01

Welcome

The majority of the population has very limited financial knowledge. However, throughout their lives they have to face situations that will require some skills in this area. Managing an inheritance or setting up a pension plan are some of the financial services most in demand by the average person. That's why businesses like consultancy agencies are so successful. In this sense, TECH has developed a complete program that addresses Financial Planning from daily perspectives. Offering specialized learning for the services mentioned above, or others of a more technical nature, such as portfolio management or capital accumulation plans. All this, through a 100% online modality and with no schedules, which prioritizes the student's organization.

Postgraduate Certificate in Financial Planning.
TECH Technological University

“

In this Postgraduate Certificate, you will learn all the keys to create a retirement plan or manage an inheritance”

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class centre for intensive managerial skills training.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that combines the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"Microsoft Europe Success Story", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

100,000+
executives trained each year

200+
different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

500+ | collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning methodology (the most internationally recognized postgraduate learning methodology) with Harvard Business School case studies. A complex balance of traditional and state-of-the-art methods, within the most demanding academic framework.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a groundbreaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH you will have access to Harvard Business School case studies"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you training of the highest academic level"

This program will provide students with a multitude of professional and personal advantages, particularly the following:

01

A significant career boost

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of participants achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of companies

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional areas.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

Take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different areas in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

Be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified professors from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to train with a team of world renowned teachers.

04

Objectives

Graduates of this Postgraduate Certificate will delve into the principles of Financial Planning. Learning how to make a retirement plan, manage an inheritance and develop capital accumulation plans. In addition, notions of psychology applied to investment will be acquired and we will work with different planning strategies.

“

How long you have to contribute or what pension you are entitled to depending on the time you have worked. This and other questions are answered in this Postgraduate Certificate”

**TECH makes the goals of their students their own goals too.
Working together to achieve them.**

This **Postgraduate Certificate in Financial Planning** enables students to:

01

Learn the basic principles of financial advisory

02

Learn how to plan for retirement

03

Develop capital accumulation plans

04

Manage inheritances

05

Get to know the particularities of psychology applied to investment

06

Work with various Financial Planning strategies

05

Structure and Content

TECH works with the *Relearning* teaching methodology. This means that the most important Financial Planning concepts are repeated progressively throughout the syllabus. This allows the student to learn them in a natural way, reducing the number of study hours. In addition, these contents will be available 24 hours a day, making it easier to combine work and personal life.

“

Enroll and delve into capital accumulation plans so you can offer your clients what best suits their income level”

Syllabus

The most demanding financial reality requires leaders adapted to the new economic paradigms, with up-to-date tools and improved investment skills.

In this sense, the syllabus of this Postgraduate Certificate addresses Financial Planning from the point of view of current needs. Emphasizing services such as retirement planning and inheritance management, among others.

Nevertheless, the program does not only focus on the theory related to Financial Planning. But also, on the development of transversal competencies and distinctive leadership. Going beyond the basic skills necessary and indispensable in today's labor market.

To this end, a variety of case studies and simulated scenarios are presented. In which students will develop their managerial and organizational skills to become first-line team managers.

A plan aimed at professionals interested in leading and managing workforces, a unique opportunity to enhance managerial and organizational skills. Understanding the needs of today's market and specializing in exceeding them by far.

This Postgraduate Certificate takes place over six weeks and consists of one module:

Module 1.

Financial Planning

Where, When and How is it Taught?

TECH offers students the opportunity to take this Postgraduate Certificate in Financial Planning entirely online. Over the 6 weeks of the specialization, the student will be able to access all the contents of this program at any time, which will allow the students to self-manage their study time.

A unique, key, and decisive educational experience to boost your professional development and make the definitive leap.

- 1.10.3. Asset Distribution Between Real Estate and Movable Assets

“

Capital accumulation plans have very specific life cycles. By taking this program, you will be able to identify your customer's current situation”

06

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

This program prepares you to face business challenges in uncertain environments and achieve business success.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“ *You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

Our Students' Profiles

The variety of professional profiles attracted by this Postgraduate Certificate in Financial Planning is an excellent opportunity to do *Networking*. Students will meet not only managers and professionals from the world of finance, but also entrepreneurs and people with whom to share ambitions and goals. Therefore, the program is also a place to meet potential business partners, customers or suppliers.

“

TECH's teaching staff will teach you the most appropriate techniques for determining the risk profile with your customers”

Average Age

Between **35** and **45** years old

Years of Experience

Training

Educational Profile

Geographical Distribution

Ramón Cárdenas Gutiérrez

Head of HR

"In the management company where I work there was some chaos. The zones were not well defined, the managers attended to all kinds of requests, and this usually resulted in communication errors. Therefore, my boss paid for this Postgraduate Certificate for me with the intention of beginning to correctly define the functions of each employee. And so it was, four months later we have managed to coordinate the team and the management is working much better"

08

Course Management

TECH has selected a teaching staff with extensive educational backgrounds. In addition to experience in prestigious companies. Therefore, they are professionals who have mastered Financial Planning. In this way, the student will be supported throughout the learning process and will receive answers to the most specific doubts that may arise.

“

At TECH, you will learn different ways to earn extra income during retirement. This is a generalized request from the clients of the management companies”

Management

Mr. Olivares Pont, Manuel

- Wealth Manager at GPM
- Wealth Manager at Andbank Spain
- Wealth Manager at Esfera Capital A.V
- Wealth Manager at Q-Renta AV
- Managing Partner of ARBD Consulting
- Personal Banking Consultant and Financial Advisor at Banco Mediolanum
- Consultant of EFA Certification and Financial Instruments for Commercial Networks at ISEFI, SANFI and Praxis MMT
- Degree in Business Administration from Universidad Complutense de Madrid

09

Impact on Your Career

TECH seeks the greatest positive impact on students' professional career path. Therefore, not only are you provided with the most up-to-date knowledge in Financial Planning, but also all this theory is complemented with the most important competencies that a leader currently should have. As a result, the graduate will be able to position themselves as a top-level manager.

“

There is a general lack of knowledge about the implications of inheritance. In this program, you will learn all the keys to respond to one of the main demands of customers”

Are you ready to take the leap? Excellent professional development awaits you

TECH's Postgraduate Certificate in Financial Planning is an intensive program that prepares students to face business challenges and decisions in the field of global economy. Its primary objective is to promote personal and professional growth and help you achieve success.

During the final part of the syllabus, you will learn how to advise a client according to his movable and immovable assets.

A section has been reserved in the program to identify a client's biases and to be able to advise him/her accordingly.

Time of Change

Type of change

Salary Increase

This program represents a salary increase of more than **29%** for our students.

10

Benefits for Your Company

Graduates will be prepared to immediately incorporate all their knowledge into daily practice. This implies that companies will benefit, since the management and investment planning capacity of their executives will be improved.

“

TECH's teaching staff will provide you with very useful tips when it comes to customer loyalty”

Developing and retaining talent in companies is the best long-term investment.

01

Intellectual Capital and Talent Growth

The professional will introduce the company to new concepts, strategies, and perspectives that can bring about significant changes in the organization.

02

Retaining high-potential executives to avoid talent drain

This program strengthens the link between the company and the professional and opens new avenues for professional growth within the company.

03

Building agents of change

Be able to make decisions in times of uncertainty and crisis, helping the organization to overcome obstacles.

04

Increased international expansion possibilities

Thanks to this program, the company will come into contact with the main markets of the world economy.
