01
Welcome

Compliance is essential in the business sector to ensure legality and ethics in business, thus preventing reputational risks and financial penalties. To address this key area, this degree is designed to provide the tools and knowledge necessary to effectively manage the function of compliance plans. The degree focuses on topics such as leadership, communication, monitoring, whistleblowing channels, incentives and disciplinary measures, in addition to Corporate Compliance, the recording of plans and reporting of results or the relationship of the Compliance department with others. In addition, this academic opportunity is 100% online and gives the student the baton of the management of their study sessions.

Postgraduate Certificate in Corporate Compliance Management.
TECH Global University

Get all the keys to master compliance at the corporate level and avoid all kinds of risks for your company"

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class center for intensive managerial skills education.

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Global University

Innovation

The university offers an online learning model that balances the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"Microsoft Europe Success Story", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

+100000 executives prepared each year

+200 different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

+500 collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (postgraduate learning methodology with the best international valuation) with the Case Study. Tradition and vanguard in a difficult balance, and in the context of the most demanding educational itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a ground-breaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case analyses in academia"

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you education of the highest academic level"

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

01

A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of students achieve positive career development in less than 2 years.

02

Improve your communication and leadership skills and enhance your career.

08 You will be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified teachers from the most prestigious universities in the world: the TECH Global University community.

We give you the opportunity to study with a team of world-renowned teachers.

Objectives

The increasing use of information and communication technologies in the marketplace has led to an increase in cases of corporate fraud, which has made Compliance a crucial tool in the fight against misconduct. With this in mind, TECH has created this Postgraduate Certificate with the objective of enabling professionals to handle in detail the fundamental aspects of this field, and be equipped with the necessary resources to carry out an effective and ethical service of identification and classification of legal risks.

Achieve success in compliance management by mastering enterprise risk control tools"

TECH makes the goals of their students their own goals too.
Working together to achieve them.
The **Postgraduate Certificate in Corporate Compliance Management** will enable the student to:

01 Analyze the principles of corporate governance and identify the risks that affect them

04 Examine the tool that underpins the operation of a whistleblower channel for the detection and sanctioning of punishable conducts

02 Mastering the relevant tools to make the institution of Compliance work

03 Interpret the main indicators of the corporate compliance activity

05 Adapt the information received from the channels to the objectives of the compliance program planning
06 To be able to master the various tools at the service of the enterprise risk control activity and to acquire ability to identify these risks

07 Classify, record and assess the scope
Tasks of a compliance officer

08 Identify and evaluate the measures to be taken

Structure and Content

The Postgraduate Certificate in Corporate Compliance Management is presented as a fully customized online Postgraduate Certificate, which adapts perfectly to the needs of schedules and interests. Its 100% online modality makes it easy to choose the time and place that best suits the student's availability. With a duration of 12 weeks, this Postgraduate Certificate seeks to provide a unique and rewarding educational experience that lays the foundation for professional success.

Access with just a PC or Tablet to a Postgraduate Certificate that will take your career to unsuspected heights"

Syllabus

The Postgraduate Certificate in Corporate Compliance Management from TECH Global University is a program designed to provide a unique and intensive experience that will prepare you to face challenges and make business decisions in the field of Compliance.

The curriculum is focused on developing management skills to make more rigorous decisions in uncertain environments, and has a duration of 12 weeks, being perfectly compatible with any personal or professional obligation.

Through the realization of practical cases, both in teams and individually, we seek to achieve an immersion in real business situations. In addition, emphasis is placed on the importance of the digital world, the legislative framework and e-commerce in companies to train students in a strategic, international and innovative perspective of Compliance.

This Postgraduate Certificate is designed with students with a management profile in mind, with a focus on perfecting their professional skills and achieving excellence in business management. It contains innovative content based on the latest trends, and is delivered through the best educational methodology and an exceptional faculty.

This Postgraduate Certificate takes place over 12 weeks and is divided into 2 modules:

Module 1	Corporate Compliance. Regulatory Framework.
Module 2	Business Management Elements of Compliance

Where, When and How is it Taught?

2.10.5. Relationship with the second line of defense: Risk

Delve into the relationship between the Compliance department and the rest of the company with TECH"

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning.**

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

This program prepares you to face business challenges in uncertain environments and achieve business success.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

> *You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments"*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

01 learning from evidence

02 relearning from evidence

03 testing

04 learning from an expert

05 neurocognitive context dependent learning

06 Von-Restorff effect

07 case based learning through storytelling

08 competencies testing (retesting)

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

Our Students' Profiles

The Executive Master's Degree is aimed at Graduates who have previously completed any of the following degrees in the field of Social and Legal Sciences, Administration and Economics.

This program uses a multidisciplinary approach as the students have a diverse set of academic profiles and represent multiple nationalities.

The Postgraduate Certificate may also be taken by professionals who, being university graduates in any area, have two years of work experience in the field of Compliance.

Vanessa Sánchez Mendoza

Legal department coordination

"After seeing how other competing companies had suffered costly sanctions that were avoidable, I decided to specialize in Corporate Compliance and came across this degree. Thanks to it, I was able to master all the key aspects of their business management and combine it with my work, so it has been extremely useful for me"

Course Management

TECH considers it essential that its Postgraduate Certificates have the best professors in each area. Therefore, for this Postgraduate Certificate they have selected a group of experts in Corporate Compliance with experience in different areas of the legal and business fields. In this way, students will have access to high quality support that will allow them to make the most of their academic experience, enhancing their management skills.

Maximize your managerial and leadership skills in compliance management with the advice of prestigious legal experts"

International Guest Director

Awarded twice for her collaborative work with the Disney Destination International team, Anna Odell is a prestigious Data Protection specialist. With an extensive career spanning more than 20 years, her work has focused on ensuring compliance and developing multiple privacy policies.

Her knowledge and skills have allowed her to be part of recognized international reference companies such as Walt Disney in the United Kingdom. In this way, she has been in charge of conducting both periodic audits and impact assessments to optimize data management practices. At the same time, she has supervised the response to any incident related to information security, including breaches or unauthorized access. In this regard, she has also provided numerous trainings to employees on the optimal handling of personal data and compliance with privacy regulations.

Likewise, she has led technological projects involving the use of personal data, ensuring that the appropriate privacy standards are met. In line with this, she has acted as a point of contact between companies and regulatory authorities on data protection issues, responding to requests and reports.

Moreover, she has led a variety of initiatives that have helped parents to establish procedures for their children to make responsible use of the Internet. In this way, she has helped to make families aware of the websites that minors visit, the sites on which they register their personal data and even their registrations. Thanks to this, she has prevented children from being confronted with inappropriate content such as violent or sexual images or those that promote dangerous behavior. She has also made it possible to detect early signs of bullying, giving parents the opportunity to intervene to support their children.

Ms. Odell, Anna

- Director of Data Protection and Privacy at the Walt Disney Company, London, United Kingdom
- Chief Compliance, Operations and Communications Officer, Disney Cruise Line, Florida
- Senior Manager of Data Protection and Compliance EMEA at the Walt Disney Company
- Manager of Broadcast Operations at Disney Channel, London
