01

Welcome

Resolving all kinds of incidents in the work environment is one of the highest priority tasks in a company. These may be complaints from customers, colleagues or internal requests from the company itself. When it is, in addition, an institution with an international presence, this task becomes more complicated, since specialists are needed who can solve these problems in other languages. This qualification provides students with the skills to handle such issues with advanced English so that they can become valuable members of their companies.

**Postgraduate Certificate in Complaints and Resolution of Incidents in
Advanced English in the Work Environment
TECH Global University**

“

Solve all types of claims with advanced English and become an essential part of your company”

02

Why Study at TECH?

500+ | collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (a postgraduate learning methodology with the highest international rating) with the Case Study. A complex balance between tradition and state-of-the-art, within the context of the most demanding academic itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a groundbreaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case studies in the academic community"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you training of the highest academic level"

This program will provide students with a multitude of professional and personal advantages, particularly the following:

01

A significant career boost

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of participants achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of companies

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified professors from the most prestigious universities in the world: the TECH Global University community.

We give you the opportunity to train with a team of world renowned teachers.

04 Objectives

The main objective of this Postgraduate Certificate in Complaints and Resolution of Incidents in Advanced English in the Work Environment is to provide students with the best tools to be able to respond to such requests and problems effectively, using the language in an advanced way. Thus, they will become indispensable figures in their companies as they will have the skills to solve these issues, which can lead to reputational failure if they are not properly resolved.

“

*Your goal is to make your company grow:
take this qualification and get it"*

TECH makes the goals of their students their own goals too.
Working together to achieve them.

The Postgraduate Certificate in Complaints and Resolution of Incidents in Advanced English in the Work Environment will enable students to:

01

Solve demanding communicative tasks and perform the complex functions of such tasks, both in the work environment and in everyday situations

04

Use formal expressions in conversations with strangers in a work environment

02

Interact and express yourself in these situations independently and appropriately, using standard spoken language

05

React fluently to any type of difficult question that may be asked

03

Use the necessary linguistic resources to handle complex communication situations in the work environment

06

Handle a multicultural work environment with ease

07

Understand and use appropriate formal expressions when in contact with people from different cultural backgrounds

10

Be capacity to distinguish and adapt to changes in linguistic register

08

Elaborate various types of formal texts useful in a work context

11

Analyze and synthesize visual information and present results and summaries orally

09

Have a good command of the specific structures of different types of texts

12

Talk about more abstract concepts related to the world of work and express their opinion in an elaborated and coherent way

05

Structure and Content

This Postgraduate Certificate in Complaints and Resolution of Incidents in Advanced English in the Work Environment consists of 1 module, divided into 10 subjects.

The program, therefore, develops knowledge related to the internal communication of companies and the management of complaints and incidents, both inside and outside the company. Thus, students will learn vocabulary and linguistic structures to develop in this field using advanced English.

“

*With this knowledge, your work in the company
will become indispensable”*

Syllabus

The internal organization of companies is complex and contains a large number of highly specialized departments and positions. Those dedicated to resolving complaints and incidents, both from within the company and externally (customers, partners, investors, etc.) are key, as it depends on them whether problems are resolved quickly or can grow.

This process becomes more complicated if the company operates internationally, as it will receive various complaints and requests in English. The language of these types of messages and texts is very specific, so it is also necessary to know the nuances of the language very well in order to be able to respond to the requests made.

For this reason, this Postgraduate Certificate in Complaints and Resolution of Incidents in Advanced English in the Work Environment is an important qualification that can save time and problems for the company, since it offers the necessary knowledge to solve complaints and formal conflicts of all kinds that may arise at any time.

This program is developed over 6 weeks and consists of 1 module:

Module 1.

Incident Resolution and Interdepartmental Communication

Where, When and How is it Taught?

TECH offers the opportunity to study this Postgraduate Certificate in Complaints and Resolution of Incidents in Advanced English in the Work Environment, entirely online. Over the 6 weeks of the specialization, the student will be able to access all the contents of this program at any time, which will allow the students to self-manage their study time.

A unique, key, and decisive educational experience to boost your professional development and make the definitive leap.

1.1. Departments and Specialized Positions in a company	1.2. Complex Responsibilities and Duties of Departments and Positions	1.3. Hierarchies in the Workplace	1.4. Types of Complex and Detailed Incidents and Complaints
1.5. Addressing and Resolving Complex and Detailed Incidents and Complaints	1.6. Unilateral Communication in the Business Environment and its Advantages	1.7. Bilateral Business Communication and its Advantages	1.8. Voluntary Resignations and Vacation Requests
1.9. Medical and Maternity/Paternity Leave	1.10. Warning and Dismissal Procedures		

Be the most useful person in your company: specialize in advanced English applied to the resolution of complaints and incidents"

06

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

This program prepares you to face business challenges in uncertain environments and achieve business success.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“

You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

Our Students' Profiles

This program is aimed at all those people interested in becoming an expert in Complaints and Resolution of Incidents in Advanced English in the Work Environment. This skill is increasingly demanded by companies since, with their expansion and opening to new geographies, they need specialists who handle different registers of English and the one applied to this type of incidents is vital for the proper functioning of companies.
