01 Welcome

Financial Compliance refers to the set of guidelines focused on ensuring compliance with regulations and legality in companies in the world of finance. Therefore, specialists in this field are responsible for preventing organizations from suffering economic and legal sanctions that significantly affect their viability, which is why their figure is increasingly required by companies. As a result, TECH has designed this program, which allows students to delve into consumer and investor protection strategies or the management of financial compliance risks, growing professionally in this area. In addition, you will obtain these skills through a 100% online methodology and without adhering to pre-established schedules.

Postgraduate Certificate in Financial Compliance.
TECH Global University

“

Increase your skills to manage the risks derived from Financial Compliance and multiply your career prospects in this sector”

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class center for intensive managerial skills education.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Global University

Innovation

The university offers an online learning model that balances the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"*Microsoft Europe Success Story*", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

+100000

executives prepared each year

+200

different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

+500

collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (postgraduate learning methodology with the best international valuation) with the Case Study. Tradition and vanguard in a difficult balance, and in the context of the most demanding educational itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a groundbreaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case analyses in academia"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you education of the highest academic level”

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

01

A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of students achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of the company

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional fields.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

You will take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects.

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different fields in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

You will be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified teachers from the most prestigious universities in the world: the TECH Global University community.

We give you the opportunity to study with a team of world-renowned teachers.

04 Objectives

The Postgraduate Diploma in Financial Compliance aims to provide students with the most advanced knowledge and skills in this demanding field. In this way, they will be able to adequately manage the existing risks in this area or to adopt measures to avoid crimes in this field. All this, in only 6 weeks, allowing the professional to balance their work and professional obligations with their studies.

“

Develop yourself in the field of Financial Compliance in just 6 weeks and boost your professional career”

TECH makes the goals of their students their own goals too.
Working together to achieve them.

The **Postgraduate Certificate in Financial Compliance** will enable students to:

01

Determine the prohibited conducts in the field of Compliance in the financial sector

02

Clearly express the objectives and methodology followed to implement a compliance plan

03

Determine the different risks and mitigating tools in this specific sector

04

Elaborate an original risk plan and present and justify it

05

Evaluate the measures adopted in order to avoid crimes specific to this sector

06

Clearly express the methodology followed when identifying Financial Compliance risks

05

Structure and Content

The Postgraduate Certificate in Financial Compliance is taught in a 100% online format and uses the Relearning methodology, which allows students to access the contents at any time and from anywhere. This program is also divided into very complete topics that break down in detail the most relevant aspects in this field to facilitate the assimilation of knowledge.

“

This Postgraduate Certificate has a 100% online methodology that will enable you to optimize your studies from your own home"

Syllabus

The Postgraduate Certificate in Financial Compliance offered by TECH Global University is a program that provides a solid education to face challenges and make business decisions in the field of Corporate Compliance. Its content is designed to promote the development of managerial skills so that students can perform with greater rigor in uncertain environments.

During 180 hours of training, students have the opportunity to analyze numerous case studies both individually and in teams, providing them with an immersive experience in real business situations.

This Postgraduate Certificate deals in depth with topics such as consumer and investor protection, compliance risk management, financial market regulation and the prevention of financial crime. All this, with the aim of qualifying professionals who understand Corporate Compliance from a strategic and innovative perspective.

This syllabus is designed with the professional improvement of students in mind and how to prepare them to achieve excellence in the field of leadership and business management. In addition, the program is focused on the latest trends, with innovative content and supported by the best educational methodology and an exceptional faculty.

This Postgraduate Certificate is developed over 6 weeks and is divided into 1 module:

- 1.10.1. Compliance as a Project Manager
- 1.10.2. Pillars in Compliance Project Management
- 1.10.3. Compliance Project Life Cycle

Enjoy educational content in a variety of textual and multimedia formats and choose the one that best suits your educational needs"

06

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

This program prepares you to face business challenges in uncertain environments and achieve business success.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“*You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments*”

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

Our Students' Profiles

The Postgraduate Certificate is aimed at University Graduates who have previously completed any of the following degrees in the field of Social and Legal Sciences, Administration and Economics.

This program uses a multidisciplinary approach as the students have a diverse set of academic profiles and represent multiple nationalities.

The Postgraduate Certificate may also be taken by professionals who, being university graduates in any area, have two years of work experience in the field of Corporate Compliance.

“

*Perfect your skills in Financial Compliance

Pablo Álvarez

Compliance Officer

"The Postgraduate Certificate in Financial Compliance has provided me with a solid and up-to-date understanding of risks and regulations in the financial sector. Thanks to this knowledge, I have achieved great professional growth and have been able to generate greater value for my company"

08

Course Management

The teaching team of the Postgraduate Certificate in Financial Compliance is made up of professionals who are active in this area and who, in addition, have extensive experience in this field. As such, they have held the position of Compliance Officer in different top level companies, which allows them to transmit a practical and updated vision of the sector to the students, who will enjoy quality learning and usefulness in their work.

“

In order to provide you with the most up-to-date knowledge on Financial Compliance, this Postgraduate Certificate is taught by active specialists in the field"

International Guest Director

Awarded twice for her collaborative work with the Disney Destination International team, Anna Odell is a prestigious Data Protection specialist. With an extensive career spanning more than 20 years, her work has focused on ensuring compliance and developing multiple privacy policies.

Her knowledge and skills have allowed her to be part of recognized international reference companies such as Walt Disney in the United Kingdom. In this way, she has been in charge of conducting both periodic audits and impact assessments to optimize data management practices. At the same time, she has supervised the response to any incident related to information security, including breaches or unauthorized access. In this regard, she has also provided numerous trainings to employees on the optimal handling of personal data and compliance with privacy regulations.

Likewise, she has led technological projects involving the use of personal data, ensuring that the appropriate privacy standards are met. In line with this, she has acted as a point of contact between companies and regulatory authorities on data protection issues, responding to requests and reports.

Moreover, she has led a variety of initiatives that have helped parents to establish procedures for their children to make responsible use of the Internet. In this way, she has helped to make families aware of the websites that minors visit, the sites on which they register their personal data and even their registrations. Thanks to this, she has prevented children from being confronted with inappropriate content such as violent or sexual images or those that promote dangerous behavior. She has also made it possible to detect early signs of bullying, giving parents the opportunity to intervene to support their children.

Ms. Odell, Anna

- Director of Data Protection and Privacy at the Walt Disney Company, London, United Kingdom
- Chief Compliance, Operations and Communications Officer, Disney Cruise Line, Florida
- Senior Manager of Data Protection and Compliance EMEA at the Walt Disney Company
- Manager of Broadcast Operations at Disney Channel, London

“

Thanks to TECH, you will be able to learn with the best professionals in the world”
