 8 consecutive hours of practical training with an assistant specialist. This on-site stay will enable graduates to carry out their various tasks in a real working environment, with the support of a team of leading professionals in the financial sector who will provide them with the latest trends in areas such as strategic management and management.

In this training proposal, of a completely practical nature, the activities are aimed at developing and perfecting the necessary competencies for the provision of financial management services in areas and conditions that require a high level of specialization, and which are oriented towards specific training for the exercise of the activity.

This is an ideal opportunity for graduates to broaden their academic and professional horizons to learn by working in a highly demanded field, which requires constant updating in order to provide excellent and quality services.

The practical teaching will be carried out with the active participation of the student performing the activities and procedures of each area of competence (learning to learn and learning to do), with the accompaniment and guidance of the professors and other training partners that facilitate teamwork and multidisciplinary integration as transversal competencies for the praxis of Financial Management (learning to be and learning to relate).

The procedures described below will be the basis of the practical part of the training, and their implementation will be subject to the center's own availability and workload, the proposed activities being the following:

Module	Practical Activity
Strategic Management	Budgeting and strategic financial planning to meet the organization's objectives (including cash flow forecasting, investor management and capital programming).
	Evaluate the entity's financial performance by analyzing financial ratios, balance sheets and income statements
	Identify, measure and mitigate economic risks related to credit, market, or interest rates risks
	Monitor operating expenses to ensure that they do not exceed allocated budgets
Business Globalization	Conduct in-depth research on the dynamics of foreign markets in order to identify opportunities at the organizational level.
	Develop effective strategies to enter new markets (considering legal, economic and cultural factors).
	Adapt existing products or create new goods that meet customer needs and expectations
	Ensure compliance with laws and regulations in different jurisdictions.
Banking System	Perform careful management of the bank's balance sheet to ensure that assets and liabilities are correctly aligned
	Detect the different types of financial risks (including market, liquidity or credit risk)
	Participate in the purchase and sale of securities such as stocks, bonds, and derivatives
	Manage investments for individual and institutional clients, ensuring that portfolios are diversified and in line with client objectives
Feasibility of Investment Projects	Conduct detailed market analysis to understand demand, competition, pricing, and industry trends
	Analyze the technical aspects of the initiative (such as resources required, technology availability or production capacity)
	Develop financial projections that include estimates of costs, revenues, cash flows and profitability
	Write comprehensive feasibility reports and <i>stakeholder presentations</i>

# 05 Where Can I Do the Internship Program?

Committed to offering academic programs of excellence, TECH carefully selects the institutions where its students will carry out their Internship Programs. Through this rigorous selection process, the institution has established partnerships with companies of recognized international prestige, ensuring that graduates carry out their on-site stay in high quality environments. In this way, CFOs will have the opportunity to work in multidisciplinary teams alongside leading industry experts.

“

*You will carry out your Internship Program in a reputable entity, where you will be surrounded by a team of professionals in the field of Financial Management”*

## General Conditions

### Civil Liability Insurance

This institution's main concern is to guarantee the safety of the trainees and other collaborating agents involved in the internship process at the company. Among the measures dedicated to achieve this is the response to any incident that may occur during the entire teaching-learning process.

To this end, this entity commits to purchasing a civil liability insurance policy to cover any eventuality that may arise during the course of the internship at the center.

This liability policy for interns will have broad coverage and will be taken out prior to the start of the practical training period. That way professionals will not have to worry in case of having to face an unexpected situation and will be covered until the end of the Internship Program at the center.

## General Conditions of the Internship Program

The general terms and conditions of the internship program agreement shall be as follows:

**1. TUTOR:** During the Internship Program, students will be assigned with two tutors who will accompany them throughout the process, answering any doubts and questions that may arise. On the one hand, there will be a professional tutor belonging to the internship center who will have the purpose of guiding and supporting the student at all times. On the other hand, they will also be assigned with an academic tutor, whose mission will be to coordinate and help the students during the whole process, solving doubts and facilitating everything they may need. In this way, the student will be accompanied and will be able to discuss any doubts that may arise, both clinical and academic.

**2. DURATION:** The internship program will have a duration of three continuous weeks, in 8-hour days, 5 days a week. The days of attendance and the schedule will be the responsibility of the center and the professional will be informed well in advance so that they can make the appropriate arrangements.

**3. ABSENCE:** If the students does not show up on the start date of the Internship Program, they will lose the right to it, without the possibility of reimbursement or change of dates. Absence for more than two days from the internship, without justification or a medical reason, will result in the professional's withdrawal from the internship, therefore, automatic termination of the internship. Any problems that may arise during the course of the internship must be urgently reported to the academic tutor.

**4. CERTIFICATION:** Professionals who pass the Internship Program will receive a certificate accrediting their stay at the center.

**5. EMPLOYMENT RELATIONSHIP:** The Internship Program shall not constitute an employment relationship of any kind.

**6. PRIOR EDUCATION:** Some centers may require a certificate of prior education for the Internship Program. In these cases, it will be necessary to submit it to the TECH internship department so that the assignment of the chosen center can be confirmed.

**7. 3.- DOES NOT INCLUDE:** The Internship Program will not include any element not described in the present conditions. Therefore, it does not include accommodation, transportation to the city where the internship takes place, visas or any other items not listed.

However, students may consult with their academic tutor for any questions or recommendations in this regard. The academic tutor will provide the student with all the necessary information to facilitate the procedures in any case.

# 07 Certificate

This private qualification will allow you to obtain a **MBA in Financial Management (CFO, Chief Financial Officer)** endorsed by **TECH Global University**, the world's largest online university.

**Tech Global University** is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **Tech Global University** private qualification is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.
