Welcome

In today's digital age, cybersecurity has become an increasing concern for companies. Cyber threats can have devastating consequences, including loss of critical data, business operation disruption and loss of customer trust. Mitigate these risks, companies must implement sound cybersecurity compliance practices. The Postgraduate Certificate in Cybersecurity Compliance is a unique and valuable option for those looking to strengthen their skills in this area. The program is delivered 100% online, allowing students to learn from anywhere and at their own pace. In addition, a renowned International Guest Director will deliver an intensive Masterclass.

Postgraduate Certificate in Cybersecurity Compliance
TECH Technological University

“

A prestigious International Guest Director will offer a comprehensive Masterclass on new techniques in Cybersecurity Compliance”

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class center for intensive managerial skills education.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that balances the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"*Microsoft Europe Success Story*", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

+100000

executives prepared each year

+200

different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

+500

collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case analyses in academia"

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (postgraduate learning methodology with the best international valuation) with the Case Study. Tradition and vanguard in a difficult balance, and in the context of the most demanding educational itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a ground-breaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you education of the highest academic level”

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

01

A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of students achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of the company

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional fields.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

You will take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects.

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different fields in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

You will be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified teachers from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to study with a team of world-renowned teachers.

04 Objectives

This Postgraduate Certificate program is designed to enhance the student's skills and competencies in this area, giving them the necessary tools to face the reality of this field and for their professional development. After the program, they will be equipped to make global decisions with an innovative perspective and an international vision. Consolidate your leadership.

“

TECH's objective is to help you develop the essential skills to manage people with a strategic and innovative vision"

**TECH makes the goals of their students their own goals too
Working together to achieve them**

The **Postgraduate Certificate in Cybersecurity Compliance** will enable students to:

01

Establish the use of networks by companies

02

Clearly express the objectives and methodology followed to implement a cybersecurity compliance plan

03

Discern and evaluate the different risks of the use of Technologies ICTs affecting a company

04

Determine the different competition compliance programs in order to achieve the greatest legal precision and economic efficiency.

05

Develop an original risk plan in this area, present it and justify it

06

Evaluate measures taken to prevent network crime

07

Clearly express the methodology followed

08

Master digital consumer protection

05

Structure and Content

All the teaching resources of this syllabus have been designed by the renowned professionals that make up TECH's team of experts in this area. These specialists have used their extensive experience and their most advanced knowledge to create practical and completely innovative contents. All this, based on the most efficient pedagogical methodology, TECH's Relearning.

“

Enroll now and boost your professional profile as a leader in the area of Cybersecurity to achieve your most demanding goals in a short period of time"

Syllabus

The Postgraduate Certificate in Cybersecurity Compliance of TECH Global University is an intensive program that prepares you to face challenges and business decisions in this field. The content of the Postgraduate Certificate in Cybersecurity Compliance is designed to promote the development of managerial skills that enable more thorough decision making in uncertain environments.

Over the course of 180 hours, the student analyzes a plethora of practical cases through individual and team work. It is, therefore, an authentic immersion in real business situations.

This Postgraduate Certificate deals in depth with the Use of Technological Media in the Company, Social Media Campaigns, Operational Risk Management or Electronic Contracting. It is designed to train professionals who understand cybersecurity from a strategic, international and innovative perspective.

A plan designed for you, focused on improving your career and preparing you to achieve excellence in leadership and business management. A program that understands both yours and your company's needs through innovative content based on the latest trends, and supported by the best educational methodology and an exceptional faculty, which will provide you with the skills to solve critical situations, creatively and efficiently.

This Postgraduate Certificate in Cybersecurity Compliance takes place over 6 weeks and is divided into 1 module:

Module 1

Compliance to mitigate cybersecurity risks and the use of technologies in the company

Where, When and How is it Taught?

TECH offers students the opportunity to take this Postgraduate Certificate in Cybersecurity Compliance completely online. During the 6 weeks of the specialization, the student will be able to access all the contents of this program at any time, which will allow them to self-manage their study time.

A unique educational experience, key and decisive to boost your professional development and make the definitive leap.

Module 1. Compliance to Mitigate Cybersecurity Risks and the Use of Technologies in the Company

1.1. Technological Compliance in the Company Environment

- 1.1.1. Digital Compliance. Evolution of Compliance in the Technological Era
- 1.1.2. Regulatory Framework of the Digital Environment
- 1.1.3. Coordination of Compliance with Other Areas (CISO)

1.2. Use of Technological Means in the Company

- 1.2.1. General Rules for Implementation and Use
- 1.2.2. Hardware Rules. Software Rules
- 1.2.3. Electronic Media Rules. Visual Media and Geolocation Rules

1.3. Use of Social Networks in Business Field

- 1.3.1. Social Networking and Internet use Policy
- 1.3.2. Confidentiality of Business Information and Social Networks
- 1.3.3. Social Media Campaigns

1.4. Operational Risk Management: Business Vontinuity and Disaster Recovery Planning

- 1.4.1. Business Continuity Plans
- 1.4.2. Disaster Recovery Plan
- 1.4.3. Third-party Agreements
- 1.4.4. Suppliers and Subcontractors

1.5. Classification of Business Information

- 1.5.1. Classification of Information
- 1.5.2. Control Measures of the Information According to its Sensitivity
- 1.5.3. Data Incident Management Procedure

1.6. Cybersecurity. Essential Element of Corporate Protection

- 1.6.1. Regulatory Framework
- 1.6.2. Framework Control and Cybersecurity
- 1.6.3. Development of Internal Tests and Audits: Penetration Tests
- 1.6.4. Cybersecurity Incidents
- 1.6.5. Post-mortem, Notification and Remediation

1.7. Controls on Third Parties: Splitting in Technology Value Chains

- 1.7.1. Types of Suspicious Transactions
- 1.7.2. Monitoring Design
- 1.7.3. Monitoring Flow
- 1.7.4. Types of Suspicious Transactions

1.8. Electronic Contracting, Consumer Protection and Digital Signature. New Issues

- 1.8.1. Electronic contracting Electronic Signature and Digital Signature
- 1.8.2. Digital Consumer Protection: DMA and DSA
- 1.8.3. Digital Identity

1.9. RegTech: Preventive Technologies in Compliance

- 1.9.1. Preventive Controls
- 1.9.2. Compliance by Design: Controls in the Development of Systems
- 1.9.3. Technological Preventive Compliance Guides

1.10. RegTech: Detectable Technologies in Compliance

- 1.10.1. Monitoring Systems
- 1.10.2. Incident and Analysis Detection
- 1.10.3. Internal, Customer and Regulatory Reports

06

Study Methodology

TECH is the world's first university to combine the **case study** methodology with **Relearning**, a 100% online learning system based on guided repetition.

This disruptive pedagogical strategy has been conceived to offer professionals the opportunity to update their knowledge and develop their skills in an intensive and rigorous way. A learning model that places students at the center of the educational process giving them the leading role, adapting to their needs and leaving aside more conventional methodologies.

“

TECH will prepare you to face new challenges in uncertain environments and achieve success in your career”

The student: the priority of all TECH programs

In TECH's study methodology, the student is the main protagonist.

The teaching tools of each program have been selected taking into account the demands of time, availability and academic rigor that, today, not only students demand but also the most competitive positions in the market.

With TECH's asynchronous educational model, it is students who choose the time they dedicate to study, how they decide to establish their routines, and all this from the comfort of the electronic device of their choice. The student will not have to participate in live classes, which in many cases they will not be able to attend. The learning activities will be done when it is convenient for them. They can always decide when and from where they want to study.

“

*At TECH you will NOT have live classes
(which you might not be able to attend)”*

The most comprehensive study plans at the international level

TECH is distinguished by offering the most complete academic itineraries on the university scene. This comprehensiveness is achieved through the creation of syllabi that not only cover the essential knowledge, but also the most recent innovations in each area.

By being constantly up to date, these programs allow students to keep up with market changes and acquire the skills most valued by employers. In this way, those who complete their studies at TECH receive a comprehensive education that provides them with a notable competitive advantage to further their careers.

And what's more, they will be able to do so from any device, pc, tablet or smartphone.

“

TECH's model is asynchronous, so it allows you to study with your pc, tablet or your smartphone wherever you want, whenever you want and for as long as you want”

Case Studies and Case Method

The case method has been the learning system most used by the world's best business schools. Developed in 1912 so that law students would not only learn the law based on theoretical content, its function was also to present them with real complex situations. In this way, they could make informed decisions and value judgments about how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

With this teaching model, it is students themselves who build their professional competence through strategies such as Learning by Doing or Design Thinking, used by other renowned institutions such as Yale or Stanford.

This action-oriented method will be applied throughout the entire academic itinerary that the student undertakes with TECH. Students will be confronted with multiple real-life situations and will have to integrate knowledge, research, discuss and defend their ideas and decisions. All this with the premise of answering the question of how they would act when facing specific events of complexity in their daily work.

Relearning Methodology

At TECH, case studies are enhanced with the best 100% online teaching method: Relearning.

This method breaks with traditional teaching techniques to put the student at the center of the equation, providing the best content in different formats. In this way, it manages to review and reiterate the key concepts of each subject and learn to apply them in a real context.

In the same line, and according to multiple scientific researches, reiteration is the best way to learn. For this reason, TECH offers between 8 and 16 repetitions of each key concept within the same lesson, presented in a different way, with the objective of ensuring that the knowledge is completely consolidated during the study process.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

A 100% online Virtual Campus with the best teaching resources

In order to apply its methodology effectively, TECH focuses on providing graduates with teaching materials in different formats: texts, interactive videos, illustrations and knowledge maps, among others. All of them are designed by qualified teachers who focus their work on combining real cases with the resolution of complex situations through simulation, the study of contexts applied to each professional career and learning based on repetition, through audios, presentations, animations, images, etc.

The latest scientific evidence in the field of Neuroscience points to the importance of taking into account the place and context where the content is accessed before starting a new learning process. Being able to adjust these variables in a personalized way helps people to remember and store knowledge in the hippocampus to retain it in the long term. This is a model called Neurocognitive context-dependent e-learning that is consciously applied in this university qualification.

In order to facilitate tutor-student contact as much as possible, you will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, email contact with the technical secretary, chat and videoconferences).

Likewise, this very complete Virtual Campus will allow TECH students to organize their study schedules according to their personal availability or work obligations. In this way, they will have global control of the academic content and teaching tools, based on their fast-paced professional update.

The online study mode of this program will allow you to organize your time and learning pace, adapting it to your schedule”

The effectiveness of the method is justified by four fundamental achievements:

1. Students who follow this method not only achieve the assimilation of concepts, but also a development of their mental capacity, through exercises that assess real situations and the application of knowledge.
2. Learning is solidly translated into practical skills that allow the student to better integrate into the real world.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

The university methodology top-rated by its students

The results of this innovative teaching model can be seen in the overall satisfaction levels of TECH graduates.

The students' assessment of the quality of teaching, quality of materials, course structure and objectives is excellent. Not surprisingly, the institution became the best rated university by its students on the Trustpilot review platform, obtaining a 4.9 out of 5.

Access the study contents from any device with an Internet connection (computer, tablet, smartphone) thanks to the fact that TECH is at the forefront of technology and teaching.

You will be able to learn with the advantages that come with having access to simulated learning environments and the learning by observation approach, that is, Learning from an expert.

As such, the best educational materials, thoroughly prepared, will be available in this program:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

This content is then adapted in an audiovisual format that will create our way of working online, with the latest techniques that allow us to offer you high quality in all of the material that we provide you with.

Practicing Skills and Abilities

You will carry out activities to develop specific competencies and skills in each thematic field. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop within the framework of the globalization we live in.

Interactive Summaries

We present the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents, international guides... In our virtual library you will have access to everything you need to complete your education.

Case Studies

Students will complete a selection of the best case studies in the field. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Testing & Retesting

We periodically assess and re-assess your knowledge throughout the program. We do this on 3 of the 4 levels of Miller's Pyramid.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.
Learning from an expert strengthens knowledge and memory, and generates confidence for future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical and effective way to help students progress in their learning.

07

Our Students' Profiles

The Postgraduate Certificate is aimed at university graduates who have previously completed any of the degrees in the fields of Social and Legal, Administrative and Economic Sciences.

This program uses a multidisciplinary approach as the students have a diverse set of academic profiles and represent multiple nationalities.

The Postgraduate Certificate may also be taken by professionals who, being university graduates in any area, have two years of work experience in the field of Compliance Responsibility in the online and offline environment.

“

If you have experience in Cybersecurity and are looking for an interesting career enhancement while continuing to work, this is the program for you"

Average Age

Between **35** and **45** years old

Years of Experience

María Teresa Arbeloa Díaz

Information Security Analyst

"Thanks to the Postgraduate Certificate in Cybersecurity Compliance, I now understand the importance of implementing security measures in my company and how to prevent possible cyberattacks. In addition, I have acquired practical skills and knowledge to ensure regulatory compliance in this area"

08

Course Management

Achieve the highest possible quality of all the content of this program, TECH has selected a group of expert teachers. The manager will have access to a syllabus written by professionals with extensive experience in Cybersecurity, who have contributed their specialized and practical vision to all materials. In this way, the student will learn from the best the keys to their professional development in a field that adapts to new technologies and the latest market developments.

“

Lean on a teaching staff with extensive and outstanding experience in Senior Management and Cybersecurity, who have created the most practical and specialized teaching materials possible"

International Guest Director

Awarded twice for her collaborative work with the Disney Destination International team, Anna Odell is a prestigious **Data Protection** specialist. With an extensive career spanning more than 20 years, her work has focused on ensuring **compliance** and developing multiple **privacy policies**.

Her knowledge and skills have allowed her to be part of recognized international reference companies such as **Walt Disney** in the United Kingdom. In this way, she has been in charge of conducting both periodic **audits** and **impact assessments** to optimize data management practices. At the same time, she has supervised the response to any incident related to **information security**, including breaches or unauthorized access. In this regard, she has also provided numerous trainings to employees on the optimal handling of personal data and compliance with privacy regulations.

Likewise, she has led **technological projects** involving the use of personal data, ensuring that the appropriate privacy standards are met. In line with this, she has acted as a point of contact between companies and regulatory authorities on data protection issues, responding to requests and reports.

Moreover, she has led a variety of initiatives that have helped parents to establish procedures for their children to make **responsible use of the Internet**. In this way, she has helped to make families aware of the websites that minors visit, the sites on which they register their personal data and even their registrations. Thanks to this, she has prevented children from being confronted with inappropriate content such as violent or sexual images or those that promote dangerous behavior. She has also made it possible to detect early signs of bullying, giving parents the opportunity to intervene to support their children.

Ms. Odell, Anna

- ♦ Director of Data Protection and Privacy at the Walt Disney Company, London, United Kingdom
- ♦ Chief Compliance, Operations and Communications Officer, Disney Cruise Line, Florida
- ♦ Senior Manager of Data Protection and Compliance EMEA at the Walt Disney Company
- ♦ Manager of Broadcast Operations at Disney Channel, London

“

Thanks to TECH you will be able to learn with the best professionals in the world"

Management

Dr. Muñoz Pérez, Ana Felicitas

- ♦ Lawyer specialized in Commercial Law
- ♦ Lawyer in TDP Methods
- ♦ Lawyer in Methods and Business Organizers
- ♦ Lawyer at Lupicinio International Law Firm
- ♦ Professor at the URJC
- ♦ PhD in Commercial Law from the Complutense University of Madrid
- ♦ Law Degree from the Complutense University of Madrid
- ♦ Master's Degree in Legal Consultancy
- ♦ Master's Degree in Competition Law

09

Impact on Your Career

Taking the Postgraduate Postgraduate Certificate in Cybersecurity Compliance will have a significant impact on your career. This course provides students with the skills and knowledge necessary to excel in the Cybersecurity field, which can increase your employment opportunities and earning potential.

“

Thanks to TECH you will considerably broaden your knowledge and work on improving your professional leadership skills, quickly and accurately"

If you want to reach your highest goals, the Postgraduate Certificate in Cybersecurity Compliance will help you achieve them.

Are you ready to take the leap? Excellent professional development awaits you

TECH's Postgraduate Certificate in Cybersecurity Compliance is an intensive program that prepares you to face challenges and business decisions in the field of Cybersecurity. The main objective is to promote your personal and professional growth. Helping you achieve success.

If you want to improve yourself, make a positive change at a professional level, and network with the best, then this is the place for you.

Do not miss the opportunity to train in one of the areas with the greatest future in the business world, you will get the improvement you are looking for.

The completion of this program represents a salary increase of more than **27.32%** for our students.

10

Benefits for Your Company

Having a specialist who has completed the Postgraduate Certificate in Cybersecurity Compliance can be highly beneficial for companies, as it will allow them to be better prepared to face the challenges in terms of information security and regulatory compliance. These professionals have extensive knowledge of cybersecurity best practices and existing regulations, enabling them to design, implement and maintain effective security measures and comply with legal obligations in this area.

“

The Cybersecurity Manager is a key figure in companies of all sectors, as he/she will provide knowledge and strategies essential to achieve objectives in an efficient manner”

Developing and retaining talent in companies is the best long-term investment.

01

Growth of talent and intellectual capital

The professional will introduce the company to new concepts, strategies, and perspectives that can bring about significant changes in the organization.

02

Retaining high-potential executives to avoid talent drain

This program strengthens the link between the company and the professional and opens new avenues for professional growth within the company.

03

Building agents of change

You will be able to make decisions in times of uncertainty and crisis, helping the organization overcome obstacles.

04

Increased international expansion possibilities

Thanks to this program, the company will come into contact with the main markets in the world economy.

05

Project Development

The professional can work on a real project or develop new projects in the field of R & D or business development of your company.

06

Increased competitiveness

This program will equip students with the skills to take on new challenges and drive the organization forward.

11

Certificate

The Postgraduate Certificate in Cybersecurity Compliance guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Global University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

This private qualification will allow you to obtain a **Postgraduate Certificate in Cybersecurity Compliance** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University** private qualification is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.
