# 01

# Welcome

Foreign exchange trading has become a highly sought-after activity nowadays. However, this is a complex area, where the chances of earning large sums of money are directly proportional to generating multi-million dollar losses. For this reason, the figure of the broker has been gaining more and more relevance in the financial and stock market sector, becoming a very important asset for thousands of companies around the world. In addition, and given the difficulty of the Forex Brokerage profession, TECH wanted to compress the keys to mastering this activity into 150 hours of diverse content. This is an intensive, multidisciplinary, 100% online degree that is ideal for getting up to speed and mastering Forex in just 6 weeks.

Postgraduate Certificate in Forex Broker.  
TECH Technological University

“

*In this program you will find a detailed analysis of Forex trends, so you can get up to date on the best strategies to trade based on each one of them”*

02

# Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class center for intensive managerial skills education.

“

*TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"*

## At TECH Technological University

### Innovation

The university offers an online learning model that balances the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"*Microsoft Europe Success Story*", for integrating the innovative, interactive multi-video system.

### The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

**95%** | of TECH students successfully complete their studies

### Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

**+100000**

executives prepared each year

**+200**

different nationalities

### Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

**+500**

collaborative agreements with leading companies

### Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

### Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

### Learn with the best

---

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

*At TECH, you will have access to the most rigorous and up-to-date case analyses in academia"*

### Analysis

---

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

### Academic Excellence

---

TECH offers students the best online learning methodology. The university combines the *Relearning* methodology (the most internationally recognized postgraduate learning methodology) with Harvard Business School case studies. A complex balance of traditional and state-of-the-art methods, within the most demanding academic framework.

### Economy of Scale

---

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a groundbreaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

03

# Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

*We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you education of the highest academic level”*

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

**01**

### A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

*70% of students achieve positive career development in less than 2 years.*

**02**

### Develop a strategic and global vision of the company

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional fields.

*Our global vision of companies will improve your strategic vision.*

**03**

### Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

*You will work on more than 100 real senior management cases.*

**04**

### You will take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

*45% of graduates are promoted internally.*

05

### Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

*You will find a network of contacts that will be instrumental for professional development.*

06

### Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different fields in companies.

*20% of our students develop their own business idea.*

07

### Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

*Improve your communication and leadership skills and enhance your career.*

08

### You will be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified teachers from the most prestigious universities in the world: the TECH Technological University community.

*We give you the opportunity to study with a team of world-renowned teachers.*

# 04 Objectives

The main objective of this Postgraduate Certificate is for the graduate to master the role of the Forex Broker. For this reason, TECH has put together 150 hours of the best theoretical, practical and additional content, based, as it could not be otherwise, on the immediate current activity in the foreign exchange market. In this way, you will be able to specialize in this area in less than 6 weeks, generating, in addition to a comprehensive set of knowledge, the competencies of any expert in the field.

“

*Throughout the 6 weeks, you will delve into risk management and leverage in Forex trading through multiple theoretical, practical and additional resources”*

TECH makes the goals of their students their own goals too.  
Working together to achieve them.

The Postgraduate Certificate in Forex Broker will qualify the student to:

01

Analyze the different factors affecting the foreign exchange market

02

Identify the different technical and fundamental analysis tools and strategies

03

To develop trading skills in the foreign exchange market

04

Evaluating performance and improving trading strategies

05

# Structure and Content

To develop the content of this Postgraduate Certificate, TECH has made a detailed analysis of the current situation of the financial market, focusing on the broker's activity and the casuistry that must be mastered to successfully carry out his profession. In addition, the support of the teaching staff and their contributions to the syllabus and additional material add to the quality and variety of the course, giving way to a complete, dynamic and highly professionalizing academic experience.

“

*On the Online Campus you will find 150 hours of the best theoretical, practical and additional content, selected by the teaching team and based on the current reality of the broker's activity”*

## Syllabus

For the design of the curriculum of this Postgraduate Certificate in Forex Broker, TECH has taken as a reference the indications of the teaching team that, being formed by professionals of the highest level within the business and financial area, are up to date with the latest developments, in addition to knowing the fields that the graduate must master to achieve success. Thus, it has been possible to compile 150 hours of the best theoretical, practical and additional content, which have been compacted in a convenient, flexible and accessible 100% online format.

In this way, the graduate will be able to organize the academic experience in a totally personalized way, without the hassle of schedules and classes. In addition, you will be able to access the Online Campus from any device with an internet connection, eliminating the face-to-face factor from the equation. Thus, TECH offers a degree that not only adapts to the immediate current situation of the financial sector, but also to the demands of an increasingly complex labor market and to the needs of each of its graduates.

It is, therefore, a unique opportunity to invest 6 weeks in a top level program oriented to those professionals who are looking to add a plus to their careers by including in their curriculum degrees such as this one. In addition, all of this is backed by the largest online university in the world and by a teaching team of the highest prestige within the business and finance sector.

This Postgraduate Certificate is developed over 6 week and is divided into 1 module:

### Module 1

### Fundamentals of the Foreign Exchange Market

### Where, When and How is it Taught?

TECH offers the possibility of developing this Postgraduate Certificate in Forex Broker totally online. During the 6 weeks of the specialization, the student will be able to access all the contents of this program at any time, which will allow the students to self-manage their study time.

*A unique, key, and decisive educational experience to boost your professional development and make the definitive leap.*

- 1.10.3. Diversification and correlated pairs

*You will work concretely on the evolution of the different trading strategies, as well as on the appropriate contexts to apply each of them*

# 06

# Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

*Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"*

## TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

*At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”*

*This program prepares you to face business challenges in uncertain environments and achieve business success.*

*Our program prepares you to face new challenges in uncertain environments and achieve success in your career.*

### A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“

*You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

## Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

*Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.*

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

*Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.*

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

### Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

### Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

### Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

### Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

### Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

### Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

### Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

# Our Students' Profiles

TECH orients each of its programs to a wide range of professionals, allowing all those interested in the area to take these programs and providing their careers with an added value to promote their careers. Therefore, it is a university where the profile of its students is very versatile, but whose ultimate goal is the same: to achieve success.

“

*The only requirement TECH has for this program is that you want to become the best broker to master Forex”*

### Average Age

---

Between **35** and **45** years old

### Years of Experience

---

### Training

---

### Educational Profile

---

## Geographical Distribution

---

## Adalberto González

---

Chief Executive Officer of a financial company

*"From this program I highlight the quality of its content, as well as the multiple resources it includes. Moreover, as I have been able to verify afterwards, the information it offers is totally reliable, thanks to which I have been able to progress as a Forex professional. In addition, its convenient 100% online format allowed me to easily combine its study with my work, without having to neglect either one or the other"*

08

# Course Management

The faculty of this Postgraduate Certificate in Forex Broker has been designed with the purpose of adding quality to the content, backed by the experience of professionals of the highest level within the business and financial area. Thus, a teaching team specialized in this field has selected the material that best fits the reality of the activity, also including practical cases drawn from their own experience to provide an even more realistic and professionalizing character to the degree.

A black and white photograph showing three people from a high angle, looking down at a screen. The image is partially obscured by a dark blue diagonal shape on the right side of the page.

“

*Through the Online Campus you will be able to contact the teaching staff to solve any questions you may have during the course of this Postgraduate Certificate”*
